## ASX Announcement

6 May 2020

### **Distribution agreement with All County Health Care Inc. broadens US footprint**

- **Distribution agreement secured with All County Health Care to promote and sell Prizma in the US**
- **All County is a Medicare certified provider of home-based health care solutions**
- **All County has a network of 1,400 physicians as well as local hospitals and medical organisations**
- **Allows GMV to leverage All County's existing sales team and established reputation for minimal cost**
- **Prizma is medically certified to measure ECG, Oxygen Saturation, Body Temperature**

Medical device and Telehealth company **G Medical Innovations (ASX: GMV)** ("**G Medical**" or the "**Company**") is pleased to advise that it has secured a distribution agreement ("**Agreement**") with a prominent US-based, Medicare certified home health company, All County Health Care Inc. ([www.allcountyhealthcare.com](http://www.allcountyhealthcare.com)) ("**All County**") to significantly expand its exposure in the United States market. The Agreement follows the over-the-counter ("**OTC**") approval for the Prizma being granted by the US Food and Drug Administration (refer to the ASX announcement on 8 April 2020).

All County is a large, privately held company, located in Lauderdale Lakes in Florida. It specialises in the provision of quality home-based healthcare services through the dispatch of medical professionals to patient's homes following a referral. All County aims to considerably reduce hospital readmissions through the provision of home-based care services.

The group has an extensive network of approximately 1,400 physicians throughout South Florida and regularly engages with hospitals and medical organisations in the region. All County has a sales team of seven highly experienced representatives that are tapped into an established local market.

Under the Agreement, All County will market and distribute G Medical's Prizma product in the United States and will also offer to customers certain additional Prizma related services for a fee. The Agreement does not provide for a minimum term and will continue in perpetuity. There are no minimum sales commitments under the Agreement.

#### **About the Prizma**

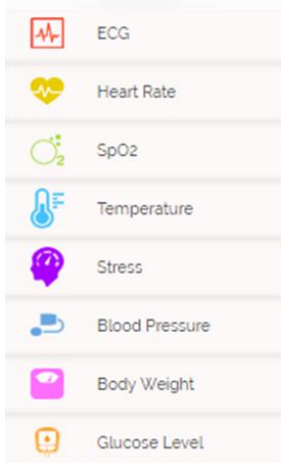

The Prizma is a unique advanced and medically certified personal monitoring device that offers comprehensive health profiling and monitoring. This unique solution enables both healthcare providers and individuals to monitor, manage and share a wide range of vital signs and biometric indicators within a single device.

# prizma G2

Built-in sensors measure ECG, Heart rate, SpO<sub>2</sub>, body temperature and stress

Manual data entry of weight, glucose and blood pressure measurements

Test, view and store measurements on your smartphone and on secure Cloud portal

## Benefits and Features

- Monitors a wide range of vital signs and biometrics in a single device
- Biometrics applicable to both chronic disease management and acute infection (i.e. COVID-19)
- Continuously collects, consolidates and analyses medical data to detect trends over time
- Powered by an independent battery that only becomes active when needed
- Sends configurable, automatic alerts, notifications and reminders
- Enables patients to instantly share data with predefined third parties
- Stores data in the cloud (subject to privacy policies)
- Linked to a smartphone application and other compatible (IOS/Android) devices (tablets, set-top box etc.)

**CEO and Executive Director Dr Yacov Geva said:** “The US is a key market for G Medical due to its ageing demographic and size, and the Company is confident that this agreement will allow it to expedite a lucrative market entry.

“The agreement with All County allows G Medical to leverage a highly qualified sales team in an established market, at little to no cost to the Company. We are confident that this development will greatly enhance product uptake as G Medical continues its rapid US expansion.

“We look forward to updating shareholders on progress in the USA and other markets.”

**Ends**

Authorised for release by Yacov Geva, Managing Director.

### **About G Medical products:**

G Medical offers a suite of consumer and professional clinical-grade products (with regulatory approval) that are positioned to streamline healthcare services, improve remote access to medical data, reduce costs, improve quality of care, and make healthcare more personalized and precise. Currently the Company is focusing on two main verticals.

The 'Prisma' Medical Smartphone Case is one of two key products developed by G Medical and is aimed at everyday consumers focused on their medical health and wellbeing. The 'Prisma' allows consumers to turn their smartphone into a mobile medical monitor to measure a wide range of vital signs, with the added advantage that users are able to store their medical data in the cloud and share it with third parties such as healthcare professionals and family members.

G Medical also offers a professional real-time patient continuous monitoring solution, G Medical's Vital Signs Monitoring System (VSMS) and G Medical Patch (GMP). This modular solution measures a wide range of vital signs that are automatically presented in a call centre (IDTF) or a hospital setting. The GMP assists in diagnosing patient complaints and conditions remotely, from pre-hospitalisation, hospitalisation and through to post discharge home-based settings.
