ACTIVITY STATEMENT

Activity Report:

In connection with the Appendix 4C; Quarterly cash flow report for entities subject to Listing Rule 4.7B, the Directors are pleased to give the following report on the Activities undertaken during the past quarter. There have been no material changes to our business operations, and activities continue as set out in the half yearly report. The company has implemented the necessary and suggested recommendation of national and local level governments in all areas where it is working in relation to the ongoing Covid-19 Coronavirus Pandemic.

Indonesia:

Our Sengkang Power Station and associated Gasfields continue to operate normally and within the contract parameters. Measures have been taken to safeguard the health of our staff and operators which are in line with government regulations for the affected region.

In the Appendix 4C, we disclosed payment to related parties of \$4.1M under 6.1. This relates to payments to PT. CEPA for the O&M contract for our Power Plant in Indonesia.

Philippines:

The ongoing lockdown of Luzon has affected our ability to carry out normal site operations at our Pagbilao LNG Hub Terminal and Power Plant. A skeletal workforce remains to provide security and maintain the completed Power and LNG infrastructure. The company is liaising with our main subcontractors to ensure that work returns to normal as soon as possible after the restrictions are lifted in line with any and all ongoing regulations.

Australia:

Work on the reactivation of the Eromanga and Gilmore Gasfields is ongoing in line with the relevant government guidelines.

Yours faithfully,
For and on behalf of
ENERGY WORLD CORPORATION LTD.

Graham Elliott
Director and Company Secretary
