Corporate Presentation

Disclaimer

The information contained in this Presentation or subsequently provided to the Recipient of this Presentation, whether orally or in writing by or on behalf of ImExHS Limited or its respective employees, agents or consultants (“Information”) is provided to the Recipient on the terms and conditions set out in this notice.

The Recipient should not treat the Information as advice relating to legal, taxation, financial product or investment matters and should consult their own advisers. This Presentation does not purport to contain all the information that a prospective investor may require. The Information may not be appropriate for all persons and it is not possible for ImExHS Limited to have regard to the investment objectives, financial situation and particular needs of each Recipient who reads or uses the Information. Accordingly, no recommendation or expression of opinion is contained within the Information. Further, no representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the Information, including the likelihood of achievement or reasonableness or any forecasts, prospects or returns contained in the Information. Before acting in reliance on any Information, the Recipient should conduct their own investigation and analysis in relation to the investment opportunity presented by this Presentation and should check the accuracy, reliability and completeness of the Information and obtain independent and specific advice from appropriate professional advisers.

Statements contained in the Information, particularly those regarding possible or assumed future performance or potential growth, prospects or projections of ImExHS Limited are, or may be, forward looking statements. Such statements relate to future events and expectations and, as such, involve known and unknown risks, uncertainties and contingencies. The Information may also be subject to clarification and change and ImExHS Limited may in its absolute discretion, but without being under any obligation to do so, update, amend or supplement the Information.

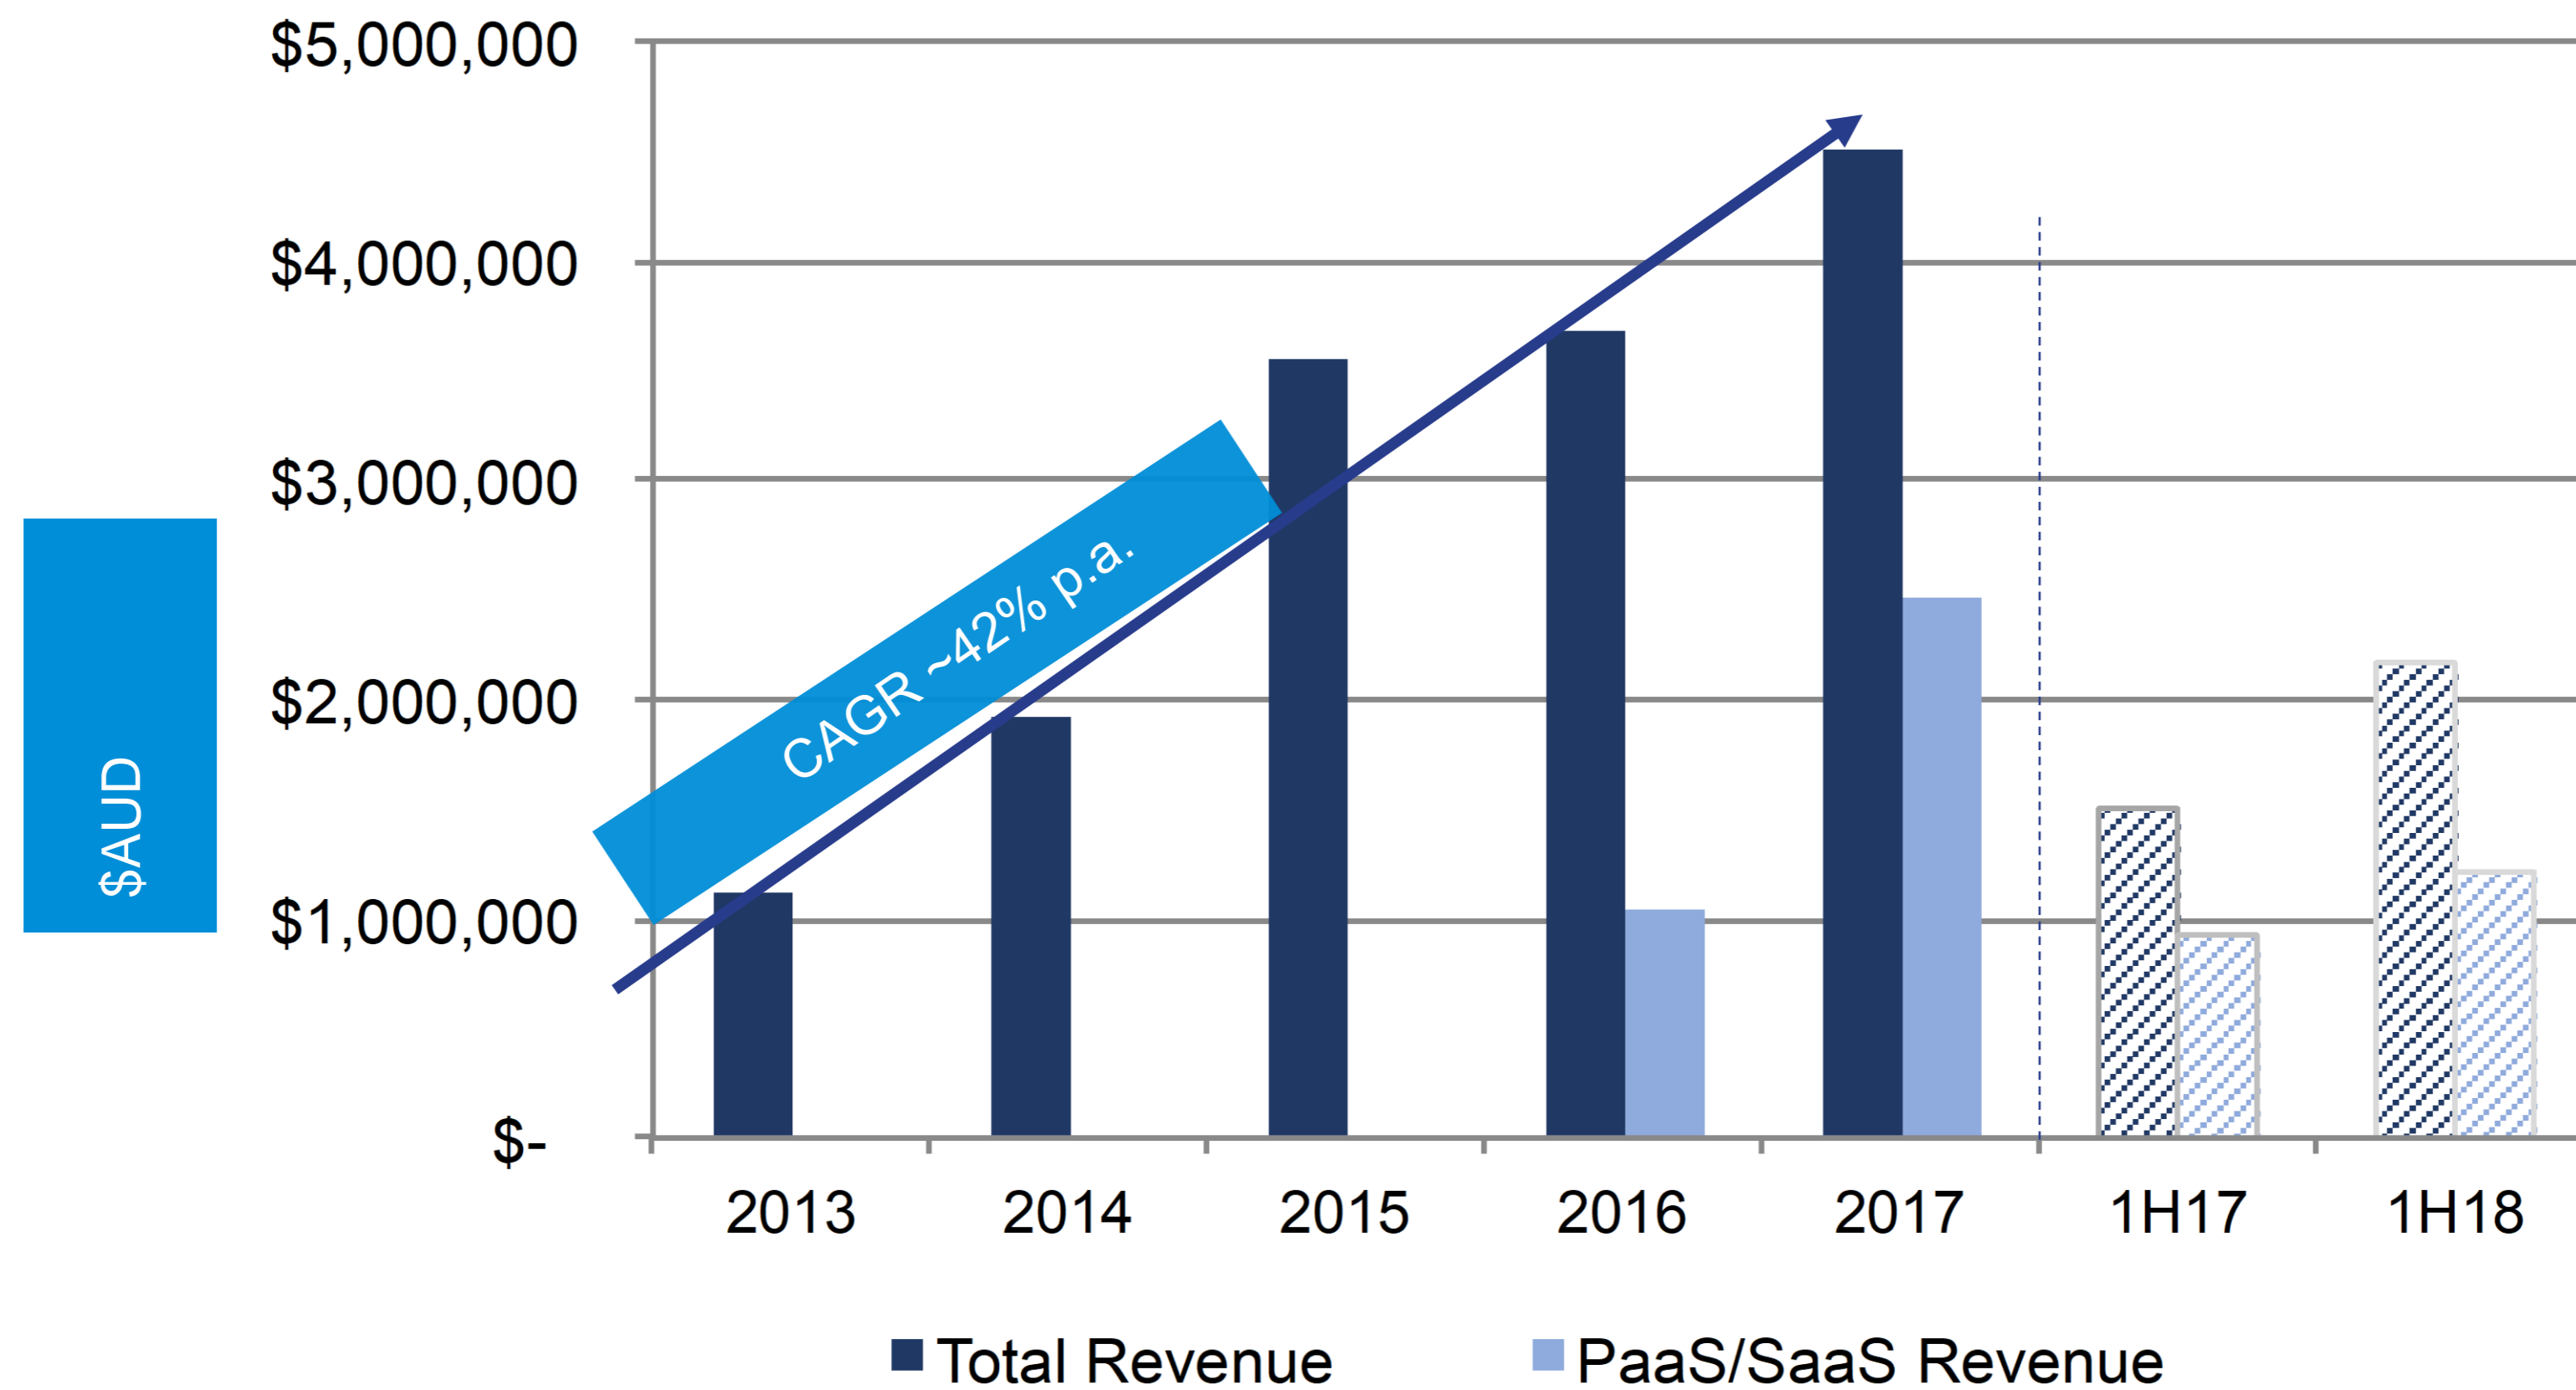

The Information is for informational purposes only and does not constitute an offer to issue, or arrange to issue, securities or other financial products. The Information is not, and should not be construed to be, a Prospectus.

To the maximum extent permitted by law none of ImExHS Limited or its respective employees, agents or consultants nor any other person accepts any liability, including, without limitation, any liability arising out of fault of negligence, for any loss arising from the use of the Information.

Company Highlights

- Next generation Radiology and Imaging Software platform
- Established in 2012
- Operations in Colombia, Mexico, Costa Rica, Ecuador and Peru
- \$14.5m total contracted value of revenue - October 2018.
- Expansion into neighbouring LATAM countries with low risk go-to-market strategy
- First collaboration in Australia starting in 2018
- Additional cutting-edge functionality implemented- Web MPR/Web MIP - Two pilot sites deployed 4Q18, full commercial release 1Q19.
- Apply for FDA approval in 2018, ahead of USA soft launch in H1 2019

Revenue – 5 Years

Board & Key Management

TOM PASCARELLA Chairman

Company Director

- Experienced professional in Corporate & Investment Banking, focused on Credit Products, Structured Finance and M&A Advisory services. Since his time in banking, with Allen Partners Tom has focused on capital raising for asset managers and SMEs.
- Former CEO and Managing Director of Bank of America N.A. Sydney Branch.
- Fellow FinSIA, (Financial Services Institute of Australasia)
- Member of the Australian Institute of Company Directors

DR. GERMAN ARANGO CEO, Director

Professor of Neuro-Radiology

- Entrepreneur with > 10 years experience running Radiology businesses
- ImExHS Founder

CARLOS PALACIO Non-Executive Director

Founder and CEO of CrossPoint Telecommunications

- Managed IT and Cloud provider to multinationals across 42 countries
- Major investor in ImExHS to date.
- B Eng, MBA (Macquarie)

HOWARD DIGBY Non-Executive Director

Company Director

- 25 year experience managing technology related businesses across Asia Pacific region
- Senior management roles at Adobe, Gartner, Economist Group
- B Eng (Hons) (UWA)

ANDRES VANEGAS Chief Sales Officer

Mechatronic Engineer

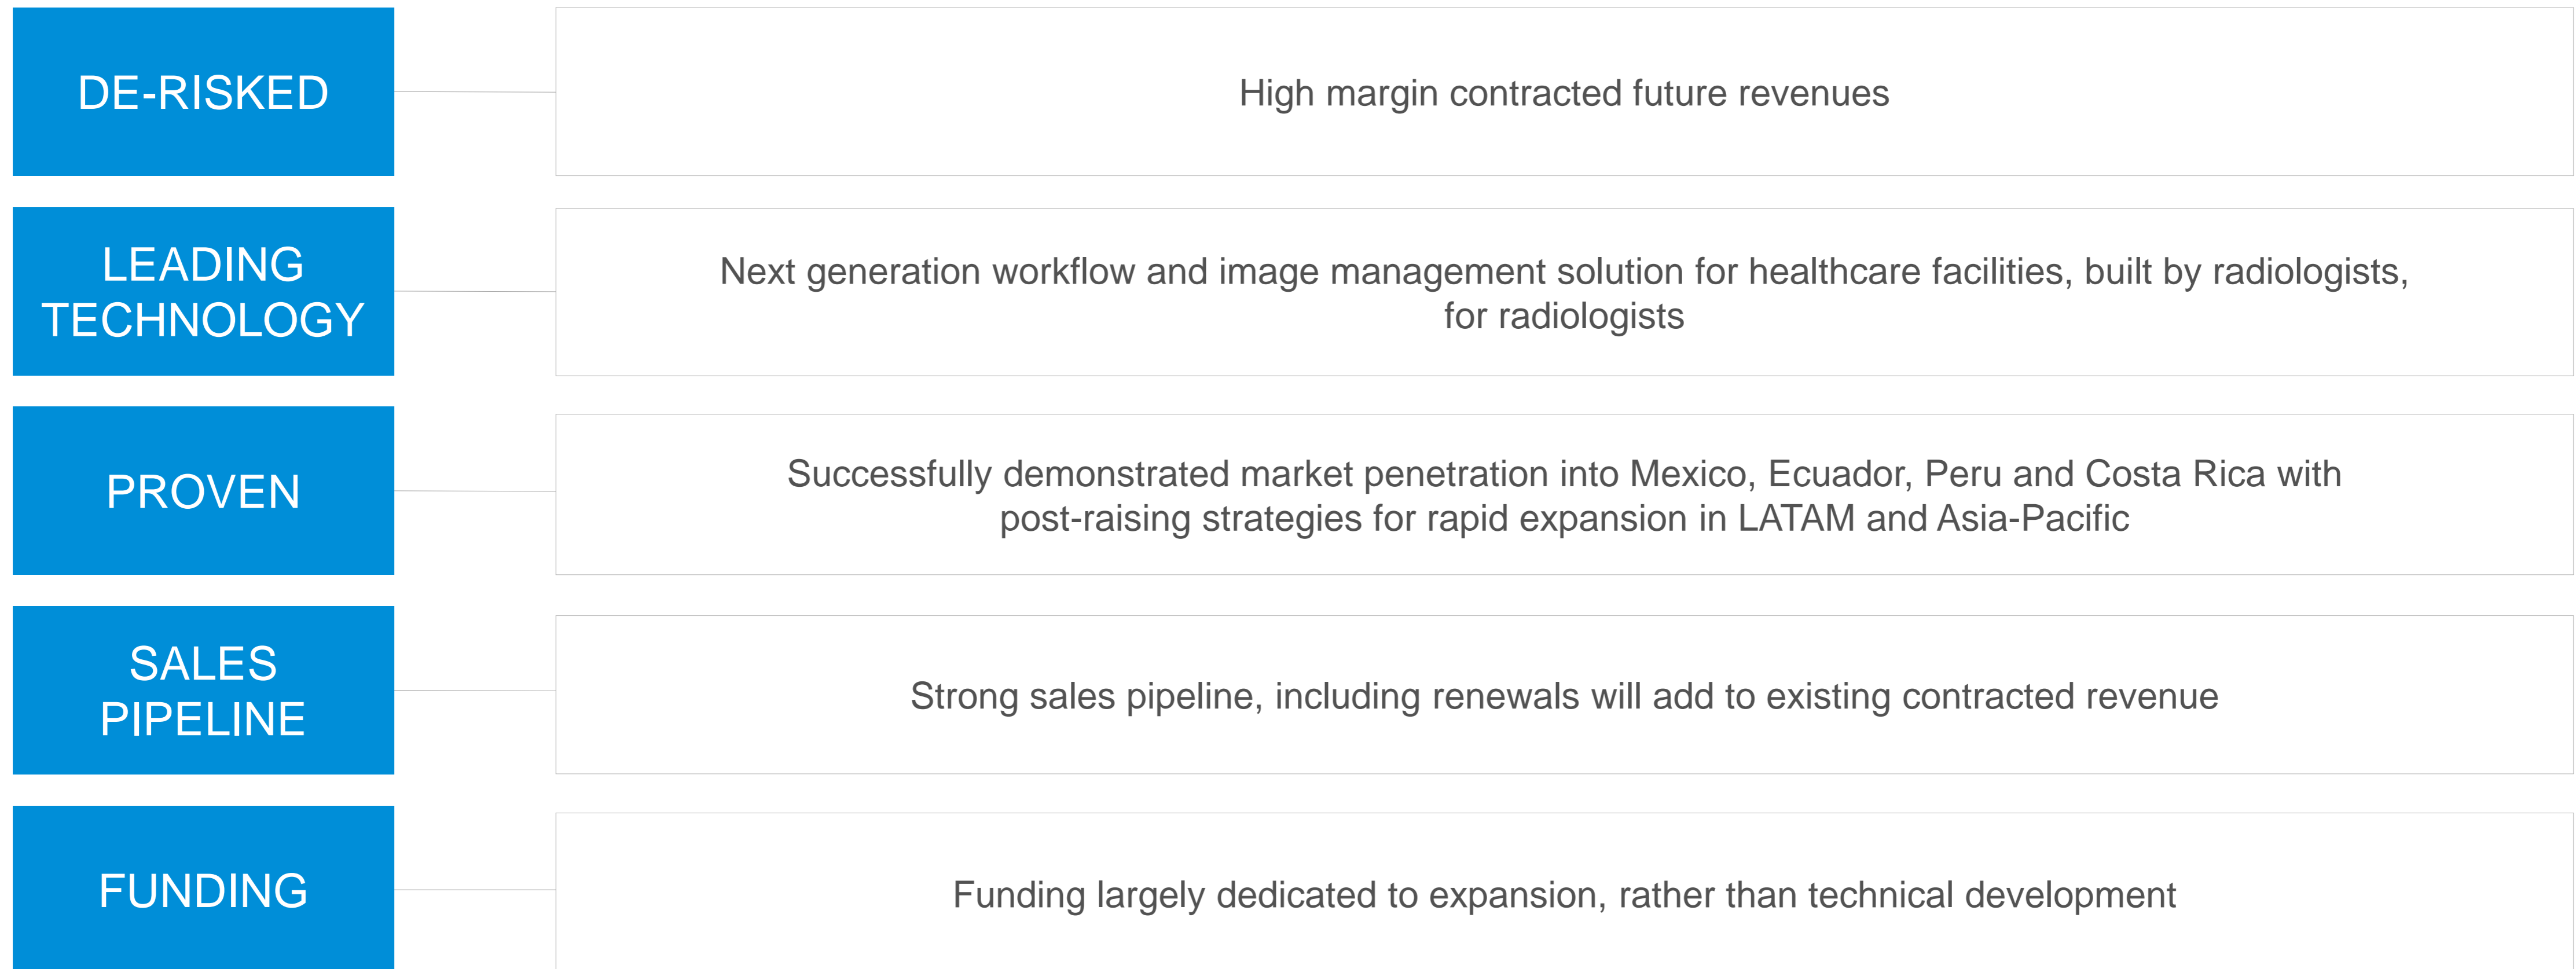

- Specialist project and service manager in Radiology industry
- Over 10 years experience in deployment of imaging solutions for healthcare
- Ex-CTO Fujifilm Colombia

DR. JORGE MARIN Chief Medical Officer

Professor of Neuro-Radiology

- Surgeon & Neuro-Radiologist Barcelona & Bogota
- Manages ImExHS's University collaboration business agreements

Investment Overview

Market Overview

GEOGRAPHY	MARKET (US\$m) ¹	GROWTH (CAGR) ¹
LATAM	417	8.1%
APAC	695	7.0%
North America	1,667	4.4%
Europe	967	5.8%
Other	236	6.8%
TOTAL	3,982	5.8%

- Escalating healthcare costs in all markets are driving demand for cost effective solutions
- Large percentage of radiology systems in developing countries use archaic analogue work flows, creating churn event opportunity to migrate to next-generation digital cloud solution
- Demand for web based TeleRadiology is growing rapidly (predicted CAGR of 21%²)
- The application of Artificial Intelligence to radiological interpretation creates opportunities on numerous fronts
- ImExHS is initially targeting sales expansion into neighbouring LATAM markets to where ImExHS currently operates, followed closely by APAC, then North America and finally Europe

¹ Acute Market Report (2015), Picture Archiving Communication Systems (PACS) & Radiology Information Systems (RIS), Growth, Future Prospects & Competitive Analysis, 2016 - 2026

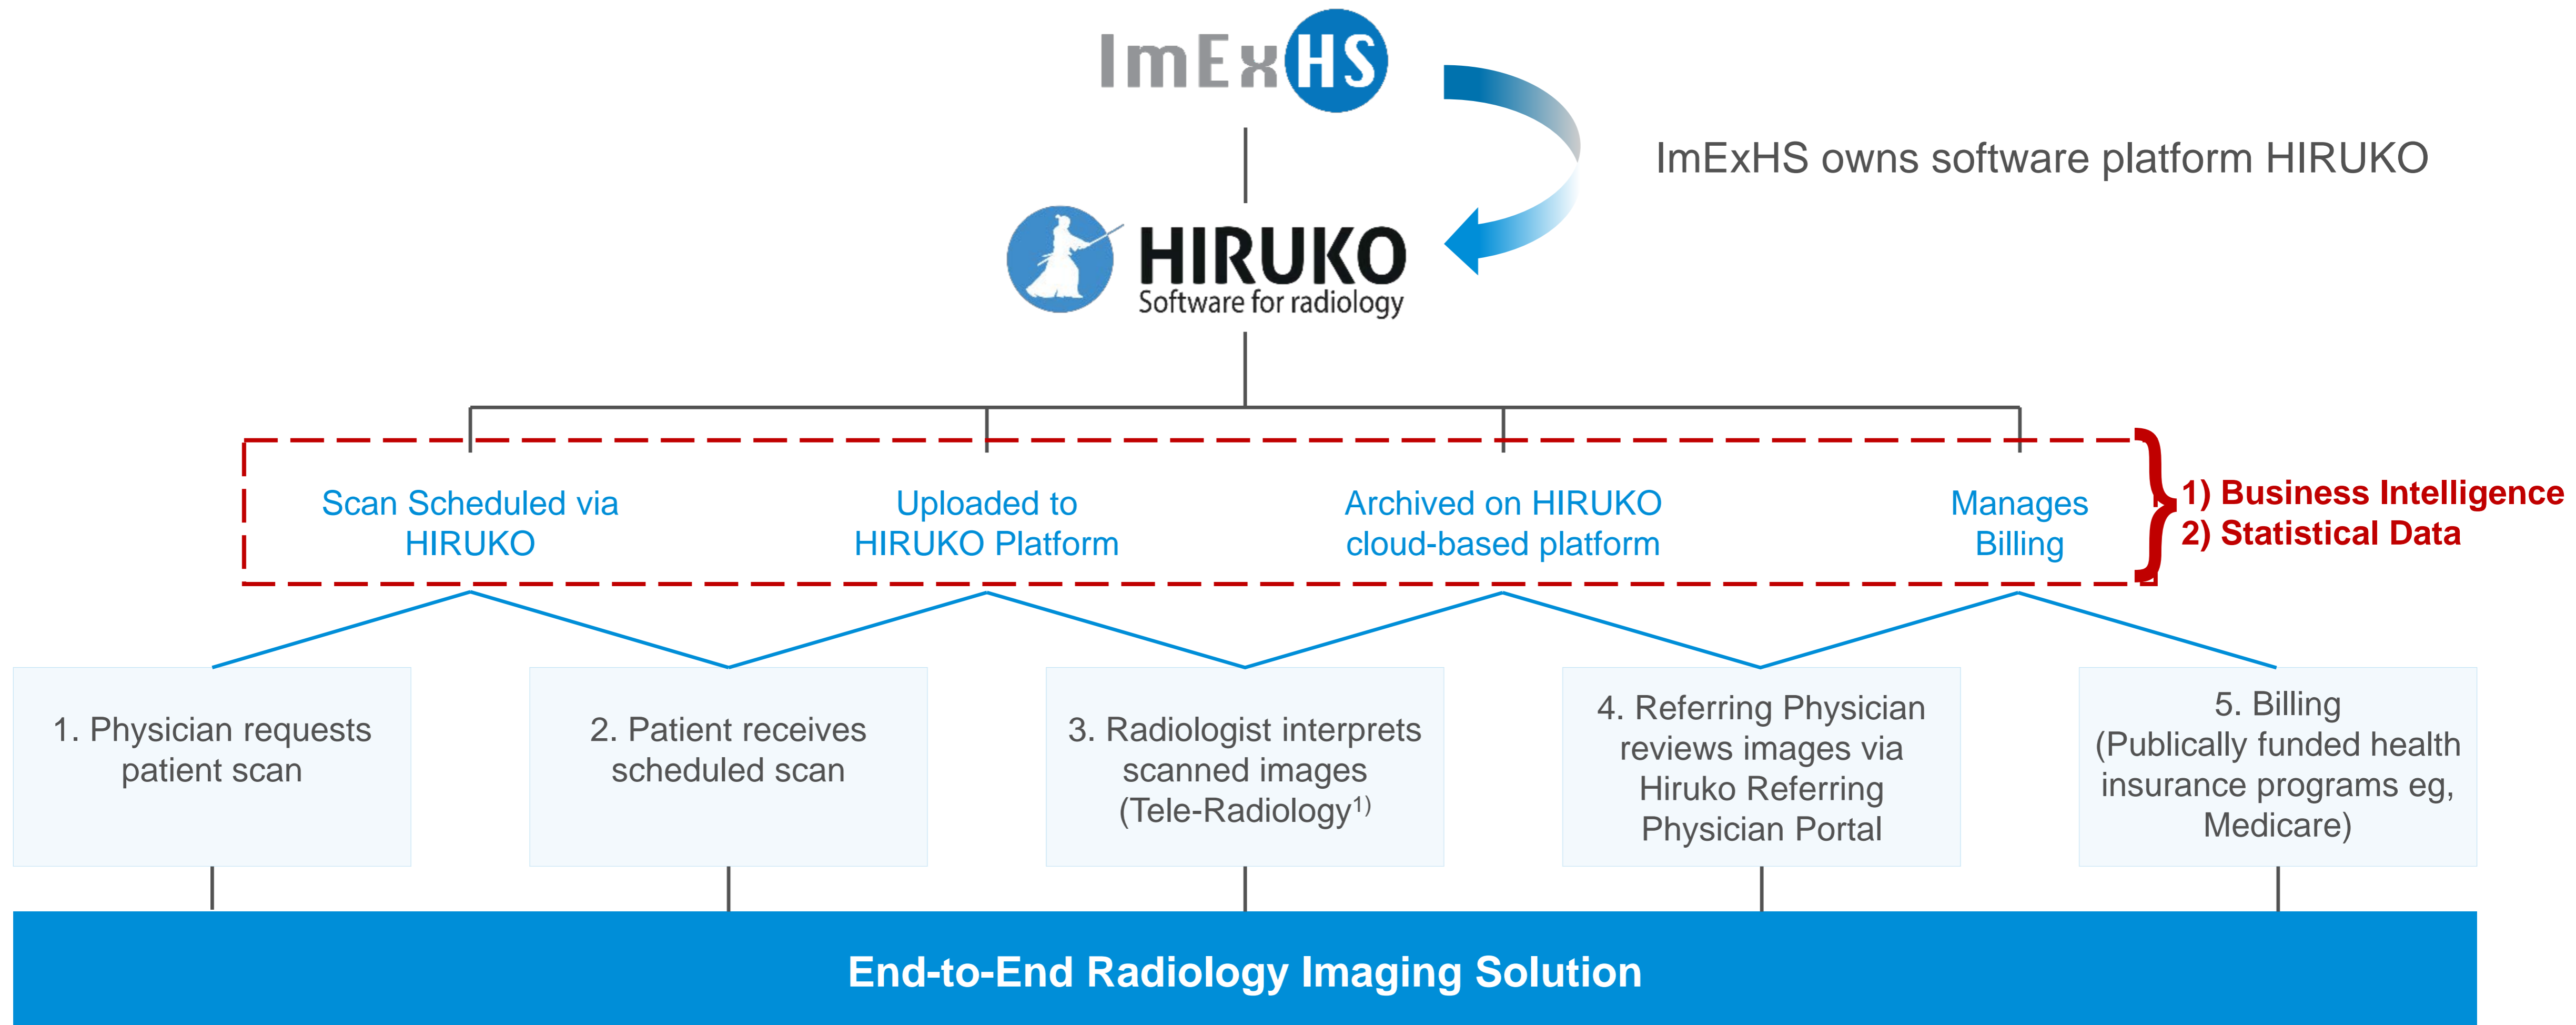

² Future Market Insights (2017), Global Teleradiology Market Industry Analysis and Opportunity Assessment, 2016-2026

Market Opportunity - Immediate

TOTAL HOSPITALS - PUBLIC VS PRIVATE

What We Do

¹ Tele-Radiology - radiology concerned with the transmission of digitised medical images (as X-rays, CT scans, and sonograms) over electronic networks and with the interpretation of the transmitted images for diagnostic purposes

Supporting Radiologists

Hiruko supporting the efficiency and user experience for Radiologists

- Radiologists can
 - work from anywhere, on any device or browser
 - customise Hiruko to their own requirements and preferences
- The fully integrated nature of Hiruko increases both the speed and efficiency of the Radiology workflow
 - No need for the Radiologist to jump between different applications and windows
 - Second opinions can be sought from Colleagues regardless of what platform they use
- The Radiologist can use voice recognition (clinical language understanding) to append the diagnosis to the image, from anywhere on any device
- Hiruko has integrated billing including support for publically funded health insurance programs (similar to Medicare)

How We Do It

Modular

Able to grow and scale as scan volumes increase and as new diagnostic scanners or radiology facilities are added

Independent System

Hiruko can run on any infrastructure - private or public cloud and even on the customer's own dedicated server infrastructure

API Enabled

Easy to integrate with other customer or third party systems to extend its value in the customer environment

.... Compared to most RIS PACS solutions which are built on heavy, inflexible and expensive client server architecture.

Business Model

Revenue Contracts

1. Software as a Service (SaaS)
3-5 year contacts (paid monthly)

2. Platform as a Service (PaaS)
3-5 year contacts (paid monthly)

3. One-off Sales & Maintenance
Paid in Full

ImExHS Today – Value Proposition & Competitive Advantage

Radiology businesses (hospitals & clinics) prefer the ImExHS Hiruko platform because:

- Exceeds the capability & usability of competing high end platforms – Integrated Business Intelligence
- Disruptive price point – up to 75% cheaper than competitors
- Cloud-based with zero in-house IT impact
- Single end to end solution including integrated scheduling and billing tools; avoid integration of multiple solutions
- Supports non-standard file formats that have clinical significance

Radiologists love the ImExHS Hiruko platform because they can:

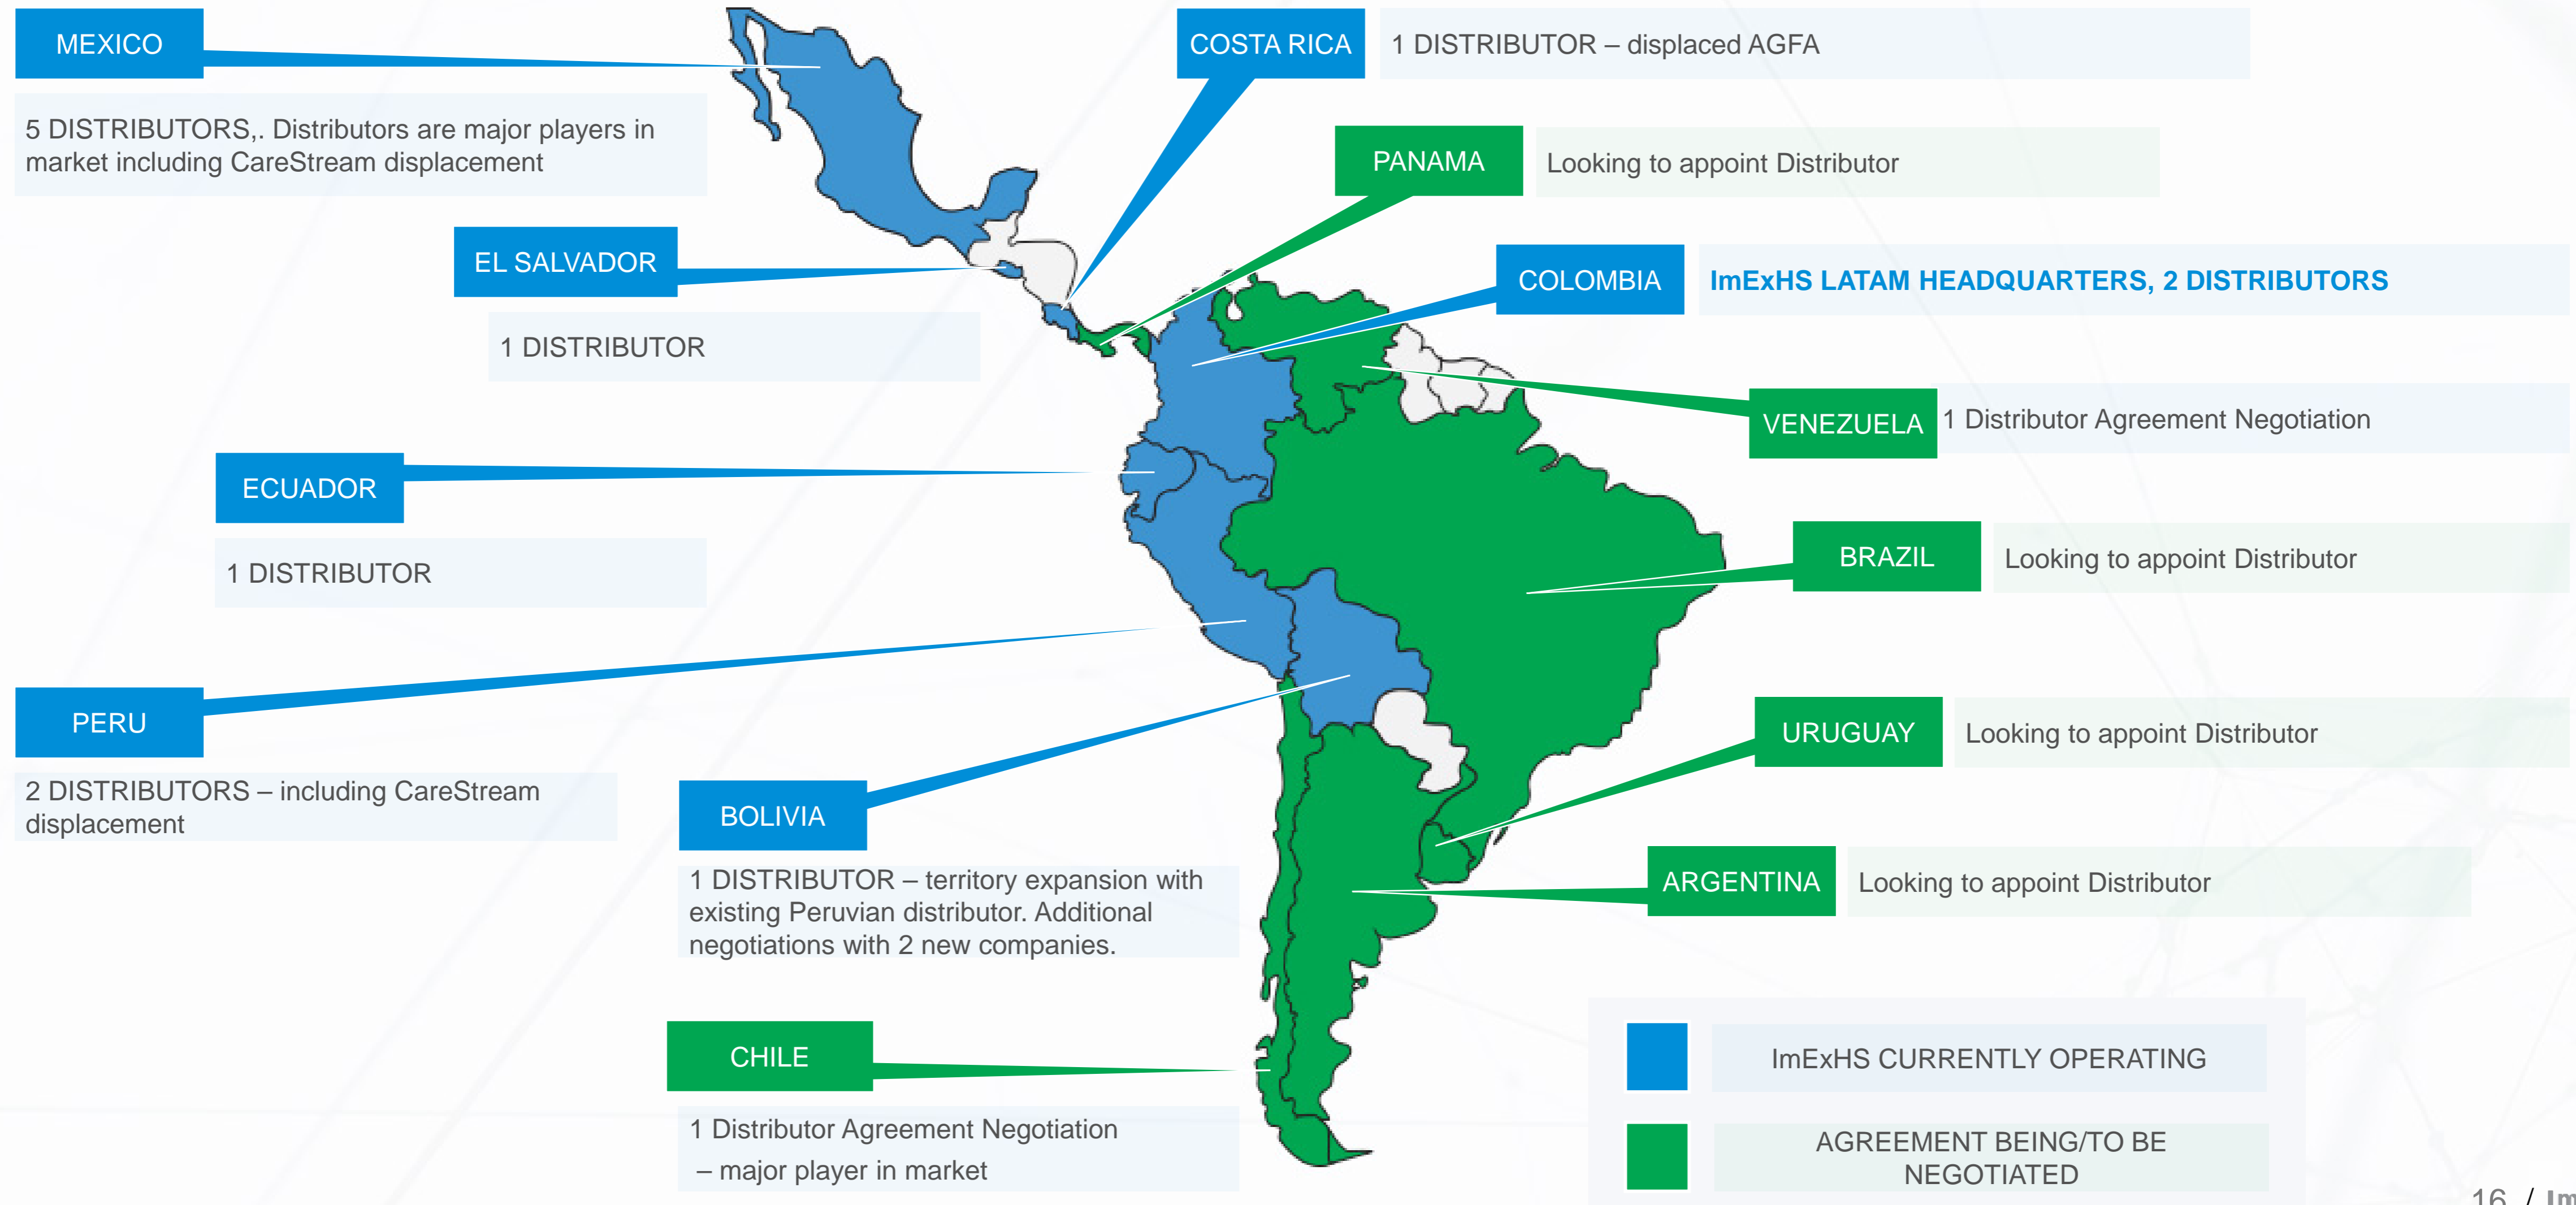

- Work from anywhere, using any device (Mac, PC, tablet or smartphone)
- Use speech recognition with full Clinical Language understanding embedded in the application
- Use post-processing of images to aid in diagnosis
- Efficiently consult with colleagues for second opinions
- Hiruko software is fast, stable and easy to access

ImExHS Today – Customer & Revenue Base

Solutions are fully developed, validated & proven:

- ImExHS has deployed >200 sites in LATAM
 - 71 Hospitals
 - 180 Clinics
 - > 35,000 clinical devices
 - 190 Customers
 - 5 Countries
- > 4.5 million new radiological studies per annum
- Used by over 600 Radiologists

ImExHS Today – Channel Partners

Artificial Intelligence

- **NATURAL LANGUAGE PROCESSING ALGORITHMS**
Specified pathologies
Predictive Diagnostic alerts
Diagnostic concordance analysis
- **MACHINE LEARNING ALGORITHMS**
Tumour Segmentation and Classification
Lung Nodule detection
Bone Fracture severity identification
- **AUTOMATIC IMAGE ANNOTATION
RECOMMENDATIONS**

Research

- **BRAVIZ v2.0**
Platform for advanced analytics and visualisation of neurological images
- **NEW VISUALISATION TOOLS**
Analytics on visual presentation

Investment Highlights

- **DE-RISKED**
Significant annualised recurring revenue of \$3.8m
- **LEADING TECHNOLOGY**
Next generation workflow and image management solution for Healthcare Facilities, built by radiologists, for radiologists
- **PROVEN**
Successfully demonstrated market penetration into Mexico, Ecuador, Peru and Costa Rica with post-raising strategies for rapid expansion in LATAM and Asia-Pacific
- **SALES PIPELINE**
Strong sales pipeline to support \$14.5m revenue in total contracted value
- **FUNDING**
Funding largely dedicated to expansion, rather than technical development
