## About STEMify Limited

Stemify Limited is a company listed in Australia focused on developing and marketing STEM education curriculum in various countries, substantially the USA, utilizing interactive tools including 3D printing.

The company operates through two subsidiaries:

### MyStemKits

MSK was established in 2013 and has grown into a leading USA "EdTech" business that develops and markets the world's largest library of Science, Technology, Engineering and Math ("STEM") curriculums incorporating 3D printed project kits for K-12 schools, all aligned to USA national science and mathematics standards. It was recently recognized as a finalist for the best STEM Solution by EdTech Digest at the 2018 EdTech Awards.

MSK's lesson plans were developed over five years in conjunction with The Florida Center for Research in Science, Technology, Engineering and Mathematics at the Florida State University ("FCR-STEM"). An estimated \$20 million was invested into the development and extensive testing in the classroom.

### Robo Inc

Robo Inc, based in California, focused educational technology or "EdTech" on the design and distribution of 3D printers and associated products for the desktop segment of the 3D printing industry (**Robo**).

The company was founded in 2012 by a group of students from San Diego State University and delivered its first model to customers in 2013. Since then, Robo has grown into a leading brand in the desktop segment of the 3D printing industry, gaining significant traction online and through retail partners including Amazon and Best Buy. Robo commenced trading on the ASX on 22 December 2016.
