Cash and cash equivalents at the end of the year	18	207.2	74.3

The Statement of Cash Flows should be read in conjunction with the accompanying notes which form an integral part of the financial report.

Notes to the Financial Report

BORAL LIMITED AND CONTROLLED ENTITIES

1. ABOUT THIS REPORT

Statement of compliance

This financial report represents the consolidated results of Boral Limited (ABN 13 008 421 761), a for profit company limited by shares, incorporated and domiciled in Australia whose shares are publicly traded on the Australian Securities Exchange. The financial report comprises Boral Limited and its controlled entities (the "Group"). The financial report has been prepared in accordance with Australian Accounting Standards (AASBs) adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001 for the purposes of fulfilling the Group's obligation under Australian Securities Exchange (ASX) listing rules.

(a) Basis of preparation

The financial report has been prepared on a historical cost basis, except for the revaluation of certain financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

A full description of the accounting policies adopted by the Group may be found in the Group's full financial statements.

(b) Accounting estimates and judgements

Preparation of the financial report requires management to make judgements, estimates and assumptions about future events. Information on material estimates and judgements considered when applying the accounting policies can be found in the Group's full financial statements.

(c) Changes in accounting policies

Adoption of new and revised accounting standards

The Group has adopted all new and amended Australian Accounting Standards and Australian Accounting Standards Board (AASB) interpretations that are mandatory for the current reporting period and relevant to the Group. Adoption of these standards and interpretations has not resulted in any material changes to the Group's full year financial report.

Effective 1 July 2018, the Group adopted AASB 15 *Revenue from Contracts with Customers*. The Group elected to use the cumulative effect method on the initial application of the standard, and therefore has not applied the requirements of AASB 15 to the comparative period presented in this report. The net transition impact was recorded as a reduction in retained earnings of \$2.0 million, and is disclosed in the Statement of Changes in Equity.

The implementation of this standard did not have a significant impact on the revenue recognition practice of the Group.

(d) Comparative figures

Where applicable, certain comparative figures have been reclassified, to align with current year presentation, as a result of the implementation of AASB 15 and the sale of US Block.

(e) Rounding of amounts

Unless otherwise expressly stated, amounts have been rounded off to the nearest whole number of millions of dollars and one place of decimals representing hundreds of thousands of dollars in accordance with ASIC Corporations Instrument 2016/191, dated 24 March 2016. Amounts shown as "-" represent zero amounts and amounts less than \$50,000, which have been rounded down.

Notes to the Financial Report

BORAL LIMITED AND CONTROLLED ENTITIES

1. ABOUT THIS REPORT (continued)

(f) Accounting policies applied from 1 July 2018

Revenue recognition

Revenue from sale of goods

Revenue from the sale of goods, such as quarry product, concrete, cement, flyash, roofing and building products, is recognised at the point in time the customer obtains control of the goods. This is typically at the time of delivery to the customer.

Revenue from contracting businesses

Revenue from contracting businesses, such as asphalt and concrete placing, is included in sale of goods and is recognised progressively over the period of time the performance obligation is fulfilled and the customer obtains control of the goods being provided in the contract, with the Group having a right to payment for performance to date. The Group predominantly uses the output method based on volumes delivered to determine the amount of revenue to recognise in a given period.

When estimating the transaction price, variable consideration is considered, which typically relates to claims or variations submitted in connection with the performance of a contract. Assumptions are made in order to determine the amount of variable consideration that can be recognised, including consideration of whether the variable consideration is constrained. Claims and variations are included to the extent they are approved, or if not approved, are estimated whilst also considering the constraint requirement.

Revenue from rendering of services

Revenue from the rendering of services, which is predominantly in Flyash, is allocated across each service or performance obligation based on their stand-alone selling price, and recognised as the service or performance obligation is performed.

Revenue from the sale of land

Revenue from the sale of land is recognised at the point in time the customer obtains control of the land. This is typically at the point in time the customer obtains unrestricted access to the land which was sold. The revenue is measured at the transaction price agreed under the contract and classified as other income.

Bundling of performance obligations

Contracts with customers, particularly in concrete and asphalt, may contain revenue items for ancillary services such as mobilisation and demobilisation of plant, concrete testing, and other related services. These services are typically combined into the core performance obligation of delivering concrete, or the supply and lay of asphalt. On occasion, ancillary services may be deemed to have a stand-alone value to the customer, and are accounted for as a separate performance obligation.

Notes to the Financial Report

BORAL LIMITED AND CONTROLLED ENTITIES

2. SEGMENTS

An operating segment is a component of an entity that engages in business activities from which it may earn revenue and incur expenses, whose operating results are regularly reviewed by the Group's chief operating decision maker in order to effectively allocate Group resources and assess performance.

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Managing Director and CEO in assessing performance and in determining the allocation of resources. The operating segments are identified by the Group based on consideration of the nature of the services provided as well as the geographical region. Discrete financial information about each of these operating businesses is reported to the Managing Director and CEO on a recurring basis.

The following summary describes the operations of the Group's reportable segments:

Boral Australia	- Construction Materials & Cement (comprising quarries, concrete, asphalt, transport, landfill, property, cement and concrete placing) and Building Products (comprising West Coast bricks, roofing, masonry and timber products).
USG Boral	- 50/50 joint venture between USG Corporation and Boral Limited responsible for the manufacture and sale of Plasterboard and associated products.
Boral North America	- Flyash, stone, roofing, light building products, windows and 50% share of the Meridian Brick joint venture.
Discontinued Operations	- Denver construction materials and US block.
Unallocated	- Non-trading operations and unallocated corporate costs.

The major end use markets for Boral's products include residential and non-residential construction and the engineering and infrastructure markets.

Inter-segment pricing is determined on an arm's-length basis.

The Group has a large number of customers to which it provides products, with no single customer responsible for more than 10% of the Group's revenue.

Segment results, assets and liabilities includes items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

		2019	Restated ¹ 2018
	Note	\$m	\$m

7. SIGNIFICANT ITEMS

Net profit includes the following significant items, which relate to material transactions that are disclosed separately in order to better explain financial performance. Management considers significant items when assessing performance of the Group, and in order to provide a meaningful and consistent representation of the underlying performance of each operating segment and the Boral Group.

Significant items is not a defined performance measure in IFRS and the Company's definition of significant items may not be comparable with similarly titled performance measures and disclosures by other entities.

(i) Sale of business

In July 2018, the Group sold the Denver Construction Materials business for cash proceeds of \$173.2 million, and generated a profit before tax of \$66.1 million.

In November 2018, the Group sold the Block business for cash proceeds of \$210.6 million, and generated a profit before tax of \$3.5 million.

(ii) Restructure costs

During the period, \$25.7 million of restructuring related costs have been incurred to align the Australian business with current market conditions.

(iii) Integration costs

During the period, \$32.8 million of costs have been incurred on the integration of Headwaters business into the Boral North America business, which forms part of the integration costs of US\$90 million - \$100 million expected. The costs during the period predominantly relate to redundancies, consultant fees supporting the integration, integration of IT systems and closure costs arising from rationalisation of Stone plants.

(iv) Joint venture matters

This relates to joint venture matters in USG Boral. This includes \$4.0 million of legal and consulting costs (\$3.0 million incurred by Boral Limited) related to negotiating and agreeing a new ownership and operating structure as a result of Knauf's acquisition of USG, \$3.4 million of restructuring costs incurred as a result of the significant downturn in Korea and the housing decline in Australia and \$0.8 million of costs resulting from an ownership reorganisation in Thailand.

(v) Asset impairment

The significant decline in the Canadian housing market and intensity deterioration in the US bricks market triggered an impairment of the investment in the Meridian Brick joint venture. A value in use methodology was used to determine the recoverable amount of the investment, leading to an impairment of \$195.6 million. The \$22.1 million tax benefit is recognised directly by Boral North America due to the Meridian joint venture ownership structure.

Net significant items from continuing operations		(54.2)	(16.8)	42.5	(3.7)	(32.2)

(i) Headwaters integration costs

In the prior year, \$73.2 million of costs were incurred on the integration of the Headwaters business into the Boral North America business, which forms part of the implementation costs of US\$90 million - \$100 million expected over financial years 2018 and 2019. The costs predominantly relate to redundancies, employee incentives implemented by Headwaters, consultant fees supporting the integration, integration of IT systems, brand consolidation, rationalisation of products in metal roofing, safety implementation costs and asset impairments upon consolidation of the Boral and Headwaters concrete roofing business.

(ii) Waurin Ponds rehabilitation and closure costs

In the prior year, the organisation progressed its plans on the long term cement position in Victoria, which has led to a reassessment of the expected end use of the Waurin Ponds cement facility, resulting in the recognition of a provision of \$23.8 million with respect to rehabilitation of the limestone quarry attached to the facility.

(iii) Reassessment of US tax balances

On 22 December 2017, a tax bill, H.R. 1, was enacted into US law. This triggered a revaluation of the carrying value of tax balances associated with the Boral North America division, primarily as a result of a reduction in the federal tax rate from 35% to 21%.

The reduction in tax rate resulted in a net tax benefit of A\$33.7 million, reflecting a net reduction in deferred tax liabilities.

In addition, the Group reassessed its US tax losses, which had not been recognised on the Balance Sheet, as a result of improved earnings following the acquisition of Headwaters Incorporated in May 2017. This reassessment led to a benefit of A\$8.8 million being recorded.

The total impact of the above adjustments on income tax expense is a benefit of \$42.5 million.

(iv) Joint venture matters

Includes \$3.6m of integration and restructuring costs incurred in Meridian Brick, and a \$1.0m loss associated with asset impairments in USG Boral.

Notes to the Financial Report

BORAL LIMITED AND CONTROLLED ENTITIES

9. DISCONTINUED OPERATIONS AND DISPOSALS (continued)

Disposal of US Block business

In November 2018, the Group sold the US Block business to Quikrete Holdings, Inc for A\$210.6 million. This divestment helped to further strengthen the Group's balance sheet and focus on core operations.

The following disposal entries were recorded in the current period.

	2019 \$m
Consideration	210.6
Receivables	(15.8)

10. EARNINGS PER SHARE

Basic earnings per share

Basic earnings per share (EPS) is calculated by dividing the net profit, by the weighted average number of ordinary shares of Boral Limited, adjusted for any bonus issue.

Diluted earnings per share

Diluted EPS is calculated by dividing the net profit, by the weighted average number of ordinary shares after adjustment for the effects of all dilutive potential ordinary shares and bonus issue.

Options outstanding under the Executive Share Option Plan and Share Performance Rights have been classified as potential ordinary shares and are included in diluted earnings per share only.

	2019	2018

1. Underperformance of the business in the current year, particularly the second half of FY2019, which was primarily driven by a significant downturn in the Canadian housing market, a deterioration in the US housing starts and significant plant closures resulting in lower fixed cost recovery, triggered an assessment of the recoverability of the carrying value of the investment in the Meridian Brick CGU. A value in use methodology was used to determine the recoverable amount of the CGU, leading to an impairment of \$195.6 million. The key assumptions used in the model were a post-tax discount rate of 10.5%, a long term growth rate of 2.5% and housing starts aligned to future estimates prepared by reputable third parties. Given that the asset has been written down to value in use, any significant adverse change in an assumption in isolation or combination would increase the amount of impairment recognised.

---	---------	---------

There were no movements in issued capital during the current or prior periods.

Ordinary shares issued are classified as equity and are fully paid, have no par value and carry one vote per share and the right to dividends. Incremental costs directly attributable to the issue of new shares or the exercise of options are recognised as a deduction from equity, net of any related income tax effects.

In the event of a winding up of Boral Limited, ordinary shareholders rank after creditors and are fully entitled to any proceeds of liquidation.

16. RESERVES

Foreign currency translation reserve	298.5	115.2
Hedging reserve	(5.8)	5.3
Share-based payments reserve	37.3	35.3
	330.0	155.8

17. CONTINGENT LIABILITIES

The Company has given to its bankers letters of responsibility in respect of accommodation provided from time to time by the banks to controlled entities.

A number of sites within the Group and its associates have been identified as contaminated, generally as a result of prior activities conducted at the sites, and review and appropriate implementation of clean-up requirements for these is ongoing. For sites where the requirements can be assessed, estimated clean-up costs have been expensed or provided for. For some sites, the requirements cannot be reliably assessed at this stage.

Certain entities within the Group are from time to time, subject to various lawsuits, claims, regulatory investigations, and, on occasion, prosecution.

Consistent with other companies of the size and diversity of Boral, the Group is the subject of periodic information requests, investigations and audit activity by the Australian Taxation Office (ATO) and taxation authorities in other jurisdictions in which Boral operates.

Where the liability is estimable and probable the Group hold appropriate provisions based on consideration of available information and, where appropriate, independent advice.

Notes to the Financial Report

18. NOTES TO STATEMENT OF CASH FLOWS

	2019 \$m	2018 \$m
Reconciliation of cash and cash equivalents:		
Cash includes cash on hand, at bank and short term deposits, net of outstanding bank overdrafts. Cash as at the end of the year as shown in the statement of cash flows is reconciled to the related items in the balance sheet as follows:		
Cash at bank and on hand	104.9	57.1
Bank short-term deposits	102.3	17.2
	207.2	74.3
During the year, the Group settled costs associated with:		
Acquisition costs	-	(54.9)
Integration costs	(30.3)	(49.8)
Restructure and business closure costs	(23.7)	(13.7)
	(54.0)	(118.4)

19. ACQUISITIONS

Acquisition of Pro Concrete Group

On 2 July 2018, the Group acquired 100% of the assets of Pro Concrete Pumping, a concrete placing business in Queensland, Australia for total consideration of \$10.9 million.

20. SUBSEQUENT EVENTS

On 23 August 2019, the Group agreed to sell its Midland Bricks business for \$86.0 million, subject to customary completion adjustments. The transaction is expected to complete by the end of this calendar year, or soon after.

On 26 August 2019, the Group announced that its USG Boral plasterboard joint venture entered into an agreement with Gebr Knauf KG ("Knauf") to expand the joint venture by acquiring Knauf's plasterboard business in Asia. In addition, the Group has agreed to acquire Knauf's 50% ownership interest in USG Boral Australia & New Zealand (NZ), subject to a call option to buy back their ownership interest that Knauf can exercise within five years. The transactions are subject to typical conditions precedent, including regulatory approvals.

The Group's total net investment is approximately US\$441 million being US\$200 million to buy the remaining 50% of USG Boral Australia & NZ and US\$241 million for the Group's 50% share of the USG Boral JV's investment in Knauf Asia Plasterboard after divesting the Middle East business.

Annual General Meeting

The Annual General Meeting will be held as follows:

Place:

The Concourse, Chatswood

Date:

Wednesday, 6 November 2019

Time:

10.30 am
