Our Strategy

We create products for a better future in a sustainable manner for our customers, our team, the communities in which we do business and our shareholders.

The Company has determined that all its operations will be undertaken in such a manner to ensure the needs of such operations in the present are undertaken so as not to compromise the ability of future generations to meet their own needs.

At all times we strive;

- to create shareholder value in a responsible manner;

- to improve from month to month and year to year.

Our business operating procedures are designed to ensure we adhere to our philosophy of being an ethical investment.

Wherever possible we seek to undertake our business;

- ethically
- using clean energy and being efficient as possible (our factories prioritise solar and wind energy providers). We undertake to review our green gas

emissions and seek to reduce our emissions, energy and waste year to year

- supporting research (we are sponsoring research into aquaculture in Western Australia and sea cucumber breeding) to improve our products, including improving the sustainability of our natural resources
- creating sustainable products (all harvesting is done in a sustainable resource management manner)
- considering the diverse cultures of all our stakeholders including the Traditional Owners of Australia

The Company supports a process of reconciliation with the Traditional Owners of Australia. The company has confirmed that all formal meetings of the Company will commence with the Company's Acknowledgement. This acknowledgment was developed to confirm our respect for the Traditional Owners of Australia and their special connection to country, including the surrounding seas, and to recognise the various cultural and social relationships that the company has had in its past and continues to foster into the future.

"Acknowledgment"

The Company acknowledges the Traditional Owners of country throughout Australia and the connection such Traditional Owners have to the land and its surrounding seas, culture and community. The Company respects all Elders, past, present and emerging. The Company is committed to the adoption and practice of a philosophy of cultural awareness including an understanding and appreciation of the diverse cultures in which it operates and associates within Australia and overseas, including the cultures of the Traditional Owners in Australia, the various cultures of a multicultural Australia and the cultures of the people of China, Japan, India, Indonesia, Malaysia, Vietnam and throughout the rest of Asia where the Company operates.

Going Concern

Despite the loss reported above, the Board of your Company is

confident the Company is a going concern by virtue of;

- Having met all trading debts in the ordinary course of business or having made appropriate arrangements for payment over time of some trading debts;
- The current fund raising which is the subject of resolutions at this meeting that has raised and will raise further working capital;
- The provision of a medium term loan to the consolidated entity in an amount of \$2 million; and
- The company's new sea cucumber business known as Blue Ocean Health which has now commenced and will generate over time cash for the Company to trade in the ordinary course of business.
- The company cautions all shareholders to refer to the comments below in respect to the company's current operations at Denham in Western Australia and the problems the company is experiencing with its joint venture supplier.

In order to secure the Company's future, the Board has continued to pursue a low cost operation. The Company continues to focus its overall business strategy on food production and seafood related business for domestic and export consumption. This focus is reflected in the Financial Statement of the Company to 30 June 2020.

2019-20 Projects

The Company advises the shareholders as follows;

1. Today Current Projects

Qualipac Agriculture

Operations within this venture ceased in December 2019.

The Company and Qualipac have determined to examine other properties in the area to continue the venture and to again examine the opportunities available in Tasmania.

However, the coronavirus pandemic and the domestic and international travel restrictions in place at the time of writing this Notice have precluded the management of the consolidated entity travelling to Queensland to examine other opportunities. The Board therefore determined to suspend further operations under this project until 2021, when a further re-assessment will take place.

The Company remains confident of the medium and long term profitability of the Qualipac joint venture and the significant potential of the project.

North Japan Development

The Company has deferred any further examination of this project as the primary customer for the gravel was associated with Tokyo Olympics which have been postponed for 12 months

Blue Ocean Health

As at 30 June 2019 this business was only in the planning stage. The Company has signed a terms sheet for the

establishment of sea cucumber production business with a local Aboriginal group at Shark Bay with rights only available to Aboriginal persons who may undertake a commercial harvesting program for sea cucumbers in Shark Bay.

The company entered an agreement with such local Aboriginal group (see ASX release 30 September 2019) whereby the parties would collectively develop a new sea cucumber business based in Western Australia. The Aboriginal group have the rights to harvest sea cucumbers along 1200 klm of Western Australian coastline from Shark Bay to Onslow.

The parties agreed to form a new company that would undertake the processing of the sea cucumbers from a new factory at Denham on the shores of Shark Bay in Western Australia. The company arranged the incorporation of Tidal Moon Australia Pty Limited ("TMA") which is owned 51% by the local Aboriginals and 49% by the company, although the company has rights of veto in respect to capital expenditure. The agreement is that the local Aboriginal group harvest the sea cucumbers in Shark Bay and sell 100% of the harvested sea cucumbers to TMA at cost plus 20%, and TMA will sell 80% of the processed sea cucumber to Blue Ocean Health an operating division of the company, at cost plus 20%.

The agreements are that the Company will control the costs of the project both in respect to harvesting and processing. Both companies must provide the Company with an open accounting book and must always drive their respective operating costs down.

All operations of the project are designed to be as environmentally neutral as possible. The factory includes a new state of the art solar powered drying room and all power is provided by green energy providers, particularly wind farms.

All Blue Ocean Health's product from Western Australia is harvested by Australian Aboriginal persons by hand to ensure the preservation of wild sea cucumbers and the preserve the sea floor in areas where harvesting is taking place. The seagrass on the sea floor of Shark Bay is a national heritage and drag nets, or net fishing generally that can damage the sea grass is forbidden. Climate change is now affecting the waters of Shark Bay which have seen an increase in temperature of the water over the past 10 years and a shrinkage of the area of seagrass which is highly water temperature sensitive. Australian sea cucumbers thrive within the sea grass and are an important element in keeping the waters clean and pristine. Hand harvesting ensures there is no damage done to the sea grass beds and places an easily administered limit to large harvests.

The Company has only recently received its first delivery of dried product from TMA, which is several months

behind our original plans. The impact of the coronavirus has meant delays in the construction of the factory, some boat fit out delays and more difficult employee management strategies as part of a COVID19 management plan.

TMA has just recently received the final approvals to permit the export of the product to the Company's primary customers in Asia.

Unfortunately, the performance of the Company's Aboriginal partners has been unsatisfactory for sometime and particularly for the past three months. The Company has been professional and sympathetic to the failures in performance by Tidal Moon Pty Limited ("TM"), but this position has rarely been reciprocated, resulting in TM advising the Company on 1 October 2020 that it was terminating the agreement. The Company has rejected the termination and has advised TM that it will seek specific performance of the contract and damages for breach. The Company has developed and maintained its relationship with the local Aboriginal Elders who have expressed support for the company and the joint venture. The Company is seeking a solution with TM that would see TM continue to provide sea cucumber harvesting, but at the same time looking at other alternatives, including a direct contract with the local Aboriginal corporation, who are also in dispute with TM.

Despite the problems for the past several months the Company reasonably expects to be exporting or having available for export up to 1 tonne of dried sea cucumber per month to Japan by January 2021. The offshore transport of the product caused directly by the coronavirus remains a major unresolved issue for the Company. Cargo space, both air freight and sea freight remains a major problem to all Australian exporters. To alleviate transport problems in the short term all dried sea cucumber will be exported by the Company by air from Australia.

As part of the program of TMA in Denham the company is supporting a research and development program by TMA into the breeding of Australian sea cucumbers. The Company has guaranteed the performance of TMA in respect to agreements with Curtin University in Western Australia to support the breeding and hatchery program.

The Company is also examining the immediate opportunities to acquire sea cucumbers from other suppliers.

The Company's target is to be providing not less than 1 tonne of dried sea cucumber to Blue Ocean Japan ("BOJ") in the first quarter on 2021 rising to 1.5 tonnes by June 2021. The Company intends sourcing product from Australia and elsewhere during the period. The Company is currently testing Peruvian sea cucumber and has tentatively committed to acquire up to 2 tonne of product per month

throughout 2021.

Blue Ocean Japan

The Company acquired a subsidiary in Japan called Blue Ocean Japan in January 2020 which will acquire all of the exported sea cucumber from the Company, primarily for the manufacture of a health food supplement to be primarily marketed in Japan and the PRC. Test samples and market analysis is being undertaken.

2. Future Direction

The Company is continuing to examine opportunities as they may be presented.

Bundybunna

The Company has previously announced it has entered a heads of agreement to acquire the owner of a lease of an 11,000 hectare livestock and grain property in central Western Australia. Completion of the acquisition is anticipated before 31 Dec 2020 but it dependent on the termination of the winding up of the owner of the property, Bundybunna Aboriginal Corporation Limited (in liquidation) ("BACLL"). The Company and its executive directors have provided all assistance required by the members of BACLL to facilitate the termination of the winding up and the Company has a reasonable expectation this will take place before 31 Dec 2020 or immediately thereafter.

The Company has engaged professional farming consultants to assist in the management of Bundybunna in the future. Our initial program is to expand the areas under grain cultivation to immediately improve the revenue of the project. The second phase is to repair the water infrastructure which will allow the grazing of livestock, both sheep and cattle. The property's best potential is as a mixed grain and livestock farm.

There is also potential for the development of Australian Indigenous Bush Medicine on a small commercial scale. The property has set aside approximately 20 hectares for the development of plants used to extract bush medicines. The Company is examining the feasibility of using some of these products as an added mixture for inclusion in the supplements being produced from sea cucumber. The sale of these products would be limited to outside of Australia.

The Notice of Meeting in Resolution 8 seeks shareholder approval to the issue of ordinary shares in the Company to a value of \$142,010.50 for the purchase of Resi Property Holdings Pty Limited, the owner of the lease of Bundybunna. No shares will be issued until the lease has been signed by all parties.

Qualipac Joint Venture

This venture is currently suspended during the restrictions imposed by virtue of the coronavirus pandemic.

Blue Ocean Health

Blue Ocean Health will arrange for the production of health supplements and beauty additives from the dried sea cucumber.

The Company secured a medium term loan (maturing in 3 years in March 2022) of \$2 million to provide the further working capital needs of Blue Ocean Health and Blue Ocean Japan.

The Company has managed to continue to operate in all areas of prime interest throughout 2020 despite the very significant problems of travel and risk that the coronavirus pandemic has caused. The operations in Western Australia have been particularly difficult to manage with the very restrictive travel available. The Board notes the excellent work all of the Company's dedicated employees, management and consultants in Western Australia throughout 2020.

The Company reasonably expects to be exporting or having available for export from its operations in Western Australia up to 1 tonne of dried sea cucumber per month to Japan by January 2021. The offshore transport of the product caused directly by the coronavirus remains a major unresolved issue for the Company. Cargo space, both air freight and sea freight remains a major problem to all Australian exporters.

The Company is also examining other sea cucumber supply opportunities. The Company and its employees and management have developed and have access to significant intellectual property in the processing, cooking drying and storing of sea cucumber. The Company has a focus and expertise in ensuring maintaining low salt levels in the dried product. The Company is seeking suppliers who can establish and maintain low salt harvesting and processing practices.

2020-21 will be a period of building dry sea cucumber stock for further processing and supplement manufacture in Japan. The Company must manage all the difficulties of the coronavirus pandemic in Australia, Japan, the PRC, and our Asian and Pacific suppliers. Transporting product around the world remains a major problem for the Company. Most of our product does not require air freight in the usual course of events, but small amounts of general cargo are a major logistical issue out of Australia and indeed from our other sources of product in Asia and the Pacific. We are usually transporting our product in tonne lots meaning we must always consolidate our freight with other consignors. This leads to inevitable delays.

The Company intends commencing sales in the PRC in 2021 and is commencing to formulate detailed sales and marketing plans including a major social media program in the PRC. All Company product being exported to the PRC will emanate from Japan and will be manufactured in Japan. Although the Company sees the Western Australian sea

cucumber production as very important for the future and particularly for premium products throughout Asia, the current diplomatic and trade issues taking place between China and Australia has lead the company to focus on a "made in Japan" label in the immediate future.

The Company believes the opportunities for our products in Asia are enormous and the growth potential of the product for the next 5 years will be significant.

General Investments of the Company 2020 and beyond

The Company is continuing to examine general investment opportunities as they may be presented.

The Company is examining the potential to invest in Indonesia in a waste management project operated by the Aura Green Energy Group. Any direct investment will take place in the year to 30 June 2021. This is an investment only. All operating and management will be undertaken by non-associated independent contractors. The risks posed by the coronavirus in Indonesia are likely to delay our assessment of this project into the 2021-22 financial year.

The Company is also examining providing management advice to a proposed limited partnership in Japan which would invest in renewable energy projects in Asia. Any management will take place in the year to 30 June 2021.

The Company is examining the potential to invest in a Japanese renewal energy project in northern Japan operated by the Aura Green Energy Group. Any direct investment will take place in the year to 30 June 2021. This is an investment only. All operating and management will be undertaken by non-associated independent contractors.

Company is a Going Concern

The financial statements have been prepared on a going concern basis because the Company has sufficient cash to continue to trade in the ordinary course of business the balance of this financial year and into the next.

The Company's management recognises that without further cash the Company may not be able to trade and the current and future fund raising is critical to the Company. The Company has also been funded by the directors or their related parties.

The Company is confident of the following;

- Completing the acquisition of Resi Property and the commencement of Company operations on Bundybunna;
- The further development of joint operations with TMA the commencement of the export of dried sea cucumber from Western Australia;
- The acquisition of dried sea cucumber from other primary suppliers particularly Peru.
- The commencement of supplement manufacture in

Japan and the sales of supplement in Japan and the PRC;

- The continued support by way of placements and loans from a group of existing and new professional investors.

Item 11 Resolutions 10.1 to 10.4 are the approval of a termination of the current performance rights plan and the approval of a new plan.

Item 12 Special Resolution 11 is the approval of an additional 10% placing capacity.

RISK ANALYSIS

Messrs Ito and Araya recommend all resolutions. Mr Nakamura recommends resolutions numbered 1, 4, 5, 6, 7, 8, 9 and 11. Mr Nakamura disqualified himself in respect to resolutions numbered 2, 3 and 11. Mr Ashcroft recommends resolutions numbered 1, 2, 8, 9 and 11. Mr Ashcroft disqualified himself in respect to resolutions numbered 3, 4, 5, 6 and 11.

All directors advise that it must be pointed out that any continued investment in the Company is not secure and there is no guarantee of any return of capital. The Company recommends that all shareholders consider the disadvantages and possible advantages of the proposed resolutions.

Disadvantages

- The existing shareholders (particularly WIN Singapore and King Fame), will continue to have a substantial interest in the Company, if either so determines and there can be no guarantee that the proposals set out in this Notice will continue or be completed. WIN Singapore and King Fame have indicated their support to the Board for all resolutions;
- The recent shareholders (MSK, Global Dish, Green Eco Energy and Sakura Research), also have large interests in the Company and its future although none of the recent new shareholders have indicated they have an intention to appoint new directors at this time but they may do so in the future. Their intention may change and the degree of control that could be exercised in the future by WIN Singapore, King Fame, Global Dish., MSK, Green Eco Energy or Sakura Research could result in changes to the board. None of these shareholders are related to each other and they have no arrangements between each other to vote in any designated manner;
- All existing shareholders will have their shareholding diluted if the placements go ahead;
- The Company and its management have expertise and experience in general investment assessments but not necessarily in the sea cucumber project which the Company intends will become part of the Company's future focus.
- To date the sea cucumber business has had substantial expenditure and very little income. The Company is unlikely to be cash flow positive until the 2021-22 financial year.
- The tables set out in the Explanatory Statement in Item 5 (Resolution 4) have been prepared by the Company to assist shareholders to understand the effect of the further issues and the dilution of existing shareholders.
- The performance shares the subject of Resolutions 10.2,

10.3, 10.4 and 10.5 are likely to require further shareholders' approvals as the milestones are likely to occur outside of the 3 month period required by Listing Rule 7.3.

Advantages

- The Company will have a further \$300,000 in cash immediately available to invest in the sea cucumber business and new business opportunities in the food, farming or agricultural industries or general investments;
- The Company will have two new major projects with significant potential;
- The Company has strong personal relationships through Mr Ashcroft's associations with the management of Qualipac, and Bundybunna, and Mr Nakamura's with Japanese sea cucumber experts;

In the opinion of all directors, the advantages substantially outweigh the disadvantages to all shareholders.

Staff, Contractors and Directors

The Company takes much pleasure in thanking all its dedicated staff and contractors for their efforts in the past year. The Company had operations in Sydney, the Darling Downs, Perth, Shark Bay and Japan. We welcome the Traditional Owners from Bundybunna and Shark Bay to our projects and look forward to developing long and profitable relations over the coming years.

Kind regards

Peter Ashcroft

Chairperson

The work of the directors is also appreciated. As a direct consequence of the Company's need to manage the operations of the sea cucumber project in Japan and our intended market in Asia, particularly China, Mr Nakamura is in Japan with Mr Ito, at the date of this Notice, examining our supplement manufacturing capabilities and commencing a marketing program for Japan and China. I would like to particularly thank Mr Nakamura for this commitment considering the risks of travel today.

Financial Position for the Future

This next financial year, 2020-2021 has commenced with the Company solvent with potential to build on the sea cucumber business in Western Australia and obtain additional supplies from other providers. There is no doubt that further profitable businesses are still required or an expansion of the Company/TMA joint operations is required for the Company to be able to generate profits in the medium and long term. We have several projects of real potential and substance available subject to further funding.

We have not utilised the special placing capacity in the year to date, but we are requesting shareholders again approve this position (Resolution 12).

I thank all our shareholders for their support, and I look forward with enthusiasm to 2020-21 and beyond.

Mr Ashcroft undertook to support further funding.

The Directors (excluding Mr Ashcroft) still considered an investment in the Company as speculative and the Company required cash to ensure its solvency and to preserve as much of the principal of the WIN Properties loan as possible for future contingencies particularly during the COVID 19 pandemic.

The Board of the Company, excluding Mr Ashcroft determined that the price of the issue in this Resolution 7 was appropriate and fair and reasonable because the sea cucumber project is still a long way from being successful and having a positive cash flow, the operations in Western Australia are causing problems

with delay and the coronavirus is causing significant logistical problems with managing the flow of raw materials and finished product to the Company's eventual customers.

If this Resolution is passed and the shares issue Mr Ashcroft will thereafter have 209,285,714 shares (pre-consolidation basis if Resolution 4 is not passed) and 104,642,857 (post consolidation basis if Resolution 4 is passed) and a percentage of the total issued capital of 0.63% as set out in Tables E and F in the Explanatory Statement to Item 6 (Resolution 5).

Mr Ashcroft (in respect to his currently held shares), Ashware Holdings (in respect to its currently held shares) and Sarlat Securities (also in respect to its currently held shares) are disqualified from voting on this resolution.

The Company directs you to the comments on section titled "Change of Control" in the Explanatory Memorandum in respect to Item 5.

Nakamura and Peter Ashcroft as Executive Directors. (See comments below under Listing Rule 10.14)

Subject to Shareholder approval of Resolution 10.3 and 10.4, the number of Performance Share Rights to be issued to executive Directors, employees and consultants could be up to **1,668,857,322**.

No funds will be raised from the issue of the Performance Share Rights as they are being issued for nil cash consideration.

(i) Section 208 of Corporations Act

Section 208 of the Corporations Act provides that for a public company, or an entity that the public company controls, to give a financial benefit to a related party of the public company, the public company or entity must:

- a. obtain the approval of the public company’s members in the manner set out in Sections 217 to 227 of the Corporations Act; and
- b. give the benefit within fifteen (15) months following such approval, unless the giving of the financial benefit falls within an exception set out in sections 210 to 216 of the Corporations Act.

The Board has formed the view that Shareholder approval under section 208 of the Corporations Act is not required for the proposed issue of the Performance Share Rights as the exception in section 211 of the Corporations Act applies. The Performance Share Rights are considered to be reasonable remuneration for the purposes of section 211 of the Corporations Act.

(ii) Listing Rule 10.14

Listing Rule 10.14 restricts the Company from issuing securities to a related party of the Company, unless approval is obtained from Shareholders. A “related party” for the purposes of the Corporations Act is defined widely and includes a director of a public company and former directors of a public company. The effect of passing Resolutions 10.1,10.2, 10.3 and 10.4 will be to allow the Company to issue up to **1,668,857,322** Performance Share Rights to the executives and management including Charlie Nakamura and Peter Ashcroft without using up the Company’s 15% placement capacity under Listing Rule 7.1.

Resolution 10 has been divided into four separate resolutions, such that resolution 10.1 relates to the termination of the existing Performance Rights Plan of the Company which was approved at the 2015 AGM of the Company in November 2015. There are no current rights on issue under the 2015 Plan. No rights which

were issued under the 2015 Plan vested and no shares in the Company were issued in respect to any rights issued under the 2015 Plan.

Resolution 10.2 is the establishment of the 2020 A1 Performance Rights Plan.

Resolution 10.3 relates to the approval by the shareholders to the issue of securities under the A1 2020 Performance Rights Plan to Peter Ashcroft who as a director of the Company and a related party and shareholder approval must be obtained before the any securities may be issued to Mr Ashcroft under the Plan.

- As at 30 June 2020 Mr Ashcroft has an interest in 846,507,936 shares in the Company.
- In the year to 30 June 2020 Mr Ashcroft's total salary was \$109,500.
- If 50% of the Performance Share Rights identified as Tranches A, B and C were issued to Mr Ashcroft being a total of 300,000,000 shares over the next three years, and no further shares were to be issued the total interest of Mr Ashcroft in the Company would amount to 2.76%.
- The Company notes that Mr Ashcroft is related party to the shareholders seeking approval for placements in Resolutions, 5, 6 and 7 in this Notice. If Resolutions 5, 6 and 7 are approved by the shareholders at the meeting the subject of this Notice this will add a further 2,232,142,856 shares to related parties of Mr Ashcroft. Mr Ashcroft's total holding with the 300,000,000 shares referred to above would amount to a percentage interest in the Company of 10.1%.
- The Company's future capital requirements are likely to require the issue of further capital over the next three years and it is therefore likely the percentage of shares issued under the A1 2020 Performance Share Rights Plan to Mr Ashcroft will be less than 1% of the total shares on issue at any time.

Resolution 10.4 relates to the approval by the shareholders to the issue of securities under the A1 2020 Performance Rights Plan to Charlie Nakamura who as a director of the Company and a related party and shareholder approval must be obtained before the any securities may be issued to Mr Nakamura under the Plan.

- As at 30 June 2020 Mr Nakamura has an interest in 146,881,362 shares in the company.
- In the year to 30 June 2020 Mr Nakamura's total salary was \$164,250.
- If 50% of the Performance Share Rights identified as Tranches A, B, and C were issued to Mr Nakamura being a total of 300,000,000 shares over the next three years, and no further shares were to be issued the total interest of Mr Nakamura in the Company would amount to 1.3%.
- The Company's future capital requirements are likely to require the issue of further capital over the next three years and it is therefore likely the percentage of shares issued to Mr Nakamura under the A1 2020 Performance Share Rights Plan together with his existing interest will be less than 1.3% of the total shares on issue at any time.

(iii) Specific information required by Listing Rule 10.15

Listing Rule 10.15 requires that information be provided to Shareholders for the purposes of obtaining Shareholder approval pursuant to Listing Rule 10.14 as follows:

renounces its Invitation, may apply for Performance Rights described in that Invitation, in whole or in part, by signing and returning the Application Form to the Company no later than the Closing Date.

5.2 **Board's right to reject**

- (a) *The Board may accept or reject any Application Form, in its absolute discretion.*
- (b) *Before accepting or rejecting the Application Form, the Board may require the Applicant to provide any information that the Board requests concerning the person's entitlement to lodge an Application Form under this Plan.*
- (c) *The Board must promptly notify an Applicant if an Application Form has been rejected, in whole or in part.*

5.3 **Participant Agrees to be Bound**

An Eligible Participant or Nominee, by submitting an Application Form, agrees to be bound by the terms and conditions of the Invitation and Application Form, the Plan and the Constitution of the Company, as amended from time to time.

6. GRANT OF PERFORMANCE RIGHTS

6.1 **Grant of Performance Rights**

- (a) *Subject to clause 6.2, once the Board has received and accepted a duly signed and completed Application Form for Performance Rights, the Company must, provided the Eligible Participant to whom the Invitation was made remains an Eligible Participant, promptly grant Performance Rights to the Applicant, upon the terms set out in the Invitation, the Application Form and the Plan and upon such additional terms and conditions as the Board determines.*
- (b) *The Company will, within a reasonable period after the Grant Date of the Performance Rights, issue the Applicant with a certificate evidencing the grant of the Performance Rights.*

6.2 **Approvals**

The Company's obligation to grant Performance Rights is conditional on:

- (a) *the grant of the Performance Rights complying with all applicable legislation; and*
- (b) *all necessary approvals required under any applicable legislation being obtained prior to the grant of the Performance Rights.*

6.3 **Restrictions on dealings and hedging**

- (a) *A Performance Right granted under the Plan is only transferable, assignable or able to be otherwise disposed or encumbered:*
 - (i) *with the Board's consent (which may be withheld in its absolute discretion); or*
 - (ii) *by force of law upon death to the Participant's legal personal representative or upon bankruptcy to the Participant's trustee in bankruptcy.*
- (b) *A Participant must not enter into any arrangement for the purpose of hedging, or otherwise affecting their economic exposure, to their Performance Rights.*
- (c) *Where the Participant purports to transfer, assign, mortgage, charge or otherwise dispose or encumber a Performance Right, other than in accordance with clause 6.3(a), or hedge a Performance Right contrary to clause 6.3(b), the Performance Right immediately lapses.*

7. VESTING AND EXERCISE OF PERFORMANCE RIGHTS

7.1 **Vesting Conditions**

- (a) *Subject to clause 9.2 (Good Leaver Exceptions) and clause (Change in Control and Winding Up), a Performance Right granted under the Plan will not vest and be exercisable unless the Vesting Conditions (if any) attaching to that Performance Right have been satisfied and the Board has notified the Participant of that fact.*
- (b) *The Board must notify a Participant in writing within 10 Business Days of becoming aware that any Vesting Condition attaching to a Performance Right has been satisfied.*

Exercise on Vesting

Subject to clause 9.3 (Bad Leaver), a Participant (or their personal legal representative where applicable) may exercise any vested Performance Right at any time within 90 days of the Board notifying that the Performance Right has vested, failing which the Performance Right will lapse, by a signed written notice to the Board specifying the Performance Rights being exercised and providing the certificate for those Performance Rights.

8. ISSUE OF SHARES

8.1 Issue of Shares

Subject to the Corporations Act, the ASX Listing Rules and this Plan, the Company must issue to the Participant or his or her personal representative (as the case may be) the number of Shares the Participant is entitled to be issued in respect of vested Performance Rights that are exercised, within 10 business days of the Performance Rights being exercised.

8.2 Disclosure document for Shares

In the event that the issue of Shares on exercise of a Performance Right would require the Company to prepare a disclosure document (as that term is defined in the Corporations Act), in the absence of appropriate arrangements with the Participant, the Company may require the Participant (as a precondition to the issue of the underlying Shares on exercise of the Performance Rights) to enter into such arrangements with the Company as the Board considers appropriate to ensure that the issue of such Shares without disclosure does not contravene the fundraising provisions of the Corporations Act.

8.3 Blackout Period, takeover restrictions and insider trading

If the issue of Shares on exercise of a Performance Right would otherwise fall within a Blackout Period, or breach the insider trading or takeover provisions of the Corporations Act, the Company may delay the issue of the Shares until 10 Business Days following the expiration, as applicable, of the Blackout Period or the day on which the insider trading or takeover provisions no longer prevent the issue of the Shares.

8.4 Withholding

If a Participant is liable for tax, duties or other amounts on the vesting of their Performance Rights, and the Company is liable to make a payment to the appropriate authorities on account of that liability, unless the Participant and the Company agree otherwise, the Company must issue and sell such number of Shares which would otherwise be issued and allocated to the Participant so that the net proceeds of sale equal the payment the Company is required to pay to the appropriate authorities.

8.5 Share ranking

All Shares allotted under the Plan will rank equally in all respects with the Shares of the same class for the time being on issue except as regards any rights attaching to such Shares by reference to a record date prior to the date of their allotment.

8.6 Quotation on ASX

- (a) If Shares of the same class as those allotted under the Plan are quoted on the ASX, the Company will, subject to the ASX Listing Rules, apply to the ASX within 10 Business Days of Shares being allotted for those Shares to be quoted on ASX.
- (b) The Company will not apply for quotation of any Performance Rights on the ASX.

8.7 Sale of Shares

- (a) There will be no transfer restrictions on Shares allotted under the Plan unless the sale, transfer or disposal by the Participant of the Shares issued to them on exercise of the Performance Rights (or any interest in them) would require the preparation of a disclosure document (as that term is defined in the Corporations Act).
- (b) If a disclosure document is required, the Participant agrees to enter into such arrangements with the Company as the Board considers appropriate to prevent the sale, transfer or disposal of the relevant Shares in a manner that would require a disclosure document to be prepared.
- (c) The Company will issue, where required to enable Shares issued on exercise of Performance Rights to be freely tradeable on the ASX from the date of issue, a cleansing statement under Section 708A(5) of the Corporations Act at the time Shares are issued. Where a cleansing statement is required, but cannot be issued, the Company will have a prospectus available in relation to the Shares which complies with the requirements of the Corporations Act.

9. LAPSE OF PERFORMANCE RIGHTS

9.1 Lapsing of Performance Right

A Performance Right will lapse upon the earlier to occur of:

- (a) an unauthorised dealing in, or hedging of, the Performance Right occurring, as governed by clause 6.3(c);

- (b) *a Vesting Condition in relation to the Performance Right not being satisfied by the due date, or becoming incapable of satisfaction, as determined by the Board in its absolute discretion;*
- (c) *a vested Performance Right is not exercised within the time limit specified in clause 7.1;*
- (d) *a Participant (or, where the Participant is a Nominee of the Eligible Participant to whom the Invitation was made, the Eligible Participant) ceasing to be an Eligible Participant, unless clause 9.2 (Good Leaver Exceptions) is applied;*
- (e) *a Performance Right lapses under clause 9.3 (Bad Leaver);*
- (f) *the Performance Right lapses following a Change in Control, or winding up resolution or order, in accordance with clause 10; and (g) the Expiry Date.*

9.2 *Good Leaver exceptions*

Where a Participant (or, where the Participant is a Nominee of the Eligible Participant to whom the Invitation was made, the Eligible Participant) ceases to be an Eligible Participant as a result of:

- (a) *death or Total or Permanent Disability;*
- (b) *Retirement or Redundancy;*
- (c) *Severe Financial Hardship;*
- (d) *death of an immediate family member of the Participant (or Eligible Participant, as applicable);*
- (e) *substantial change in circumstances, out of the control of the Participant (or Eligible Participant, as applicable) which affects the ability of the Participant (or Eligible Participant, as applicable) to perform his or her role with a Group Company; or*
- (f) *terminal illness of the Participant (or Eligible Participant, as applicable) or an immediate family member,*
the Board may determine, in its absolute discretion, within 10 Business Days of the Participant (or Eligible Participant, as applicable) ceasing to be an Eligible Participant, that all or a portion of the Participant's unvested Performance Rights vest rather than lapsing, in which case clause 7.1 applies.
- (g) *a Vesting Condition in relation to the Performance Right not being satisfied by the due date, or becoming incapable of satisfaction, as determined by the Board in its absolute discretion;*
- (h) *a vested Performance Right is not exercised within the time limit specified in clause 7.1;*
- (i) *a Participant (or, where the Participant is a Nominee of the Eligible Participant to whom the Invitation was made, the Eligible Participant) ceasing to be an Eligible Participant, unless clause 9.2 (Good Leaver Exceptions) is applied;*
- (j) *a Performance Right lapses under clause 9.3 (Bad Leaver);*
- (k) *the Performance Right lapses following a Change in Control, or winding up resolution or order, in accordance with clause 10; and (g) the Expiry Date.*

9.3 *Bad Leaver*

Where a Participant (or, where the Participant is a Nominee of the Eligible Participant to whom the Invitation was made, the Eligible Participant):

- (a) *in the opinion of the Board, acts fraudulently or dishonestly, is grossly negligent, demonstrates serious and wilful misconduct, or causes a material adverse effect on the reputation of the Company;*
- (b) *has his or her employment terminated due to serious or wilful misconduct or otherwise for cause without notice; or*
- (c) *becomes ineligible to hold his or her office due to Part 2D.6 of the Corporations Act,*
the Board may, by written notice to the Participant, deem any unvested, or vested but unexercised, Performance Rights of the Participant to have lapsed.

10. CHANGE OF CONTROL AND WINDING-UP

10.1 Vesting of Performance Rights

(a) *Subject to the terms and conditions of a grant of a Performance Right, the Board may, in its absolute discretion, determine that any unvested Performance Rights vest, within 10 Business Days of:*

- (i) *a Change of Control occurring: or*
- (ii) *the Company passing a resolution for voluntary winding up or an order is made for the compulsory winding up of the Company,*

in which case:

- (iii) *the Board must promptly notify the holder of the vested Performance Rights in writing; and*
- (iv) *clause 7.1 applies to the exercise of the vested Performance Rights.*

(b) *Any unvested Performance Rights that do not vest under clause 10.1(a) automatically lapse.*

10.2 Acquisitions of shares in Acquiring Company

If a company (Acquiring Company) obtains control of the Company as a result of a Change of Control and both the Company and the Acquiring Company agree, a Participant may, in respect of any vested Performance Rights that are exercised, be provided with shares of the Acquiring Company or its parent in lieu of Shares, on substantially the same terms and subject to substantially the same conditions as the Shares, but with appropriate adjustments to the number and kind of shares subject to the Performance Rights.

11. PARTICIPATION RIGHTS AND REORGANISATION

11.1 Participation rights

- (a) *There are no participating rights or entitlements inherent in the Performance Rights and Participants will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Performance Rights without exercising the Performance Right.*

- (c) *A Participant who is not a Shareholder is not entitled to:*
 - (i) *notice of, or to vote or attend at, a meeting of the Shareholders of the Company; or*
 - (ii) *receive any dividends declared by the Company,**unless and until any Performance Right is exercised and the Participant holds Shares that provide the right to notice and dividends.*

11.2 Adjustment for reorganisation

If, at any time, the issued capital of the Company is reorganised (including consolidation, subdivision, reduction or return), all rights of a Participant are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reorganisation.

12.1 Power to amend Plan

Subject to clause 12.2, the Corporations Act and the ASX Listing Rules:

As soon as reasonably practicable after making any amendment under clause 12.1, the Board will give notice in writing of that amendment to any Participant affected by the amendment.

RESOLUTION 10.3

If Resolutions 10.1 and 10.2 are passed in this resolution the Company seeks approval for the issue of 600,000,000 performance rights to *Charlie Nakamura* in accordance with the terms and conditions of the A1 2020 Performance Rights Plan set out in the Explanatory Statement to Resolution 10.2 and in accordance with Performance Criteria set out in the schedule below. Mr Nakamura is an executive director of the Company.

The Company notes that the number of rights is in respect to the Company as at the date of this Notice. The Company further notes that if the shareholders pass Resolution 4 (consolidation) the number rights will be reduced in the same ratio as the number of shares are reduced.

The Board of the Company, excluding Mr Nakamura determined that the Performance Conditions and Expiry Dates in this Resolution 10.4 and the Board determined they were appropriate and fair and reasonable because the sea cucumber project is still a long way from being successful and having a positive cash flow, the operations in Western Australia are causing problems with delay and the coronavirus is causing significant logistical problems with managing the flow of raw materials and finished product to the Company's eventual customers. Mr Nakamura is responsible for the manufacturing in Japan and the sales and marketing program.

RESOLUTION 10.4

If Resolutions 10.1 and 10.2 are passed in this resolution the Company seeks approval for the issue of 600,000,000 performance rights to *Peter Ashcroft* in accordance with the terms and conditions of the 2020 A1 Performance Rights Plan set out in the Explanatory Statement to Resolution 10.2 and in accordance with Performance Criteria set out in the schedule below . The Company notes that the number of rights is in respect to the Company as at the date of this Notice. The Company further notes that if the shareholders pass Resolution 4 (consolidation) the number rights will be reduced in the same ratio as the number of shares are reduced.

Mr Ashcroft (in respect to his currently held shares), Ashware Holdings (in respect to its currently held shares) and Sarlat Securities (also in respect to its currently held shares) are disqualified from voting on this resolution as they are related parties for the purposes of the Corporations Act and each shareholder is disqualified from voting on Resolutions 10.2 and 10.3 in this Notice. The Company advises that Mr Ashcroft is director of both Ashware Holdings and Sarlat Securities.

The Board of the Company, excluding Mr Ashcroft determined that the Performance Conditions and Expiry Dates in this Resolution 10.3 and the Board determined they were appropriate and fair and reasonable because the sea cucumber project is still a long way from being successful and having a positive cash flow, the operations in Western Australia are causing problems with delay and the coronavirus is causing significant logistical problems with managing the flow of raw materials and finished product to the Company's eventual customers.

 - a. the date that is 12 months after the date of the annual general meeting at which the approval is obtained; and
 - b. the date of the approval by shareholders of a transaction under Listing Rule 11.1.2 (a significant change to the nature or scale of activities) or 11.2 (disposal of main undertaking),
- F. Listing Rule 7.1A

The effect of Resolution 10 will be to allow the Directors to issue the Equity Securities under Listing Rule 7.1A during the 10% Placement Period in addition to using the Company's 15% placement capacity under Listing Rule 7.1.

- a. Resolution 10 is a special resolution and therefore requires approval of at least 75% of the votes cast by shareholders entitled to vote (in person, by proxy, by attorney or, in the case of a corporate shareholder, by a corporate representative) on the Resolution.
- b. Specific information required by Listing Rule 7.3A

- i. Pursuant to and in accordance with Listing Rule 7.3A, information is provided in relation to the approval of the 10% Placement Facility as follows to the extent that such information is not disclosed elsewhere in this Explanatory Memorandum:
 - ii. The Equity Securities will be issued at an issue price of not less than 75% of the VWAP for the Company's Equity Securities in the same class over the 15 Trading Days on which trades in that class were recorded immediately before:
 - iii. the date on which the price at which the Equity Securities are to be issued is agreed; or
 - iv. if the Equity Securities are not issued within five Trading Days of the date in paragraph (ii) above, the date on which the Equity Securities are issued.
 - v. There is a risk that:
 1. the market price for the Company's Equity Securities in the same class may be significantly lower on the date of the issue of the Equity Securities than on the date of the Meeting, although unlikely as the market price of the Company's Equity Securities is \$0.001 on xx October 2020 and trading on the ASX is not permitted below this price; and
 2. the Equity Securities may be issued at a price that is at a discount to the market price for the Company's Equity Securities in the same class on the issue date,
 3. which may have an effect on the amount of funds raised by the issue of the Equity Securities.
- G. The table below shows the risk of voting dilution of existing shareholders on the basis of the current market price of shares and the current number of ordinary shares for variable 'A' calculated in accordance with the formula in Listing Rule 7.1A.2 as at the date of this Notice.

The table also shows:

- a. three examples where variable 'A' is at the current market price and where it has increased, by 100% (\$0.002 issued price) and 200% (\$0.003 issue price). Variable 'A' is based on the number of ordinary shares the Company has on issue. The number of ordinary shares on issue may increase as a result of issues of ordinary shares that do not require shareholder approval (for example, a pro rata entitlements issue) or future specific placements under Listing Rule 7.1 that are approved at a future shareholders' meeting;
- b. an example of where the issue price of ordinary shares has decreased by 25% as against the current market price;
- c. three examples where variable "A" was the current market price, an issue price of \$0.002 and an issue price of \$0.003 and where prior to the issue under Listing Rule 7.1A there had been an issue of 15% of the shares of the company under Listing Rule 7.1; and
- d. an example where at the time of the proposed issue under Rule 7.1A there were on issue double the number of shares on issue as at the date of this Notice.

1. The Company issues the maximum number of Equity Securities available under the 10% Placement Facility.
2. No current options are exercised into shares before the date of the issue of the Equity Securities. Note there are no current option.
3. The 10% voting dilution reflects the aggregate percentage dilution against the issued share capital at the time of issue. This is why the voting dilution is shown in each example as 10%.
4. The table does not show an example of dilution that may be caused to a particular shareholder by reason of placements pursuant to the 10% Placement Facility, based on that shareholder's holding at the date of the Meeting.

5. The issue of Equity Securities under the 10% Placement Facility consists only of shares. The issue price is \$0.001, being the closing price of the shares on ASX on xx October 2020.
6. The table also shows the voting dilution where the company has also issued the full amount of shares under its placing capacity pursuant to Listing Rule 7.1 that is further 15%.
7. Except for the last line of the Table the Company did not adjust the number of shares to take into consideration the Consolidation the subject of Item 6, Resolution 5 I the Notice.
8. The table also shows an example where the number of shares on issue has doubled when the issue under Rule 7.1A is undertaken.
 - a. The Company will only issue and allot the Equity Securities during the 10% Placement Period. The approval under Resolution 10 for the issue of the Equity Securities will cease to be valid in the event that shareholders approve a transaction under Listing Rule 11.1.2 (a significant change to the nature or scale of activities) or Listing Rule 11.2 (disposal of main undertaking).
 - b. The Company may seek to issue the Equity Securities for the following purposes:

 - c. The Company will comply with the disclosure obligations under Listing Rules 7.1A.4 and 3.10.5A upon issue of any Equity Securities.
 - d. The Company's allocation policy is dependent on the prevailing market conditions at the time of any proposed issue pursuant to the 10% Placement Facility. The identity of the allottees of Equity Securities and the number of Equity Securities allotted to each will be determined on a case- by-case basis having regard to factors including, but not limited to, the following:
 - i. the methods of raising funds that are available to the Company including, but not limited to, rights issue or other issue in which the existing security holders can participate;
 - ii. the effect of the issue of the Equity Securities on the control of the Company;
 - iii. the financial situation and solvency of the Company; and
 - iv. advice from corporate, financial and broking advisers (if applicable).
 - e. The allottees under the 10% Placement Facility have not been determined as at the date of this Notice but may include existing substantial shareholders and/or new shareholders who are not related parties or associates of a related party of the Company.
 - f. Further, if the Company is successful in acquiring new assets or investments, it is likely that the allottees under the 10% Placement Facility will be the vendors of the new assets or investments or the nominee of such vendors.
 - g. A voting exclusion statement is included in the Notice. At the date of the Notice, the Company has not approached any particular existing shareholder or security holder or an identifiable class of existing security holder to participate in the issue of the Equity Securities. No existing shareholder's votes will therefore be excluded under the voting exclusion statement in the Notice.
 - h. In accordance with Listing Rule 7.3A.6 the Company confirms that it sought and obtained shareholder approval under Listing Rule 7.1A at the Annual General Meeting of the company on 26 November 2019. The company has not used any of this additional placing capacity under such approval.
