

Record quarter drives Praemium's FUA over \$6 billion

7 July 2017, Melbourne: Praemium is pleased to report the June 2017 quarter achieved a number of records, with the key milestones being:

- Record quarterly inflows of \$554 million across Praemium's global platforms and funds;
- Record quarterly inflows of \$364 million for the Australian business;
- Record quarterly inflows of \$190 million (£113 million) for the International business; and
- Record levels of funds under administration (FUA), surpassing \$6 billion.

Refer to table below for quarterly FUA movement

In Australia, quarterly inflows of \$364 million were the highest ever reported with particular growth in retail superannuation. FUA in Praemium's retail superannuation offering, SuperSMA, reached \$657 million and now comprises 17% of the Australian SMA platform, up from 15% in the previous quarter.

The International business recorded inflows of £113 million for the June quarter. International 2017 quarterly inflows are 64% higher than the average quarterly figures for 2016. A key highlight for the UK platform has been the success of the IMA (individually managed account) service that was launched in late 2016.

Globally, annual inflows of \$1.9 billion were a 24% increase over the prior financial year. This was driven by enhancements to our market-leading SMA platform as well as the expansion of our sales, marketing and implementation resources.

The Smartfund range of multi-asset funds has reached £232 million in FUA, following record inflows of £46 million this quarter.

Business Update

Praemium's CEO Michael Ohanessian commented, "We are obviously delighted to report record asset flows this quarter. The business has accelerated its momentum across the year, with strong growth within the Australian business and a step change in the International business. This is a tangible validation of our underlying growth strategy.

"Praemium's strategic focus remains clear:

- To create a seamless and integrated investment solution to drive FUA adoption;
- To provide wealth management solutions to our global client base;
- To invest in enhanced product functionality to improve client efficiencies; and
- To deliver continuing profit growth through our scalable business model.

"I'd personally like to thank all staff and management for their dedication and hard work this year. With the board disruption now behind us, we are all very focused on executing our strategy and delivering sustained growth."
