

Quarterly Activities Report and Appendix 4C

Quarter ended: 30 June 2017

About Threat Protect

Threat Protect provides monitored security solutions that ensure the safety of Australian homes and businesses 24 hours a day, 365 days a year.

We have the highest security accreditation possible to achieve in Australia and use only state-of-the-art technology and equipment.

Our commitment to providing a complete end to end service is second to none, whether you own a small apartment or giant multi-national headquarters.

- Monitored Security Systems
- Security Personnel
- Corporate Risk Consultancy

We call it **"Security Without Compromise"**.

GROWTH STRATEGY

The Australian security industry is highly fragmented and Threat Protect believes is conducive to consolidation, given its stable revenue streams and fixed infrastructure cost model.

Threat Protect's growth strategy is focused on leveraging the largely fixed cost infrastructure and significant capacity of its existing extensive security control room through acquisition of monitored security client bases across Australia.

Record Quarter Drives Strong Revenue Growth

Threat Protect Australia Limited ("**Threat Protect**" or "**Company**") (ASX:" **TPS**") is pleased to provide its quarterly market activity update.

HIGHLIGHTS

- Record quarterly operating revenue of \$3.5 million, up 25% on previous quarter and up 39% on prior year quarter.
- Total revenue for June quarter of \$4.0 million, delivering a 75% increase in FY17 total revenue to \$13.0 million.
- Positive operating cash flow of \$1.2 million for the quarter.
- Cash at bank increased to \$1.2 million at 30 June 2017 with a further \$0.8 million YE 2016 R&D Tax Incentive Claim received subsequent to quarter end.

OPERATING REVIEW

Threat Protect continued its positive growth trend with total operating revenue for the quarter of \$3.5 million, a 25% increase on the prior quarter and the third consecutive quarter of strong positive growth.

Monitoring revenue for the March quarter was \$1.8 million compared to \$1.1 million in the previous quarter, reflecting the positive impact of the recently completed Apollo acquisition.

Quarterly Report: June 2017

Manning and consulting revenue remained seasonally strong with revenue in the June quarter of \$1.7m, compared to \$1.6m in the March quarter and \$1.4m in the December quarter.

In addition, Other Revenue of \$0.6 million includes the recovery of outstanding 90+ day Apollo debtors. This directly relates to debtor balances Threat Protect acquired for \$0.5 million, at a discount to face value, as part of the Apollo acquisition.

INTEGRATION OF APOLLO SECURITY

During the quarter, the Company has continued the successful integration of Apollo Security Pty Ltd's Grade One Security and Queensland Security Rangers.

The acquisition enhances Threat Protect's national presence, by increasing security monitoring servicing to over 38,000 residential and commercial customers throughout Australia, including a national distribution network of approximately 480 resellers.

Integration of the businesses is continuing, positioning Threat Protect as the only security company with monitoring control rooms on both the East and West coast of Australia. Utilising advanced technology developed to allow the stations to "mirror" each other, there is a superior redundancy capability of the business.

Both control rooms have also been graded to the highest level "A1" under Australian standards.

Threat Protect is continuing to actively pursue its growth strategy focused on leveraging the largely fixed cost infrastructure and significant capacity of its existing monitored security business through the acquisition of monitored security client bases across Australia.

The Company continues to pursue various acquisition opportunities with a view to further increasing scale and margin uplift.

CORPORATE AND FINANCIAL

With most of the work completed on the acquisition, integration and settlement of the Apollo businesses during the March quarter, a more normalised operating result was achieved during the June quarter.

Quarterly Report: June 2017

A full quarter contribution from the Apollo businesses, as well as operational efficiencies and integration benefits, contributed to positive operating cash flow of \$1.2 million.

Cash at bank increased to \$1.2 million at the end of June and was further enhanced by the receipt of \$0.8 million subsequent to quarter end for a Research and Development Tax Incentive Claim for FY 2016.

During the quarter the Company also issued 7,525,000 shares to eligible employees in accordance with Threat Protect's 2016 Employee Share Plan.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
