

ASX ANNOUNCEMENT

ASX: RBO | 27 March 2017

New re-seller agreement with Simplify3D

HIGHLIGHTS

- Robo executes agreement to re-sell Simplify3D software
- Simplify3D is a leading provider of slicing software for 3D printing
- Successful soft launch of Robo R2 with strong pre-orders

Robo 3D Limited (“**Robo**” or the “**Company**”), an emerging company focused on the design and distribution of 3D printers and associated products for the desktop segment of the 3D printing industry, is pleased to advise that it has executed a re-seller agreement with Simplify3D, LLC (“**Simplify3D**”).

The agreement with Simplify3D allows Robo to offer Simplify3D’s software solution for 3D printing slicing to Robo’s customers. Simplify3D is one of the world’s leading providers of 3D printing slicing software that provides complete control over print settings, allowing it to consistently produce high-quality 3D prints.

Commenting on the announcement, Managing Director Ryan Legudi stated: *“Robo is focused on delivering the very best user experience in the industry, and offering Simplify3D’s software to our customers is another example of how Robo is delivering on this objective. Importantly, it also creates a new revenue stream for Robo as it continues to build out its 3D printing ecosystem”.*

Robo R2 Launch

The Company is pleased to advise that a soft launch of the award-winning Robo R2 3D printer has been undertaken ahead of delivery of the first production units of the Robo R2. The Company is very encouraged by the strong level of pre-sales and overall level of enquiry it has received from wholesalers, retailers, educational institutions, and consumers around the world for the Robo R2, ahead of its official worldwide release.

About Robo 3D Limited

Robo 3D Limited (**ASX: RBO**) is a company based in California, USA, focused on the design and distribution of 3D printers and associated products for the desktop segment of the 3D printing industry.

The company was founded in 2012 by a group of students from San Diego State University and delivered its first model to customers in 2013. Since then, Robo 3D has grown into a leading brand in the desktop segment of the 3D printing industry, gaining significant traction online and through retail partners including Amazon and Best Buy. Robo 3D commenced trading on the ASX on 22 December 2016.
