#### Quarterly activity report – for the quarter ended 30 September 2020

#### **FUM Update**

Contango Asset Management Limited ("Contango" or the "Company") is pleased to advise that the Company's Funds Under Management ("FUM") continued to grow strongly in the first quarter of the 2021 financial year. As at 30 September 2020, the Company's FUM totalled approximately \$751 million, representing an increase of \$113 million or 18% above the total of \$638 million in FUM as at 30 June 2020.

The increase in FUM during the September 2020 quarter resulted from a combination of strong net inflows of over \$92 million, together with the superior investment returns from the suite of funds managed by WCM Investment Management ("WCM").

The chart below shows the strong growth in retail FUM since January 2017:

The Board is pleased to advise that Contango has recorded further growth in FUM since 30 September 2020, with the Company's FUM totalling approximately \$805 million as at 23 October 2020. This includes further FUM inflows and increases from investment performance. The main contributor to the growth in FUM during the month of October 2020 was an \$18 million mandate awarded to the WCM Quality Global Growth Managed Fund from the ASX listed Future Generation Global Investment Company.

Future Generation Global is Australia's first internationally focused listed investment company with the dual objectives of providing shareholders with diversified exposure to selected global fund managers and changing the lives of young Australians affected by mental illness. Although the mandate will not contribute to Contango's profitability due to the charitable nature of this

enterprise, it enhances the WCM brand in the Australian market and reinforces WCM's position as a top-tier global fund manager.

#### WCM strategies outperform over September 2020 quarter

The WCM large cap and small cap strategies have both continued to outperform their respective benchmarks for the September 2020 quarter.

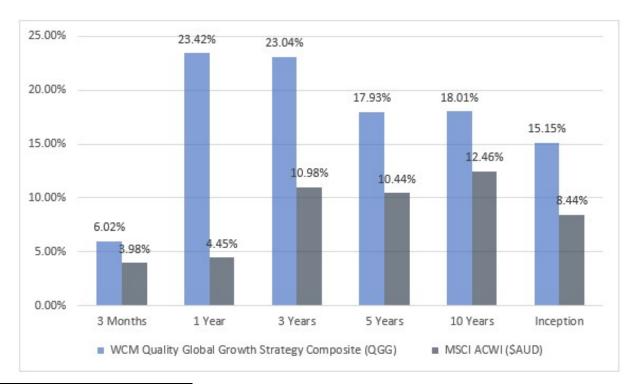

The WCM large cap strategy, WCM Quality Global Growth Equity Strategy, delivered a return of 6.0% over the quarter outperforming its benchmark by 2.0%. The WCM International Small Cap Growth Strategy delivered a return of 9.4% outperforming its benchmark by 3.2%. WCM is a top quartile global and international equities specialist with total FUM of over \$85 billion<sup>1</sup>.

Based in Laguna Beach, California, WCM's investment process is based on the belief that corporate culture is the biggest influence on a company's ability to grow its competitive advantage or 'moat'. This investment process has resulted in WCM's Quality Global Growth strategy outperforming the MSCI World Index by 5.6% per annum over a decade.

Contango has an exclusive retail distribution arrangement to distribute WCM's strategies in Australia.

#### Large cap track record

Annualised returns of the WCM Quality Global Growth Strategy<sup>2</sup> versus its benchmark are shown below:

#### Small cap track record

Annualised returns of the WCM International Small Growth Strategy<sup>3</sup> versus its benchmark are shown below:

#### **Growth in retail investor base**

As at 30 September 2020, Contango had over 13,000 unitholders and shareholders across its product suite.

#### **Cash position**

Contango's cash inflows increased significantly during the quarter due to an increase in management fees and the receipt of performance fees from the WCM Quality Global Growth Exchange Traded Managed Fund and the WCM International Small Cap Growth Fund relating to the 2020 financial year. Excluding performance fees, receipts from customers were \$1.3 million in the September 2020 quarter.

Over the same period, cash outflows for operating expenses increased due to the timing of payments associated with the 2020 financial year end, and an increase in direct fund costs caused by higher FUM.

Contango has a receivable relating to the assignment of an investment mandate to NAOS Asset Management Limited. A total amount of \$3.3 million remains payable to the Company in relation to this transaction, in two annual instalments in June 2021 and 2022.

Contango's strong financial position provides it with the capacity to continue to execute its growth strategy successfully and achieve further FUM growth.
