More attractive unit economics than most other e-commerce models

Note: The chart above show Marley Spoon's average customer acquisition cost globally for 2018 (grey column), and the contribution margin after 6 months, and then cumulative in following periods to illustrate lifetime value for various time periods (green columns). The charts reflect 42 months of actual from July 2015 to December 2018.

FY18 Strong performance on all key growth metrics

Revenue (€ millions) **Total orders Active customers** +78% +86% +93% ex FX 92.0M 173K 2.17M EU 22.7 EU 42K EU 600K 53.2M 93K US 37.9 1.12M US EU 14.5 **US 87K** 880K EU 27K EU 371K US 18.8 US **US 36K** 366K AU 34.5 AU AU 44K 688K AU AU 19.9 AU 31K 393K 2017 Q4 2017 2018 Q4 2018 2017 2018

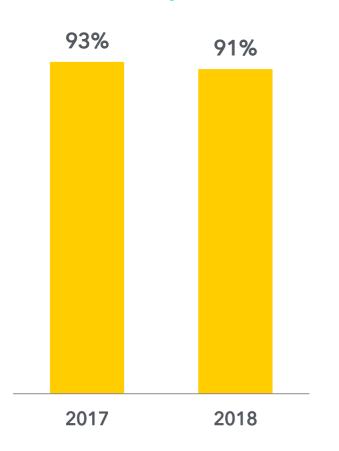

- Average order size* at €49.6 ex FX from €52.8 in 2017 ... due to increased sales of Dinnerly (lower price point)... portions per order stable at 7 year on year
- Good acquisitions momentum in Q3 and early Q4 ... significant revenue tailwind for 2019
- Stable CPA at €66 for CY2018, prior year €67 ... underscores overall market size and opportunity

*Gross basis, before all vouchers, credits and discounts

MARLEY SPOON

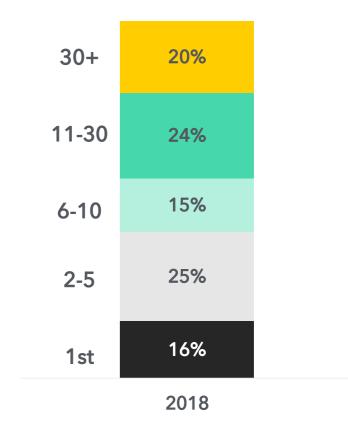

FY18 Retention deep dive

- Business model with exceptionally high repeat customer revenue share
- Slight decrease year on year due to strong Dinnerly growth, which was only launched in the US in Aug '17 ... AU Mar '18

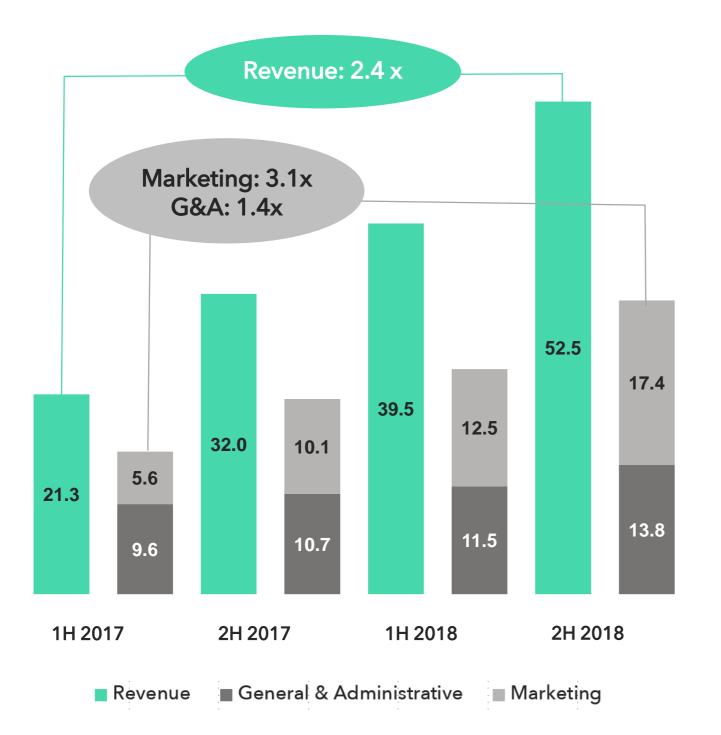

Orders breakdown by ordinal

- Only 16% of revenue from incentivized 1st time customers
- ~60% with customers in "steady 6+ state"
- Almost half of revenue with customers who have 10 or more orders

Consistently high repeat % despite strong topline growth ... higher than other e-commerce models ... most revenue with very loyal customers ... both measures stable over time

Marketing and G&A vs. revenue (EUR in millions)

Key developments

- Deploying 3x marketing at stable CACs ... testament to market size and channel mix
- Higher customer acquisition numbers in late Q3 and early Q4 ... significant tailwind for 2019 revenue growth
- While revenue grew 2.4x between 1H 2017 and 2H 2018, G&A just up by 1.4x ... operational leverage
- Company continues to show discipline in managing costs

| Revenue €29.5M ex FX | An increase of 56% on the previous corresponding quarter (PCP), Q1 2018 AU grew 34% and EU 26% |
|----------------------------|---|
| US sales | US sales continue to grow rapidly - up 107% YOY |
| up 107% | due to a successful two-brand strategy |
| US CM +9pts 21% | Significant contribution margin improvements in US - +9pts (+75%) to 21%; guidance on CM is expected to reach mid - high 20s |
| Cash | Continued focus on cash burn reduction |
| ~€9M | Cash balance remained stable in Q1 |
| Profitable | Guidance re-affirmed for business to be profitable on an operating EBITA level |
| by 2020 | by 2020 |

1 Operating EBITDA means earnings before interest, tax, depreciation and amortisation, excluding non-cash share based expenses, significant items of income and expenditure that are the result of an isolated, nonrecurring event such as certain impairments, and intercompany charges

New production technology now commissioned

MARLEY SPOON

New manufacturing equipment commissioned in Netherlands in January 2019 Roll-out globally in 2019

Strategic partnership with Woolworths Group

MARLEY SPOON

Key elements of partnership

- Five-year strategic partnership focused on growing the Marley Spoon and Dinnerly brands in Australia
- A\$30.5 million investment in structured debt and equity
- Supports the marketing of Marley Spoon and Dinnerly subscriptions for home-delivered meal kits to its customer base

Benefits for Marley Spoon

- Benefit from access to Woolworths' large customer base, sourcing and supply chain
- Potential to substantially grow the Marley Spoon and Dinnerly customers and revenue and further improve contribution margins
- Both partners incentive to grow Marley Spoon and Dinnerly in Australia

Benefits for Woolworths

- Access to valuable insights from Marley Spoon's manufacturing, distribution and market experience
- Exposure to the high-growth ready-to-cook meal kits segment

Continuous operation improvements

- Contribution margin in US to 21%
- On track for mid-to-high 20s in 2019 on a global basis
- US East Coast manufacturing centre relocation to Texas continued purchasing scale benefits
- EU... closed down German production site and relocated to Netherlands, as well as centralising customer communications with new shared facility in Portugal

Measured growth planned for 2019 as company transitions towards break-even

- On target to reach profitability at operating EBITDA level by 2020
- Strategy of measured, disciplined growth in 2019
- Continued margin improvement and G&A cost control key to achieving profitability

Increased choice and taste profiling to drive innovation and customer satisfaction

- 20 menu choices translating to higher sales per customer
- Manufacturing 150 items and able to unlock the right recipes from our customer data collection
- Rolled out in all regions by the end of Q1 2019... will continue to drive more choice
