Urbanise.com Limited (ASX:UBN) (“Urbanise” or “the Company”) announces that it has received commitments from institutional and sophisticated investors to raise gross proceeds of \$6.8m. The Company today also provides a business update and Quarterly Cash Flow Report for the period ended 30 September 2020 (Appendix 4C).

Placement

The Placement was well supported with strong demand from existing institutional shareholders and the addition of several new high-quality institutions and sophisticated investors to the register. Under the Placement, Urbanise will issue approximately 87m new fully paid ordinary shares at an issue price of 7.8 cents per New Share. This represents an 11.4% discount to the closing price on Tuesday 20 October. The shares will be issued under the Company’s current Placement capacity as outlined in ASX Listing Rules 7.1 and 7.1A.

¹ All Q1 FY2021 financial information disclosed in this announcement is unaudited

² No debt other than annual insurance premium funding

Net proceeds from the placement will be used³ to accelerate organic ARR growth through increased investment in Facilities Management including:

- *Sales and marketing (~70%)*: To drive new contract wins and increase capacity to generate and convert new pipeline opportunities;
- *Implementation (~20%)*: Expand team to increase speed of conversion of new contracts to ARR and to generate additional professional fees. Implementation support is a key customer selling point; and
- *Product development (~10%)*: Reinforce product leadership and respond to new contract win requirements which can be delivered across entire customer base.

The total addressable market (TAM) for Facilities Management software is estimated at \$3.6bn in the Asia-Pacific, the Middle East and Africa. Urbanise has a strong presence in each of these regions and the funds raised will be used to grow market share in its core geographies and extend its regional footprint through a “land and expand” strategy. Urbanise has a track record of delivering strong FM growth with Q1 FY2021 licence revenue increasing by 7.6x compared to Q1 FY2018. The increase in demand for the Company’s cloud-based FM solutions was evident during the September quarter with record professional fees reflecting strong sales momentum over the past six months.

Settlement of the Placement is expected to occur on Monday 2 November 2020. New shares are expected to be issued on Tuesday 3 November 2020 and will commence trading on a normal settlement basis the same day. New shares issued under the Placement will represent approximately 11.8% of the Company’s existing shares on issue.

Urbanise shares are expected to resume normal trading on the ASX from market open today, 26 October 2020.

Urbanise’s CEO Saurabh Jain said: “We are very pleased with the success of this equity raising which is a strong endorsement of the hard work we have been doing over the past couple of years to deliver the most advanced products and solutions to facilities and strata managers. I would like to thank our existing shareholders for their ongoing support and welcome our new investors to the register.

“This Placement gives us the financial flexibility to accelerate investment in our highly scalable FM platform to drive ARR growth across our regional footprint. With an estimated TAM of \$3.6bn⁴ for FM software in our key markets, we have an exciting opportunity to establish Urbanise as the system of choice in the region.

“We have also had a strong start to FY2021 with Q1 revenue up 21.7% (vs pcp) driven by licence fee growth as well as a significant step up in professional fees as we onboarded new customers. We secured several new FM contracts during the quarter and continued the PICA implementation which is on track for completion in FY2021. We are yet to see an impact from COVID-19 with increased demand for our mission-critical platforms especially from FM Outsourcers and Asset Managers.

“We continued to invest in product and technology to reinforce the “stickiness” of our solutions and have increased our salesforce to further expand our pipeline of opportunities across our global footprint. At 30 September 2020, we had no material debt and closing cash of \$3.36m.”

³ Percentages are indicative of the intended use of funds

⁴ Total addressable market of \$3.6bn based on FM sector GDP by region assuming ~1% spend on technology. *Global Facilities Management Market Report 2018*
