EXECUTIVE DEPARTURE

Primary Health Care Limited ("Primary") today announced the departure of James Bateman from the role of General Manager, Pathology.

Primary's Managing Director and CEO, Mr Peter Gregg said: "It is with great regret that I announce that Primary Health Care and James Bateman have agreed to end their association.

"James has been an integral part of Primary for more than 25 years and has played a critical role in the company's success, growing the pathology division's revenue from \$50 million to nearly \$1 billion over the period he has been in charge. Indeed, together with the late Dr Edmund Bateman, James has been instrumental in building Primary into the top-100 ASX listed company it is today.

"On behalf of Primary's board, management team, and pathology staff, I would like to thank James for his valuable contribution and commitment to Primary and I wish him every success for the future.

"An internal and external executive search will be conducted to find a replacement. In the interim, the existing pathology structure will report directly to me," Mr Gregg concluded.
