DICKER DATA COMMENCES DISTRIBUTION OF IOT VENDORS CCP TECNOLOGIES AND BUDDY

Packaged IoT Solutions Set to Enable Dicker Data Partners to Position and Sell IoT

The Board of Directors of Dicker Data Limited (ASX:DDR) are pleased to announce our appointment as a Distributor of Buddy Platforms (ASX:BUD) and CCP Technologies (ASX:CT1) for the Australian market. The new distribution agreements come into effect immediately.

David Dicker, Chairman and CEO, Dicker Data Limited said "I'm pleased to be announcing our new partnerships with ASX-listed IoT solution providers, Buddy Platforms and CCP Technologies. Through their packaged, ready to deploy solutions, our extensive partner network will be enabled to deliver tangible insights and business results to a wide variety of their end-users across multiple market segments with minimal implementation overheads."

"We are working quickly to meet the demand for Buddy Ohm and are thrilled to be expanding the Australian market in partnership with Dicker Data. Working with an experienced partner like Dicker Data gives us a great foundation to rapidly expand the Australian business", said David McLauchlan, CEO of Buddy Platform. "We estimate that there are tens of thousands of buildings in Australia that could benefit from the Buddy Ohm service, including office complexes, multi-tenant housing, schools and universities, and quick service restaurants."

Michael White, Executive Director and CEO of CCP said, "There's one distribution partner the world's leading technology companies select to represent their products in the Australian market, and that's Dicker Data. CCP is delighted to have such a high-calibre channel partner. Dicker Data's reach in Australia will significantly increase our opportunity to expand in 2018. Given the millions of monitoring points across the customer base of Dicker Data's reseller network the opportunities for market penetration are significant."

For and on behalf of the Board,

David Dicker

Chairman & CEO

About Dicker Data Limited
Dicker Data Limited was listed on the Australian Stock Exchange on January 24, 2011. Since its listing, the company has achieved record trading results. The Company is Australia's largest and longest established Australian owned distributor of information technology products. Its vendors include Hewlett-Packard, Cisco, Microsoft, Lenovo, Symantec, RSA, Toshiba, Samsung, ASUS and others.

About Buddy
Buddy Platform Limited (BUD.ASX) provides highly scalable Internet of Things data aggregation and management infrastructure by way of three unique offerings – Buddy Cloud, Buddy Ohm and Parse on Buddy. The Buddy Cloud offers smart city providers a globally scalable data investment and management platform. Buddy Ohm, a complete and low cost solution for facility resource monitoring and verification, connects systems that were never designed to work together, while turning energy savings into a strategic asset. Parse on Buddy is a mobile backend as a service (mBaaS) built on the world's most popular BaaS technology. Buddy Platform is headquartered in Adelaide, Australia, with offices in Seattle, Washington. For more information, visit www.buddy.com.

About CCP Network
CCP offers a critical control point management system in Australia and North America, and has an emerging presence in Singapore. Critical control points are the points in a supply chain where a failure of standard operating procedure has potential to cause serious harm to people – and to a business' reputation and bottom line. Standard critical control points include temperature, energy, environment (e.g. air and water quality, pH, chemicals, noise, acoustics and gases) and movement. CCP captures data using Smart Tags (sensors) and an advanced Internet of Things (IoT) network. Data is delivered to the company's big data cloud platform where it is analysed to deliver business intelligence. Customers access this information through Web and Mobile Dashboards; and receive real-time alerts via SMS, email and push notifications. The Company's first target market is the food industry, where food safety regulation, energy savings and waste reduction drives adoption. For further information on the CCP Solution, visit: www.ccp-network.com\
