Company Strategy

The Monash Absolute Investment Company offers investors access to an investment strategy that seeks to:

- achieve a targeted positive return over a full investment cycle; and
- avoid a negative return each financial year

The Company is benchmark unaware, style and stock size agnostic, both long and short, and only invests in compelling opportunities. In keeping with the Company's absolute return objectives, if the investment manager cannot find stocks that meet the very high return hurdle requirements, the Company will preserve that capital in cash at bank.
