CELTIC EXPANDS COMMUNITY TRAINING PROGRAMS (FSK Cert II 20113) INTO WOLSTON CORRECTIONAL FACILITY

- The Company has signed a Delivery Services Agreement with Wolston Correctional Facility in Queensland
- The initial course is fully subscribed with 15 participants
- The program (FSK20113 Certificate II in Skills for Work and Vocational Pathways) will be delivered inside the Facility
- The fifth program at Capricornia Correctional Facility was completed on 26 August 2016 with 14 successful graduates and further training is planned for this facility
- Probation and Parole Services training program continues to expand to new regions with 7 regions currently being serviced by Celtic

Celtic Training & Consultancy (Celtic) are continuing to grow this program with additional plans to work with local community to increase the number of available job placements for all participants.

Probation and Parole Services, has fully embraced the program working closely with Celtic to ensure the suitability of all participants and in some cases doing the initial enrolment process. iCollege and Celtic are pleased to boast some of the best trainers in the industry; we are seeing the evidence of successful participants gaining the skills and confidence to look at life with a fresh new perspective.

Celtic is actively delivering training at two Correctional Facilities and seven Probation and Parole District Offices. Given that there are 11 Correctional Facilities and 33 District Offices for Probation and Parole in Queensland this program continues to provide a very exciting and ongoing opportunity for iCollege.

iCollege Executive Chairman Mr Ross Cotton commented:

“The executive of iCollege are delighted to be working with some of the more challenged and marginalised groups of individuals in Queensland. It is the aim of this program to work closely with individuals who have been or are currently institutionalised to provide them with an increased confidence and opportunity to obtain tangible and sustainable employment. This program fits incredibly well within the newly established allied health and community support division of iCollege.”

About iCollege Limited:

iCollege Limited is an ASX listed training organisation positioned to become one of Australia's leading educators.

iCollege has a demonstrated commitment and clear strategy to provide ethical and sustainable training to Australian students through over 170 accredited and non-accredited courses. This has enabled the Company to achieve high quality student outcomes, including course completion rates of over 70 per cent of students, against an industry average of around 35 per cent. iCollege students have excellent employment prospects upon graduation and are assisted through its growing network of strategic partnerships with peak industry bodies, like the Western Australian Business Association and Clubs Queensland.

About Celtic Training and Consultancy Pty Ltd:

Celtic was incorporated in 2005 in response to a need for consistent, quality training in the aged care sector. The company now offers more than 30 qualifications, covering foundation skills through to advanced diplomas in personal care, administration, training & assessment, nursing, health & safety and injury management.

Celtic's core client base is residential and community aged care groups, disability agencies, hospitals and government departments. A key driver of growth will be through the Company's Workplace Health & Safety and Injury Management training, allowing Celtic to leverage it's existing training and education offerings to a broader range of industry sectors.

Furthermore, the recent utilisation of an e-learning platform has allowed Celtic to provide a blended learning experience (rather than the historical face-to-face training conducted in South Australia), and expand its business nationally.
