ASX announcement

Balance Sheet movement

The Directors highlight two immaterial changes between the assets and liabilities presented in the Balance Sheet of our Appendix 4E lodged on 29 August 2017, and our Annual Report lodged today, 29 September 2017. The movement did not impact Autosports Group Limited's net asset position.

The two adjustments were:

- (1) a movement of \$198,000 from 'Related Party Receivables' to 'Other Receivables' which was incorrectly categorised as 'Related Party Receivables' in the Appendix 4E; and
- (2) a movement of \$205,000 from 'Current Liabilities' to 'Non-current Liabilities' in relation to a loan that should have been split between current and non-current in the Appendix 4E.
