COMPANY ANNOUNCEMENT

IMEXHS announces first European SaaS contract

HIGHLIGHTS

- Further expansion in developed markets with first European customer
- 5 year HIRUKO Essential SaaS contract with a TCV of EUR 122,400 (~A\$200,000)
- Solution made possible by HIRUKO's advanced teleradiology capabilities

SYDNEY — 3 December 2019 — Australian medical imaging company **IMEXHS Limited [ASX: IME]** ("**IMEXHS**" or "**the Company**") is pleased to announce that it has signed its first SaaS contract with a Tecnicas Medicas Milenium S.L., a European based Company that is part of the Health Time Group, a radiology firm based in Jaén, Spain.

The contract is for IME's Teleradiology solution and HIRUKO's integrated Nuance Voice Recognition solution. The solution is to be used in South America for the provision of teleradiology services to Health Time in Spain. This provision of remote teleradiology services across the world is a key advantage of the HIRUKO Software.

The SaaS contract has a Total Contract Value (TCV) of EUR 122,400 (~A\$200,000) over five years and is being provided on normal contractual terms.

ImexHS CEO, Dr German Arango said "This is another important contract win for ImexHS as it is our first European based customer. Health Time provides a wonderful gateway for IMEXHS to establish a European presence. We are actively pursuing our growth plans and will now focus on progressing CE clearance to allow the HIRUKO suite to be sold in the EU."

Authorised for release by the Board of directors of IMEXHS Limited.

ABOUT IMEXHS

IMEXHS Limited [ASX: IME] is a leading imaging Software as a Service (SaaS) and ancillary solutions provider. Founded in 2012, IMEXHS is known for its innovation in the imaging services market, offering flexible and scalable imaging solutions via its Hiruko branded suite of solutions for next generation Picture Archiving and Communications System (PACS) and integrated Radiology Imaging System (RIS). The Hiruko system is completely cloud based, vendor neutral and zero footprint with no need for installed software. Enhanced features such as a fully web-based voice recognition option and a zero footprint DICOM viewer are some of its advanced features. In addition to PACS and RIS, imaging technology and management systems can be provided on a Platform as a Service (PaaS) basis when packaged with equipment. The IMEXHS products are designed to increase productivity and save money for the users, with a scalable platform that is configured for the future, while enhancing patient outcomes.
