Portfolio Lifetime Value (PLTV) Waterfall

Attractive Unit Economics - SaaS Metrics

7x Lifetime value (LTV) / customer acquisition costs (CAC) - supports growth investments

	June 2019	June 2020	Calculation
Revenue per Site (historic per month)	\$34	\$36 ²	$\frac{\text{Total revenue per month}}{\text{Number of sites}}$
CAC	\$593	\$1,132	$\frac{\text{Last 12 months CAC}}{\text{No. of new sites added}}$
Annualised churn%	4%	6%	Annualised actual ACV churn rate
Sites	9,782	11,334	Site Count
LTV per site	\$11.5k	\$7.9k ¹	$\frac{\text{ACV per site} \times \text{Gross Margin}\%}{\text{ACV churn rate}}$
LTV / CAC	19.4	7.0 ³	$\frac{\text{LTV per site}}{\text{CAC per new site}}$
Portfolio LTV	\$112.2m	\$89.4m	LTV per site x no. of sites

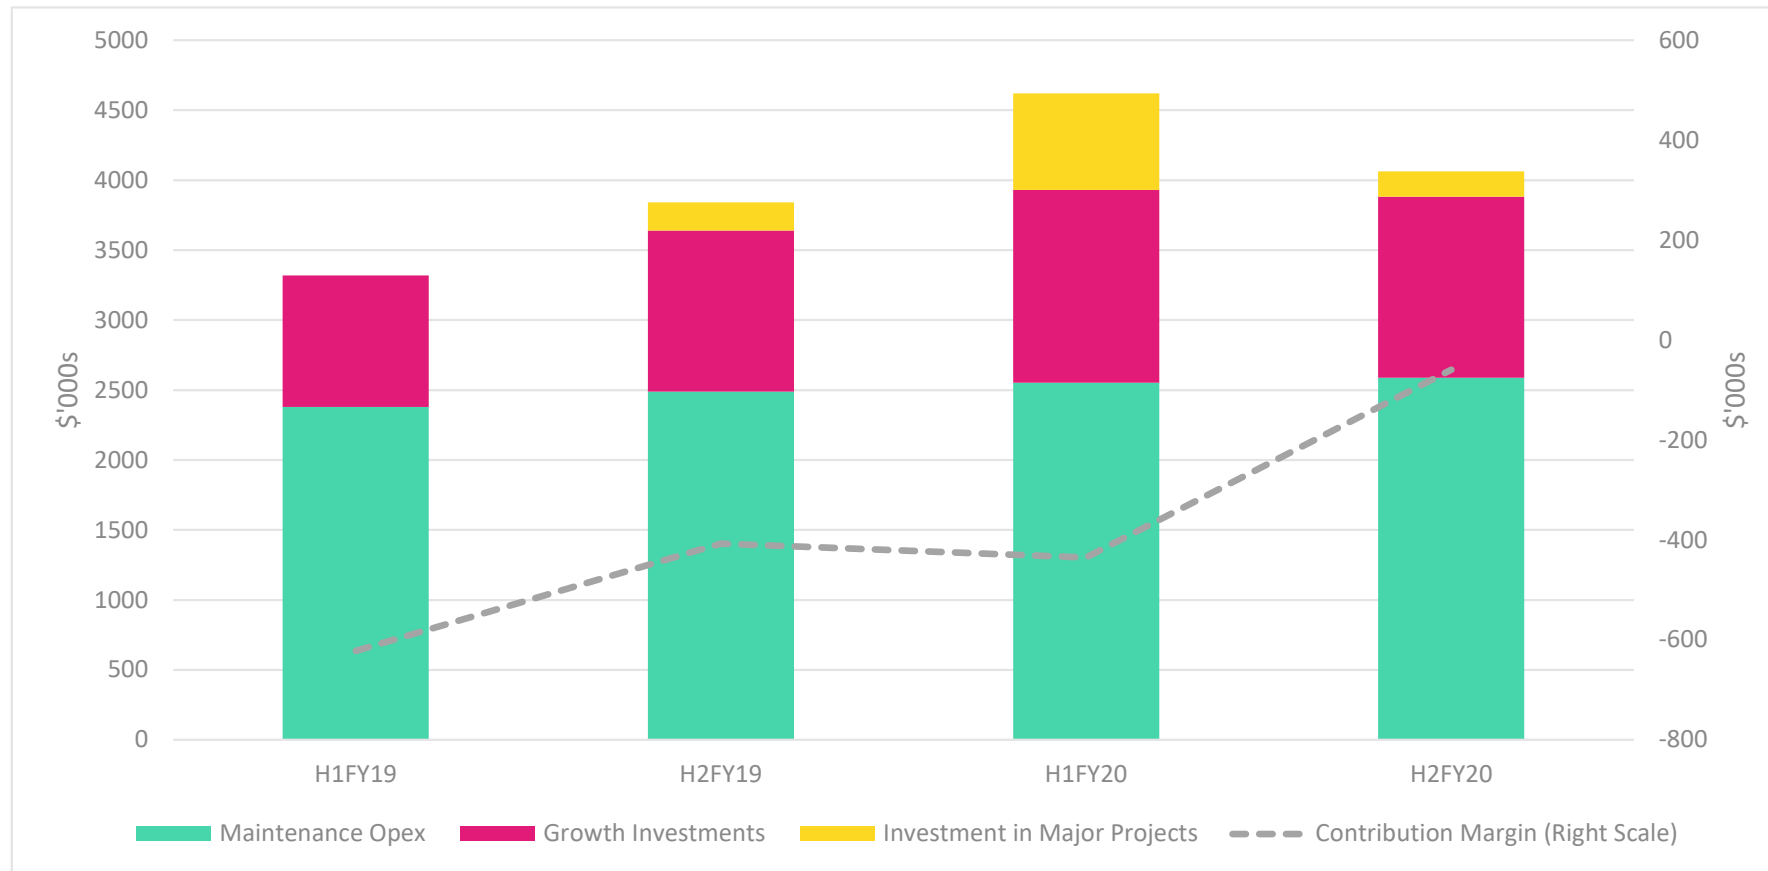

NOTES:

1. LTV currently excludes the significant upsell opportunity by adding value to existing customers through adoption of additional products and services over time
2. New sales average revenue per site exceeds \$130/month
3. LTV/CAC is very sensitive to churn, which increased to 6% from previous years 4%, hence LTV/CAC ratio reduced from 19.4 to 7.0.

Rising Contribution Margin with investments for growth

Costs controlled with attractive unit economics driving investments in growth and major projects

NOTES:

- 3 major contracts signed in H2FY19:
 - St Vincent’s Health Australia
 - Benestar
 - Medibank
- Maintenance Opex consistent averaging \$1.25m pq
- Growth Investments in FY20 \$2.7m supported by 7x Life-Time Value (LTV) / Customer Acquisition Cost (CAC)* unit economics
- Improving Contribution Margin* with positive trajectory, improvements on an ongoing quarterly basis

COVID-19 Update

- **Subscription revenues and usage fees largely intact through the Coronavirus (COVID-19) restrictions, despite interruptions to many of our customers' operations.**
- 282 customer sites temporarily suspended billings in April.
- Most sites have now re-opened for business.

- **COVID-19 caused unexpected delays to previously announced landmark agreements.**
- We have maintained engagement during COVID-19.
- Momentum has been re-building in Q1. We now anticipate these projects to contribute to growth during FY21.

- **COVID-19 has brought forward the structural shift to online in the healthcare market.**
- For example, during the pandemic patients and healthcare providers increasingly turned to 'telehealth' to deliver easier and improved access to healthcare services.
- The 'phone' was the predominant telehealth platform due to COVID-19 Medicare measures introduced by government.
- We anticipate an increasing shift to video-based telehealth as consumer preferences mature.

- **The impact of the pandemic is ongoing, but it is not practical to estimate the impact after the reporting date.**
- The situation is rapidly developing and is dependent on measures imposed by the Australian Government, such as maintaining social distancing requirements, quarantine, travel restrictions and any economic stimulus that may be provided.

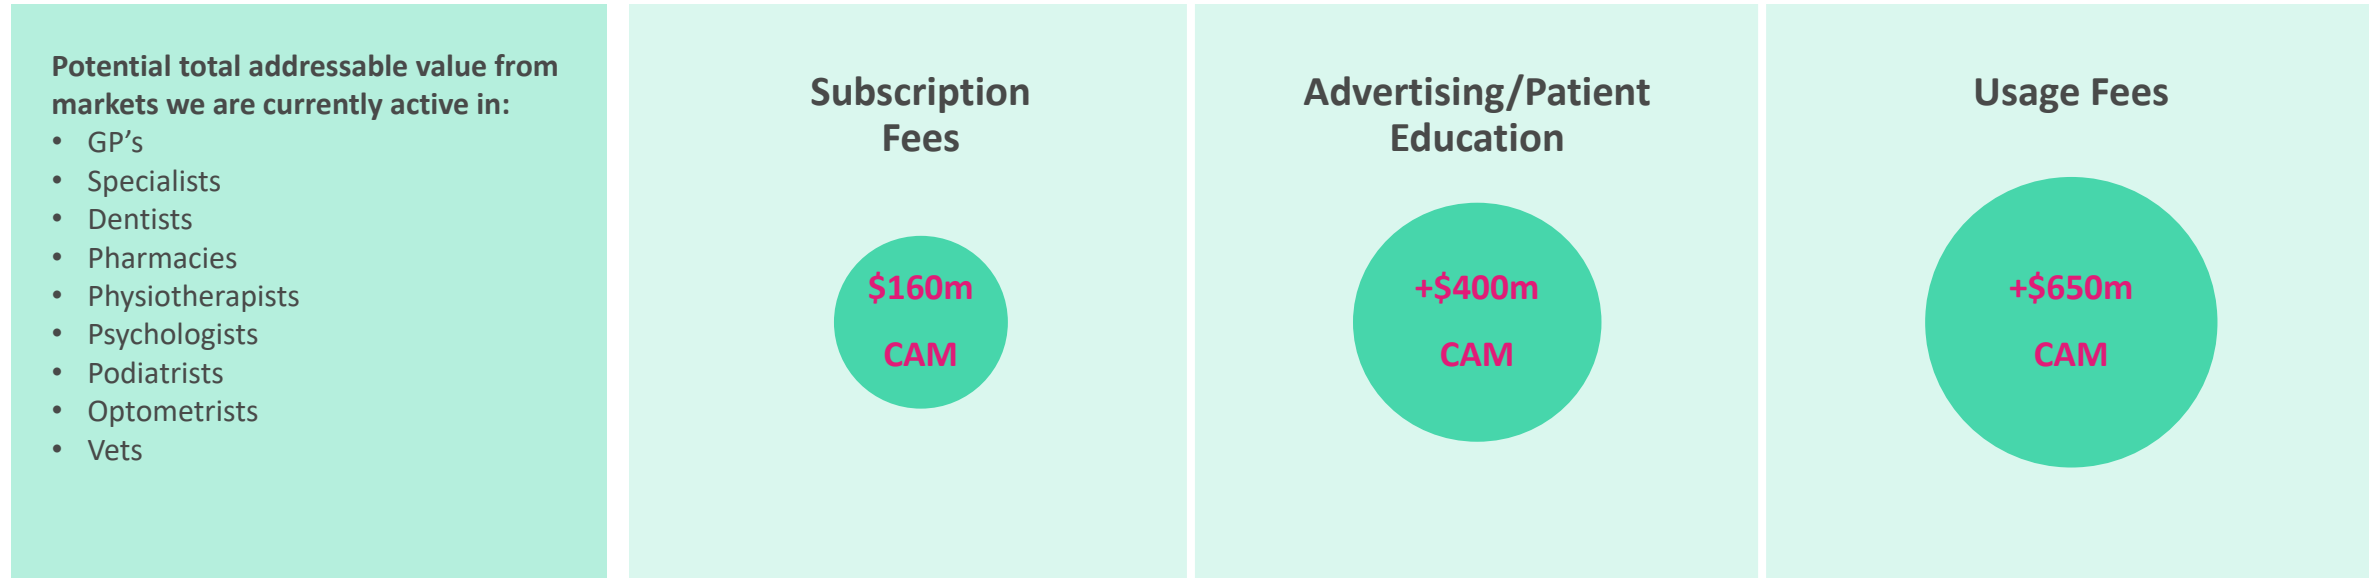

Revenue Model: Multiple sources with 75% from recurring subscription fees

1st Group has multiple revenue sources. Historically driven by online appointment booking subscription fees. Now the growth opportunity has been extended by providing customers with a range of additional value-added products and services

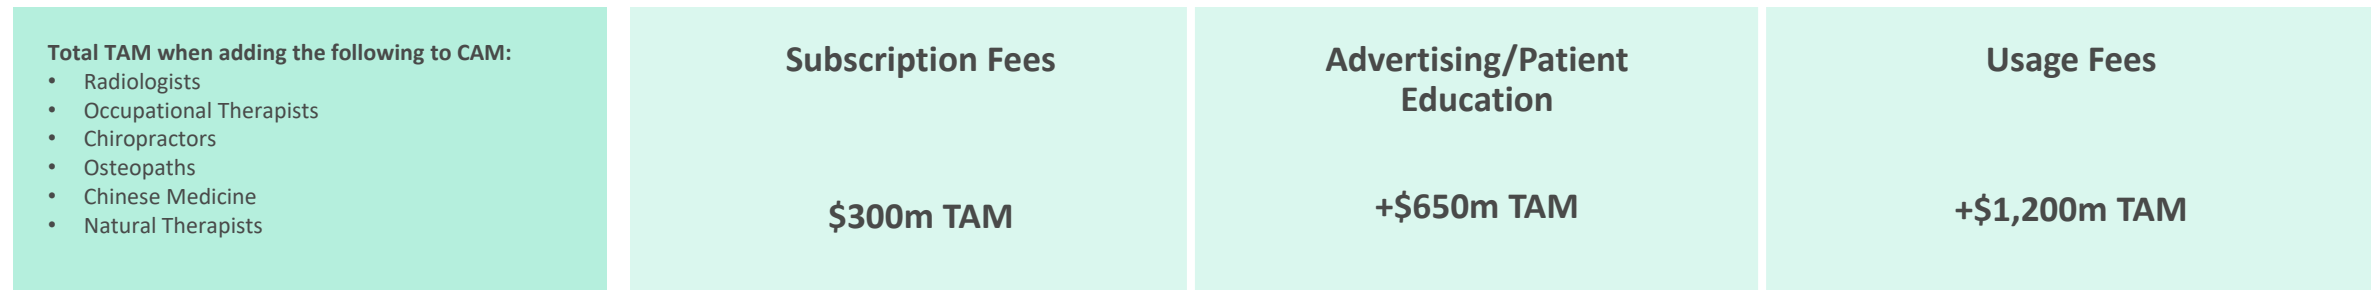

Revenue Category	1 Subscription Fees (Monthly Recurring Revenue)	2 One-off Fees	3 Advertising (Monthly Recurring Revenue)	4 Usage Fees (Monthly Recurring Revenue)

TAM sources: A calculation based on available provider and practice numbers drawn from the Government agency AHPRA, and industry association published numbers across all available healthcare services, including natural therapies, and based on existing 1st Group product fee structures

Current Addressable Market (CAM) - \$1.2b

Total Addressable Market (TAM) \$2.2b TAM in broader Digital Health Market

TAM sources: A calculation based on available provider and practice numbers drawn from the Government agency AHPRA, and industry association published numbers across all available healthcare services, including natural therapies, and based on existing 1st Group product fee structures. TAM value has increased from the previous \$1.9B quoted due to increases in number of providers.

Platforms and Online Health Marketplaces

1st Group platforms integrate with around 45 existing Practice Management Software (PMS) systems, providing coverage of approximately 99% GP, 90% dental, 75% specialist and 75% allied healthcare services markets.

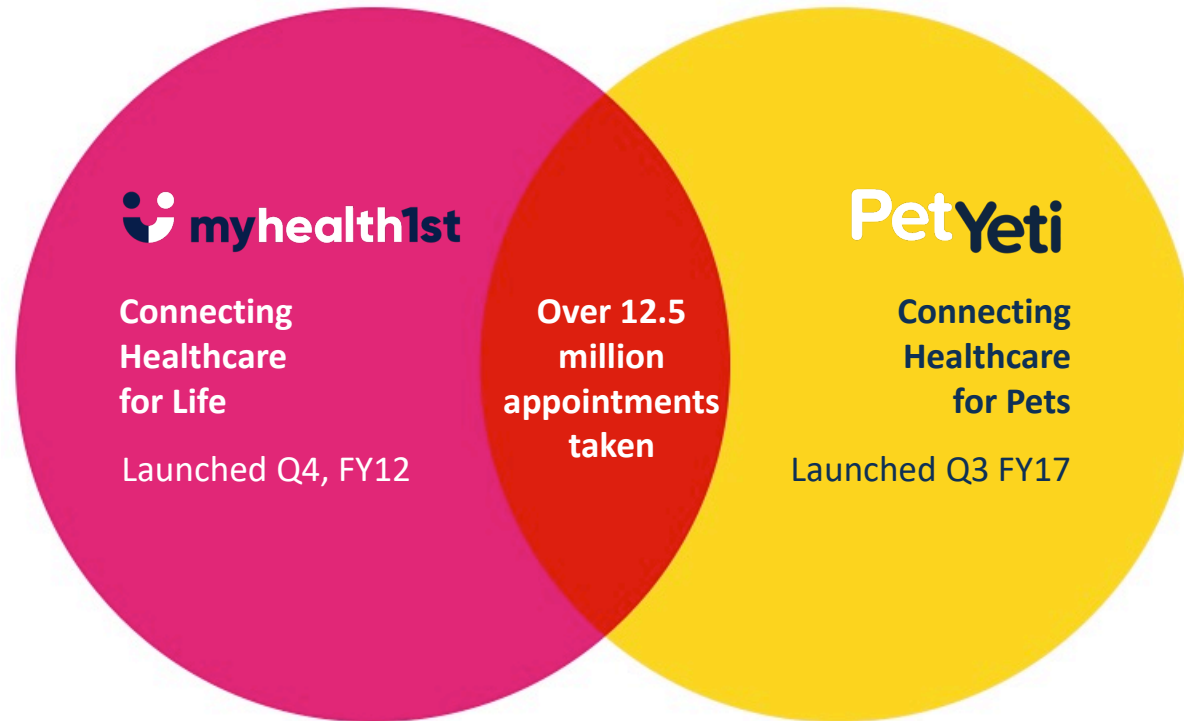

Total number of customer sites

11,334 sites as of June 2020

MyHealth1st.com.au and PetYeti.com.au are consumer marketplaces for people searching for new service providers

SaaS Platforms & Marketplaces*

Connecting healthcare for all family members

* Marketplace refers to the diverse range of services that existing and new pet and human health consumers can search for and book on our platform, including access to new providers

Current Product Suite – Creating a digital patient journey

1ST Group’s product suite vastly improves the entire consumer and patient experience, thereby creating loyalty to the practice/business, improving retention rates and enhancing lifetime customer value creation

Problem

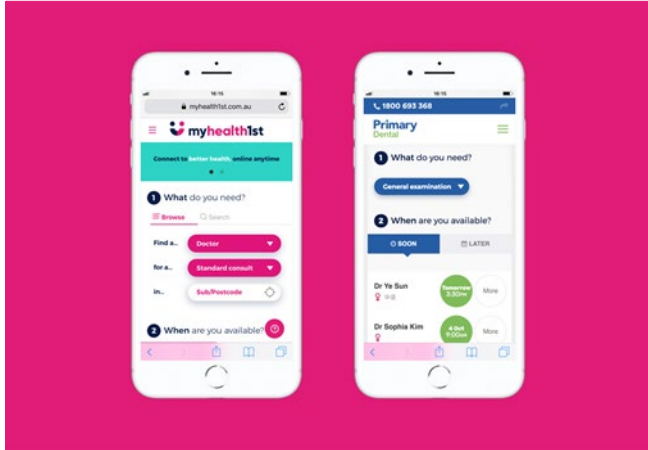

- 50m appointments still booked by telephone each month in Australia
- Complex, dated and inefficient patient management systems
- Difficulties in finding, selecting and booking local healthcare services
- Poor collaboration between healthcare providers
- Google is an unreliable source of health content

Solution

- Works seamlessly with existing patient management systems
- A convenient, easy to use, online healthcare booking platform
- Simplifies interaction between all health service stakeholders
- MyHealth1st is trusted, engaging and informative healthcare content

Update on cash and funding

At 30 June 2020, the Group held \$2.05m in cash. Given the Company's growth prospects and progress, cornerstone shareholder Mr John Plummer has agreed to increase the current convertible loan facility to the Company from \$2m to \$3m, on the same terms, **should it be required**. The Board appreciates John's ongoing support of 1st Group. This standby facility continues to enable the Company to execute its business strategy confidently and drive further sales and site growth. Subject to revenue increasing and costs remaining stable cash burn is expected to reduce in FY21.

SaaS Industry Metrics Glossary

ARR

Annualised Recurring Revenue (ARR) is the value of all recurring monthly revenues in a month normalised to a one year period. ARR includes all revenue streams that are reliably recurring on a monthly basis.

ACV

Annualised Contract Value (ACV) represents the annual expected revenue from contracted customers for subscription products. Excludes potential variable revenue from set up, Usage Fees and Advertising.

ACV Churn Rate

ACV Churn Rate is an annualised figure calculated by taking twelve times the average monthly churn rate over the previous twelve months. The monthly churn rate is the ACV from customers who leave 1st Group in a month as a percentage of the total ACV at the start of that month.

ACRR

Annualised Customer Retention Rate (ACRR) is calculated as $100\% - \text{ACV Churn Rate}$.

LTV

Lifetime value (LTV) is the gross margin expected from a customer over the lifetime of that customer. This is calculated by the average customer lifetime (1 divided by churn), multiplied by the ACV and gross margin %.

CAC

Customer Acquisition Cost (CAC) is all marketing and direct sales costs for new customer acquisition for the year divided by the new sites added in the period.

PLTV

Portfolio LTV (PLTV) is the average LTV times the number of sites.

Gross Margin

Gross Margin is Revenue minus Cost of Services (COS), which includes hosting costs, third party and transaction costs such as cost of SMS messages and credit card merchant fees.

Contribution Margin

Contribution Margin is EBITDA before taking into consideration the impact of investment in sales and marketing for growth, and corporate costs related to operating an ASX listed entity.

LTV / CAC Ratio

This measures the relative value of a customer compared to the cost of acquiring that customer.
