

ASX Announcement

10 October 2016

Hong Kong Update

Superloop Limited (**ASX: SLC**) is pleased to provide an update on progress of its core Hong Kong network and its TKO Express domestic submarine cable project between Chai Wan on Hong Kong Island and Tseung Kwan O Industrial Estate on the mainland.

Construction of the 110km Hong Kong core network is on track for completion during December 2016, with the overall cable installation 95% complete. Hong Kong network progress can be tracked at www.superloop.com/network/hongkongprogress.html

In addition, the Company advises that the two-month public objection period has successfully closed, with no outstanding objections on TKO Express. The construction programme is on schedule and cable installation works will commence during November this year, with completion on track for early 2017.

About Superloop

Established in 2014, Superloop is quickly becoming one of the leading independent providers of interconnection services in the Asia Pacific region.

The Company owns and operates fibre networks in Australia and Singapore spanning over 300km and connecting over 48 of the region's key data centres. The network is continually expanding with further extensions currently underway to connect the Singapore Exchange, iO and NTT data centres in Singapore.

In Hong Kong, Superloop is establishing a 110 km fibre optic network connecting 30 strategic sites including the Hong Kong Stock Exchange data centre, and is on track to commence operations in December 2016. Additionally, the Company is also constructing TKO Express, the first submarine cable to connect the traditional carrier hotels located in Chai Wan on Hong Kong Island and the data centre campus located at Hong Kong Science and Technology Park's Tseung Kwan O Industrial Estate on the mainland, providing much needed physical diversity and a lowest latency path between Hong Kong's major finance and technology hubs.

The Group also operates two subsidiary businesses, APEXN and CINENET.
