

## ASX ANNOUNCEMENT

30 August 2019

### Telfer Update: Macmahon and Newcrest negotiations well progressed

As announced on 12 June 2019, Macmahon Holdings Limited (ASX:MAH) (**Macmahon** or the **Company**) commenced facilitated negotiations with Newcrest Mining ('**Newcrest**') regarding pricing for changes to the mine plan and contract programme at the Telfer gold project. While these discussions did not initially reach a resolution, progress in recently renewed discussions between the parties has led Macmahon to form the view that an acceptable agreement for increased revenue is likely to be reached in the near future.

Given this progress, the Company's current assessment is that the net present value of incremental cash flows from the Telfer contract<sup>1</sup> is likely to be positive over the remaining term of that project, and so Macmahon has not recognised an onerous contract provision as previously indicated. While this assessment could change in the future, it is Macmahon's view of the most likely outcome at this point.
