iCollege Signs MOU to Deliver Block Chain Technology Training

Key points:

- iCollege has signed an MOU with Switch Maven Pty Ltd to deliver 3 courses in Block chain technology.
- The Courses to be offered in multiple locations including Canberra, Perth, Brisbane and Sydney.
- Courses are scheduled to start from April 2018.

iCollege Limited is excited to announce that a formal MOU has been signed with Switch Maven Pty Ltd for delivery of Block chain technology courses. The courses include: -

- ✓ **One Day Introduction to Blockchain**
- ✓ **5 Month comprehensive Blockchain Training package**
- ✓ **7-week Blockchain Master class for experienced programmers**

In addition to the above stated courses, a **One-day Introduction to cryptocurrencies course** is also on offer. The expressions of interest are currently being taken through iCollege's website <http://blockchain.icollege.edu.au/>

Switch Maven Pty Ltd currently has academies in **Australia, India, Philippines** and **UAE** and runs boot camps in **Blockchain technology, Augmented reality** and **Virtual reality**. Switch Maven Pty Ltd was founded by Mr. Raman Nambiar who has extensive experience in running EdTech businesses including GERUDIO, an online marketplace for continuing education and The Coder Academy.

A recent Tech Crunch article stated "Demand is off the charts for blockchain talent, and the capital is waiting to back it up. More than \$3.7 billion has been raised through ICOs in the United States alone. Blockchain-related jobs are the second-fastest growing in today's labor market; there are now 14 job openings for every one blockchain developer. And as Nick Szabo, the developer who coined "smart contracts," pointed out, there is an extreme "\$/knowledge" ratio in the blockchain space, where capital by far outpaces talent."
