NOTICE OF MEETINGS AND EXPLANATORY MEMORANDUM

Rural Funds Group

To be held on Tuesday, 14 April 2020 at 11:00am (AEST) at the offices of Rural Funds Management Limited, Level 2, 2 King Street Deakin ACT 2600.

This Notice of Meetings and Explanatory Memorandum is issued by Rural Funds Management Limited (ACN 077 492 838, AFSL 226 701) (**RFM**) as the responsible entity of Rural Funds Trust ARSN 112 951 578 and RF Active ARSN 168 740 805 collectively referred to as the Rural Funds Group or RFF.

THIS IS AN IMPORTANT DOCUMENT

Please read the information in this document carefully. It is important that you attend the Meetings, complete and lodge the enclosed Proxy Form or lodge your proxy electronically.

If you will be attending the Meetings in person, please contact RFM Investor Services on 1800 026 665 (from within Australia) or +61 2 6203 9700 (from outside Australia) from 8.30am to 5.00pm, (local Canberra time) Monday to Friday, or email investorservices@ruralfunds.com.au prior to the Meetings.

The Independent Expert has concluded that the Guarantee is fair and reasonable to the Non-Associated Unitholders of RFF under the requirements of Listing Rule 10 and Chapter 2E of the Corporations Act.

1. Letter from the Chairman

Dear Unitholder

On behalf of Rural Funds Management Limited (**RFM**), the responsible entity and manager of the Rural Funds Group (**RFF**), it is my pleasure to invite you to the meetings of RFF unitholders (**Unitholders**) to be held at 11:00am (AEST) on Tuesday, 14 April 2020 at the offices of Rural Funds Management Limited, Level 2, 2 King Street Deakin ACT 2600 (**Meetings**).

In August 2018, Unitholders approved the provision of a \$75.0 million limited guarantee (**Initial Guarantee**) to J&F Australia Pty Ltd (**J&F**), a wholly owned subsidiary of RFM. The Initial Guarantee was approved with a ten-year term for which RFF is paid a monthly fee (**Guarantee Fee**). J&F has paid RFF the Guarantee Fee since August 2018. The FY19 annualised return to RFF on the Initial Guarantee was 10.23% (see section 4.4 of this document for further detail of historical returns).

At the same time, RFF agreed to purchase five of JBS Australia Pty Ltd's (**JBS**) Australian feedlots and lease those properties back to JBS. The Initial Guarantee allows J&F to supply JBS with cattle, feed and associated costs used to stock seven feedlots.

Since the implementation of the arrangements between J&F and JBS (**JBS Arrangements**), the total cost of cattle and number of head have increased at the feedlots due to favourable market conditions. This trend is expected to continue during 2020 with increased demand internationally for JBS's Australian beef, and a shortage of grass-fed beef due to drought. As a result of this growth in demand, JBS has requested an increase in the existing arrangements with J&F. An increase to J&F's borrowings would require a commensurate increase in the amount of the Guarantee.

In order to facilitate JBS's immediate requirements, J&F will seek to increase its borrowings by \$25.0 million. This increase requires an additional \$7.5 million to the Initial Guarantee to be provided by RFF. However, Unitholder approval is sought to increase the Initial Guarantee by up to \$25.0 million (the **Additional Guarantee**), to a maximum of \$100.0 million (the **Guarantee**) to cover potential future operational requirements.

The Additional Guarantee amount of \$25.0 million is a variation to the Initial Guarantee approved by Unitholders in August 2018. As J&F is a wholly owned subsidiary of RFM, the Additional Guarantee also requires Unitholder approval under ASX Listing Rule 10.1.

The Meetings are therefore being convened to consider the Resolution to approve the Additional Guarantee.

The Independent Expert has concluded that the Guarantee is fair and reasonable to the Non-Associated Unitholders of RFF under the requirements of Listing Rule 10 and Chapter 2E of the Corporations Act.

Details of the Resolution and the Guarantee are provided in the Notice of Meetings and Explanatory Memorandum accompanying this letter.

YOUR VOTE IS IMPORTANT

This Notice of Meetings and Explanatory Memorandum contains important information in relation to the Guarantee and a discussion of the benefits and risks of the Guarantee.

Please read the Notice of Meetings and the Explanatory Memorandum carefully in its entirety before making your decision and voting (whether in person, by corporate representative or by proxy) at the Meetings.

If you will be attending the Meetings in person, or have any queries about the Meetings, please contact RFM Investor Services on 1800 026 665 (from within Australia) or +61 2 6203 9700 (from outside Australia) from 8.30am to 5.00pm (local Canberra time), Monday to Friday prior to the Meetings.

Yours sincerely,

Guy Paynter

Chairman

2. Location of Meetings and what you need to do

LOCATION OF MEETINGS

11:00am (AEST) on Tuesday, 14 April 2020 at the offices of Rural Funds Management Limited, Level 2, 2 King Street Deakin ACT 2600.

WHAT YOU NEED TO DO

Step 1: Read the Notice of Meetings and Explanatory Memorandum

This Explanatory Memorandum is intended to provide Unitholders with information about the proposed Resolution contained in the Notice of Meetings.

You should read this Explanatory Memorandum in full before making any decision in relation to the Resolution.

Please refer to the Glossary at section 7 for the meaning of any defined terms in this Explanatory Memorandum

Step 2: Vote on the Resolution

The Meetings will be held at 11:00am (AEST) on Tuesday, 14 April 2020 at the offices of Rural Funds Management Limited, Level 2, 2 King Street Deakin ACT 2600.

You can vote on the Resolution by attending the Meetings and voting in person (or for a body corporate, by a corporate representative voting for you), by completing and returning the enclosed Proxy Form or lodging it electronically, as described on the Proxy Form.

Proxy Forms must be received by the Registry by 11:00am (AEST) on Sunday, 12 April 2020. For details on how to complete and lodge the Proxy Forms, please refer to the instructions on the Proxy Forms.

3. Important notices

Purpose of this document

This Explanatory Memorandum has been prepared by Rural Funds Management Limited (**RFM**), as responsible entity and manager of Rural Funds Trust ARSN 112 951 578 and RF Active ARSN 168 740 805 collectively referred to as Rural Funds Group (**RFF**), to provide Unitholders with information regarding the Resolution to be considered at the Meetings.

A copy of this Explanatory Memorandum has been provided to the ASX pursuant to the Listing Rules. Neither the ASX nor any of its officers take any responsibility for the contents of this document.

A number of defined terms are used in this Explanatory Memorandum. These terms are explained in section 7.

Not investment advice

The information contained in this Explanatory Memorandum does not constitute financial advice and has been prepared without considering the objectives, financial situation or needs of individuals (including financial and taxation issues). If you are in any doubt in relation to these matters, you should consult your financial, legal, taxation or other professional adviser.

Disclaimer as to forward-looking statements

This Explanatory Memorandum contains certain "forward-looking statements".

The forward-looking statements in this Explanatory Memorandum reflect views held only as at the date of this Explanatory Memorandum, and generally may be identified by the use of forward-looking words, such as "anticipate", "believe", "expect", "project", "forecast", "estimate", "likely", "intend", "should", "could", "may", "target", "predict", "guidance", "plan" or other similar words. Indications of, and guidance on, future earnings, distributions and financial position and performance are also forward-looking statements. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors - many of which are beyond the control of RFM, RFF, and their officers, employees, agents and advisers - that may cause actual results to differ materially from those expressed or implied in any forward-looking statements. Those risks and uncertainties include factors and risks specific to the industry in which RFF operates, as well as general economic conditions, prevailing exchange rates and interest rates, and conditions in the financial markets. The historical performance of RFF is no assurance of its future financial performance. Actual events or results may differ materially from the events or results expressed or implied in any forward-looking statement. RFM does not guarantee any particular rate of return or the performance of RFF, nor does it guarantee the repayment of capital from RFF or any particular tax treatment.

Foreign jurisdictions

The release, publication or distribution of this Explanatory Memorandum in jurisdictions other than Australia may be restricted by law or regulation in such other jurisdictions and persons outside Australia who come into possession of this Explanatory Memorandum should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable laws or regulations. This Explanatory Memorandum has been prepared in accordance with laws of the Commonwealth of Australia and the information contained in this Explanatory Memorandum may not be the same as that which would have been disclosed if this Explanatory Memorandum had been prepared in accordance with laws and regulations outside Australia.

Charts, maps and diagrams

Any diagrams, charts, maps, graphs and tables appearing in this Explanatory Memorandum are illustrative only and may not be drawn to scale. Unless stated otherwise, all data contained in diagrams, charts, maps, graphs and tables is based on information available as at the date of issue of this Explanatory Memorandum.

4. Explanatory Memorandum

4.1 What is being considered at the Meetings?

In August 2018, unitholders in Rural Funds Group (**Unitholders**) approved the provision of a \$75.0 million limited guarantee (**Initial Guarantee**) to J&F Australia Pty Ltd (**J&F**). J&F is a wholly owned subsidiary of Rural Funds Management Limited (**RFM**). RFM is the responsible entity of the Rural Funds Group (**RFF**). Accompanying the Initial Guarantee was the purchase by RFF of five of JBS Australia Pty Ltd's (**JBS**) Australian feedlots and the lease back of those properties to JBS. The Initial Guarantee allows J&F to supply JBS with cattle, feed and associated costs used to stock the RFF-owned feedlots¹ as well as two additional contracted feedlots, Smithfield and Yambinya (collectively, the **Feedlots**).

The Initial Guarantee was approved with a ten-year term for which RFF is paid a monthly fee (**Guarantee Fee**).

Since the implementation of the arrangements between J&F and JBS (**JBS Arrangements**), the total cost of cattle and the number of head have increased at the Feedlots due to favourable market conditions. This trend is expected to continue during 2020 with increased demand internationally for JBS's Australian beef, and a shortage of grass-fed beef due to drought. As a result of this growth in demand, JBS has requested an increase in the existing arrangements with J&F. An increase to J&F's borrowings would require a commensurate increase in the amount of the Guarantee.

In order to facilitate JBS's immediate requirements, J&F will seek to increase its borrowings by \$25.0 million. This increase requires an additional \$7.5 million Guarantee to be provided by RFF. However, Unitholder approval is sought to increase the Initial Guarantee by up to \$25.0 million (the **Additional Guarantee**), to a maximum of \$100.0 million (the **Guarantee**) to cover potential future operational requirements.

The Additional Guarantee amount of \$25.0 million is a variation to the Initial Guarantee approved by Unitholders in August 2018. As J&F is a wholly owned subsidiary of RFM, the Additional Guarantee also requires Unitholder approval under ASX Listing Rule 10.1.

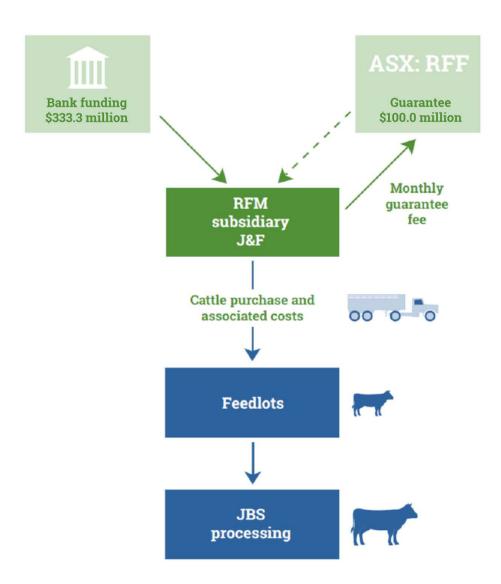

The Meetings are therefore being convened to consider the Resolution to approve the Additional Guarantee.

^{1.} Includes Riverina Beef feedlot, which is forecast to settle in March 2020.

4.2 Overview of the Guarantee

Figure 1 presents a diagramatical representation of the Guarantee.

Figure 1: Overview of the Guarantee^{2,3}

^{2.} J&F is a wholly owned subsidiary of RFM. RFM is also the responsible entity of RFF. The Additional Guarantee requires Unitholder approval.

^{3.} JBS Australia Pty Ltd is a subsidiary of Baybrick Pty Ltd, which reported net assets of \$3.5 billion and net profit after income tax expenses of \$26.6 million in its December 2018 accounts (December 2019 not yet available). Baybrick Pty Ltd is a subsidiary of JBS S.A.

Key terms of the Guarantee are consistent with what was previously approved by Unitholders in August 2018 and are shown at Figure 2.

Figure 2: Guarantee - key terms

	A limited guarantee of up to \$100.0 million (Guarantee) provided by RFF to J&F. Currently \$75.0 million, the Guarantee will be immediately increased to \$82.5 million following Unitholder approval. The Guarantee will:
	• earn a monthly income return, based on a cost plus arrangement, net of RFF's interest savings on \$75.0 million (see 'Return' point and footnote 5 below);
	not require a transfer of cash;
Guarantee	• be recorded as a contingent liability within RFF4; and
Guarantee	• be used as security for up to \$100.0 million of J&F's debt facility for cattle purchases, feed and other costs associated with finishing the cattle on the Feedlots. Any changes in interest costs are borne by JBS.
	JBS has retained responsibility for the management of the Feedlots and J&F has appointed JBS as its exclusive agent and manager.
	The bank loans totaling a maximum of \$333.3 million ⁵ (or above that amount at RFM's discretion) will be supported by the cattle in the Feedlots and the Guarantee.
Future increase to Guarantee	Unitholder approval is sought for a \$25.0 million increase in the Guarantee from \$75.0 million to \$100.0 million. Of this Additional Guarantee amount, it is expected that \$7.5 million will be made available to J&F immediately following Unitholder approval, taking the Guarantee limit to a total of \$82.5 million. This limit may be increased to \$100.0 million in the future and is subject to approval by RFF's financiers (but is not subject to further Unitholder approval).
(capped at \$100.0 million)	Any future increases in the Guarantee from \$82.5 million to \$100.0 million will need to be agreed between J&F and RFF, in support of a request to increase J&F's debt facilities. Any increase will be on materially the same terms as currently in place. Following financier approval, the agreed amount of increase will be reflected in the J&F facility agreements, which require RFF execution before coming into effect.
	Key events through which the Guarantee would be triggered are a JBS default, or cattle mortalities above the insured threshold. In the event of a JBS or J&F default:
	J&F would cease buying cattle, and commence selling cattle in the Feedlots;
What triggers the Guarantee?	 as cattle are sold, J&F bank loans would be repaid. Given that lot-fed cattle can gain up to 2kgs per day, and are sold on a per kg basis, a material fall in the cattle price would be required to crystallise a shortfall; and
	 the Guarantee would be called to cover any shortfall between J&F borrowings and cattle sales, but limited to \$82.5 million, (or up to a maximum of \$100.0 million if any future increases in the Guarantee have been agreed).
JBS obligations	Baybrick Pty Ltd (Baybrick), a subsidiary of JBS S.A., guarantees the obligations of JBS.
	RFF will not be directly exposed to operating risks of the Feedlots given the nature of the agreements with JBS.
Operating risk	JBS is responsible for cattle and feedlot management under a Cattle Agency Agreement and Cattle Management Agreement.
Mortalities	J&F is responsible for mortality of cattle above a certain threshold. RFM intends to arrange insurance for some mortality above this threshold. See Risks, Section 4.8 (4).
	The Guarantee will earn a return on equity calculated on the actual Guarantee amount being, following Unitholder approval,
	• \$82.5 million,
Determ	with the potential to increase up to \$100.0 million.
Return	When the guarantee is \$82.5m, the return rate will flex between an agreed range, depending on the level of debt drawn within J&F. The minimum Guarantee return rate is calculated on drawn debt of \$238.3 million and the maximum is calculated on drawn debt of \$275.0 million.
	The Independent Expert has assessed the return rate to be in the range of 9.68% to 11.21%, subject to various adjustments and inclusive of interest rate offset savings in RFF ⁶ .
Term	No change to the initial ten-year term of the Guarantee, which expires on 22 August 2028.
Cattle ownership	Cattle are owned by J&F and act as security until they are acquired by JBS once they have achieved desired weight, typically after 100 – 180 days.

A credit loss allowance will be recognised as a liability within RFF, considering the probability of the Guarantee being triggered. In FY19 this amount was \$0.04 million.

^{5.} For borrowings of \$333.3 million the equivalent Guarantee would be \$100.0 million. The Initial Guarantee supported the J&F bank loans totaling \$250.0 million.

In July 2018, RFF completed a \$149.5 million equity raising, of which \$75.0 million was utilised to repay debt. A result of the decreased borrowings was decreased interest rate charges. The proposed Additional Guarantee may not result in similar interest rate savings.

Management fee and cost recovery	 Each month, J&F pays RFM: a maximum management fee of 1.05% (exclusive of GST), calculated on the Guarantee of up to \$100.0 million; and, cost recovery. RFM will not charge any additional management fee within RFF and there is no management fee charged on the loan facilities.
	Termination may be triggered by: the withdrawal of the J&F bank loan;
Termination	 JBS exercising the call option over the Feedlots from year 6, being 2023, (termination is at RFM's option);
	default of agreements between J&F and JBS.
Commencement	The Additional Guarantee is expected to be utilised from April 2020, subject to RFF Unitholder approval.

4.3 Ownership of J&F

RFM acquired J&F in August 2018. RFM's ownership of J&F, as opposed to it being owned by RFF, quarantines the operational risks and responsibilities within J&F and limits RFF risk to the value of the Guarantee. Taking on the full operating risk and responsibility of the JBS Arrangements would compromise RFF's REIT status.

J&F's profit is limited to 1.05% per annum of the value of the Guarantee, which is equivalent to the RFM management fee charged in RFF. RFM does not and will not profit from its ownership of J&F in excess of this 1.05%. If RFM in the future sells J&F, any profit from such a sale will be distributed to RFF (net of management fees, cost recoveries and costs of completing the sale).

4.4 What is the impact of the Additional Guarantee on RFF?

J&F has paid RFF the Guarantee Fee since August 2018. The return to RFF over the subsequent period has been:

Figure 3: RFF historical returns from the Guarantee

	FY19 ⁷	Comments
Guarantee amount	\$75.0m	
Finance income	\$3.8m	J&F revenue recognised as finance income. See note G2 of RFF FY19 financial accounts.
Interest saving	\$2.7m	Average cost debt for period including hedging is 4.18%8.
Actual benefit for period, net of management fee (22/08/18 – 30/06/19)	\$6.6m	
Return for period	8.75%	
Annualised benefit for full year, net of management fee	\$7.7m	J&F commenced 22 August 2018. Grossed up to show full year benefit.
Annualised return	10.23%	

^{7.} FY19 utilisation is 91%.

^{8.} See page 10 of the RFF FY19 results presentation found at https://www.asx.com.au/asxpdf/20190827/pdf/447wn1ch14z8jl.pdf

Changes to key portfolio metrics based on an increase to the Guarantee are shown in Figure 4. FY20 proforma forecasts assume the J&F facility is in place for the full financial year.

Figure 4: Financial impact

FY20					
	FY20 Forecast Disclosed 28 October 2019	\$75.0m full utilisation proforma	\$82.5m full utilisation proforma	\$100.0m full utilisation proforma ⁹	
Guarantee	\$75.0m	\$75.0m	\$82.5m	\$100.0m	
J&F facility limit	\$250.0m	\$250.0m	\$275.0m	\$333.3m	
AFFO per Unit	13.4 cents	13.6 cents	13.8 cents	14.2 cents	
DPU	10.85 cents	10.85 cents	10.85 cents	10.85 cents	
AFFO payout ratio	81.0%	79.9%	78.8%	76.3%	
Gearing ¹⁰	29.7%	29.3%	29.3%	29.3%	
LVR ¹¹	42.2%	42.2%	43.1%	45.2%	

Assuming Unitholder Approval of the Additional Guarantee, FY20 forecast AFFO will increase to 13.5 cents per Unit.

4.5 Why is Unitholder approval being sought?

ASX Listing Rules require that Unitholders approve the Additional Guarantee before it can be entered into. Unitholder approval is required under ASX Listing Rule 10.1 because the Additional Guarantee:

- is an agreement with a related party¹² (pursuant to Listing Rule 10.1.1), due to RFM acting as both the responsible entity for RFF and controlling J&F; and
- has a value of up to \$100.0 million which represents 19.0% of the equity interests of RFF (as at 30 June 2019). The Guarantee is therefore a "substantial asset" of RFF, given it exceeds 5% of equity interests in RFF.

The Resolution to approve the Guarantee may be passed by a majority of non-associated Unitholders voting under an ordinary resolution (greater than 50% of votes being cast in favour of the Resolution).

4.6 Funding

The Guarantee does not require a transfer of cash from RFF. The amount of the Guarantee is included in the calculation of RFF's LVR¹³, but does not impact its gearing¹⁴. As the Guarantee is included in the LVR calculation, it will reduce the available headroom under the RFF debt facilities.

Assumes same return rate as \$82.5 million full utilisation proforma. Any increase in the J&F debt facilities or the Guarantee will require 9 approval from each entity's financier.

Proforma Gearing as at 31 December 2019.

Proforma LVR as at 31 December 2019.

^{12.} Under Chapter 19 ASX Listing Rules, the definition of related party includes 'in relation to an externally managed trust, the responsible

Loan to value ratio (LVR) is calculated as term debt drawn plus the Guarantee, divided by directly secured assets based on independent 13 valuations.

Gearing is calculated as external borrowings divided by adjusted total assets.

4.7 Advantages of the Guarantee

The anticipated advantages to RFF of the Guarantee include:

1. AFFO accretive

The return rate on the Guarantee to J&F ranges between 9.68% to 11.21% and will be AFFO accretive. The Guarantee has to date produced high income returns for RFF (see Section 4.4).

2. Counterpart strength

JBS is the largest cattle processor in Australia and is a subsidiary of Baybrick and the ultimate parent company, JBS S.A.. Baybrick guarantees the obligations of JBS under the Agreements.

JBS S.A. is the second largest food company worldwide, measured by revenue. In October 2019, Standard & Poors upgraded the JBS S.A. credit rating from BB- to BB, with a stable outlook. JBS S.A. has a market capitalisation of approx. USD17.5 billion as at 31 December 2019.

JBS S.A. noted in its 3Q19 results that JBS increased beef and lamb exports directly to China by approximately 70% (compared to 3Q18).

Australia's grain fed beef cattle turnoff has been steadily growing at a compound annual growth rate of 3.4% (2.13m head in 2008 to 2.89m head in 2018). As outlined in a recent report, Rabobank believes there will be strong growth in the global demand for higher-marbled grain fed beef, fuelled principally by continued growth of beef consumption in Asian countries (particularly China) and this strong growth provides a good opportunity for Australia to increase its grain fed beef exports by 65% over the next ten years.

3. Consistent with REIT structure

The structure of the guarantee quarantines operating risks, responsibilities and maintains RFF's REIT structure.

4.8 Disadvantages of the Guarantee

The potential disadvantages for RFF as a consequence of the Guarantee include:

1. Counterpart risk

The Feedlots are leased to JBS and income from the Guarantee is solely derived from a cattle and agency agreement between J&F and JBS. There is a risk that JBS may default on its financial or operational lease obligations to RFF. Any financial default would reduce RFF's revenue and its ability to meet its debt obligations and to pay distributions. An operational default by JBS may require RFF to meet operating obligations until a new lessee is contracted. In the case of a default by JBS, the health or quality of the Feedlots may be adversely affected.

A guarantee will be provided by Baybrick which reported net assets of \$3.5 billion and net profit after income tax expense of \$26.6 million in its December 2018 accounts¹⁵. Baybrick is a wholly owned subsidiary of JBS S.A., a company that is listed on the Brazilian stock exchange. The JBS S.A. founders, who control 40% of JBS S.A., were in 2017 convicted of bribery and other similar charges in relation to activities associated with the Brazilian Government. RFM is not aware of any other misconduct or potential charges; however, it is possible that if further charges were to be laid in the future, the reputation or financial standing of JBS could be negatively impacted.

2. Variation in RFF's risk profile

The Guarantee represents a different risk proposition to RFF's historical portfolio. If the Additional Guarantee is approved by Unitholders, J&F will immediately be financed by \$275.0 million of bank debt, backed by the Guarantee and the cattle acquired. In the event JBS, or Baybrick as guarantor, is unable to meet its obligations to J&F under the cattle and agency agreement, J&F will commence selling cattle in the Feedlots and use proceeds to repay the loan. If there is a shortfall between proceeds from the sale and the remaining loan balance, the Guarantee in favour of J&F would be called but limited to the amount drawn, a maximum of \$100.0 million¹⁶.

^{15.} December 2019 financial accounts not yet available.

^{16.} If the J&F borrowings total \$333.3 million at that time.

3. Early termination and interest rate changes

The Guarantee commenced on 22 August 2018 and has a term of 10 years. No change will be made to the term of the Guarantee. In the event JBS exercises the call option over the Feedlots between year six and year ten, RFF may elect to terminate the Guarantee. This would result in a shorter investment timeframe for RFF.

There is also a risk of early termination associated with J&F banking facilities. By way of explanation, J&F has secured (subject to Unitholder approval of the Additional Guarantee) \$275.0 million of funding from two major Australian banks. The current facilities are in place until August 2020. Although it is likely that they will be renewed, there is no guarantee that the funding will be available for the ten-year term of the cattle agreements. Under the cattle agreements, J&F has the right to terminate those agreements should funding not be available.

It is possible that the interest rate for the facility will be different at the time the facility is renewed. This risk is borne by JBS through a change to the rate paid to J&F under the cattle agreements.

4. Mortalities

The Feedlots being acquired by RFF from JBS will be stocked with cattle that are owned by J&F. All cattle operations will be managed by JBS, which bears responsibility for mortalities up to a certain threshold. RFM mitigates some mortality risk above this threshold through insurance. It is intended insurance be retained for the period of the lease; however, there is no guarantee that it will be obtainable for the entire lease term, or that the insurance will provide cover for all events or diseases that may occur in the future. Any claim on the policy will incur a deductible (excess). In addition, although J&F will meet the cost of insurance, any increase in the cost of the premium would result in a net decrease in the return paid to RFF.

Mortalities for August 2018 to December 2019 were approximately 1.0% (calculated as a percentage of monthly purchases).

4.9 What happens if the Additional Guarantee is approved?

If approved by Unitholders, it is expected that an additional \$7.5 million of the Additional Guarantee will be made available to J&F immediately, taking the Guarantee limit to a total of \$82.5 million. This may be increased up to \$100.0 million in the future by agreement with RFF's financiers and without further Unitholder approval.

Section 4.4 of this Explanatory Memorandum has details of the expected financial impact on RFF if the Additional Guarantee is approved.

4.10 What happens if the Guarantee is not approved?

If the Resolution is not passed at the Meetings, the Guarantee will not increase and will remain at \$75.0 million. JBS may look for alternative funding sources to meet its operational needs and diversify its counterparts thereby reducing its reliance on the arrangement with J&F.

4.11 Risks associated with the Guarantee

1. Counterpart risk

There is a risk that JBS may default on its financial or operational lease obligations to J&F or RFF. Any financial default would reduce RFF's revenue and its ability to meet its debt obligations and to pay distributions. An operational default by a counterpart may require RFF to meet operating obligations until a new lessee is contracted. In the case of a default by a counterpart, the health or quality of RFF's asset may be adversely affected.

2. Solvency of Baybrick

Baybrick has guaranteed JBS' performance under the various transaction documents. There is therefore a risk that, in the event of insolvency, Baybrick would not be able to honour the guarantee. However, Baybrick is an entity of substance with reported net assets of \$3.5 billion and net profit after income tax expense of \$26.6 million in its December 2018 accounts (December 2019 not yet available).

3. Reputational risk

JBS is a wholly owned subsidiary of JBS S.A., a company that is listed on the Brazilian stock exchange. The JBS S.A. founders, who control 40% of the JBS S.A. stock, were in 2017 convicted of bribery and other similar charges in relation to activities associated with the Brazilian Government. RFM is not aware of any other misconduct or possible charges; however, it is possible that if charges were laid in the future, the reputation or standing of JBS could be impacted.

4. Cattle mortality risk

The Feedlots are stocked with cattle that are owned by J&F, a wholly owned subsidiary of RFM. All cattle operations will be managed by JBS, which bears responsibility for mortalities up to a certain threshold. RFM intends to mitigate the mortality risk above this threshold through insurance. It is intended insurance be retained for the period of the lease; however, there is no guarantee that it will be obtainable for the entire lease term, or that the insurance will provide cover for all events or diseases that may occur in the future. Any claim on the policy will incur a deductible (excess). In addition, although J&F will meet the cost of insurance, any increase in the cost of the premium would result in a net decrease in the return paid to RFF.

5. Variation in RFF's risk profile

RFM's business strategy for RFF is focused on building RFF's portfolio and cash yield through the management, acquisition and development of agricultural assets. In 2018, the provision of the Guarantee was a different risk proposition to RFF's portfolio. The Guarantee will be used as security for \$82.5 million (and up to \$100.0 million) of J&F's borrowings. The Guarantee ranks behind the J&F borrowings in the event of J&F default.

4.12 Value of the financial benefit received by RFM

RFM will charge J&F a management fee of 1.05% p.a. This management fee is calculated on the value of the Guarantee, and not on the total J&F borrowings. This management fee, along with costs recovery, is paid monthly by J&F to RFM. If RFM in the future sells J&F, any profit from such a sale will be distributed to RFF (net of management fees, cost recoveries and costs of completing the sale).

4.13 Directors interests

Mr David Bryant, the Managing Director of RFM, owns 78.45% of the issued shares in RFM. Mr Guy Paynter, the Chairman of RFM, owns 4.13% of the issued shares in RFM. The remaining shares on issue in RFM are held by RFM staff.

Mr Michael Carroll and Mr Julian Widdup are independent directors and do not hold any shares or have any financial interest in RFM.

The Board of RFM (consisting of all directors other than Mr Bryant and Mr Paynter) has considered these disclosures as required by the Directors' Conflict of Interests Policy, having regard to the nature of the interests disclosed and all relevant circumstances, and resolved that Mr Bryant and Mr Paynter should not be disqualified from participating in discussions or decisions of the Board of RFM relating to the Additional Guarantee, but should abstain from making or participating in any recommendation to Unitholders in relation to the Guarantee.

4.14 Opinion of the Independent Expert

In accordance with the ASX Listing Rules and Corporations Act, RFM engaged Grant Thornton Corporate Finance Pty Ltd (**Independent Expert**) to review the Guarantee and provide an independent expert's report setting out whether the Guarantee is fair and reasonable to Unitholders not associated with a party to the transaction.

The Independent Expert has concluded that the Guarantee is fair and reasonable to the Non-Associated Unitholders of RFF under the requirements of Listing Rule 10 and Chapter 2E of the Corporations Act.

A copy of the Independent Expert's Report is set out in section 5 to this Explanatory Memorandum. Unitholders should read the Independent Expert's Report in full.

Dear Independent Directors

Introduction

Rural Funds Group ("RFF" or "the Group") is an Australian real estate investment trust listed on the Australian Securities Exchange ("ASX"). RFF is managed by Rural Funds Management Limited ("RFM"), an agricultural investment manager responsible for four funds, of which two are listed and RFF is the largest.

JBS S.A. is a company listed on the Brazilian stock exchange with a market capitalisation of circa A\$23.8 billion¹. Baybrick Pty Ltd ("Baybrick") is a wholly-owned subsidiary of JBS S.A. and is the parent company of 26 subsidiaries, including JBS Australia Pty Ltd ("JBS"). Baybrick specialises in meat packing and supplying grain and pasture fed meats to customers in Australia and overseas.

In August 2018, unitholders of RFF ("RFF Unitholders") approved the provision of a ten-year A\$75.0 million limited guarantee ("Initial Guarantee") to J&F Australia Pty Ltd ("J&F"), a wholly-owned subsidiary of RFM. In conjunction with entering into the Initial Guarantee, RFF purchased five of JBS's Australian feedlots for \$52.7 million ("RFF-Owned Feedlots") and subsequently leased back those properties to JBS under a 10 year triple net lease² with CPI³ indexation ("Sale and Leaseback"). The Initial Guarantee allows J&F to supply JBS with cattle, feed and associated costs used to stock the RFF-Owned Feedlots as well as two additional contracted feedlots namely Smithfield and Yambinya (collectively "the Feedlots").

J&F funds the operations of the Feedlots (primarily the purchase of cattle) via bank debt ("Finance Facilities") provided by Rabobank Australia ("Rabobank") and Australia and New Zealand Banking Group Limited ("ANZ") (together "the Financiers"). Under the Initial Guarantee, the Financiers have first-ranking security over J&F's assets and RFF has second-ranking security ("the Security"), behind the Financiers. In return for providing the Initial Guarantee, J&F pays RFF a monthly fee based on a sliding rate which varies depending on the level of debt drawn under the Finance Facilities ("Guarantee Fee"). When originally entered into, the Finance Facilities were capped to a maximum of A\$250 million4.

¹ Based on a closing share price of 25.67 Brazilian Real ("BRL"), 2,665 million shares and an exchange rate of 2.88 BRL to one Australian Dollar as at 7 February 2020.

² A triple net lease is a lease agreement whereby the lessee promises to pay all the expenses of the property including real estate taxes, building insurance, and maintenance. These payments are in addition to rent and utilities fees.

⁴ Consisting of a A\$170 million working capital facility, a A\$75 million term facility and a A\$5 million overdraft facility.

The purchasing and selling of cattle and the management of the cattle on the Feedlots is regulated through a Cattle Management Services and Feeding Agreement ("CMSFA") and Cattle Purchase and Sale Agreement ("CPSA"), together referred to as "Cattle Agreements5" between JBS and J&F.

In late 2019, as a result of strong market conditions and increasing cattle prices and demand, JBS requested an increase to its arrangements with J&F to allow it to increase the value of the cattle held in the Feedlots. Accordingly, J&F has entered into an agreement with the Financiers to increase the Finance Facilities by an initial A\$25 million—to meet JBS's immediate requirements—which requires a proportional increase in the amount of the Initial Guarantee to A\$82.5 million, subject to approval of RFF Unitholders not associated with RFM ("Non-Associated Unitholders").

We note that RFF has elected to seek Non-Associated Unitholders approval to increase the Initial Guarantee by up to A\$25 million ("Additional Guarantee") to a maximum of A\$100 million ("Guarantee") ("Proposed Transaction"). The additional headroom will allow J&F to increase the debt limit on the Finance Facilities up to a maximum of A\$333 million⁶ (subject to approval by the Financiers), without seeking further approval from Non-Associated Unitholders. Any future increase in the Guarantee from A\$82.5 million to A\$100 million will need to be agreed between J&F and RFF. in support of a request to increase J&F's debt facilities, which will be on substantially the same terms as currently in place. Following approval by the Financiers, RFF approval would be required to execute the increase. The increase in the Finance Facilities and Guarantee is being implemented by way of amending deeds, herein referred to as the "Facilities Deed of Amendment" and "Guarantee Deed of Amendment".

We note that the Financiers and J&F have already entered into the Facilities Deed of Amendment and—as an interim measure—have increased the debt limit from A\$250 million to A\$292.5 million which will increase to A\$300 million7 following the Proposed Transaction. The increase in the debt limit to A\$292.5 million in the interim consists of an increase in the working capital facility from A\$170 million to A\$187.5 million and A\$25 million in funds to assist with short term requirements to be advanced to J&F at the sole discretion of the Financiers ("Uncommitted Funds"). If Non-Associated Unitholders do not approve the Proposed Transaction, the working capital facility limit will revert back to A\$170 million. Although the Uncommitted Funds are not subject to unitholder approval, given they are an interim measure to provide J&F with short term flexibility to meet JBS's immediate requirements, it is likely the Financiers will no longer provide the Uncommitted Funds when the Finance Facilities come up for renewal in August 2020.

Below we provide a summary of the Finance Facilities based on the executed Facilities Deed of Amendment and original Finance Facilities agreement.

- Working Capital Facility A\$187.5 million committed, with the potential to increase to a maximum of A\$233 million subject to a corresponding increase in the Guarantee and approval by RFF and the Financiers. The key terms are as follows:
 - For working capital purposes relating to the purchase of cattle and costs associated with the management of those cattle and the refinancing of existing debt facilities;

Refer to section 1.3 for the terms of the Cattle Agreements.
 Should J&F increase its Finance Facilities to the maximum amount of A\$333 million, this would correspond with a A\$100 million cash advance facility and a A\$233 million working capital facility.

As at the date of this report, the working capital facility limit has been increased from A\$170.0 million to A\$187.5 million. In addition, the

Financiers have agreed to provide an uncommitted A\$25 million under the working capital facility ("Uncommitted Funds"). Following the Proposed Transaction, the cash advance facility will increase from A\$75.0 million to A\$82.5 million.

- A facility term of two years from inception in August 2018, and ending August 2020.
- Interest rate is based on a combination of the Bank Bill Swap Bid Rate ("BBSY") and an additional margin.
- An initial establishment fee for the facility and an unused fee payable on the undrawn portion of facility (excluding the Uncommitted Funds).
- Security in the form of the General Security Agreement in respect of the assets and undertakings of J&F.
- The facility drawdown may not exceed 80% of receivables, 85% of inventory (cattle) relating to sales of inventory to JBS and 70% of the value of cash held in a collection account plus 50% of feed costs. Receivables may not be more than 30 days overdue.
- If the Proposed Transaction is not approved, the committed working capital facility limit will revert back to A\$170 million, from \$187.5 million.
- Cash Advance Facility A\$82.5 million committed, with the potential to increase the limit to
 A\$100 million subject to a like-for-like increase in the Guarantee and approval by RFF and the
 Financiers. The key terms of which are as follows:
 - A facility term of two years from inception in August 2018, and ending August 2020.
 - Interest rate is based on a combination of the BBSY and an additional margin.
 - An initial establishment fee for the facility and an unused fee payable on the undrawn portion of the facility.
 - If the Proposed Transaction is not approved, the cash advance facility limit will remain at A\$75 million.
 - Security in the form of:
 - $\circ\quad$ The Guarantee, which applies only for this facility.
 - A General Security Agreement in respect of the assets and undertakings of J&F ("Secured Assets").

Key terms of the Guarantee are as follows:

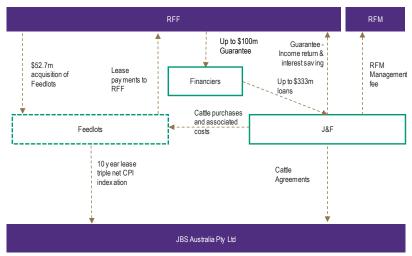

- The term is 10 years to 2028, in line with the Cattle Agreements (the expectation is that the above Finance Facilities will extend over the duration of the Cattle Agreements).
- Guarantee Fee effectively a sliding rate depending on the balance of the facility above
 A\$238.3 million adjusted for any cash held as collateral, less insurance costs, interest costs and
 less a sliding management fee paid to RFM of 1.05% calculated on the Guarantee ("RFM
 Management Fee"). We note that the maximum RFM Management Fee is 1.05%, assuming the

Cash Advance Facility is fully drawn. The minimum RFM Management Fee is 0.91% of the Guarantee amount.

Second ranking security behind the Financiers on the Secured Assets of J&F.

On the following page, we provide a summary of the arrangements between RFF, J&F, JBS and RFM following the Proposed Transaction. We note that Non-Associated Unitholder approval is only being sought in relation to the increase in the Guarantee from A\$75 million to a maximum of A\$100 million.

The following diagram summarises the arrangements:

Source: Management

Purpose of the report

Chapter 10 of the ASX Listing Rules requires the approval from the non-associated unitholders, if the company proposes to acquire or dispose of a substantial asset from a related party or a substantial holder. Under ASX Listing Rule 19, the definition of 'disposal' includes using an asset as collateral.

Section 208 of Chapter 2E of the Corporations Act requires a company to seek security holder approval before giving a financial benefit to a related party unless an exception applies.

Given J&F is a wholly-owned subsidiary of RFM and RFM is the responsible entity of RFF and hence a related party, the granting of a second ranking security over the assets of J&F for the Guarantee to the sum of A\$100 million is considered as a disposal of a substantial asset to a related party. Further, the payment of the Guarantee Fee by J&F to RFF constitutes the provision of a financial benefit to a related party.

Accordingly, the independent directors of RFM ("Independent Directors"), as responsible entity of RFF, have commissioned Grant Thornton Corporate Finance Pty Ltd ("Grant Thornton Corporate

Finance") to provide an independent expert's report ("Report") to assess whether the granting of the Security and the terms of the Guarantee are fair and reasonable to the Non-Associated Unitholders for the purposes of Chapter 10 of the ASX Listing Rules and Chapter 2E of the Corporations Act (respectively).

Summary of opinion

Grant Thornton Corporate Finance has concluded that the granting of the Security and the terms of the Guarantee are FAIR AND REASONABLE to the Non-Associated Unitholders.

Fairness Assessment

In forming our opinion in relation to the fairness of the Guarantee, Grant Thornton Corporate Finance has had regard to the position of RFF as it holds the Security. In this regard, should the Financiers call on the Guarantee (in the event of default by J&F), RFF will be required to pay to the Financiers up to A\$100 million. RFF will then seek to recoup this money from the sale of the J&F assets.

We have assessed the granting of the Security as **FAIR** to the Non-Associated Unitholders after considering the following:

- If RFF call upon the Security, the disposal of the Secured Assets are required to be dealt with in
 a manner which attempts to realise market value as at the time of the sale having regard to the
 state of the assets at that time.
- RFF will only receive a maximum amount equal to the total amount owing under the Guarantee.

In considering the fairness of the terms of the Guarantee, we have compared the terms of the Guarantee to other forms of financing including convertible notes and equity. In considering the other forms of financing, we have had regard to the position held by RFF, given the Guarantee holds a second ranking security over the Secured Assets and is therefore comparable to alternative financing arrangements such as convertible notes or equity.

We have concluded that the terms of the Guarantee are FAIR after considering the following:

- Should J&F default, the Financiers will have first access to any sale proceeds from the sale of assets to extinguish its working capital facility loan⁸ plus any associated costs. The Financiers would also require RFF to provide the A\$100 million under the Guarantee. RFF would then be able to exercise its rights under the Guarantee. Given RFF will need to provide funding to the Financiers on default and await the clearance of the Financiers claims on any sale proceeds, the Guarantee's security position is similar to alternative financing arrangements such as convertible notes or an equity arrangement. Accordingly, we have compared the terms of the Guarantee to similar riskier financing arrangements including the cost of equity.
- The Guarantee Fee rate is within the range of comparable financing alternatives observed for such a facility and comparable to our assessed cost of equity for an operation such as J&F.

⁸ Assuming J&F is able to increase its Finance Facilities debt limit to A\$333 million, the maximum amount that would be owing on the working capital facility is A\$233 million.

Reasonableness Assessment

ASIC RG111 establishes that an offer is reasonable if it is fair. Given that our assessment of the granting of the Security is fair it is also reasonable. Notwithstanding this, we have considered the following advantages, disadvantages and other factors in relation to the Proposed Transaction, We note that in our Reasonableness Assessment, we have only considered the increase to the Finance Facilities and associated corresponding increase to the Guarantee, as well as any changes to the terms of these facilities. We have not considered the existing finance facilities or Guarantee as they are already in place.

Advantages

Increased income to RFF

The Guarantee Fee will be levied upon a potentially higher amount of debt drawn as the Finance Facilities will be expanded from A\$250 million to A\$275 million (excluding the Uncommitted Funds) with further headroom available to increase it to A\$333 million if required (subject to approval by the Financiers and RFF). Accordingly, this will increase RFF's income from the Guarantee Fee, as the fee will be levied on a higher Guarantee. While the increase in Guarantee does not require a transfer of cash, the higher Guarantee will increase the contingent liability on RFF's balance sheet.

Continued involvement of Australia's largest lot feeder and cattle processor

JBS will continue to be the lessee of the Feedlots and operate and manage the feedlots as usual. JBS is Australia's largest lot feeder and cattle processor with lease payments guaranteed by JBS' parent company, Baybrick Pty Ltd ("Baybrick"), which is a wholly-owned subsidiary of JBS S.A., the world's largest beef producer, leather processor, chicken producer and second largest pork and lamb producer (refer to Section 6.1). We note that Baybrick, Baybrick Landco Pty Ltd ("Landco")—a wholly-owned subsidiary of Baybrick—and JBS ("Guarantors") guarantee the obligations of JBS under the agreements, including the lease payments to RFF under the sale and leaseback arrangements for the Feedlots. While the Proposed Transaction will increase RFF's exposure to Baybrick, in FY18 Baybrick had net assets of A\$3.5 billion and generated a net profit of A\$26.6 million. Accordingly, the financial performance and financial position of Baybrick appears robust.

Increased exposure to growing international demand for beef

The higher Guarantee will allow J&F to increase its borrowings to purchase more cattle for sale to JBS at a time when international demand for beef is growing due to rising incomes in the developing world and Asia. Furthermore, global demand for beef is expected to outstrip global supply in the near term (in particular as African Swine Fever reduces the supply of pork and people switch to beef).

Greater sector and geographical diversification

The Proposed Transaction will increase RFF's exposure to the cattle sector which is forecast to account for 30% of portfolio revenues in FY20. Currently, RFF forecasts 45% of FY20 revenues will be generated from RFF's almond assets. Accordingly, the additional revenues generated as a result of the increased Guarantee and debt facilities should improve asset diversification and reduce RFF's high exposure to its almond assets, which has increased following the recent sale of RFF's poultry assets.

Disadvantages

Increased counterparty risk

The Feedlots are leased to JBS and income from the Guarantee is derived from the Cattle Agreements between J&F and JBS. There is a risk that JBS or its parent company defaults on its financial or operational lease obligations to RFF. Any financial default would reduce RFF's revenue. its ability to meet its debt obligations and pay unitholder distributions. An operational default by JBS may require RFF to meet operating obligations until a new lessee is contracted. Furthermore, new purchasers would need to be identified and agreements entered into for the sale of the cattle from the Feedlots.

In 2017, JBS' owners have been convicted of bribery and other similar charges in relation to activities associated with the Brazilian government. It was reported that JBS' holding company and its founders are required to pay A\$5.4 billion in fines over a period of 25 years. The scandals and resulting fines could potentially have an impact on JBS's reputation, business, financial condition and prospects. A default by JBS may require RFF to meet operating obligations until a new lessee is contracted. In the case of default by JBS, the health or quality of the feedlots may be adversely affected.

Early termination of Guarantee and/or Finance Facilities and interest rate risk

The Guarantee has a term of 10 years from commencement in August 2018. Under the arrangements between RFF and JBS, JBS has a call option over the Feedlots allowing it to reacquire the Feedlots from RFF between year six and year ten ("Call Option"), upon which point in time RFF may elect to terminate the Guarantee. If JBS exercises the Call Option, the arrangements between JBS, J&F and RFF would cease resulting in a shorter investment timeframe for RFF.

J&F currently funds the operations of the Feedlots (primarily the acquisition of cattle) using the Finance Facilities, which are due to expire in a few months' time in August 2020. While it is likely that the Finance Facilities will be renewed, there is no guarantee that they will be available for the remaining term of the Guarantee. If funding is not available, J&F has the right to terminate the Cattle Agreements. Furthermore, the terms of the Finance Facilities, including the interest charged to J&F could change upon renewal, although the interest rate risk is borne by JBS under the Cattle Agreements with J&F.

Mortalities and insurance costs

All Feedlots are stocked with cattle that are owned by J&F with JBS managing the cattle operations. JBS bears responsibility of mortalities, up to a certain level, and beyond this RFM mitigates the

mortality risk through insurance. While RFM intends to maintain insurance over the period of the lease, there may be certain instances and circumstances (such as specific diseases) that may not be covered by the insurance policy. In addition, the cost of insurance may vary over the life of the lease, with any increase/decrease to the cost of the policy resulting in a corresponding decrease/increase in the Guarantee Fee paid to RFF.

Other factors

The implications if the higher Guarantee is not approved

The sale and leaseback of the Feedlots executed in July 2018 include the Call Option held by JBS to buy back the Feedlots, and a put option held by RFF to sell the feedlots to JBS. Both options can be exercised at year 10 for the original purchase price indexed at CPI9. However, the sale agreement includes a provision that the Call Option held by JBS can be exercised from year 6, although JBS will incur a break fee of circa A\$2 million if exercised before year 10.

If the higher Guarantee is not approved, J&F will not be able to increase its debt facility limit and accordingly J&F will not be able to increase the value of the cattle in the Feedlots to meet JBS' requirements. As such, JBS may look for other funding sources to meet its requirements or potentially, seek to exercise their call option after August 2024, and either look for a replacement for J&F or manage the facility themselves.

Under this scenario, RFF would be forced to sell the Feedlots back to JBS, resulting in a loss of income.

Independent Directors' recommendations and intentions

In the absence of a superior proposal and subject to the Independent Expert's opinion that the higher Guarantee is fair and reasonable, the Independent Directors unanimously recommend that all Non-Associated Unitholders vote for the Guarantee.

Reasonableness conclusion

Based on the qualitative and qualitative factors identified above, it is our opinion that the Guarantee is REASONABLE to the Non-Associated Unitholders.

Overall conclusion

After considering the abovementioned quantitative and qualitative factors, Grant Thornton Corporate Finance has concluded that the Guarantee is FAIR AND REASONABLE to the Non-Associated Unitholders.

Consumer	Price	Index.	

Other matters

Grant Thornton Corporate Finance has prepared a Financial Services Guide in accordance with the Corporations Act. The Financial Services Guide is set out in the following section.

The decision of whether or not to vote in favour of the Guarantee is a matter for each Non-Associated Unitholder to decide based on their own views of the Guarantee, the value of the Feedlots, the value of RFF and expectations about future market conditions, RFF's performance, risk profile and investment strategy. If Non-Associated Unitholders are in doubt about the action they should take in relation to the Guarantee, they should seek their own professional advice.

Yours faithfully GRANT THORNTON CORPORATE FINANCE PTY LTD

ANDREA DE CIAN Director

JANNAYA JAMES Director

27 February 2020

Financial Services Guide

Grant Thornton Corporate Finance Pty Ltd

Grant Thornton Corporate Finance carries on a business, and has a registered office, at Level 17, 383 Kent Street, Sydney NSW 2000. Grant Thornton Corporate Finance holds Australian Financial Services Licence No 247140 authorising it to provide financial product advice in relation to securities and superannuation funds to wholesale and retail clients.

Grant Thornton Corporate Finance has been engaged by RFM to provide general financial product advice in the form of an independent expert's report in relation to the Guarantee. This Report is included in the Notice of Meeting to the Non-Associated Unitholders of RFF.

2 Financial Services Guide

This Financial Services Guide ("FSG") has been prepared in accordance with the Corporations Act, 2001 and provides important information to help retail clients make a decision as to their use of general financial product advice in a report, the services we offer, information about us, our dispute resolution process and how we are remunerated.

General financial product advice

In our Report we provide general financial product advice. The advice in a report does not take into account your personal objectives, financial situation or needs.

Grant Thornton Corporate Finance does not accept instructions from retail clients. Grant Thornton Corporate Finance provides no financial services directly to retail clients and receives no remuneration from retail clients for financial services. Grant Thornton Corporate Finance does not provide any personal retail financial product advice directly to retail investors nor does it provide market-related advice directly to retail investors.

4 Remuneration

When providing the Report, Grant Thornton Corporate Finance's client is RFF. Grant Thornton Corporate Finance receives its remuneration from RFF. In respect of the Report, Grant Thornton Corporate Finance will receive from RFF a fee of A\$54,000 (plus GST) which is based on commercial rates, plus reimbursement of out-of-pocket expenses for the preparation of the Report. Our directors and employees providing financial services receive an annual salary, a performance bonus or profit share depending on their level of seniority.

Except for the fees referred to above, no related body corporate of Grant Thornton Corporate Finance, or any of the directors or employees of Grant Thornton Corporate Finance or any of those related bodies or any associate receives any other remuneration or other benefit attributable to the preparation of and provision of this Report.

5 Independence

Grant Thornton Corporate Finance is required to be independent of RFM in order to provide this Report. The guidelines for independence in the preparation of independent expert's reports are set out in RG 112 Independence of expert issued by ASIC. The following information in relation to the independence of Grant Thornton Corporate Finance is stated below.

"Grant Thornton Corporate Finance and its related entities do not have at the date of this Report, and have not had within the previous two years, any shareholding in or other relationship with RFM (and associated entities) that could reasonably be regarded as capable of affecting its ability to provide an unbiased opinion in relation the Guarantee.

Grant Thornton Corporate Finance has no involvement with, or interest in the outcome of the Guarantee, other than the preparation of this Report.

Grant Thornton Corporate Finance will receive a fee based on commercial rates for the preparation of this Report. This fee is not contingent on the outcome of the Guarantee. Grant Thornton Corporate Finance's out of pocket expenses in relation to the preparation of the Report will be reimbursed. Grant Thornton Corporate Finance will receive no other benefit for the preparation of this Report.

Grant Thornton Corporate Finance considers itself to be independent in terms of RG 112 "Independence of expert" issued by the ASIC."

6 Complaints process

Grant Thornton Corporate Finance has an internal complaint handling mechanism and is a member of the Financial Ombudsman Service (membership no. 11800). All complaints must be in writing and addressed to the Chief Executive Officer at Grant Thornton Corporate Finance. We will endeavour to resolve all complaints within 30 days of receiving the complaint. If the complaint has not been satisfactorily dealt with, the complaint can be referred to the Financial Ombudsman Service who can be contacted at:

Financial Ombudsman Service Limited GPO Box 3

Melbourne, VIC 3001 Telephone: 1800 367 287

Grant Thornton Corporate Finance is only responsible for this Report and FSG. Complaints or questions about the General Meeting should not be directed to Grant Thornton Corporate Finance. Grant Thornton Corporate Finance will not respond in any way that might involve any provision of financial product advice to any retail investor.

7 Compensation arrangements

Grant Thornton Corporate Finance has professional indemnity insurance cover under its professional indemnity insurance policy. This policy meets the compensation arrangement requirements of section 912B of the Corporations Act, 2001.

Background to the Proposed Transaction

1.1 Brief overview of the parties involved

Rural Funds Management Limited

RFM is responsible for managing two listed funds (including RFF) and two unlisted funds, with A\$1.2 billion in assets under management across NSW, QLD, SA and VIC as at December 2019. RFM is headquartered in Canberra, with offices in Sydney, regional NSW and Queensland.

RFM's largest fund under management, RFF, is an ASX-listed real estate investment trust. RFF owns a A\$946 million portfolio of diversified agricultural assets including almond and macadamia orchards, vineyards, water entitlements, cattle and cotton assets, all under lease.

RFM is the responsible entity for Rural Funds Trust, which is the party to the Sale and Leaseback of the Feedlots and relevant land contracts.

Baybrick Pty Limited and JBS Australia Pty Ltd

Baybrick is a wholly owned subsidiary of JBS S.A., a company that is listed on the Sao Paolo Stock Exchange. Baybrick is the parent company of 26 subsidiaries, including JBS. The group specialises in meat packing and supplying grain and pasture fed meats to customers in Australia and overseas.

JBS' Australian operations comprise 10 processing facilities and 12,000 employees, supplying beef, pork, lamb and mutton. JBS has a daily processing capacity of 8,000 cattle and 21,000 smallstock.

JBS is the entity responsible for the ongoing management of the Feedlots.

Baybrick Landco Pty Ltd ("Landco"), Baybrick and JBS ("Guarantors") are detailed as guaranteeing JBS' obligations under the transaction.

J&F Australia Pty Ltd

J&F, a party associated with JBS, supplies JBS with cattle, feed and associated services used to stock the Feedlots. RFM owns 100% of J&F, the party to the Cattle Agreements with JBS.

J&F has entered into the Finance Facilities used to stock the Feedlots and has entered into the Guarantee with RFF. Following the Proposed Transaction, the Guarantee will increase from A\$75 million to A\$82.5 million, with headroom to increase it further to A\$100 million.

1.2 Overview of the sale and leaseback agreement

The Feedlots incorporate a Sale and Leaseback Agreement between RFF and JBS, outlined as follows:

- RFF acquired five feedlots from JBS for \$52.7 million (inclusive of stamp duty, excluding GST)
- RFF leased the feedlots back to JBS. The Sale and Leaseback arrangement comprises the Contracts of Sale, Warranty Deed, Lease Agreements, Water Rights Call Option Deeds (Prime City and Riverina) and Financial Agreements.
- The following terms apply to the Sale and Leaseback arrangement:

- Lease term is approximately 10 years from commencement date;
- Rent is calculated on the CPI and capital expenditure adjusted property capital base with monthly advancements;
- The capital base is indexed according to CPI annually; and
- A cash deposit amounting to six months' rent is payable to RFF as security.
- The Warranty Deed outlines vendor warranties pertaining to JBS and Baybrick, including appropriateness of information disclosed to RFM and RFT.
- The Water Rights Call Option Deeds, pertaining to Riverina and Prime City feedlots, whereby JBS granted call options to RFF to acquire the water rights to the respective feedlots, commenced on the same day as the associated lease.
- JBS is responsible for the management of the feedlots (the terms of this are dealt with via the "Cattle Agreements").
- A put and call option will link the Sale and Leaseback with the Cattle Agreements. Should the Cattle Agreements be terminated for any reason, RFF has the right to sell and JBS has the right to buy the Feedlots, and associated rights and licences, back at the CPI and capital expenditure adjusted capital base. JBS may exercise the call option 60 months after commencement of the lease. If the Cattle Agreements are terminated a break fee of \$2 million is payable to RFF reducing to zero from year 6 to year 10.

Below is a summary of the acquired Feedlots:

Feedlot	Location	Facilities	Capacity (head)	Other notes
Beef City	Near Toowoomba, SE Queensland	Processing plant and feedlot	Feedlot - 26,500 Processing ¹⁰ - 1,092 per day	800 hectare feedlot. Specialised grain fed processing facility.
Caroona	Near Quirindi, Liverpool Plains (NSW)	Feedlot	Feedlot - 23,500	1,390 hectare site - irrigated and dry land farming, supplies feed into on-site storages. Feeder cattle sourced throughout central New South Wales.
Mungindi	Near Mungindi, Western Darling Downs(QLD)	Feedlot	Feedlot - 12,000	400 hectare feedlot.
Prime City	Near Griffith in the Riverina.	Feedlot	Feedlot - 35,000	6,200 hectare feedlot and grain processing facility with three steam flaking mills and 24- hour steeping capacity. Supplies all roughage required by the feedlot water supply and large on-site water storage

¹⁰ The processing plant at Beef City and Riverina Beef are not part of the Feedlots transaction.

Riverina Beef (yet to settle) Near Yanco, New Processing plant and feedlot South Wales.	Feedlot - 2,000 hectare property with catt throughout SA. The site include faming land with irrigation rough	s fertile

1.3 Cattle Agreements

The following agreements underpin the Sale and Leaseback agreement:

- Cattle Purchase and Sale Agreement ("CPSA"); and
- The Cattle Management Services and Feeding Agreement ("CMSFA").

The above agreements (collectively the "Cattle Agreements") are linked interdependently both to one another and the Sale and Leaseback agreements. The CMSFA ensures that the cattle purchased under the CPSA can be fed and grown until the subsequent cattle sale, and the cattle will be grown on the feedlots leased by JBS under the Sale and Leaseback agreement.

1.4 Cattle Purchase & Sale Agreement

Terms of the agreement

The CPSA details the agency agreement between J&F (following the novation from RFM) and JBS, whereby JBS is proposed to both source and sell cattle on J&F's behalf.

The CPSA is structured as follows:

- The two parties are JBS and J&F (following the novation from RFM).
- JBS acts as agent to purchase cattle on J&F's behalf in order to populate the Feedlots. Once the cattle is ready to be sold on, JBS either purchases the cattle from J&F or arranges for their sale to a third party.
- The cattle in the feedlots is owned by J&F. J&F and its Financiers have registered a Personal Properties Securities Act ("PPSA") interest in all cattle owned by J&F ("J&F Cattle"). This includes J&F Cattle held on the Feedlots and any J&F Cattle on alternative sites agreed between J&F and JBS.
- JBS is responsible for feedlot and cattle management, including refusing to accept cattle deliveries exhibiting symptoms of disease or poor health.
- J&F is entitled to access and inspect the Feedlots, as well as test and observe treatment of cattle.
- Minimum headcount of J&F owned, JBS managed, cattle is to be 100,000 at any given point in time, although JBS is restricted to a maximum purchase of 180,000. JBS is also required to provide a fortnightly forecast of all proposed purchases in the upcoming two weeks. Exceeding this maximum purchased headcount will not constitute a default, instead J&F and JBS will discuss how to rectify this and mitigate going forward.

¹¹ The processing plant at Beef City and Riverina Beef are not part of the Feedlots transaction.

- JBS purchases the finished cattle from J&F under an agreed cost plus a margin arrangement.
- A monthly true up adjustment is drawn up to compare actual costs incurred by JBS against an expected return on equity by J&F. Should the return on equity exceed the actual costs, JBS will pay this difference to J&F. Should the actual costs exceed the return on equity, J&F will issue a credit note
- J&F is responsible for all mortalities exceeding 5% of cattle, with the exception of devastating causes (such as an epidemic) outside either parties control, in which case J&F will bear the cost of mortalities up to 15% of all cattle.
- The Cattle Purchase and Sale Agreement term is 10 years from commencement.
- The agreement may be terminated by J&F with 120 days' notice in the event of bank facility termination by the Financiers. J&F will be required to pay JBS a penalty of \$500,000 (net of GST) in the event that the termination is due to a deterioration in J&F's credit rating or any other reason within J&F's reasonable control.
- Should the CPSA terminate, the CMSFA will terminate simultaneously.

1.5 Cattle Management Services and Feeding Agreement

1.5.1 Terms of the agreement

The CMSFA is between JBS and J&F, whereby JBS will be responsible for managing the cattle.

- The lease term is 10 years unless it is terminated earlier by either party.
- JBS is responsible for all of the responsibilities involved in running the Feedlots and caring for the cattle, including the following:
 - Compliance with all appropriate laws, including environmental and employment;
 - Maintaining feedlot accreditation with the National Feedlot Accreditation Scheme ("NFAS") for all of the Feedlots;
 - Paying any applicable government levies in respect of the Feedlots and J&F Cattle;
 - Retaining detailed cattle records, including tagging cattle with National Livestock Identification System ("NLIS") accredited ear tags;
 - Providing and filing returns in relation to the J&F Cattle on the Feedlots, as required, to any
 - Discretion of reasonable disposal of non-performing cattle to third parties and report this to J&F.
- J&F will retain title to all cattle in the Feedlots under the CPSA, and is entitled to register this pursuant
- J&F will have the right to access the feedlots in which J&F Cattle are held to inspect the feedlots and the cattle.

 If J&F terminates the agreement without cause, it will be liable to pay JBS \$2 million (GST exclusive) as damages for early termination.

1.5.2 Costs to J&F

J&F will pay JBS on a weekly basis for managing the Feedlots. The charges to be paid by J&F to JBS in relation to growing the cattle under the CMSFA are calculated based on the following:

- Administration and yardage cost per head of cattle at agreed rates; and
- Induction, processing, medicine and feed at cost.

1.6 Side Deed

The Side Deed summarises the interlinked agreements pertaining to the Feedlots and to provide for circumstances that will arise upon termination of the contracts. It details the following agreements between JBS, RFM as responsible entity for RFT, RFM and Baybrick and Landco. The entities JBS, Landco and Baybrick are also referred to as the "Guarantors" and will guarantee the lease obligations of JBS.

The agreements detailed in the Side Deed (collectively referred to as the "Transaction Documents") are:

- Land Contracts for the sale of the Feedlots;
- · Leases to be entered into for the leaseback of the Feedlots;
- The Financial Agreement pertaining to the commercial terms of the Leases;
- The Cattle Agreements; and
- The Side Deed.

Key terms of the Side Deed are as follows:

The term is aligned to the Cattle Agreements, and commenced when the Cattle Agreements commenced and terminates on the termination of the Cattle Agreements;

- The Side deed takes precedence over the Transaction Documents;
- If any of the Land Contracts are not completed and/or the Leases are not entered into within 12
 months then, unless otherwise agreed between the parties, that particular Land Contract and/or the
 Lease will not proceed, however, it will have no effect on the remainder of the Transaction
 Documents. Should the parties be unable to bring the Land Contracts to completion, the relevant
 owner of the property will retain title and RFM will have no further rights or obligations thereon.
- The termination of the Cattle Agreements will, unless negotiated otherwise between the parties, terminate simultaneously for all of the Leases, any Land Contract not yet completed and no further purchases of cattle are to occur and J&F have the right to sell any cattle not sold within 120 days.
- Should the assets of Baybrick (as guarantor) change materially, JBS must replace this with an entity satisfactory to all parties.

- The Guarantors have irrevocably and unconditionally Guaranteed the performance of JBS' obligations to J&F under the Transaction Documents.
- Baybrick has indemnified J&F against any loss or damage incurred by J&F as a result of JBS or Baybrick not performing their obligations under the Transaction Documents.

1.7 Guarantee Agreement

The agreement pertains to the following parties:

- J&F; and
- RFM as trustee and responsible entity for RFT.

J&F has arranged the Finance Facilities with the Financiers:

- A\$187.5 million working capital loan plus A\$25 million in Uncommitted Funds and a A\$5 million overdraft facility;
- A\$82.5 million cash advance facility.

As part of the security for the Finance Facilities, RFF will provide a Bank Guarantee to the Financiers. In exchange for the Bank Guarantee, RFF will enter into the Guarantee with J&F. The key terms of the Guarantee are as follows:

- A 10 year term (the expectation is that the Finance Facilities will extend throughout the Cattle Agreements' 10 year duration);
- A sliding fee 12 (less adjustments) will be payable to RFF by J&F ("Guarantee Fee") at an agreed rate of between 9.68% and 11.21% ("Guarantee Fee Coupon Rate")¹³. The adjustments deducted from the Guarantee Fee Coupon Rate include insurance costs and J&F interest on the Cash Advance Facility.
- RFF will hold second ranking security over J&F assets behind the Financiers; and
- J&F is required to maintain adequate, comprehensive insurance over the livestock throughout the agreement term. This includes J&F bearing the associated costs of the insurance.

Effect of the Guarantee

If the Proposed Transaction is approved, then, subject to Non-Associated Unitholder approval, the Guarantee is expected to be immediately increased to A\$82.5 million in April 2020 with potential to increase up to A\$100 million.

¹² Based on the facility balance

¹³ We note the Guarantee Fee Coupon Rate is net of an amount of between 1.05% and 0.91% (depending on the level of the Guarantee) which is paid to RFM.

2 Purpose and scope of the report

2.1 Purpose

Chapter 10 of the ASX Listing Rules

ASX Listing Rule 10.1 requires the approval from the non-associated shareholders of a company if the company proposes to acquire or dispose a substantial asset from a related party or a substantial holder.

ASX Listing Rule 10.2 states that an asset is substantial if its value, or the value of the consideration, is 5% or more of the equity interest of the entity as set out in the latest financial statement provided to the ASX.

Under ASX Listing Rule 19, the definition of 'disposal' includes using an asset as collateral. It is noted that J&F is a wholly owned subsidiary of RFM which is the responsible entity for RFF, and therefore a related party pursuant to ASX Listing Rule 19. Whilst the Security is second ranking to the Financiers, subject to the Financiers providing consent, RFF may exercise its right in relation to the Guarantee and potentially effect the sale of the Secured Assets.

As a result, the granting of the Security under the Guarantee is considered a disposal of material assets to a related party. Whilst the Security is second ranking to the Financiers, subject to the Financiers providing consent, RFF may exercise its right in relation to the Guarantee and potentially effect the sale of the Secured Assets.

The Guarantee is to provide security for the Cash Advance Facility. The secured amount of up to A\$100 million represents 19.0%14 of the equity interests of RFF. The Guarantee is therefore a "substantial asset" of RFF, given it exceeds 5% of the equity interest in RFF.

ASX Listing Rule 10.5.10 requires that the Notice of Meeting and Explanatory Memorandum be accompanied by a report from an independent expert stating whether the transaction is fair and reasonable to the non-associated unitholders.

Chapter 2E of the Corporation Act

Section 208 of Chapter 2E of the Corporations Act requires a company to seek shareholder approval before giving a financial benefit to a related party unless the benefit falls within an exception provided for in section 210 of the Corporations Act.

Regulatory Guide 76 "Related party Transactions" ("RG 76") states that it is necessary for entities to include a valuation from an independent expert with a notice of meeting for member approval under Chapter 2E of the Corporations Act where:

- The financial benefit is difficult to value.
- The transaction is significant from the point of view of the entity (see RG 76.112).
- The independent directors do not have the expertise or resources to provide independent advice to members about the value of the financial benefit.

¹⁴ Based on the net assets as at 30 June 2019

Accordingly, the Independent Directors have requested Grant Thornton Corporate Finance to prepare an independent expert's report stating, whether in its opinion the Guarantee is fair and reasonable to the Non-Associated Unitholders under the requirements of Listing Rule 10 and Chapter 2E of the Corporations Act.

2.2 Basis of assessment

Grant Thornton Corporate Finance has had regard to Australian Securities and Investments Commission ("ASIC") Regulatory Guide 111 Contents of expert reports ("RG 111") and Regulatory Guide 76 Related party transactions ("RG 76"). RG 76 largely refers to RG 111 in relation to the approach to related party

RG 111 establishes certain guidelines in respect of independent expert's reports prepared for the purposes of the Corporations Act. RG 111 is framed largely in relation to reports prepared pursuant to Section 640 of the Corporations Act and comments on the meaning of "fair and reasonable" in the context of a takeover offer. RG 111 also regulates independent expert's reports prepared for related party transactions in clauses 52 to 63.

We note that RG 111 clause 56 states the following:

RG 111.56 Where an expert assesses whether a related party transaction is 'fair and reasonable' (whether for the purposes of Chapter 2E or ASX Listing Rule 10.1), this should not be applied as a composite test that is, there should be a separate assessment of whether the transaction is 'fair' and 'reasonable', as in a control transaction. An expert should not assess whether the transaction is 'fair and reasonable' based simply on a consideration of the advantages and disadvantages of the proposal, as we do not consider this provides members with sufficient valuation information (See Regulatory Guide 76 Related party transactions (RG 76) at RG 76.106-RG 76.111 for further details).

Accordingly, in the consideration of the Guarantee, the expert should undertake a separate test of the fairness and then analyse the advantages and disadvantages for the Non-Associated Unitholders.

RG 111 notes that a related party transaction is:

- Fair, when the value of the financial benefit being offered by the entity to the related party is equal to or less than the value of the assets being acquired.
- Reasonable, if it is fair, or, despite not being fair, after considering other significant factors, Unitholders should vote in favour of the transaction.

We have assessed the fairness of the terms of the Guarantee in addition to the granting of the Security as detailed below:

- We have assessed the fairness of the granting of the Security by completing a comparison between the proceeds from the sale of the Secured Assets under the Security which would be provided to RFF and the value of the outstanding liability which would be owing to RFF in the event of a default.
- When assessing the fairness of the Guarantee we have compared the key terms of the Guarantee to alternative financing sources (such as equity and convertible notes) to ensure the terms of the Guarantee are fair to the Non-Associated Unitholders and no net financial benefits are accrued to RFM

In considering whether the Guarantee is reasonable to the Non-Associated Unitholders, we have considered a number of factors, including:

- Whether the Guarantee is fair.
- The implications to the Non-Associated Unitholders if the Additional Guarantee is not approved.
- Other likely advantages and disadvantages associated with the Additional Guarantee as required by
- Other costs and risks associated with the Guarantee that could potentially affect the Non-Associated Unitholders.

2.3 Independence

Prior to accepting this engagement, Grant Thornton Corporate Finance considered its independence with respect to the Guarantee with reference to the ASIC Regulatory Guide 112 Independence of experts ("RG 112").

Grant Thornton Corporate Finance has no involvement with, or interest in, the outcome of the approval of the increase to the Guarantee other than that of an independent expert. Grant Thornton Corporate Finance is entitled to receive a fee based on commercial rates and including reimbursement of out-of-pocket expenses for the preparation of this Report.

Except for these fees, Grant Thornton Corporate Finance will not be entitled to any other pecuniary or other benefit, whether direct or indirect, in connection with the issuing of this Report. The payment of this fee is in no way contingent upon the success or failure of the Guarantee.

2.4 Consent and other matters

Our Report is to be read in conjunction with the Notice of Meeting and Explanatory Memorandum dated on or around April 2020 in which this Report is included, and is prepared for the exclusive purpose of assisting Non-Associated Unitholders in their consideration of the Guarantee. This Report should not be used for any other purpose.

Grant Thornton Corporate Finance consents to the issue of this Report in its form and content and consents to its inclusion in the Notice of Meeting and Explanatory Memorandum.

This Report constitutes general financial product advice only and in undertaking our assessment, we have considered the likely impact of the Guarantee to Non-Associated Unitholders as a whole. We have not considered the potential impact of the Guarantee on individual Non-Associated Unitholders. Individual Unitholders have different financial circumstances and it is neither practicable nor possible to consider the implications of the Guarantee on individual Unitholders.

The decision of whether or not to approve the Guarantee is a matter for each Non-Associated Unitholder based on their views of the advantages and disadvantages of the Guarantee. If Non-Associated Unitholders are in doubt about the action they should take in relation to the Guarantee, they should seek their own professional advice.

2.5 Compliance with APES 225 Valuation Services

This Report has been prepared in accordance with professional standard APES 225 "Valuation Services" issued by the Accounting Professional & Ethical Standards Board. In accordance with APES 225 there are three types of engagements:

- A valuation engagement, which is defined as an engagement where the valuer is free to choose the valuation approaches, methods and procedures as appropriate to the circumstances. The estimate of value that results is a conclusion of value.
- A limited scope valuation engagement, which is defined as an engagement where the scope of work is limited or restricted. The estimate of value that results is a conclusion of value.
- A calculation engagement, defined as an engagement where the valuer and the engaging party agree on the valuation approaches, methods and procedures that the valuer will employ. The estimate of value that results is a calculated value.

We advise that this assignment is a Valuation Engagement as defined by that standard as follows:

"An Engagement or Assignment to perform a Valuation and provide a Valuation Report where the Member is free to employ the Valuation Approaches, Valuation Methods, and Valuation Procedures that a reasonable and informed third party would perform taking into consideration all the specific facts and circumstances of the Engagement or Assignment available to the Member at that time."

Profile of the Australian feedlot industry

3.1 Introduction

A cattle feedlot is a managed facility providing a grain-fed diet sufficient such that beef is produced to a consistent quality and quantity. Feedlot cattle (or feeders) are purchased from pasture farmers, raised on feedlots and then processed by domestic downstream meat processors and sold to domestic and export markets. According to Australian Lot Feeders Association ("ALFA"), the average period cattle spend in a feedlot is between 50-120 days / 10-15% of their lifespan.

In 2019, the cattle feedlot industry is expected to generate approximately A\$4.6 billion in revenues, up from A\$3.0 billion in 2014, representing a compound annual growth rate ("CAGR") of approximately 9.0%. The benefits of finishing cattle in feedlots are that cattle can be grown consistently when grazing land is of poor quality and/or reduced quantity, whilst affording greater control and flexibility in the production and marketing of livestock.

3.2 Market drivers

3.2.1 Demand for beef

The demand for Australian grain-fed beef is driven by the overall demand for beef both domestically and abroad. In Australia, approximately two-thirds of beef production is exported, and one-third is consumed domestically. The cattle feedlot sector is an important supplier, accounting for 40% of Australia's total beef supply and 80% of beef sold in major national supermarket chains. The domestic market is the largest market for grain-fed beef, however, domestic beef consumption is reducing due to the perceived health benefits of chicken over beef and the intensification of chicken production since the 1970s which has meant that price inflation for beef has far outstripped chicken. Consumption in developing nations (and China), however, is growing strongly as incomes rise leading to increased consumption per capita (albeit from a low base).

ndex

Australian beef exports (in particular to China) have been growing sharply in recent years.

Domestic and developing world beef consumption (Index: 2000 = 100)

Source: Australian Government Department of Agriculture

3.2.2 Weather

The industry can be heavily impacted by unusually wet or dry seasons.

Extremely dry weather reduces pastures, making it more difficult to feed and grow cattle. Demand for feedlots increases as the pastures deteriorate under dry conditions because the cattle need to be fed out to sell on (cattle is difficult to sell on in poor condition).

As the land is too dry for cows to graze on, supply of cattle to feedlots increases. This increased supply means that feeder cattle¹⁵ prices reduce for lotfeeders. However, prolonged periods of very dry weather makes it difficult to breed and raise cattle to the point where grass-fed cattle farmers are unable to sell them to feedlots which can actually increase prices of cattle (as availability reduces) in the long term.

Particularly dry conditions also reduce grain yield, and hence the availability of grain feed. This reduces the supply of grain which pushes prices upwards, not only in terms of the purchase of the feed, but also the associated freight.

Limited grain feed availability in northern Australia has previously cost feedlots \$100 per tonne to transport grain from southern Australia. Given grain is a considerable input cost, inflated grain prices can heavily impact margins.

During more favourable weather conditions, irrigated land means crops can be harvested and therefore reverses the grain feed price/supply issue. This weather also improves pasture conditions. Demand for feedlots during these periods reduces as farmers do not need to use feedlots to grow their cattle. As farmers are growing cattle on pastures, the supply of cattle to feedlots reduces, increasing feeder cattle prices.

3.2.3 Supply of feeder cattle

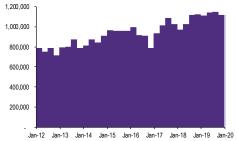

The ongoing drought has led to higher cattle turn-off¹⁶ rates which in turn has increased the number of cattle in feedlots. Across Australia there are ~450 accredited feedlots accommodating circa 1.1 million cattle. The following charts depict the growth of cattle in feedlots and the geographical concentration of feedlots. We note that the wet weather experienced across the eastern seaboard of Australia in February

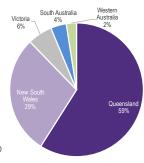

¹⁵ Feeder cattle are cattle that are mature enough to be placed in a feedlot where they are fattened prior to slaughter.
16 The turn-off rates refers to the rate that cattle are finished on a property and sold for processing or export.

2020 may reduce the supply of feeder cattle in future periods as farmers are able to finish their cattle on pasture. Below we provide an overview of the number of cattle in feedlots historically and their geographical diversification.

Number of cattle in feedlots

Geographical diversification of feedlot cattle (September 2019)

Source: ALFA

We note that much of the market's geographical location is dictated by the proximity to cattle and grain supplies to contain costs.

3.2.4 Prices

Over-the-hook ("OTH17") cattle prices have increased in recent years driven by strong export demand for grainfed beef from Asia. However, lotfeeders, while benefiting from higher OTH prices, have also experienced higher input costs in the form of feeder cattle prices (which make up two-thirds of input costs) and domestic feed grain prices (which account for approximately 30% of input costs). Domestic feed grain prices have been high in recent years due to the dry and hot weather conditions and resulting lower crop production. In the last three years crop production has been below the long term average (in particular the 2019-20 winter crop was the lowest in 12 years and 27% below the 10-year average¹⁸). Feeder cattle prices are also above long term averages (due to the strong demand from Asia for beef), despite trending down since 2016 when abundant rainfall pushed up prices for feeder cattle¹⁹.

OTH grain fed cattle prices and feeder steer prices

Source: Meat and Livestock Australia ("MLA").

¹⁷ Over-the-hook refers to the marketing of cattle/sheep/lambs directly from the farm to an abbatoir where a producer is paid for the value of the carcase based on a price grid. The weight of the processed carcase along with the carcase grade is used to determine the price.

18 Australian Bureau of Agricultural and Resource Economics ("ABARES") Australian Crop Report: December 2019.

¹⁹ Years with higher rainfall typically correspond with higher feeder cattle prices as farmers opt to finish cattle on pasture as opposed to selling them to lotfeeders, reducing the supply of feeder cattle.

3.2.5 Outlook

Industry revenue growth is expected to slow to a rate of 1.4% per annum over the next five years, with growth expected due to growing demand from Asia and a relatively low Australian dollar driving affordability of Australian grown beef in foreign markets. Furthermore domestic beef consumption is expected to continue reducing providing limited growth opportunities from the Australian market.

Forecasts from the Australian Bureau of Agricultural and Resource Economics ("ABARES") suggest domestic cattle prices are likely to increase in 2020 due to a reduction in cattle numbers (assuming a return to more normal seasonal conditions) because producers will likely reduce turn-off and begin herd rebuilding leading to a reduction in supply of cattle. This is supported by more favourable rainfall outlook from the Bureau of Meteorology and recent rains across the Eastern Seaboard of Australia. Furthermore. we note that the Indian Ocean Dipole ("IOD") reading has returned to neutral after one of the strongest positive IOD events in recent history which corresponded with warm and dry conditions at the end of 2019. The improved conditions and outlook should support a restocking of the national herd, and could lead to higher feeder cattle prices for lotfeeders.

International demand for beef is expected to outstrip global supply, and is in part being influenced by African Swine Fever (ASF) which is reducing pork production globally. China, in particular, is anticipated to be a key growth area as personal incomes continue to rise.

On the supply side, increased competition from the USA for beef sales into Asia may act to impede Australian beef export growth in the coming years. US production is forecast to grow as the US herd starts a cyclical decline leading to increased slaughter and higher beef production and exports. In 2020, beef exports are forecast to grow by circa 8%. In addition, under the recently signed trade agreement between the US and China, China has agreed to purchase US\$200 billion in additional goods (over 2017 export levels) in 2020 and 2021 from the USA, including US\$32 billion of agricultural goods (including beef). As a result, US beef producers may be favoured over Australian producers which may reduce (or slow the growth) in the demand for Australian Beef from China.

South America is expected to become a particularly competitive supplier to the global market with Australia's beef prices currently at a 50% premium and production increases in Brazil, Argentina and Paraguay expected to eventuate.

Ongoing consolidation in the sector is anticipated to reduce business numbers. Margins are also expected to drop slightly in the same period, as cost increases (driven by the national flock rebuild) are anticipated to catch up with feedlot cattle sale price growth.

3.2.6 Key players

There has been a declining number of businesses in the industry in recent years as competition from larger players sees smaller family owned feedlots being pushed out of the market or acquired by larger operators, due to price being the main competitive driver.

Notwithstanding this, the feedlot industry remains highly fragmented and the four key players account for 20% of industry revenue and comprise:

- JBS Australia Pty Ltd;
- Mort & Co Ltd:

- Teys Australia Pty Ltd; and
- Australian Country Choice Holdings Pty Ltd.

3.2.7 Barriers to entry

Significant initial capital costs in establishing or acquiring a feedlot is the main barrier to entering the feedlot industry. Given there is no alternative use for a feedlot, access to the level of finance required can

Ongoing regulation under the National Feedlot Accreditation Scheme is required which is both time consuming and costly, with annual audits undertaken to ensure strict compliance with legislation.

Environmental approvals are also required, as there is typically a high level of waste produced on site due to cattle feeding which can be detrimental to the surrounding area. There are also planning and development approvals to consider in a new feedlot.

4 Profile of RFF

Introduction

RFF is an ASX-listed real estate investment trust ("REIT") which owns a portfolio of Australian agricultural assets that are leased to tenants, typically experienced agricultural operators and processors. RFF's investment objective is to generate a stable income stream from leasing its assets to suitable counterparts and capital growth through any appreciation in the value of those assets, but with no exposure to direct agricultural operating risk.

RFF is a stapled entity, comprising two entities which are isolated for tax purposes:

- Rural Funds Trust ("RFT") this entity holds the majority of RFF assets, including its investment properties related to its almond, macadamia, vineyard, cotton and cattle operations. The income received from these assets is passive in nature with earnings taxed in the hands of the investor at their marginal tax rate.
- Rural Funds Active ("RF Active") this entity holds assets which are considered operational in nature from a taxation perspective and are therefore taxed as a public trading trust. RF Active pays tax at the corporate tax rate (i.e. 30%) on the profit it generates from operational activities. RF Active may also, from time to time, make distributions to unitholders of the profit generated from trading activities. These distributions could attract franking credits.

RFF receives lease payments over the life of its lease agreements which typically are for a term of 10 years. RFF also benefits from capital growth through any value appreciation of the underlying agricultural assets it owns. Lease agreements are subject to CPI or fixed lease escalation and are predominantly triple net leases²⁰. Other benefits include development capital expenditure attracting higher rent and a market rent review mechanism (usually every 5 years).

Overview of RFF's agricultural assets

RFF's portfolio comprises various agricultural assets (mostly properties) valued at circa A\$871 million²¹. These agricultural assets are diversified across 5 sectors including almond and macadamia orchards, vineyards, cattle and cotton assets. The portfolio value is heavily weighted towards almonds and cattle. As of 31 December 2019, RFF owned circa 30 properties as summarised in the below table.

Total		30	672,311	871.1	100%	63.6	15
Other assets	n/a	n/a	n/a	21.0	2%	n/a	n/a
Other (i.e. water entitlements)	NSW	n/a	10,664 ML	76.7	9%	n/a	n/a
Macadamias	QLD	3	259	12.7	1%	1.5	2
Cotton	QLD	2	7,422	50.0	6%	3.3	2
Viney ards	SA, VIC	7	666	64.1	7%	3.9	1
Cattle	QLD, NSW, VIC	14	659,050	224.1	26%	21.5	7
Almonds	NSW	4	4,914	422.5	49%	33.4	3
Agricultural sector	Geographic location	Properties	Size (ha)	FY19 value (A\$m)	% of total	FY20F rent (A\$m)	Lessees

Source: Independent Property Valuations as of 30 June 2019, RFM FY19 Annual Report

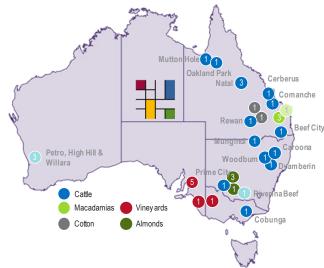

Note: The above table excludes the sold poultry assets as well as options to acquire three cattle properties and one macadamia orchard.

²⁰ The lessee pays all real estate taxes, building insurance and maintenance on the property in addition to the normal fees expected.
²¹ Adjusted property value (A\$925m) plus other assets (A\$21m) minus sale poultry assets (\$72m).

In October 2019, RFM announced the sale of RFF's 17 broiler chicken farms and associated plant and equipment to specialist developer and operator of broiler chicken farms ProTen Investment Management Pty Ltd for approximately A\$72 million ("ProTen Acquisition"). RFM also entered into options to acquire 3 cattle properties for A\$22.6 million in WA²² and is contracted to acquire 1 macadamia orchard Cygnet for A\$1.6 million near Bundaberg in QLD.

The below map illustrates RFF's geographical diversification of its portfolio. Assets are located throughout NSW, QLD, SA and VIC, although more weighted towards QLD following sale of its poultry assets. Cattle and macadamias are located in areas with mainly wet summers and dry winters whereas vineyards experience the opposite with wet winters and dry summers.

RFF's Geographical Diversification

Source: RFM's FY19 Annual Report, ASX announcements. Notes: (1) Light blue circles represents cattle property acquisitions to be completed. The light green circle represents the option to acquire one macadamia orchard near Bundaberg in QLD. (2) The number within each circle represents the number of assets owned in that location.

4.3 Almond assets

RFF owns four almond orchard properties and related infrastructure, valued at circa A\$422.5 million. RFF's almond assets are located in central west NSW. RFF leases the almond assets to agricultural operators and processors such as Select Harvest Limited ("SHV"), Olam Orchards Australia Pty Ltd ("Olam") and RFM Almond Fund ("RAF").

²² About 200-300 kilometres from Perth.

The table below summarises the existing almond assets:

				Year	Water	Valuation	Lease	Lessee
Property	Acquired	Location	Size (ha)	Planted	entitlement (ML)	A\$m	Expiry Date	
Yilgah	Jun-2008	Hillston, NSW	1,006	2007/08	15,090	111.2	May-30	SHV
Mooral	Apr-2010	Hillston, NSW	808	2006/07	12,120	74.9	Jun-28	SHV, RFA, RFM
Tocabil	Oct-2014	Hillston, NSW	600	2015/16	12 ML/ha*	40.1	Apr-37	Olam
Kerarbury	Oct-2015	Darlington Point	2,500	2016/17/18	9.8 ML/ha*	196.3	Apr-38	Olam
Total			4.914			422.5		

Source: RFF website, other company announcements, independent property valuations as of 30 June 2019

The Yilgah and Mooral assets were planted more than 10 years ago, but the Tocabil and Kerarbury plantings are more recently established. Below we provide further details of each.

- Yilgah Located 20 km north of Hillston, is 6,400 ha in size. Yilgah consists of 1,006 ha of almonds orchards planted in 2007 and 2008. The almond plantings, associated infrastructure and water entitlements are leased entirely to Select Harvest under a 20-year lease agreement.
- Mooral Located 25 km south west of Hillston, is 3,841 ha in size. Mooral consists of 808 ha of almond orchards planted in 2006 and 2007. About 593 ha is leased to RFM Almonds Funds (RFA) and 215 ha is leased to Select Harvests.
- Tocabil Located 30 km north east of Hillston and is 6,900 in size. Tocabil consists of 600 ha of almond orchards planted in 2015 and 2016. Tocabil will be supported by 12 ML/ha per annum once the development is completed. The property is leased to Olam.
- Kerarbury Refers to two properties, "Kerarbury" and "Kamelda", located in Darlington Point, NSW, in relative proximity to RFF's existing almond orchards. The properties are leased to Olam.

In August 2019, the merger between the RFM Almond Fund 2006 ("AF06"), RFM Almond Fund 2007 ("AF07") and RFM Almond Fund 2008 ("AF08") into a new entity called the RFM Almond Fund ("RAF") was effected. These funds each lease an area of the Mooral almond orchard from RFF.

4.4 Cattle assets

RFF owns 16 cattle properties, valued at circa A\$224.1 million²³, which are mainly located in QLD. The cattle properties are made up of 11 breeding, backgrounding and finishing properties and 5 cattle feedlots. The cattle feedlots are Prime City, Caroona, Mungindi, Beef City and Riverina Beef.

 $^{^{\}rm 23}$ Independent Property Valuations as of 30 June 2019.

The below table summarises RFF's existing cattle assets:

				Valuation	Lease	Weighed

Source: RFF website, other company announcements, independent property valuations as of 30 June 2019. Notes: 1) Re-leased in July 2019.

The following transactions have been initiated since 2018, either by RFF or RFM.

- Prime City, Caroona, Mungindi, Beef City and Riverina Beef In July 2018, the Group acquired 5 feedlots and associated cropping land from JBS Australia for A\$52.7 million. The Group subsequently leased these properties for 10-years to JBS. The feedlots represent the largest portfolio of feedlots in Australia with a combined capacity of 150,000 Standard Cattle Units ("SCU"). RFM has now settled all of the cattle feedlots as part of the JBS transaction with the exception of Riverina Beef which is yet to be settled.
- Comanche During July 2018, the Group also acquired Comanche, a 7,600 ha cattle property including plant and equipment located 86 kilometres from Rockhampton in Central Queensland for A\$15.7 plus A\$0.9 million stamp duty. The property is leased for a period of 10 years to Elrose Enterprises Pty Ltd, a Brahman cattle stud business.
- Cerberus In September 2018, the Group acquired Cerberus 8,280 ha cattle property including plant and equipment located in Central Queensland for A\$10.0 plus A\$0.6 million stamp duty. A development program, forecast to cost A\$2.5 million, aims to increase carrying capacity by 28% and improve infrastructure. The property is leased for a period of 10 years to Katena Pty Ltd, trading as Bryant Beef²⁴, a Queensland-based cattle business.
- Dymaberin In October 2018, the Group acquired Dyamberin, a 1,728 ha cattle property located in the New England region of NSW for A\$13.4 plus A\$0.7 million stamp duty. The property will be leased for a period of 10 years to Stone Axe Pastoral Company, a Wagyu beef producer.

²⁴ There is no commercial or familial relationship with RFM Managing Director David Bryant.

- Woodburn In January 2019, the Group acquired Woodburn, a 1,062 ha cattle property also located in the New England region of NSW for A\$7.5 million. The property will be leased for a period of 10 years to Stone Axe Pastoral Company.
- Cobungra In March 2019, the Group acquired Cobungra, a 6,486 ha cattle property located in the East Gippsland region of VIC for A\$36.9 million. The property will be leased for a period of 10 years to the Stone Axe Pastoral Company.
- Petro, High & Wilara RFM has entered into options to acquire three cattle properties (i.e. Petro, High and Willara) in WA for A\$22.6 million²⁵, which will be leased to Stone Axe Pastoral Company Pty Ltd.

Vineyards

RFF owns 7 vineyards, valued at circa A\$64.1 million. The vineyards are located in South Australia within the Barossa Valley, Adelaide Hills and Coonawarra, and one vineyard located in the Grampians, Victoria. The vineyards are all leased to the ASX-listed wine maker Treasury Wine Estates Limited ("TWE"). There are also a number of water entitlements owned by RFF which are included in the lease to TWE.

The below table summarises RFF's vineyard assets:

				Main	Valuation	Lease	Lessee
Property	Acquired	Location	Size (ha)	Variety	A\$m	Ex piry Date	
Hahn	Feb-2000	Barossa, SA	50	Shiraz	4.9	Jun-26	TWE
Mundy & Murphy	Apr-2000	Adelaide Hills, SA	55	Cabernet Sauvignon	3.8	Jun-26	TWE
Geier	Sep-2000	Barossa, SA	243	Shiraz	28.2	Jun-26	TWE
Kleinig	May-2002	Barossa, SA	206	Shiraz	22.8	Jun-26	TWE
Rosebank	Aug-2003	Grampians, VIC	82	Shiraz	3.4	Jun-26	TWE
Dohnt	Sep-2004	Coonawarra, SA	30	Cabernet Sauvignon	1.0	Jun-22	TWE
Total			666		64.1		

Source: RFF website, other company announcements, independent property valuations as of 30 June 2019.

4.6 Cotton assets

RFF owns 2 cotton assets, valued at circa A\$50 million. The Lynora Downs property is located at the northern end of the Arcadia Valley in Queensland. The lease with Cotton JV is for five years, with a five year option. The Mayneland property will be operated by RFM while an independent party runs a process to select a long-term lessee.

The below table summarises RFF's existing cotton assets:

					Valuation	Lease	Lessee
Property	Acquired	Location	Size (ha)	Туре	A\$m	Expiry Date	
Ly nora Downs	Dec-2016	Arcadia Valley, QLD	4,880	Cotton and Cropping	33.1	Apr-22	Cotton JV
May neland	Aug-2018	Central QLD	2,942	Cotton and Cropping	16.9	Jun-20 F	RFM Farming
Total			7,822		50.0		

Source: RFF website, other company announcements, independent property valuations as of 30 June 2019.

 $^{^{\}rm 25}$ This property will be leased to Stone Axe Pastoral Company Pty Ltd.

4.7 Macadamias

RFF owns 3 macadamia orchards, valued at circa A\$13 million. The orchards are located near Bundaberg in Queensland. Swan Ridge and Moore Park are leased to the managed investment scheme, 2007 Macgrove Project.

The below table summarises RFF's macadamia assets:

				Year	Valuation	Lease	Lessee
Property	Acquired	Location	Size (ha)	Planted	A\$m	Expiry Date	
Swan Ridge & Moore Park	Mar-2016	Bundaberg, QLD	234	2007	10.9	Jun-28	2007 Macgrove
Bonmac	Mar-2016	Bundaberg, QLD	25	2002	1.8	Dec-36	RFM
Total			259		12.7		

Source: RFF website, other company announcements, independent property valuations as of 30 June
Notes: The above table excludes the option to acquire a macadamia property (i.e. Cygnet) which was not settled as of 30 June 2019.

The Group is contracted to acquire the property Cygnet near Bundaberg for A\$1.6 million to develop into a macadamia orchard. RFM will seek independent lessees for this development and is currently further investing in additional macadamia development opportunities.

4.8 Financial information

4.8.1 Financial performance

The following table sets out the historical financial performance of RFF for FY17, FY18 and FY19.

Statement of comprehensive income - RFF	FY17	FY18	FY19
A\$ '000	Audited	Audited	Audited
Rental income	40,783	49,533	59,186

Net profit margin	106.2%	60.4%	56.4%

Source: RFF's FY17-FY19 annual reports.

In relation to the financial performance, we note the following:

Revenue strongly increased in the past three years at a compound annual growth rate of 20% on the back of cattle and almond property acquisitions and associated higher lease income and finance income. The finance income growth is primarily due to the income earned from the Guarantee Fee.

The majority of the A\$16.6 million increase in FY19 revenues originated from the cattle assets (A\$9.5million) and almond assets (A\$3.0 million). The company acquired several cattle properties throughout FY18, which has lifted income received from these assets.

RFF pays fund and asset management fees to RFM. Fund and asset management fees have increased with the increase in size of the assets of these funds.

- Depreciation of bearer plants mainly relates to depreciation of its plants used in the production of almonds and to a lesser extent of plants used in the production of grapes for wines. This corresponds with the substantial revaluations of the almond assets.
- The reversal impairment relates to the reversal of impairments of bearer plants due to the positive revaluation of the almond assets over the past two years.
- The changes in fair value of investment property relates to the revaluations of investment property.
 The below table illustrates that the almonds assets have been positively revalued for c. A\$30 million over the last two years, whereas poultry assets were significantly impaired.

Investment property revaluations				
Agricultural sector	2017	2018	2019	Total
Almond	17,984	5,352	3,879	27,215
Cattle	(3,000)	5,017	1,335	3,352
Poultry	2,279	(5,855)	(6,992)	(10,568)
Vineyard	-	-	12,064	12,064
Cotton	(857)	534	(1,934)	(2,257)
Macadamia	785	2,350	-	3,135
Total	17,191	7,398	8,352	32,941

Sources: RFF's FY17-FY19 annual reports.

- As of 30 June 2019, RFF had active interest rate swaps totalling 56% of the drawn down balance to manage interest rate risk. RFF experienced a significant decline in the fair value of the interest rate swaps in FY19.
- Finance costs have increased with the substantial increase in interest-bearing liabilities from A\$168 million in FY17 to A\$295 million in FY19.

In relation to the financial position, we make the following observations:

Investment property increased by c. A\$84 million in 2018 mainly due to the acquisitions of cattle assets (A\$53 million). In FY19, investment property increased by A\$132 million due to the acquisition of approximately A\$85 million of cattle assets, A\$17.9 million of cotton properties and additions of circa A\$14 million of almond properties. Refer to the table below for an overview of the development in investment property across the various agricultural sectors.

Inv estment property				
Agricultural sector	2016	2017	2018	2019
Almond	58,329	95,605	118,214	136,016
Cattle	-	43,560	104,897	193,447
Poultry	86,011	83,011	77,156	71,096
Viney ard	23,156	25,435	25,435	37,651
Cotton	-	24,157	27,131	46,260
Macadamia	1,455	2,015	4,685	4,857
Total	168,951	273,783	357,518	489,327

Source: RFF's annual reports for FY16-FY19.

Plant and equipment - bearer plants relates to plants used to grow produce held for long-term rental yields. These plants are initially held at costs at initial measurement and subsequently revalued annually at fair value less any accumulated depreciation and impairment charges. As can be observed from the below table, the majority (c. 80%) of the bearer plants comprise almond assets, which have increased over the past two years based on additions and revaluations.

Bearer plants				
Agricultural sector	2016	2017	2018	2019
Almond	89,614	95,285	129,330	145,226
Viney ard	17,449	19,789	20,898	20,721
Macadamia	6,143	6,119	7,011	6,968
Total	113,206	121,193	157,239	172,915

Source: RFF's annual reports for FY16-FY19.

Financials assets comprise a minority investment in Coleambally Irrigation Co-operative Limited ("CICL")²⁶, finance leases of breeders and feedlots and a secured term loan. CICL is one of Australia's major irrigation companies and delivers water near Griffith, close to RFF's almond assets. The breeders have been leased to Cattle JV Pty Limited, a subsidiary of RFM, for a period of 10 years until 2026. The feedlots have been leased to JBS Australia Pty Limited for a period of 10 years until 2028. The secured term loan was extended as part of the lease of the Natal aggregation located in Queensland. The loan is until December 2027.

Financial assets				
	2016	2017	2018	2019
Investment CICL	9,334	12,222	12,222	12,222
Finance leases - breeders	-	10,953	14,179	14,431
Finance leases - feedlots	-	-	-	29,034
Term loan - DA & JF Camm Pty Ltd	-	-	10,000	10,000
Other financial assets	744	741	735	4,760
Total	10,078	23,916	37,136	70,447

Source: RFF's annual reports for FY16-FY19.

The intangible assets relate to the investments in water entitlement rights. These mainly relate to water entitlements used for the almond assets. In December 2016, RFF purchased a 9,549 ML

²⁶ Coleambally Irrigation Co-operative Limited.

Murrumbidgee River high security water entitlement for A\$34.4 million. RFM will generate revenue through the sale of annual water allocations until required for future horticultural development.

As can be observed from the table below, interest bearing liabilities have increased over the years. Gearing is about 31%²⁷ of total assets which still falls within the target range of 30-35%. In FY19, the core debt facility available increased from A\$275 million to A\$335 million, split in two tranches, with a A\$225 million trance expiring in 2021 and a A\$110 million tranche expiring into 2023.

Interest-bearing liabilities				
	2016	2017	2018	2019
Equipment loans (ANZ)	3,030	3,204	3,361	3,832
Borrowings (ANZ)	146,500	105,280	172,672	186,525
Borrowings (Rabobank)	-	59,220	97,128	104,920
Total	149,530	167,704	273,161	295,277

Source: RFF's annual reports for FY16-FY19.

Derivative financial liabilities relate to interest rate swaps which are measured at fair value. The company also needs to hedge a minimum of 40% of debt drawn under the terms of the borrowing facility. In FY19, RFF increased their hedging to circa 56% of the drawn down balance to manage interest rate risk.

 $^{^{27}}$ Total interest bearing liabilities of A\$295 million divided by adjusted total assets of A\$946 million.

4.8.3 Cash Flow Statement

The following table sets out the historical cash flow statements of RFF for FY17, FY18 and FY19.

Statements of cash flow - RFF	FY17	FY18	FY19
A\$ '000	Audited	Audited	Audited
Cash flows from operating activities

Cash and cash equivalents at year end	3,838	1,210	2,588
Course: DEE's annual raparts			

Source: RFF's annual reports

In relation to the cash flows, we make the following observations:

- Payments for investment properties largely relate to the acquisition of cattle properties (i.e. A\$42
 million in FY17, A\$53 million in FY18 and A\$85 million in FY19) and cotton property (i.e. A\$23 million
 in FY17 and A\$18 million in FY19).
- Bearer plants increased primarily due to additions to almond assets in FY17, FY18 and FY19.
- Payments for intangible assets relate to the acquisitions of water entitlements rights for almond assets and other assets.

The large proceeds from borrowings corresponds with the significant increase in property acquisitions over the past two financial years. Furthermore, RFF's debt facility was refinanced in November 2018, with its limit increased and split into two tranches of three and five years. The repayment of borrowings of A\$200 million relates to this refinancing. The payments of financial assets relate to the increasing position of interest rate swaps, and are mostly required under the terms of the borrowing facilities (RFF must hedge at least 40% of debt drawn).

4.9 Share capital structure

RFF units are listed on the ASX. RFF is comprised of stapled units in two trusts, RFT and RF Active. As at the date of this Report, RFF had 336,820,867 ordinary units held publicly²⁸. Each holder of ordinary units has one vote in person or by proxy, and upon a poll each unit is entitled to one vote.

We have provided in the table below, the substantial unitholders of RFF as at 31 December 2019:

Substa	antial unitholders as at 31 December 2019		
Rank	Name	No. Shares	Interest (%)
1	The Vanguard Group, Inc.	32,584,896	9.7%
2	Pendal Group Limited	16,830,455	5.0%
3	Sumitomo Mitsui Financial Group Inc.	16,808,337	5.0%
4	Daiwa Securities Group Inc.	16,815,367	5.0%
Subst	antial unitholders total	83,039,055	24.7%
Remai	ining unitholders	252,820,419	75.3%
Total	units held	335,859,474	100.0%

Sources: RFF FY19 Annual Report, ASX announcements related to substantial shareholders

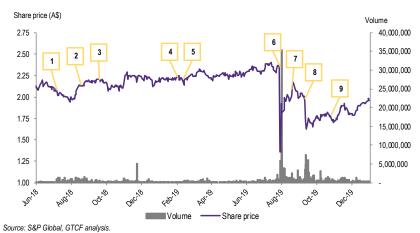

We note that RFM also holds 11,843,659 units in RFF, reflecting a 3.5% interest in RFF. The free float is 97.8%²⁹. Management owns about 1.5% of the ordinary units in RFF.

ASX announcement, Appendix 2A, 5 February 2020.
 Shares publicly held (336,820,867) minus shares held in RFF by David Bryant in (3,251,375), Guy Paynter (1,559,104), Michael Carroll (83,727), Julian Widdup (48,178) and other strategic corporate investors (2,374,975).

4.9.1 Share price analysis

The following is a chart showing the movements in RFF's share price and the volume of shares traded since June 2018.

Historical share price and volume for RFF

The following is a brief description of the key movements in the share price during the year.

Event	Date	Comments
		Conducted an entitlement offer to raise A\$149.5 million at A\$1.95 per unit to fund two transactions with JBS Australia Pty Ltd. Proceeds were used to fund:
1	12 July 2018	 Two transactions with JBS Australia Pty Ltd comprised of A\$75 million limited guarantee provided to J&F Australia and A\$52.7 million acquisition and subsequent 10-year lease to JBS of five feedlots and cropping land; and
		 The acquisition of the Comanche cattle property, a 7,600 ha cattle property located in central Queensland for A\$16.7 million.
		 The entitlement offer also provided up to A\$100 million of balance sheet capacity for further acquisitions, based on a target gearing limit of 35%.
	The Company released their FY18 results and provided FY19 guidance with forecast FY19 adjusted funds operations ("AFFO") per unit of 13.2 cents and dividends per unit ("DPU") of 10.43 cents reaffirmed. This represents an AFFO payout ratio of c. 79%. The DPU forecast for FY19 is consistent with 4% per annum of target.	
2	27 August 2018	 Acquired Cerberus, a 8,260 ha cattle property located in central Queensland for A\$10.8 million. The property was subsequently leased to Katena Pty Ltd (trading as Bryant Beef) for 10 years, with a rent review in 5 years.
2	21 August 2010	 Acquired Mayneland, a 2,942 ha cotton property located in central Queensland for A\$17.8 million. RFM will be operating and paying rent for the property in FY19. It ran a process to select a lessee, with Cotton JV, a joint venture between Queensland Cotton Corporation (Olam) and RFM to participate in the process.
	31 August 2018 Ms Emma Spear was appointed Company Secretary for RFM. Mrs Andrea Lemmon resigned from her and will leave RFM in October after 21 years of service.	
3	24 September/	 Acquired Dyamberin, a 1,728 ha cattle property located in the New England region of New South Wales for A\$14.1 million. The property was subsequently leased to Stone Axe Pastoral Company for 10 years, with a rent review in 5 years.
3	October 2018	 FIRB approved the JBS transaction. The three JBS cattle feedlots (i.e. Mungindi, Caroona and Prime City) are settled. Two remaining feedlots (i.e. Beef City and Riverina Beef) remain subject to subdivision approvals.

Event	Date	Comments
4	January/	 Acquired Woodburn, a 1,062 ha cattle property located in the New England region in New South Wales for A\$7.5 million. The property was subsequently leased to Stone Axe Pastoral Company for 10 years, with a rent review in 5 years.
	6 February 2019	Acquired Cobungra, a 6,486 ha cattle property located in Victoria for A\$36.9 million. The property was subsequently leased to Stone Axe Pastoral Company for 10 years, with a rent review in 5 years.
5	21 February 2019	The Company released their 1HFY19 results noting that their term debt facility limit increased from A\$275 million to A\$300 million. As part of this process, the facility was split into two tranches: 1) a A\$200 million 3-year facility expiring November 2021; 2) a A\$100 million 5-year facility expiring November 2023.
	31 July 2019	It was announced that the lease of Rewan, a central Queensland cattle property, was transferred from Cattle JV Pty Ltd (a subsidiary owned by RFM) to the Australian Agricultural Company for 10 years.
		6 August 2019 - RFF entered into trading halt.
6	early August 2019	 7 August 2019 - RFF announced that American-based activist short seller Bonitas Research LLC released a document about the financial position of RFF and that Bonitas has taken a short interest in RFF's stock ir order to realise significant gains in the event that the share price declines. RFF also announced it had engaged Ernst & Young to independently investigate the matters raised by the short seller and assess RFM's rejection of each of the claims made.
		8 August 2019 – RFF's stock continued to be suspended from trading as short seller Bonitas provided a response to RFM's rebuttal.
		27 August 2019 – RFF released their FY19 results. It announced that in March 2019 it increased tranche 1 from A\$200 million to A\$225 million and tranche 2 from A\$100 million to A\$110 million. The total limit thus increased from A\$300 million to A\$335 million.
7	end August 2019	27 August 2019 – RFM released Ernst & Young's report related to the independent investigation and concludes that the assertions contained with the short seller report are not substantiated. RFM will pursue legal action against the short seller.
		30 August 2019 – Growers in the RFM Almond Fund 2006/07/08 approved a merger of these 3 entities into the RFM Almond Fund (RAF).
		6 September 2019 - A third document was released by Bonitas.
8	early September 2019	13 September 2019 – RFM announces it filed Court document in the Supreme Court of New South Wales to pursue legal action against Bonitas and its principal.
		18 September 2019 – Bucephalus Research Partnership Limited, a firm independent from short seller Bonitas, released a document providing similar criticisms to Bonitas.
	30 September 2019	The Company released their FY19 results. They also provided a forecast FY20 AFFO per unit of 14.0 cents. From this AFFO RFF will pay forecast distributions totalling 10.85 cents per unit, representing a 4.0% increase or FY19 distributions.
	9 October 2019	In response to investor enquiries, RFM provided a reconciliation of AFFO to net profit after tax for FY19 (includin, a calculation how AFFO was calculated. They also provide details of total adjusted property assets valuations which have been largely based on independent asset valuations by valuers such as CBRE, Colliers and Jones Lang LaSalle.
	17 October 2019	Mr. Stuart Waight resigned from his position as RFM's joint Company Secretary and will soon retire from RFM after 16 years with the company. Ms. Emma Spear will remain Company Secretary for RFM and its associated entities.
9	28 October 2019	RFM announced the sale of RFF's 17 broiler chicken farms and associated plant and equipment to specialist developer and operator of broiler chicken farms ProTen Investment Management Pty Ltd for approximately A\$72 million.

5 Profile of RFM

5.1 Introduction

Established in 1997, RFM is one the oldest and most experienced agricultural fund managers in Australia. RFM is responsible for strategic direction, day-to-day management of its funds, asset acquisitions and sales, investment structure and portfolio composition. The company is headquartered in Canberra and has three regional offices in Sydney, regional New South Wales and Queensland. We note that RFM is currently fully owned by its directors and staff. Key management personnel comprise the following people:

Key Management Personnel - RFM				
Name	Role	Name	Role	
David Bryant	Managing Director	Tim Sheridan	Chief Operating Officer	
Guy Paynter	Director, Non-Executive Chairman	Daniel Yap	Chief Financial Officer	
Michael Carroll	Non-Executive Director	Emma Spear	Company Secretary	
Julian Widdup	Non-Executive Director			

Source: Management

RFM is the responsible entity for 2 listed and 2 unlisted investment funds. Below an overview of its current investment funds.

Listed investment fund:

Rural Funds Group (RFF) - the largest of the RFM funds under management, an ASX-listed real estate investment trust, with a A\$946 million diversified agricultural asset portfolio. Refer to Section 5 for detailed information.

Unlisted investment funds:

RFM Almond Fund ("RAF") – In August 2019, growers of the RFM Almond Fund 2006, RFM Almond Fund 2007 and RFM Almond Fund 2008 approved the merger of the three entities into a new merged fund named the RFM Almond Fund. The aim of the fund is to provide almond growers with the opportunity to operate an almond growing business in the Hillston area in NSW.

Returns for growers are generated from the almond sale proceeds less the annual operating and management costs including lease of land 30 and operating infrastructure. RFM is responsible for orchard operations, maintenance, harvesting and pre-processing and delivery. RFM also manages all accounting and administrative functions. In return RFM receives an annual management fee, operating costs and licensee fees in accordance with individual agreements entered into with RFM.

2007 Macgrove Project – is a managed investment scheme. The aim is to provide macadamia growers with the opportunity to participate in a macadamia growing business near Bundaberg in QLD. RFM is a grower in this particular instance and operates two orchards Swan Ridge and Moore Park (234 ha) that are entering maturity and expected to be cash flow positive in the current calendar year.

RFM also undertakes various agricultural activities including almond farming, macadamia farming, livestock and cropping operations on leased properties via the following entities:

³⁰ Leased from RFF

- RFM Farming Pty Limited A wholly owned subsidiary of RFM. Mayneland, a 2,942 cotton property located in central QLD, is leased to this entity until June 2020. A long-term lessee is being sought. The Comanche cattle property is currently part leased to RFMF via a licence agreement with Elrose
- Rural Funds Renewables Pty Limited a wholly owned subsidiary engaged in renewable energy activities.
- RFM Macadamias Pty Limited A wholly owned subsidiary of RFM. RFM conducts the growing and harvest of macadamias on the Bonmac property in Bundaberg in QLD. RFM also owns an interest in 79 macadamia groves as part of the 2007 Macgrove Project, which comprise an area of 32 hectares.
- Cattle JV Pty Limited A wholly owned subsidiary of RFM. This entity was previously the lessee of Rewan, Mutton Hole and Oakland Park. In July 2019, the lease was transferred to the Australian Agricultural Company ("AAC") which entered into a 10-year lease with RFF.
- Cotton JV Pty Limited A joint venture between RFM and Queensland Cotton Corporation Pty Limited (a subsidiary of Olam International Limited). Lynora Downs, a 4,880 cotton property located near Emerald in QLD, is leased to this entity until April 2022.
- J&F Australia Pty Limited.

5.2 Financial information

5.2.1 Financial performance

The following table sets out the historical financial performance of RFM for FY18 and FY19.

Statement of comprehensive income - RFM	FY18	FY19
A\$ '000	Audited	Audited
Management fees	7,361	9,436

Net profit after income tax	1,228	3,816
Net profit margin %	3.3%	6.2%
Source: REM EV10 annual reports		

Source: RFM FY19 annual reports

In relation to the financial performance, we note the following:

RFM receives fund or asset management fees³¹ from the entities it manages in return for managing their investments, overseeing operations and promoting the fund to investors. These

 $^{^{\}rm 31}$ Approximately 1% per annum based on average adjusted total asset value in the fund.

fees are levied as a percentage of gross assets under management, net value of the funds or operating costs.

- RFM is also reimbursed for costs incurred by RFM on behalf of its funds. It receives income from its managed entities for rendering of services, which include corporate services and farm management services under the terms of the service agreement.
- RFM records all income (and associated costs) from the sale of agricultural produce (i.e. cotton, macadamias and almonds) and livestock.
- RFM receives cattle finance income from its wholly-owned subsidiary J&F, which contributed approximately A\$12.3 million of income in FY19.
- Biological assets, which mainly comprise of livestock, are recorded at fair value (less costs to sell). The changes in fair value of biological assets therefore mainly relate to the revaluations of the livestock assets over time.
- Finance costs have increased with the substantial increase in borrowings. The bank debt facility available increased from A\$17.9 million in FY18 to A\$274.3 million in FY19. The finance costs also increased with a financial guarantee of A\$3.8 million paid to RFF in return for providing a limited guarantee in relation with the finance lease arrangement with JBS Australia Pty Limited.

5.2.2 Financial position

The following table sets out the historical financial position of RFM for FY18 and FY19.

Statements of financial position - RFM	FY18	FY19
A\$ '000	Audited	Audited
Assets		
Cash and cash equivalents	2,953	4,155
Trade and other receivables	2,730	45,457
Inv entories	3,263	3,521
Biological assets	32,268	35,625
Cattle under finance	-	237,820
Other assets (i.e. deposits)	403	541
Financial assets (i.e. loan to related parties)	2,441	2,182
Total current assets	44,058	329,301
Financial assets	19,325	27,412
Plant and equipment	2,284	2,011
Investments accounted for using the equity method	233	236
Intangible assets	1,147	285
Goodwill	429	429
Deferred tax assets	632	1,407
Total non-current assets	24,050	31,780
Total assets	68,108	361,081
Liabilities		
Trade and other payables	2,713	49,627
Interest-bearing liabilities	18,490	259,331
Provisions related to employ ee benefits	2,242	2,558

Total current liabilities	23,695	312,568
Interest-bearing liabilities	14,265	14,478
Provisions related to employ ee benefits	111	197
Deferred tax liabilities	3,043	3,782
Total non-current liabilities	17,419	18,457
Total liabilities	41,114	331,025
Net assets	26,994	30,056

Source: RFM's annual reports.

In relation to the financial position, we make the following observations:

- Trade and other receivables mainly relate to amounts owed from JBS in relation to the settlement of two remaining feedlots (i.e. Riverina Beef and Beef City) still subject to approvals. In addition, these receivables include amounts owed in relation to cattle sold to JBS. As at the date of the accounts, no receivables were overdue.
- Inventories, which have been fairly constant, mainly relate to inventories of almonds.

- Biological assets are largely related to livestock and have increased due to additions as well as increases in biological transformation.
- Cattle under finance represents the cattle owned by J&F in the Feedlots. The associated debt in relation to the Finance Facilities is also recorded on the balance sheet.
- Financial assets mainly comprise of loans to related parties (RFM Almond Fund).
- The current portion of financial assets relates to loans provided to shareholders and related parties, whereas the non-current portion primarily relates RFM's A\$19 million investment in RFF.
- Intangible assets include rights to harvest almonds and macadamias. In August 2019, the three almond funds³² merged together in the RFM Almond Fund (RAF). As a result of this, 482 almond groves licenses have been converted to 1.8 million units in RAF. Following the merger, RFM has reassessed the value of its licenses and an impairment charge of A\$727K has arisen related to the almond groves. The remaining portion solely relates to the rights to harvest macadamias, with these assets being amortised over their remaining useful life.
- Interest-bearing liabilities have increased materially due to the sale and lease back of the five
 feedlots of JBS which resulted in bank facilities provided totalling A\$250 million to finance J&F, an
 entity owned by RFM, to supply cattle, feed and associated costs to JBS. This bank facility is backed
 by the RFF limited guarantee of A\$75 million and the cattle acquired. The bank facility has increased
 to A\$274 million in FY19 with the core debt facility expiring in August 2020³³.

Below we provide an overview of the interest-bearing liabilities outstanding.

Interest-bearing liabilities		
	2018	2019
Current borrowings (ANZ)	17,658	171,170
Current borrowings (Rabobank)	-	85,739
Current borrowings - other	832	2,422
Non-current finance lease - breeders (RF Active)	13,792	14,092
Non-current borowings - other	473	386
Total	32,755	273,809

Source: RFM FY18 and FY19 audited financial statements.

 Deferred tax liabilities primarily relate to deferred tax liabilities on investments and biological assets set-off by any deferred tax assets. The group has deferred tax assets of A\$3.3 million.

 $^{^{\}rm 32}$ RFM Almond Fund 2006, RFM Almond Fund 2007 and RFM Almond Fund 2008.

³³ Notwithstanding the expiry date of the facility being beyond 12 months from balance date, the debt is classified as current due to the term of settlement for the draw-down being within one year.

5.2.3 Cash Flow Statement

The following table sets out the historical cash flow statements of RFM for FY18 and FY19.

Statements of cash flow - RFM	FY18	FY19
A\$ '000	Audited	Audited
Cash flows from operating activities		
Receipts from customers	40,791	49,981
Net receipts from cattle under finance	-	4,857

Cash and cash equivalents at the beginning of the financial year	3,066	2,953
Effects of ex change rate changes on cash and cash equivalents	-	-
Cash and cash equivalents at year end	2,953	4,155
0 05045040 15040 1115 1111		

Source: RFM FY18 and FY19 audited financial statements.

In relation to the cash flows, we make the following observations:

In August 2018, RFM acquired a 100% interest in J&F for A\$30.7 million to conduct a cattle business across NSW and QLD. In September 2018, J&F conducted a share buyback of A\$30.2 million to purchase majority of its shares.

Finance costs relate to the interest expense associated with the cattle held under finance under the Finance Facilities.

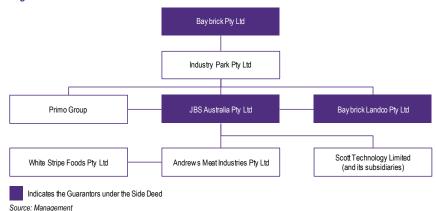

6 Profile of JBS

Introduction

JBS is the largest meat processing company in Australia and a division of JBS S.A., the largest animal protein processing company in the world. In Australia, JBS operates ten processing facilities and five feedlots with a daily processing capacity of more than 8,000 cattle and 21,000 small stock. In addition to supplying the domestic market, JBS also exports to over 80 countries and employs over 12,000 people around the country.

Below we provide an overview of JBS' organisation structure.

Organisation structure JBS

On 12 July 2018, RFM, as responsible entity of RFF, announced the acquisition of JBS Australia's five feedlots which was secured by a 10-year triple net lease through which JBS provides lease payments to RFF.

In 2017, the indirect parent company of Baybrick, J&F Investimentos S.A, entered into a plea bargain in connection with improper payments made to Brazilian politicians, government officials and other individuals. It was reported in the media that J&F Investimentos S.A has agreed to pay approximately A\$5.4 billion in fines in relation to its role in corruption scandals. The payments, which can be made over a period of 25 years, will be made exclusively by the holding company J&F Investimentos S.A. The scandals and resulting fines could potentially have an impact on the JBS group's reputation, business, financial condition, results of operations and prospects. However, we note that JBS S.A. has performed well recently with a strong year to date performance and improved debt profile with a gross debt reduction from A\$5.3 billion in FY18Q3 to A\$4.4 billion in FY19Q334, reflecting a decline of 18% and significantly improved leverage ratios from 3.38 to 2.56 times³⁵. JBS S.A. is still highly leveraged and its financial performance should be closely monitored from time to time in order to determine its financial strength.

³⁴ Based on a an exchange rate of 2.88 BRL to one Australian Dollar as at 7 February 2020.

³⁵ Debt to net assets ratio

6.2 Financial information

The lease obligations to be paid by JBS to RFF will be guaranteed by the Guarantors³⁶.

We have been provided with the financial statements of Baybrick Pty Ltd which guarantees JBS' obligations.

We note that Baybrick does not prepare consolidated financial statements in accordance with AASB10, which is a change from the previous year. This change was driven by a group restructure under which Baybrick no longer holds property plan and equipment with its nature changing largely to that of a holding entity, and is no longer involved directly in the operations of the wider JBS group. Accordingly, due to the restructure and given the entity is no longer a reporting entity, AASB10 has not been applied to the following financial statements. As a result, in the income statement presented below, the company is breaking-even at an EBITDA level but the balance sheet records the investments in the subsidiaries.

6.2.1 Financial performance

Set out below is Baybrick's statement of profit or loss for CY17 and CY18. We note that CY19 results are not available as the date of the Report.

Statement of comprehensive income	CY17	CY18
A\$ '000	Audited	Audited
Management Services Fee	1,262	1,263
Employ ee benefits expense	(1,119)	(1,230)
EBITDA	143	33
EBITDA margin	11.3%	2.6%
Depreciation and amortisation	(20,152)	-
EBIT	(20,009)	33
EBIT margin	Nmf	2.6%
Gain / (Loss) on disposal of assets	(279)	1
Finance costs	(15,573)	(2,058)
Net profit before income tax	(35,861)	(2,024)
Income tax benefit	7,534	28,607
Net profit after income tax	(28,327)	26,583

Source: Baybrick's accounts

We make the following observations in relation to the income statement:

- In CY18, Baybrick disposed of all the property plant and equipment that it owned as at December 2017. As a result, depreciation and amortisation expenses in CY18 were \$nil compared to A\$20
- Finance costs reduced significantly between CY17 and CY18 from circa A\$16 million to A\$2 million. This was driven by the decrease in the related party loans from circa A\$259 million in CY17 to A\$34 million in CY18.

³⁶ JBS, Baybrick and Landco.

6.2.2 Financial position

Set out below is a consolidated statement of financial position of Baybrick for CY17 and CY18.

Statements of financial position	FY17	FY18
A\$ '000	Audited	Audited

Payables to related parties	258,894	34,208
Deferred tax liabilities	23,400	-
Employee benefits	79	-
Other non-current liabilities	91	91
Total non-current liabilities	282,464	34,299
Total liabilities	282,732	34,683
Net assets	1,985,830	3,513,207

Source: Baybrick's accounts

As at 31 December 2018, we make the following observations in relation to the balance sheet:

Baybrick's net asset position increased from A\$2.0 billion in CY17 to A\$3.5 billion in CY18 due to an increase in investments in subsidiaries from A\$1.9 billion to A\$3.5 billion. We note that Baybrick is accounting for its investments in its subsidiaries on an equity basis, and hence the profits of subsidiaries is recognised in the "investment in subsidiaries" line item.

7 Valuation methodologies

Introduction

In accordance with our adopted valuation approach set out in section 2.2, our fairness assessment

- The potential proceeds from the sale of the assets under the Security which would be provided to RFF and the value of the outstanding liability which would be owing to RFF in the event of a default under the Guarantee.
- . The terms of the Guarantee.

Grant Thornton Corporate Finance has assessed value using the concept of fair market value. Fair market value is commonly defined as:

"the price that would be negotiated in an open and unrestricted market between a knowledgeable, willing but not anxious buyer and a knowledgeable, willing but not anxious seller acting at arm's length."

Fair market value excludes any special value. Special value is the value that may accrue to a particular purchaser. In a competitive bidding situation, potential purchasers may be prepared to pay part, or all, of the special value that they expect to realise from the acquisition to the seller.

Valuation methodologies 7.2

RG 111 outlines the appropriate methodologies that a valuer should generally consider when valuing assets or securities for the purposes of, amongst other things, approval of an issue of shares using item 7 of s611 of the Corporations Act, share buy-backs, selective capital reductions, schemes of arrangement, takeovers and prospectuses. These include:

- Discounted cash flow ("DCF") method and the estimated realisable value of any surplus assets.
- Application of earnings multiples to the estimated future maintainable earnings or cash flows of the entity, added to the estimated realisable value of any surplus assets.
- Amount available for distribution to security holders on an orderly realisation of assets.
- Quoted price for listed securities, when there is a liquid and active market.
- Any recent genuine offers received by the target for any business units or assets as a basis for valuation of those business units or assets.

Further details on these methodologies are set out in Appendix A to this Report. Each of these methodologies is appropriate in certain circumstances. RG111 does not prescribe the above methodologies as the method(s) that an expert should use in preparing their report. The decision as to which methodology to use lies with the expert based on the expert's skill and judgement and after considering the unique circumstances of the entity or asset being valued. In general, an expert would have regard to valuation theory, the accepted and most common market practice in valuing the entity or asset in question and the availability of relevant information.

7.3 Selected valuation method

RG 111 suggests that a proposed related party transaction is 'fair' if the value of the financial benefit to be provided by the entity to the related party is equal to or less than the value of the consideration being provided to the entity. This comparison should be made assuming a knowledgeable and willing, but not anxious, buyer and a knowledgeable and willing, but not anxious, seller acting at arm's length.

The Guarantee will have a second ranking security over the Secured Assets. In other words, the Financiers will have first rights to the Secured Assets and RFF will first need to provide up to A\$100 million to the Financiers before being able to exercise any of their rights pertaining to the Security such as sale of the Secured Assets and accepting payment to recoup the funds provided to the Financiers.

In this case, the proceeds from the sale of the Secured Assets constitute the financial benefit to be provided to RFF. The consideration being provided by RFF to J&F is the value of the Guarantee plus any accrued interests and fees at the time of sale in the event of drawdown.

Having regard to the above, we have assessed the fairness of the granting of the Security by comparing the proceeds from the sale of the Secured Assets to the value of the liability which would be owing to RFF in the event of default.

The granting of the Security is 'fair' if the value of the Security provided to RFF (i.e. the value of the proceeds from the sale of the Secured Assets) is equal to or less than the value of the liabilities to be settled in the event of drawdown under the Guarantee.

7.4 Guarantee

If the Guarantee is approved, J&F will be able to increase their debt facility limit from A\$250 million up to a maximum of A\$333 million³⁷ supported by the higher Guarantee provided by RFF and subject to approval by the RFF and the Financiers. RFF have the ability to increase the Guarantee from A\$75 million up to A\$100 million and in exchange adjust the existing Guarantee agreement with J&F and therefore will receive a higher Guarantee Fee.

Should J&F default, the Financiers will have first access to any sale proceeds from the sale of assets to extinguish the loan plus any associated costs. The Financiers would also require RFF to provide the Guarantee. RFF would then be able to exercise its rights under the Guarantee. Given RFF will need to provide funding to the Financiers on default and await the clearance of the Financiers claims on any sale proceeds, the Guarantee's security position is similar to alternative financing arrangements (such as convertible notes or equity).

Accordingly, we have compared the terms of the Guarantee to similar riskier financing arrangements including the cost of equity. To assess whether the Guarantee Fee is fair we have compared the Guarantee Fee Rate to a range of alternative financing options:

- Convertible note issues; and
- Unitholder or equity financing.

 $^{^{37}}$ The debt facility limited might potentially be increased beyond A\$275 million to A\$300 million if necessary.

56	
If the key terms of the Guarantee are equal or greater than the terms provided by other financing options,	
the Guarantee is 'fair'.	
MANAGORA A ANIGYRALIA. IER ROMANIA	
#2473339v9 <australia> - IER_RFM_Master V256</australia>	

8 Fairness of the higher security

If the Guarantee is approved, the Financiers will increase the Cash Advance Facility loan of A\$75 million to A\$82.5 million (with potential to increase it up to A\$100 million subject to approval by RFF and the Financiers), secured by the assets of J&F and in addition RFF will provide a limited Guarantee to the Financiers. RFF will execute the Guarantee Deed of Amendment and enter into the Guarantee with J&F and continue to obtain a second-ranking security over the assets of J&F ("Secured Assets").

We note that the Financiers will be able to call upon the Guarantee only if J&F defaults. For J&F to default, given its primary source of income is from payments from JBS, the most likely cause of the default would be as a result of JBS defaulting. The Guarantors will continue to provide a guarantee under the Side Deed for the performance of JBS. Baybrick Pty Ltd reported net assets of A\$3.5 billion as at 31 December 2018 and a net profit of A\$26.6 million. However, despite the above, should the Financiers call upon the Guarantee, RFF will be required to provide the Guarantee to the Financiers and then exercise their rights pertaining to the Secured Assets to recoup the amount of the Guarantee paid to Financiers.

J&F's main asset is the cattle, which typically gain weight whilst in the feedlot and are sold on a per kg basis. As such, it would require an adverse movement in the cattle price from time of purchase to sale for a shortfall to be realised, should RFF be required to sell the Secured Assets. Accordingly, in analysing whether or not the granting of the higher Security to the Financiers (with RFF standing in the position of the Financiers upon the calling upon of the Guarantee) is fair to the Non-Associated Unitholders, we have considered the following:

- If RFF calls upon the Security, the disposal of the Secured Assets is required to be dealt with in a
 manner which attempts to realise market value as at the time of the sale having regard to the state of
 the assets at that time. RFF will receive the following amounts under the following three alternative
 scenarios:
 - If the realised market value of the Secured Assets is less than the total amount owing to RFF under the Guarantee, then RFF will receive the realised market value of the Secured Assets.
 - If the realised market value of the Secured Assets is the same as the total amount owing to RFF under the Guarantee, then RFF will receive the realised market value of the Secured Assets.
 - If the realised market value of the Secured Assets is more than the total amount owing to RFF under the Guarantee, then RFF will only receive the amount it is owed.

8.1 Conclusion – granting of Security

Based on the above considerations, we have assessed the value of the Security provided to be less than or equal to the value of the liabilities settled.

9 Fairness of the Guarantee terms

As discussed in section 7.3, we have assessed the fairness of the Guarantee having regard to other forms of financing.

As explained previously, the Guarantee Fee is on a sliding scale ³⁸ (less adjustments) payable to RFF by J&F at an agreed rate of between 9.68% and 11.21%. The adjustments deducted from the Guarantee Fee include insurance costs and J&F interest on the Cash Advance Facility.

9.1 Guarantee Fee

In order to test whether the Guarantee Fee RFF will receive under the Guarantee Agreement is on a commercial, arms' length basis and fair to Non-Associated Unitholders, Grant Thornton Corporate Finance has observed and benchmarked the cost of alternative financing sources as illustrated below:

We have examined unsecured convertible note issues of ASX-listed companies over the past five years. We observe interest rates to vary between 5.0% and 15.0% with an average of 9.5%. The average interest rate of the convertible note issues in the past two years was similar (c. 10%).

In relation to the above, we note that the cattle are the key assets in the Secured Assets and that under a forced sale situation³⁹, the proceeds from any disposal of the cattle are not expected to be materially different from the book value recognised on the balance sheet. Accordingly, we would expect the Guarantee Fee to be at the lower end of the range within the convertible notes.

RFF is providing a Guarantee to support the financing of the operations of the Feedlots. Accordingly, the risks associated with the Guarantee being called upon are tied to, albeit not directly, to the risks of the feedlots. Accordingly, to assess an appropriate return for providing the Guarantee and in turn the indirect risks of the operations of the feedlots we have assessed the cost of equity for the operation.

Our assessed cost of equity range is between 8.3% and 8.9%. A detailed breakdown of the calculation and related support is provided in Appendix B. We note that the Guarantee Fee less adjustments for insurance costs and J&F interest on the Cash Advance Facility is substantially in line with the lower end of the cost of equity range, which given the lower risk of the Guarantee (supported by the second-ranking security) appears reasonable.

9.2 Conclusion - Guarantee Fee

Based on the above analysis, we conclude that the Guarantee Fee appears to be on arm's length basis and on terms not less favourable than alternative funding options.

³⁸ Based on the facility balance 39 Under the circumstances of JBS defaulting.

10 Sources of information, disclaimer and consents

10.1 Sources of information

In preparing this Report Grant Thornton Corporate Finance has used various sources of information, including:

- Notice of Meeting and Explanatory Memorandum dated April 2020.
- RFM and RFF audited financial reports.
- RFF and RFM budget FY20.
- ASX announcements by RFF.
- Industry Park Pty Ltd financial report for the year ending 31 December 2018.
- Baybrick Pty Ltd financial report for the year ending 31 December 2018.
- Baybrick Landco Pty Ltd financial report for the year ending 31 December 2018.
- Deed of Amendment Common Terms, J&F Guarantee and Indemnity Deed.
- Deed of Amendment Amendment of Syndicated Facility Agreement.
- Deed of Amendment Cattle Purchase and Sale Agreement.
- Deed of Amendment Cattle Management Services and Feeding Agreement.
- Existing Common Terms Deed, J&F Guarantee and Indemnity Deed.
- Existing Syndicated Facility Agreement.
- Existing Cattle Purchase and Sale Agreement.
- Existing Cattle Management Services and Feeding Agreement.
- Existing Side Deed.
- Existing Cattle Management Services and Feeding Agreement.
- Existing Guarantee Agreement.
- Existing Deed of Novation and Assignment.
- Overview changes to existing legal documents.
- Financial model with calculation Guarantee Fee.
- IBISWorld industry reports.
- Other market and industry reports made publicly available by livestock and agriculture bodies.
- S&P Global (Capital IQ).
- Consensus Economics Forecasts.
- Various broker reports and independent expert's reports.
- Other publicly available information.

In preparing this Report, Grant Thornton Corporate Finance has also held discussions with, and obtained information from Management of RFM.

10.2 Limitations and reliance on information

This Report and opinion is based on economic, market and other conditions prevailing at the date of this Report. Such conditions can change significantly over relatively short periods of time.

Grant Thornton Corporate Finance has prepared this Report on the basis of financial and other information provided by the Company, and publicly available information. Grant Thornton Corporate Finance has considered and relied upon this information. Grant Thornton Corporate Finance has no reason to believe that any information supplied was false or that any material information has been withheld. Grant Thornton Corporate Finance has evaluated the information provided by the Company through inquiry, analysis and review, and nothing has come to our attention to indicate the information provided was materially misstated or would not afford reasonable grounds upon which to base our Report. Nothing in this Report should be taken to imply that Grant Thornton Corporate Finance has audited any information supplied to us, or has in any way carried out an audit on the books of accounts or other records of the Company.

This Report has been prepared to assist the Directors in advising the Non-Associated Unitholders in relation to the adjusted Guarantee facility. This Report should not be used for any other purpose. In particular, it is not intended that this Report should be used for any purpose other than as an expression of Grant Thornton Corporate Finance's opinion as to whether the adjusted Guarantee facility is fair and reasonable to the Non-Associated Unitholders.

The Company has indemnified Grant Thornton Corporate Finance, its affiliated companies and their respective officers and employees, who may be involved in or in any way associated with the performance of services contemplated by our engagement letter, against any and all losses, claims, damages and liabilities arising out of or related to the performance of those services whether by reason of their negligence or otherwise, excepting gross negligence and wilful misconduct, and which arise from reliance on information provided by the Company, which the Company knew or should have known to be false and/or reliance on information, which was material information the Company had in its possession and which the Company knew or should have known to be material and which did not provide to Grant Thornton Corporate Finance. The Company will reimburse any indemnified party for all expenses (including without limitation, legal expenses) on a full indemnity basis as they are incurred

10.3 Consents

Grant Thornton Corporate Finance consents to the issuing of this Report in the form and context in which it is included in the Explanatory Memorandum to be sent to the Non-Associated Unitholders. Neither the whole nor part of this Report nor any reference thereto may be included in or with or attached to any other document, resolution, letter or statement without the prior written consent of Grant Thornton Corporate Finance as to the form and content in which it appears.

Appendix A - Valuation methodologies

Capitalisation of future maintainable earnings

The capitalisation of future maintainable earnings multiplied by appropriate earnings multiple is a suitable valuation method for businesses that are expected to trade profitably into the foreseeable future. Maintainable earnings are the assessed sustainable profits that can be derived by a company's business and excludes any abnormal or "one off" profits or losses.

This approach involves a review of the multiples at which shares in listed companies in the same industry sector trade on the share market. These multiples give an indication of the price payable by portfolio investors for the acquisition of a parcel shareholding in the company.

Discounted future cash flows

An analysis of the net present value of forecast cash flows or DCF is a valuation technique based on the premise that the value of the business is the present value of its future cash flows. This technique is particularly suited to a business with a finite life. In applying this method, the expected level of future cash flows are discounted by an appropriate discount rate based on the weighted average cost of capital. The cost of equity capital, being a component of the WACC, is estimated using the Capital Asset Pricing

Predicting future cash flows is a complex exercise requiring assumptions as to the future direction of the company, growth rates, operating and capital expenditure and numerous other factors. An application of this method generally requires cash flow forecasts for a minimum of five years.

Orderly realisation of assets

The amount that would be distributed to shareholders on an orderly realisation of assets is based on the assumption that a company is liquidated with the funds realised from the sale of its assets, after payment of all liabilities, including realisation costs and taxation charges that arise, being distributed to

Market value of quoted securities

Market value is the price per issued share as quoted on the ASX or other recognised securities exchange. The share market price would, prima facie, constitute the market value of the shares of a publicly traded company, although such market price usually reflects the price paid for a minority holding or small parcel of shares, and does not reflect the market value offering control to the acquirer.

Comparable market transactions

The comparable transactions method is the value of similar assets established through comparative transactions to which is added the realisable value of surplus assets. The comparable transactions method uses similar or comparative transactions to establish a value for the current transaction.

Comparable transactions methodology involves applying multiples extracted from the market transaction price of similar assets to the equivalent assets and earnings of the company. The risk attached to this valuation methodology is that in many cases, the relevant transactions contain features that are unique to that transaction and it is often difficult to establish sufficient detail of all the material factors that contributed to the transaction price.

Appendix B - Cost of Equity Assessment

Required rate of return on equity capital

We have used the CAPM, which is commonly used by practitioners, to calculate the required return on equity capital.

The CAPM assumes that an investor holds a large portfolio comprising risk-free and risky investments. The total risk of an investment comprises systematic risk and unsystematic risk. Systematic risk is the variability in an investment's expected return that relates to general movements in capital markets (such as the share market) while unsystematic risk is the variability that relates to matters that are unsystematic to the investment being valued.

The CAPM assumes that unsystematic risk can be avoided by holding investments as part of a large and well-diversified portfolio and that the investor will only require a rate of return sufficient to compensate for the additional, non-diversifiable systematic risk that the investment brings to the portfolio. Diversification cannot eliminate the systematic risk due to economy-wide factors that are assumed to affect all securities in a similar fashion.

Accordingly, whilst investors can eliminate unsystematic risk by diversifying their portfolio, they will seek to be compensated for the non-diversifiable systematic risk by way of a risk premium on the expected return. The extent of this compensation depends on the extent to which the company's returns are correlated with the market as a whole. The greater the systematic risk faced by investors, the larger the required return on capital will be demanded by investors.

The systematic risk is measured by the investment's beta. The beta is a measure of the co-variance of the expected returns of the investment with the expected returns on a hypothetical portfolio comprising all investments in the market - it is a measure of the investment's relative risk.

A risk-free investment has a beta of zero and the market portfolio has a beta of one. The greater the systematic risk of an investment the higher the beta of the investment.

The CAPM assumes that the return required by an investor in respect of an investment will be a combination of the risk-free rate of return and a premium for systematic risk, which is measured by multiplying the beta of the investment by the return earned on the market portfolio in excess of the risk-free

Under the CAPM, the required nominal rate of return on equity (Re) is estimated as follows:

$$R_e = R_f + \beta_e (R_m - R_f)$$

Where:

- Rf = risk free rate
- βe = expected equity beta of the investment
- (Rm Rf) = market risk premium

Risk-free rate

We have adopted a risk free rate of 3.5% which is based on the long-term real yield on Australian 10-year government bonds. We note that the adopted risk free rate falls within the range of the real bond yield plus RBA's inflation target (2-3%). In the absence of an official risk free rate, the yield on government bonds (in an appropriate jurisdiction) is commonly used as a proxy. Accordingly, we have observed the yield on the 10-year Australian Government bond over intervals from a period of 5 trading days to 10 trading years.

The below table sets out the average yield on 10-year Australian Government Bond over the last 15 years.

Australia Government Debt - 10 Year				Daily average
as at 16 January 2020		Range		Nominal
Previous 5 trading days	1.22%	-	1.26%	1.25%
Previous 10 trading days	1.19%	-	1.26%	1.24%
Previous 20 trading days	1.19%	-	1.38%	1.27%
Previous 30 trading days	1.11%	-	1.38%	1.24%
Previous 60 trading days	1.00%	-	1.38%	1.19%
Previous 1 year trading	0.87%	-	2.32%	1.46%
Previous 2 years trading	0.87%	-	2.93%	2.06%
Previous 3 years trading	0.87%	-	2.99%	2.26%
Previous 5 years trading	0.87%	-	3.16%	2.37%
Previous 10 years trading	0.87%	-	5.88%	3.28%

Source: S&P Global

Note: The above analysis has been performed as at 16 January 2020.

In addition, we have examined broker reports of RFF and comparable A-REITs and analysts adopted a risk-free rate in the range of 3.5% and 4.0% with an average of 3.8%.

Market risk premium

For the purpose of the WACC assessment, Grant Thornton Corporate Finance has adopted a market risk premium of 6.0%.

The market risk premium represents the additional return an investor expects to receive to compensate for additional risk associated with investing in equities as opposed to assets on which a risk free rate of return is earned. However, given the inherent high volatility of realised rates of return, especially for equities, the market risk premium can only be meaningfully estimated over long periods of time. In this regard, Grant Thornton studies of the historical risk premium over periods of 20 to 80 years suggest a risk premium of 6.0% for the Australia markets.

Equity beta

The beta measures the expected relative risk of the equity in a company. The choice of the beta requires judgement and necessarily involves subjective assessment as it is subject to measurement issues and a high degree of variation.

An equity beta includes the effect of gearing on equity returns and reflects the riskiness of returns to equity holders. However, an asset beta excludes the impact of gearing and reflects the riskiness of returns on the asset, rather than returns to equity holders. Asset betas can be compared across asset classes independent of the impact of the financial structure adopted by the owners of the business.

Equity betas are calculated from historical data. These are then used as a proxy for the future which assumes that the relative risk of the past will continue into the future. Therefore, there is no right equity beta and it is important not to simply apply historical equity betas when calculating the cost of equity.

For the purpose of the Report, we have had regard to the observed betas (equity betas) of comparable listed companies operating in agricultural industry as well as A-REITS with a long WALE⁴⁰. RFF is an agricultural A-REIT which is structured such that is less exposed to agricultural risks. However, RFF will still be exposed to certain agricultural risks as its lessees are agricultural operators and processors.

Source: S&P Global and GTCF calculations

Source. SAF Grobal and GLCF calculations

Note (1): Equity betas are calculated using data provided by S&P Global as at 16 January 2020. The betas are based on a five-year period with
monthly observations as well as two-year period with weekly observations both based on the local index. Betas have been ungeared based on the
average gearing ratio (i.e. net debt divided by shareholders' equity based on market values). Betas have been regeared based on the
average gearing ratio of 35% which corresponds with RFF's target gearing ratio. We note that comparable companies have gearing ratios of
approximately 33%. 2) Some betas are not statistically significant, denoted as "nmf", therefore we have not relied upon them.

⁴⁰ Weighted Average Lease Expiry.

It should be noted that the above betas are drawn from the actual and observed historical relationship between risk and returns. From these actual results, the expected relationship is estimated generally on the basis of extrapolating past results. Despite the arbitrary nature of the calculations it is important to assess their commercial reasonableness. That is, to assess how closely the observed relationship is likely to deviate from the expected relationship.

Consequently, while measured equity betas of the listed comparable companies provide useful benchmarks against which the equity beta used in estimating the cost of equity for the predevelopment assets, the selection of an unsystematic equity beta requires a level of judgement.

The asset betas of the selected companies are calculated by adjusting the equity betas for the effect of gearing to obtain an estimate of the business risk of the comparable companies, a process commonly referred as de-gearing. We have then recalculated the equity beta based on an assumed 'optimal' capital structure deemed appropriate for the business (regearing). This is a subjective exercise, which carries a significant possibility of estimation error.

We used the following formula to undertake the de-gearing and regearing exercise:

$$\beta_e = \beta_a \left[1 + \frac{D}{E} \times (1 - t) \right]$$

Where:

- βe = Equity beta
- βa = Asset beta
- t = corporate tax rate

The betas are de-geared using the average historical gearing levels of those respective companies over several years. We note that most comparable companies had gearing positions of circa 33%. We then regeared based on a target gearing ratio of 35% debt (see Capital Structure Section below for further discussions).

For the purposes of our valuation, we have selected a beta range of between 0.80 and 0.90 to calculate the required rate of return on equity capital. In our beta assessment we had mainly regards to RFF's historical beta (0.90), broker estimates of RFF's beta⁴¹ (0.85), as well as betas of comparable similar sized⁴² companies (i.e. Select Harvests Limited, Webster Limited, Arena REIT). We have adopted a slightly higher beta than observable for most other A-REITs with a long WALE as we are of the opinion that RFF has somewhat higher systematic risk due to its agricultural exposure through its lessees.

⁴¹ UBS adopted a leveraged beta of 0.85 for RFF in March 2018.

⁴² In terms of market capitalisation

Specific risk premium

Specific risk premium ("SRP") represents the additional return an investor expects to receive to compensate for country, size and project related risks not reflected in the beta of the observed comparable companies.

Discount rate summary

All the above results in our assessed cost of equity range summarised in the below table.

Cost of equity calculation	Low	High
Cost of equity		
Risk-free rate	3.5%	3.5%
Beta	0.80	0.90
Market risk premium	6.0%	6.0%
Specific risk premium	0%	0%
Cost of equity	8.3%	8.9%
Cost of equity - midpoint		8.6%

Source: GTCF Analysis

Discount rate benchmarking

We consider the above stated cost of equity range not unreasonable due the following:

- RFF reports a discount rate in the range of 8.0% to 9.0% (presumably WACC) for its almond orchard property valuation, which represents approximately half of RFF's portfolio value. We would expect the cost of equity to be slightly higher.
- Relevant listed agricultural companies report on average a discount rate (presumably WACC) of 8.1%. We would expect the cost of equity to be slightly higher based on debt profile of these companies.
- Relevant A-REITs with long WALE report on average a cost of equity in the range of 6.3% to 9.4%.
- RFF is covered by four relevant brokers UBS, Bell Potter, Wilsons and Auerbach Grayson⁴³. UBS adopts a cost of equity for RFF of 9%. Wilsons adopts a cost of equity for RFF of 10.7%.
- Several brokers adopt a cost of equity for relevant A-REITs (with long WALE) between 7% and 10% with 8% on average.

Based on the above, we consider our adopted cost of equity in the range of 8.3% and 8.9% (with a midpoint of 8.6%) not unreasonable.

⁴³ Information is provided by Wilsons.

Appendix C – Comparable companies

Company	Business description
Australian Agricultural Company Limited (ASX:AAC)	Australian Agricultural Company Limited produces and sells cattle and beef in Australia. The company engages in owning, operating, and developing pastoral properties; producing beef, including breeding, backgrounding, feedlotting, and processing cattle; and the production of grass fed beef, grain fed beef, and Wagyu beef. It provides its products under the Wylarah, Westholme, Master Kobe, Kobe Cuisine, and Darling Downs Wagyu brands. The company operates an integrated cattle production system across 19 owned cattle stations, 2 leased stations, 5 agisted properties, 2 owned feedlots, and 2 owned farms covering an area of approximately 6.4 million hectares of land in Queensland and the Northern Territory. It also exports its products. The company was founded in 1824 and is based in Brisbane, Australia.
Select Harvest Limited (ASX:SHV)	Select Harvests Limited engages in processing, packaging, marketing, and distributing edible nuts, dried fruits, seeds, and a range of natural health foods in Australia. The company operates through Almond Division and Food Division segments. It also grows, processes, and sells almonds to the food industry from company owned and leased almond orchards. In addition, the company offers health snacks and muesli; and holds a portfolio of approximately 7,696 hectares of almond orchards. It also exports its products to India and China, as well as rest of Asia, Europe, and the Middle East. The company offers its products to retailers, distributors, and industrial users under the Lucky, NuVitality, Sunsol, Allinga Farms, and Soland in retail; and Renshaw and Alling Farms in the wholesale and industrial markets. The company was incorporated in 1969 and is based in Thomastown, Australia.
Webster Limited (ASX:WBA)	Webster Limited operates as an agribusiness company in Australia. The company operates in two segments, Agriculture and Horticulture. It produces, processes, and markets annual row crops, including cotton, wheat, maize, walnuts, honey, and almonds; and other crops, such as com, cereals, and legumes, as well as livestock activities. The company also exports its products in Europe, the Middle East, and Asia. Webster Limited was founded in 1831 and is based in Leeton, Australia.
Elders Limited (ASX:ELD)	Elders Limited provides livestock, real estate, and wool agency services to rural and regional customers primarily in Australia. It operates through Network, Feed and Processing, and Other segments. The company offers rural farm inputs, such as seeds, fertilizers, agricultural chemicals, animal health products, and general rural merchandise, as well as professional production and cropping advisory services. It also provides on-farm sales to third parties, regular physical, and online public livestock auctions, as well as directly sells through its owned and third-party feedlots and livestock exporters; agency services for the sale of greasy wool; brokering services for wool growers; and grain marketing services. In addition, the company offers farms, stations, and lifestyle estates marketing; residential real estate agency and property management; and water and home loan broking services. Further, it provides a range of banking, insurance, and financial planning products and services. Additionally, it operates a beef cattle feedlot; and imports, processes, and distributes Australian meat in China and Indonesia. The company is involved in the investment activities. Elders Limited was founded in 1839 and is headquartered in Adelaide, Australia.
Australian Vintage Ltd (ASX:AVG)	Australian Vintage Ltd, together with its subsidiaries, produces, packages, markets, and distributes wine. The company operates through Australasia/North America Packaged, UK/Europe, Cellar Door, Australasia/North America Bulk Wine and Processing, and Vineyards segments. It offers wine under the Miranda, Nepenthe, McGuigan Wines, Tempus Two, and Passion Pop brands. The company also owns, operates, manages, and maintains vineyards; and provides packaged and bulk wines, as well as offers concentrate and winery processing services. Australian Vintage Ltd sells its products through retail, wholesale, and distributor channels, as well as through regional outlets. The company was incorporated in 1991 and is headquartered in Cowandilla, Australia.
Wingara AG Limited (ASX:WNR)	Wingara AG Limited engages in processing and marketing agricultural products in Australia. It offers oaten hay and other fodder products. The company also exports its products to Asia. In addition, it provides temperature-controlled facilities, blast freezing, and storage and distribution services for manufacturers. The company was formerly known as Biron Apparel Limited and changed its name to Wingara AG Limited in January 2016. Wingara AG Limited was incorporated in 1984 and is based in Carlton, Australia.
Australian Dairy Nutritionals Group (ASX:AHF)	Australian Dairy Nutritionals Group operates as an integrated dairy producer in Australia. It operates through Dairy Farms and Dairy Processing segments. The Dairy Farms segment owns and operates dairy farms and dairy livestock for the production and sale of fresh raw milk for converting into milk and milk products. The Dairy Processing segment processes and sells dairy products, including milk, yoghurt, and butter. The company was founded in 1992 and is based in Brisbane, Australia.
Treasury Wine Estates (ASX:TWE)	Treasury Wine Estates Limited operates as a wine company in Australia, New Zealand, Asia, Europe, and the Americas. It engages in the viticulture and winemaking; and marketing, sale, and distribution of wine. The company's wine portfolio includes luxury, masstige, and commercial wine brands, such as Penfolds, Beringer, Lindeman's, Wolf Blass, 19 Crimes, Chateau St Jean, Beaulieu Vineyard, and Stefling Vineyards. It also provides contract bottling services to third parties. The company owns and leases 9,149 planted hectares of vineyards in Australia and New Zealand; and owns and operates 3,728 planted hectares in various viticultural regions in California, including Napa Valley, Sonoma County, Lake County, and Central Coast, as well as 148 hectares in Europe. It markets and sells its products to distributors, wholesalers, retails chains, independent retailers, and on premise outlets, as well as directly to consumers. The company was founded in 1843 and is headquartered in Melbourne, Australia.
Inghams Group Limited (ASX:ING)	Inghams Group Limited, together with its subsidiaries, produces and sells poultry products in Australia and New Zealand. It offers chicken and turkey products; and stock feed for poultry, pig, dairy, and equine industries. The company was founded in 1918 and is based in North Ryde, Australia.

Company	Business description
Ridley Corporation Limited (ASX:RIC)	Ridley Corporation Limited, together with its subsidiaries, provides animal nutrition solutions in Australasia. It operates through two segments, AgriProducts and Property. It offers animal meals, including meat and bone meal, poultry meal, hydrolysed feather meal, blood meal, fish meal, and animal fats primarily under the Barastoc, Rumevite, Cobber, and Primo brands. The company provides its animal nutrition solutions to food producers in dairy, poultry, pig, aquaculture, sheep, and beef industries; laboratory animals in the research sector; and the equine and canine markets in the recreational sector. It is also involved in the sale of residual properties. The company was founded in 1987 and is headquartered in Melbourne, Australia.
Beston Global Food Company Limited (ASX:BFC)	Beston Global Food Company Limited, together with its subsidiaries, engages in the manufacture and sale of food and beverage products in Australia and internationally. It operates in four segments: Dairy, Meat, Other, and International Other. The company owns dairy farms that offer milk, cheese, and other dairy related products; harvests, processes, packages, and distributes live, chilled, and frozen seafood; and produces and processes meat products. It also develops and produces health and well-being focused food, beverage, and pharmaceutical products; processes high pH natural spring water; and develops and commercializes end-to-end food traceability and anti-counterfeit technology solutions, as well as a food e-commerce platform. In addition, the company markets and distributes dairy, seafood, meat, wine, water, health, and nutrition products. Beston Global Food Company Limited was incorporated in 2014 and is headquartered in Adelaide, Australia.
Vitalharvest Freehold Trust (ASX:VTH) WALE c. 7.0 years	Vitalharvest owns one of the largest aggregations of berry and citrus farms in Australia. These are located in prime growing locations in New South Wales, South Australia and Tasmania and are leased to Costa Group (ASX:CGC). Vitalharvest provides investors with exposure to agricultural property assets whose earnings profile and underlying value are exposed to the growing global agricultural demand for healthy, nutritious food. These assets provide agricultural diversification by way of crop type, climatic region, water source and product end markets. Vitalharvest is an agricultural real estate investment trust managed by goFARM Asset Management (ACN 625 505 455) AR No. 001264243. The Trust Company (RE Services) Limited (ABN 45 003 278 831) (Responsible Entity), part of Perpetual Limited (ASX:PPT), is the responsible entity for the Vitalharvest Freehold Trust ARSN 626 537 362.
Centuria Industrial REIT (ASX:CIP) WALE c. 7.2 years	CIP is Australia's largest domestic pure play industrial REIT and is included in the S&P/ASX 300 Index. CIP's portfolio of high-quality industrial assets is situated in key metropolitan locations throughout Australia and is underpinned by a quality and diverse tenant base. CIP is overseen by a hands on, active manager and provides investors with income and an opportunity for capital growth from a pure play portfolio of high quality Australian industrial assets. Centuria Property Funds No. 2 Limited (CPF2L), is the Responsible Entity for the ASX-listed Centuria Industrial REIT (CIP). CPF2L, is a wholly owned subsidiary of Centuria Capital Group (CNI). CNI is an ASX-listed specialist investment manager with \$6.2 billion in total assets under management and strong offerings across listed real estate investment trusts, unlisted real estate funds and investment bonds.
APN Convenience Retail REIT (ASX:AQR) WALE c. 11.7 years	APN Convenience Retail REIT (ASX code: AQR) is a listed Australian real estate investment trust which owns high quality Australian service stations and convenience retail assets. The Fund's portfolio of 70 properties valued at approximately \$358 million, is predominantly located on Australia's eastern seaboard and is leased to leading Australian and international convenience retail tenants. The portfolio provides a long lease expiry profile and contracted annual rent increases delivering the Fund a sustainable and strong level of income security. Convenience Retail has a target gearing range of 25 – 40% as part of its conservative approach to capital management. APN Convenience Retail REIT is governed by an Independent Board of Directors and is managed by APN Property Group, a specialist real estate investment manager established in 1996 with approximately \$2.8 billion in assets under management.
Charter Hall Long WALE REIT (ASX:CLW) WALE c. 14.9 years	Charter Hall Long WALE REIT is an Australian Real Estate Investment Trust (REIT) listed on the ASX and investing in high quality Australasian real estate assets that are predominantly leased to corporate and government tenants on long term leases. Charter Hall Long WALE REIT is managed by Charter Hall Group (ASX:CHC). With over 28 years' experience in properly investment and funds management, we're one of Australia's leading fully integrated property groups. We use our property expertise to access, deploy, manage and invest equity across our core sectors – office, retail, industrial and social infrastructure. Operating with prudence, we've carefully curated a more than \$33 billion diverse portfolio of over 820 high quality, long leased properties. Partnership and financial discipline are at the heart of our approach. Acting in the best interest of customers and communities, we combine insight and inventiveness to unlock hidden value. Taking a long term view, our \$7 billion development pipeline delivers sustainable, technologically enabled projects for our customers. The impacts of what we do are far-reaching. From helping businesses succeed by supporting their evolving workplace needs, to providing investors with superior returns for a better retirement, we're powered by the drive to go further.
Shopping Centres Australasia Property Group (ASX:SCP) WALE c. 7.9 years	SCA Property Group (SCP) includes two internally managed real estate investment trusts owning a portfolio of quality neighbourhood and sub-regional shopping centres located across Australia. The SCA Property Group invests in shopping centres predominantly anchored by non-discretionary retailers, with long term leases to tenants such as Woolworths Limited, Coles Group Limited and companies in the Wesfarmers Limited group. The SCA Property Group is a stapled entity comprising Shopping Centres Australasia Property Management Trust (ARSN 160 612 788).
Viva Energy REIT (ASX:VVR) WALE c. 12.1 years	Viva Energy REIT is Australia's largest listed REIT owning solely service station properties with a high quality portfolio of service stations across all Australian States and Territories. Viva Energy REIT's objective is to maximize the long-term income and capital returns from its ownership of the portfolio for the benefit of all security holders. Viva Energy REIT is a stapled entity in which one share in Viva Energy REIT Limited (ABN 35 612 986 517) is stapled to one unit in the Viva Energy REIT Trust (ARSN 613 146 464). This ASX announcement is prepared for information purposes only and is correct at the time of release to the ASX.

Company	Business description

6. Notice of Meetings

Rural Funds Group comprising
Rural Funds Trust ARSN 112 951 578 and
RF Active ARSN 168 740 805

Rural Funds Management Limited (**RFM**), as responsible entity and manager of Rural Funds Trust ARSN 112 951 578 and RF Active ARSN 168 740 805, collectively referred to as the Rural Funds Group (**RFF**), gives notice that Meetings of the Unitholders of Rural Funds Trust and RF Active (**Meetings**) will be held as follows:

Time: 11:00am (AEST)

Date: Tuesday, 14 April 2020

Place: Rural Funds Management Limited, Level 2, 2 King Street Deakin ACT 2600

BUSINESS OF THE MEETING

Resolution: Approval of the Additional Guarantee

To consider and, if thought fit, to pass, with or without amendment, the following as an ordinary resolution:

'That for the purposes of ASX Listing Rule 10.1 and for all other purposes, the Unitholders of Rural Funds Trust ARSN 112 951 578 and RF Active ARSN 168 740 805 (the Rural Funds Group) approve and authorise Rural Funds Management Limited (RFM), as responsible entity of the Rural Funds Group, to amend existing agreements with J&F Australia Pty Ltd, a wholly owned subsidiary of RFM, to allow an additional \$25.0 million Guarantee, bringing the total Guarantee limit amount to \$100.0 million, to support the acquisition of cattle to stock the feedlots which are operated by JBS as described in the Explanatory Memorandum accompanying the notice of meetings.'

Independent Expert's Report: Unitholders should carefully consider the Independent Expert's Report contained in section 5 of this Explanatory Memorandum. The Independent Expert, Grant Thornton Corporate Finance Pty Ltd, has concluded that the Guarantee is fair and reasonable to the Unitholders who are not associated with Rural Funds Management Limited.

By order of the Board

Emma Spear

Company Secretary

Rural Funds Management Limited

Voting exclusion statement

ASX Listing Rules require RFM to disregard any votes cast on the Resolution by the person disposing of the substantial asset to, or acquiring the substantial asset from, RFF and any other person who will obtain a material benefit as a result of the transaction (except a benefit solely by reason of being a holder of ordinary securities in the entity).

In accordance with the ASX Listing Rules, and the Corporations Act, RFM will disregard any votes cast on the Resolution by Rural Funds Management Limited and any of its associates.

However, RFM need not disregard a vote if:

- it is cast by a person as proxy for a person who is entitled to vote, in accordance with the directions of the Proxy Form; or
- it is cast by the Chairman of the meeting as proxy for a person who is entitled to vote, in accordance with the direction on the Proxy Form to vote as the proxy sees fit.

Quarum

The quorum for a meeting of members of Rural Funds Trust or RF Active is two Unitholders, in person or by proxy, at all times during the meeting.

Entitlement to vote

The Board of RFM has determined that persons registered as Unitholders of Units as at 7.00pm (AEST) on Monday, 13 April 2020 will be entitled to attend and vote at the Meetings (subject to any applicable voting exclusion).

Votes to be disregarded

Under section 253E of the Corporations Act, the responsible entity of a registered scheme and its associates are not entitled to vote their interests on a resolution at a meeting of the scheme's members if they have an interest in the Resolution or matter other than as a member. The responsible entity and its associates may vote as proxies if their appointment specifies the way they are to vote, and they vote that way. In any case RFM and its associates will not be entitled to vote on the Resolution by virtue of the voting exclusion noted above.

Majority required

As the Resolution is an ordinary resolution, it will be passed if more than 50% of the votes cast by Unitholders entitled to vote on the Resolution are in favour.

Jointly held stapled securities

If a Unit in Rural Funds Trust is held jointly and more than one Unitholder votes in respect of that interest, only the vote of Rural Funds Trust Unitholder whose name appears first in the register of Rural Funds Trust members counts. Similarly, if a Unit in RF Active is held jointly and more than one RF Active Unitholder votes in respect of that interest, only the vote of RF Active Unitholder whose name appears first in the register of RF Active members counts.

Voting procedure

Voting on the Resolution will be on a poll (rather than a show of hands).

Unitholders who are entitled to vote on the Resolution will have one vote for each dollar value of the value of the total interests they have in RFF.

A Unitholder entitled to two or more votes does not have to exercise their votes in the same way and does not have to cast all their votes.

Voting

You can ensure your vote is cast in one of two ways:

- attending the Meetings and voting in person, or, if you are a corporate Unitholder, by a corporate representative voting for you; or
- appointing a proxy to attend and vote for you, using the enclosed Proxy Form and lodging your Proxy Form under the procedures described under "Proxy forms" below.

Proxies

If a Unitholder is unable to attend the Meetings, the Unitholder may appoint a person (either an individual or body corporate) or the Chair of the Meetings to act as their proxy at the Meetings by completing the Proxy Form accompanying the Notice of Meetings.

Rural Funds Management Limited has appointed Ms Trudi Procter of McCullough Robertson to Chair the Meetings. Ms Procter, as Chair of the Meetings, has indicated she intends to vote all undirected proxies in favour of the Resolution. If a Unitholder appoints a body corporate as their proxy, the proxy will need to appoint an individual to act as its representative at the Meetings and send the authority to the Registry by 11:00am (AEST) on Sunday, 12 April 2020 or give it by hand when registering as a corporate representative.

If a Unitholder appoints two proxies, the Unitholder may specify the proportion or number of votes each proxy holder is entitled to exercise.

Where two proxies are appointed, and the appointment does not specify the proportion or number of the Unitholder votes, each proxy may exercise half of the votes. A proxy need not be a Unitholder.

Unless the proxy is required by law to vote, the proxy may decide whether or not to vote on any particular item of business. If the appointment of a proxy directs the proxy to vote on an item of business in a particular way, the proxy may only vote on that item as directed. Any undirected proxies on the Resolution may be voted by the appointed proxy as they choose, subject to the voting exclusions set out above.

Proxy forms and voting

The Proxy Form that accompanies this Notice of Meetings includes instructions on how to vote and appoint a proxy. To ensure that all Unitholders can exercise their right to vote on the Resolution, a Proxy Form is enclosed.

Proxy Forms should be completed and returned by no later than 11:00am (AEST) on Sunday, 12 April 2020.

The Proxy Form can be lodged by one of the following options:

- by mail and posting it to: Boardroom Pty Ltd, GPO Box 3993, Sydney NSW 2001 Australia
- by faxing it to: (within Australia) (02) 9290 9655 (outside Australia) +61 2 9290 9655
- in person: Boardroom Pty Ltd, Level 12, 225 George Street, Sydney NSW 2000 Australia.
- by emailing it to: rfm@boardroomlimited.com.au
- electronically: by following the instructions included on the proxy form

Power of Attorney

To sign under Power of Attorney, you must lodge the Power of Attorney with the Registry. If you have not previously lodged this document for notation, please attach a certified photocopy of the Power of Attorney to your Proxy Form when you return it.

Companies

Where the company has a sole director who is also the sole company secretary, the Proxy Form must be signed by that person. If the company (pursuant to section 204A of the Corporations Act 2001) does not have a company secretary, a sole director can also sign alone.

Otherwise the Proxy Form must be signed by a director jointly with either another director or a company secretary. Please indicate the office held by signing in the appropriate place.

Corporate representatives

A corporate investor wishing to appoint a person to act as its representative at the Meetings must provide that person with an authority executed in accordance with the Corporations Act authorising him or her to act as the company's representative. The authority must be sent to the Registry by 11:00am (AEST) on Sunday, 12 April 2020 or given by hand at the Meetings when registering as a corporate representative.

A form of "Certificate of Appointment of Corporate Representative" may be obtained from the Registry. A corporate Unitholder may appoint a proxy.

Registration

Registration will commence at 10:30am (AEST) on the day of the Meetings, with the Meetings scheduled to begin at 11:00am (AEST) on Tuesday, 14 April 2020. For ease of registration, please bring your Proxy Form to the Meetings (as lodged prior to the Meetings).

7. Glossary

Term	Definition
Additional Guarantee	An increase of \$25.0 million to the Initial Guarantee approved in August 2018

YOUR VOTE IS IMPORTANT

For your vote to be effective it must be recorded before 11:00am (AEST) on Sunday, 12 April 2020.

TO VOTE BY COMPLETING THE PROXY FORM

STEP 1 APPOINTMENT OF PROXY

Indicate who you want to appoint as your Proxy.

If you wish to appoint the Chair of the Meetings as your proxy, mark the box. If you wish to appoint someone other than the Chair of the Meetings as your proxy please write the full name of that individual or body corporate. If you leave this section blank, or your named proxy does not attend the meetings, the Chair of the Meetings will be your proxy. A proxy need not be a member of Rural Funds Group (Fund). Do not write the name of the issuer Fund or the registered member in the space.

Appointment of a Second Proxy

You are entitled to appoint up to two proxies to attend the meetings and vote. If you wish to appoint a second proxy, an additional Proxy Form may be obtained by contacting the Fund's securities registry or you may copy this form.

To appoint a second proxy you must:

(a) complete two Proxy Forms. On each Proxy Form state the percentage of your voting rights or the number of securities applicable to that form. If the appointments do not specify the percentage or number of votes that each proxy may exercise, each proxy may exercise half your votes. Fractions of votes will be disregarded.

(b) return both forms together in the same envelope.

STEP 2 VOTING DIRECTIONS TO YOUR PROXY

To direct your proxy how to vote, mark one of the boxes opposite each item of business. All your securities will be voted in accordance with such a direction unless you indicate only a portion of securities are to be voted on any item by inserting the percentage or number that you wish to vote in the appropriate box or boxes. If you do not mark any of the boxes on a given item, your proxy may vote as he or she chooses. If you mark more than one box on an item for all your securities your vote on that item will be invalid.

Proxy which is a Body Corporate

Where a body corporate is appointed as your proxy, the representative of that body corporate attending the meetings must have provided an "Appointment of Corporate Representative" prior to admission. An Appointment of Corporate Representative form can be obtained from the Fund's securities registry.

STEP 3 SIGN THE FORM

The form must be signed as follows:

Individual: This form is to be signed by the member.

Joint Holding: where the holding is in more than one name, all the members should sign. **Power of Attorney:** to sign under a Power of Attorney, you must have already lodged it with the registry. Alternatively, attach a certified photocopy of the Power of Attorney to this form when you return it.

Companies: this form must be signed by a Director jointly with either another Director or a Company Secretary. Where the company has a Sole Director who is also the Sole Company Secretary, this form should be signed by that person. Please indicate the office held by signing in the appropriate place.

STEP 4 LODGEMENT

Proxy forms (and any Power of Attorney under which it is signed) must be received no later than 48 hours before the commencement of the meeting, therefore by 11:00am (AEST) on Sunday, 12 April 2020. Any Proxy Form received after that time will not be valid for the scheduled meeting.

Proxy forms may be lodged by one of the following options:

■ Online https://www.votingonline.com.au/rffegm2020

using your Voting Access Code (VAC):

■ By Fax + 61 2 9290 9655
