

31 October 2018

WTC acquires a leading Swedish customs and logistics solutions provider, CargoIT

Global logistics solutions group, WiseTech Global, today announced the acquisition of CargoIT i Skandinavien ('CargoIT'), a leading customs management and logistics solutions provider in Sweden.

Headquartered in Stockholm, CargoIT offers customs management solutions along with their freight forwarding, warehousing and transportation solutions to over 100 customers, which include DHL, Kerry Logistics, SAS Cargo, Clas Ohlson, Mondelez International, Mitsubishi Motors, Hyundai, and many other logistics providers and organisations.

WiseTech Global Founder and CEO, Richard White, said "Sweden is a highly developed market and the largest in Scandinavia, so bringing CargoIT into the WiseTech Global group gives us a strong foothold in a very active trade region. CargoIT's considerable Swedish customs solutions experience, alongside our global expertise and extensive development capabilities, will further enhance our provision of integrated cross-border logistics solutions to thousands of logistics organisations worldwide."

The purchase cost comprises ~\$1.8m upfront, with a further expected multi-year earn-out potential of ~\$1.8m in relation to business and product integration, and revenue performance¹. With annual revenue and EBITDA to the year ended 31 August 2018 of ~\$2.0m and ~\$0.3m respectively, this transaction, while of strategic value, is not material to the WiseTech Global group². CargoIT is expected to be consolidated into WiseTech Global accounts from November 2018.

Along with our recent acquisitions in Argentina, Australasia, Belgium, Brazil, Canada, France, Germany, Ireland, Italy, the Netherlands, North America, Spain, Taiwan, Turkey, the UK and Uruguay, this foothold transaction is in line with our stated strategy of accelerating long-term organic growth through targeted, valuable acquisitions.

//ENDS

¹ Approximate AUD equivalents to consideration amounts denominated in SEK.

² Historical revenues and EBITDA figures for acquired businesses should not be considered guidance for future financial contribution due to their differing licence arrangements, the extent of non-recurring revenue (such as one-off development and consulting income) and the potential impact of integration.
