Our balance sheet leaves us in a good position to invest in further growth and to continue to provide a return to shareholders. We start the FY2021 well positioned with a record order book and a strong pipeline of new projects. Like last year we will focus on our operating discipline while investing in growth of our business through Whole of Mine projects and expansion into other commodities. With this order book, pipeline and growth strategy we are set up for another excellent year”.

The operational focus for the Mastermyne in FY2021 will be on executing the current order book safely and commercially to continue to generate strong free cash flows. Wilson Mining will support the ongoing growth for the mining business and our exposure to the underground metalliferous sector.

Lower capital investment is expected with a modest level of sustaining capital but this will continue to be reviewed in conjunction with new projects. Any investment in fleet will be designed to deliver EBITDA margin improvement.

The Company is continuing to progress several Whole of Mine (WoM) opportunities with one project now substantially progressed. The final decision on this WoM project could occur as early as the first half of the FY2021 financial year. The Company is also progressing other growth strategies which will see continued diversification into the metalliferous sector.

The Company will continue with its disciplined capital management strategy maintaining a Net Cash position of up to \$20 million allowing it to retain its financial strength through the market cycles and provide reliable returns to shareholders through dividend payments.
