The Company also announced a significant strategic funding initiative of A\$361 million (US\$287 million) to accelerate an increased Phase 2 expansion at the Olaroz lithium facility in Argentina of 25,000 tonnes per annum ("tpa").

The Phase 2 Olaroz expansion will add 25,000 tpa of lithium carbonate production capacity (up from the originally planned 17,500 tpa), taking Olaroz's total production capacity to 42,500tpa at full production capacity and positioning Orocobre as one of the world's largest and lowest cost lithium chemicals producers. Commissioning of the expansion is expected in the December half of calendar year 2019 and operating costs for Phase 2 are expected to be lower than Phase 1, further enhancing Orocobre's low cost base. The total capital cost of Olaroz Phase 2 is expected to be approximately A\$340 million (US\$271 million, on a 100% basis) and final Orocobre and Olaroz JV Board approvals are expected by mid-2018. Long lead time activities including drilling of new bores have already commenced.

Orocobre and Toyota Tsusho Corporation ("Toyota Tsusho") are finalising plans to jointly develop a 10,000 tpa lithium hydroxide plant in Fukushima, Japan with expected operating costs of US\$1,500/tonne (down from US\$2,500/tonne). Development subsidies of approximately US\$27 million have been indicatively approved (but not yet finalised) by the Japanese Government. After subsidies and proposed Japanese bank debt financing (which is proposed to be at subsidised interest rates), Orocobre's equity contribution will be approximately US\$6 million towards the estimated total capital cost of US\$60-70 million. A final investment decision is expected in mid calendar year 2018.

Orocobre's share of Phase 2 expansion capital expenditure will be funded via a A\$361 million (US\$287 million) capital raising ("Capital Raising") comprised of a A\$282million (US\$224 million) strategic placement ("Strategic Placement") to Toyota Tsusho priced at an attractive c.17% premium to Orocobre's 30 day volume weighted average price ("VWAP") and an underwritten c.A\$79 million (US\$63 million) 1 for 20 accelerated renounceable entitlement offer with retail rights trading on the ASX ("Entitlement Offer").

¹ A\$:US\$ as at close of trade on 15 January 2017 of 0.7963 used throughout

The Capital Raising will give Orocobre an appropriately sized, flexible and strong balance sheet as it proceeds with Phase 2 construction and the Strategic Placement delivers material potential ancillary benefits which would not be available to Orocobre via other funding options. The Entitlement Offer provides Orocobre shareholders with an opportunity to participate in the Company's next phase of growth at a material discount to the Strategic Placement price.

Orocobre Managing Director and CEO Richard Seville said: "The growth and funding initiatives we have announced today enhance Orocobre's strategic positioning at all levels – financial, commercial, customer and partner. We have achieved the optimal funding solution to deliver a larger Phase 2 expansion at Olaroz and strengthen our strategic relationship with Toyota Tsusho and Japanese industry."

"The stronger than expected demand we and Toyota Tsusho are observing in the market and the production stability we have achieved in Phase 1 means we are executing Olaroz Phase 2 at the right time and are uniquely positioned given the strategic importance of lithium to Toyota Tsusho and Japanese industry."

"Toyota Tsusho is approximately 22% owned by Toyota Motor Corporation and approximately 11% by Toyota Industries Corporation and is the sole general trading arm of Toyota Group. Toyota Tsusho is a long-term strategic joint venture partner and the relationship we have developed over a number of years is one that many companies in our sector would covet. We look forward to progressing additional lithium production opportunities in partnership with Toyota Tsusho in the years ahead."

STRATEGIC PLACEMENT

Based on strong demand being observed by both Orocobre and Toyota Tsusho, the Olaroz joint venture agreed to pursue an expanded Olaroz Phase 2. After carefully considering a range of financing alternatives, Orocobre determined that the optimal funding option was a strategic placement to Toyota Tsusho which delivers attractive ancillary benefits including (amongst others) potential low cost Japanese bank debt support on similar terms to the Olaroz Phase 1 facility.

Orocobre and Toyota Tsusho propose that the debt package will be supported by the Japan Oil, Gas and Metals National Corporation ("JOGMEC") which will provide further balance sheet flexibility as Phase 1 continues to produce positive free cashflow while Phase 2 is under construction.

Key terms of the Strategic Placement to Toyota Tsusho include:

- The placement will raise A\$282 million via the issue of c.37.5m shares at a price of A\$7.50 per share – a c.17% premium to Orocobre's 30 day VWAP as at Monday, 15 January 2018 (A\$6.43). The placement will be conducted in two tranches:

- The first tranche of 31.2 million shares ("**Tranche 1 Shares**") is expected to settle on Thursday, 18 January 2018. It will raise A\$234 million and will be completed under the company's existing issuance capacity pursuant to Listing Rule 7.1. Toyota Tsusho will be entitled to participate in the Entitlement Offer in respect of the Tranche 1 Shares and has indicated it will take up all of its entitlements; and
 - The second tranche of 6.3 million shares, subject to rounding under the Entitlement Offer) ("**Tranche 2 Shares**"), will occur shortly after shareholder approval is obtained for the placement of the Tranche 2 Shares. It will raise A\$47 million and is subject to shareholder approval at the General Meeting to be held on Monday, 26 February 2018.
- The placement of the Tranche 2 Shares is subject to the approval of Orocobre shareholders, whereas the placement of the Tranche 1 Shares is not. Toyota Tsusho and its associates will not be entitled to vote on the placement of the Tranche 2 Shares
 - Following completion of the Capital Raising, Toyota Tsusho will hold 15% of Orocobre's issued capital on a fully expanded basis. (The term "**fully expanded basis**" means Orocobre's issued share capital after completion of the placement of the Tranche 1 Shares, the issuance of the shares under the Entitlement Offer and the placement of the Tranche 2 Shares)
 - Toyota Tsusho will be entitled to nominate one non-executive director to the Orocobre Board, for so long as it has a relevant interest in at least 10% of the shares of Orocobre
 - Two year standstill agreement which caps Toyota Tsusho's relevant interest in Orocobre shares at 15% on a fully expanded basis, subject to certain exceptions
 - Anti-dilution rights for two years but subject to Toyota Tsusho having a relevant interest in at least 10% of the shares
 - Orocobre and Toyota Tsusho have also agreed that Toyota Tsusho will be appointed as exclusive sales agent for Phase 2 (in addition to Phase 1) with Orocobre and Toyota Tsusho having joint control over strategic marketing, the allocation of volume to customers and commercial terms

The terms of the Strategic Placement are contained in the subscription agreement that has been entered into between Orocobre and Toyota Tsusho. A copy of the subscription agreement will be attached to Toyota Tsusho's Form 603 ("Notice of initial substantial holder") which will be filed with the ASX following completion of placement of the Tranche 1 Shares.

ENTITLEMENT OFFER

The Entitlement Offer comprises a fully underwritten 1 for 20 accelerated pro rata renounceable entitlement offer that includes the ability to trade retail entitlements on the ASX.

The Entitlement Offer will raise approximately A\$79m and provides existing shareholders with the opportunity to participate in the funding solution for Phase 2 at a discount to the strategic placement price paid by Toyota Tsusho.

The Offer Price of A\$6.55 represents a 8.6% discount to Orocobre's closing price of A\$7.17 on the ASX at Monday 15 January 2018 and a 8.3% discount to TERP of A\$7.14.

Richard Seville said: "The Entitlement Offer gives existing shareholders an opportunity to participate in the company's next phase of growth at a discounted price and the renounceable structure provides alternatives to those shareholders not wishing or able to participate."

The Entitlement Offer will consist of an accelerated institutional entitlement offer ("**Institutional Entitlement Offer**") and a retail entitlement offer that includes the ability for eligible retail shareholders to trade their retail entitlements on the ASX ("**Retail Entitlement Offer**").

Under the Entitlement Offer, eligible shareholders are entitled to subscribe for 1 new Orocobre ordinary share for every 20 existing Orocobre ordinary shares ("Entitlement") held as at 7.00pm (AEDT) on Friday, 19 January 2018.

New Orocobre ordinary shares issued under the Entitlement Offer will rank equally with existing Orocobre shares in all respects.

Further details about the Entitlement Offer including the indicative timetable are set out in Appendix A.

JAPANESE BANK DEBT FUNDING

Toyota Tsusho will use its best endeavours to procure project financing for Olaroz Phase 2 targeting similar terms to those obtained by the Olaroz JV for Phase 1. Orocobre and Toyota Tsusho have agreed to target total project financing of up to US\$100 million.

Toyota Tsusho will also use its best endeavours to obtain a guarantee from JOGMEC to support the project finance loan. If any additional project financing guarantees are required to be cash-backed, Orocobre and Toyota Tsusho will provide such guarantees on a 75:25 split.

LITHIUM HYDROXIDE PLANT

Orocobre and Toyota Tsusho have agreed to accelerate plans to build the Lithium Hydroxide Plant in Fukushima, Japan including advancing engineering studies, with final investment decisions to be made in mid calendar year 2018.

At this time, Orocobre and Toyota Tsusho expect to develop a plant with 10,000 tpa of lithium hydroxide production capacity at a total capital expenditure of US\$60-70 million based on detailed quotations from two competing engineering groups. Operating costs are expected to be approximately US\$1,500/tonne, down from the previous estimate of US\$2,500/tonne.

The Japanese Government has indicatively agreed to provide capital expenditure subsidies of approximately US\$27 million. When combined with proposed Japanese bank debt financing (proposed to include subsidised interest rates), the Orocobre equity contribution is expected to be approximately US\$6 million.

The project is expected to enhance margins on the volume of Olaroz lithium carbonate production used as feedstock, diversify Orocobre's lithium product range and enhance Orocobre and Toyota Tsusho's relationships with key lithium end users in Japan.

GENERAL MEETING

The Company will be calling a general meeting of shareholders on Monday, 26 February 2018 to, amongst other things, approve the issue of additional shares to Toyota Tsusho under Tranche 2 of the Strategic Placement. A notice of meeting will be issued to ASX and despatched to shareholders shortly.

SCHEDULE 2 – TTC ANNOUNCEMENT

Toyota Tsusho to acquire a strategic stake in Orocobre, a successful Australian based lithium mining company, providing long term, stable supply of lithium in response to growing global demand

16th Jan 2018

Toyota Tsusho Corporation (Toyota Tsusho) hereby announces it has signed a Share Subscription Agreement with Orocobre Limited (Orocobre) to become a 15% shareholder on a fully expanded basis by private placements and participation in Orocobre's public accelerated entitlement share offering, announced in conjunction with this investment. The total investment amount will be US\$232 million.

1. Background of Investment

Lithium demand is expected to continue growing with the shift from fossil-fuel powered vehicles to electric vehicles (EV), in addition to the steady growth of lithium-ion batteries for electric devices. Demand growth to date has seen the lithium price more than doubled in the past few years.

Toyota Tsusho and Orocobre have been long term partners in the development of the Olaroz Lithium Facility in Argentina, a lithium brine project, which was brought into successful production in 2014. Toyota Tsusho, being exclusive sales agent for the Project has established a worldwide sales network for lithium from Olaroz since the first production.

2. Purpose of Investment

Through this investment, Toyota Tsusho and Orocobre will elevate their existing long term project partnership to a new level of strategic alliance. The capital injected by Toyota Tsusho's strategic investment will be used primarily for the expansion of the Olaroz Project (Phase 2), which targets 25,000 tonnes per annum (LCE) of additional capacity. The expansion will potentially bring the total nameplate capacity of the Olaroz Project to 42,500 tonnes per annum. The Stage 2 expansion plan is expected to reach its final investment decision in mid-2018 once financing, approvals and engineering are completed, with commissioning in 2H 2019. As a key part of this strategic investment, Toyota Tsusho will be appointed as the exclusive sales agent for Phase 2 production and will secure a long term stable supply of lithium products to respond to the growing market demand.

Together with Orocobre as a strategic partner, Toyota Tsusho will accelerate not only the expansion of the Olaroz Project via development of Phase 2, but also develop the value chain via joint investment in a Lithium Hydroxide project in Japan.

Overview of Orocobre / Olaroz Lithium Facility

- Australian listed lithium developer and producer
