Further Update on Burkina Faso Security Incident

Perenti Global Limited (ASX: PRN) (**Perenti**) provides the following update of the weekend's activities in the aftermath of the security incident that occurred close to Canadian-based miner Semafo's Boungou mine site in Burkina Faso, which involved members of our workforce from African Mining Services (AMS).

Perenti has accounted for all members of its AMS workforce who were part of the convoy out of Boungou last week. The number of fatalities remains unchanged at 19 with 26 staff injured. We are doing all we can to ensure that all injured people are receiving the best possible care. Counselling services have also been established for families and employees.

The evacuation process is underway for all staff remaining at the Boungou mine site via helicopter. Perenti's objective is to reunite them with their friends and families as soon as possible.

"We have seen the true human cost of the tragic events of last week and it's difficult to comprehend. These were hard working innocent people simply trying to provide a livelihood for their families," Perenti Managing Director and Chief Executive Officer, Mark Norwell, said.

"We are doing absolutely everything we can to support those affected and have mobilised additional personnel to assist in any way possible."

Operations at the Boungou mine site remain suspended.
