Notification of issue, conversion or payment up of equity +securities

Information or documents not available now must be given to ASX as soon as available. Information and documents given to ASX become ASX's property and may be made public.

If you are an entity incorporated outside Australia and you are issuing a new class of +securities other than CDIs, you will need to obtain and provide an International Securities Identification Number (ISIN) for that class. Further information on the requirement for the notification of an ISIN is available from the Create Online Forms page. ASX is unable to create the new ISIN for non-Australian issuers.

*Denotes minimum information required for first lodgement of this form, with exceptions provided in specific notes for certain questions. The balance of the information, where applicable, must be provided as soon as reasonably practicable by the entity.

Costa Group Holdings CY20 Limited Long Term Incentive Plan

Senior employees and executives of Costa Group Holdings Limited (“**Company**”) are eligible to participate in the Company’s CY20 long term incentive plan for the three year performance period commencing from 30 December 2019 to the end of the Company’s 2022 financial year (“**Performance Period**”). The number of options that vest at the end of the Performance Period will depend on the Company’s performance during the Performance Period against performance hurdles which have been set by the Board, being an earnings per share (“**EPS**”) hurdle and a strategic growth hurdle.

Key terms of the CY2020 long term incentive plan are as follows:

Exercise price	\$2.44 per option, being the volume weighted average price of an ordinary fully paid share in the capital of the Company recorded on the ASX over the 10 ASX trading day period ending on the day prior to the commencement of the Performance Period.
----------------	--

EPS hurdle	Vesting of 75% of the options (“ EPS Options ”) will be subject to a performance hurdle based on the Company’s Earnings Per Share compound annual growth rate (“ CAGR ”) over the Performance Period against the thresholds that were set by the Board prior to approving the grant of the options, with performance and vesting outcomes as follows:
------------	---

Company’s EPS CAGR over Performance Period	Percentage of EPS Options that will vest
Less than the minimum EPS growth threshold	0%
Equal to the minimum EPS growth threshold	50%
Greater than the minimum EPS growth threshold, up to the maximum EPS growth threshold	50%-100%, on a straight line sliding scale
At or above the maximum EPS growth threshold	100%

The EPS growth thresholds set by the Board for the Performance Period are considered commercially sensitive by the Board and will accordingly be disclosed in the Remuneration Report published in respect of the year in which the EPS Options are tested.

The Board retains discretion to adjust the calculation of EPS (for example, to exclude the impact of significant events that may occur during the Performance Period). EPS will be measured using NPAT-SL and prior to the adoption of IFRS16.

Strategic growth hurdle	Vesting of 25% of the options (“ Growth Target Options ”) will be subject to a performance hurdle based on geographic and category diversification and growth designed to support sustainable long term value creation linked to return on capital.
-------------------------	--

The number of Growth Target Options that vest will be determined by the Board based on an assessment of the Company’s performance during the Performance Period against the growth and diversification targets set by the Board.

Entitlements	Each vested option entitles the holder to acquire one fully paid ordinary share in the Company, at any time during the two year period from the vesting date until 1 March 2025 (“ Expiry Date ”), for the Exercise Price.
--------------	---

Options will not carry rights to dividends or voting rights prior to vesting.

Option exercise	<p>Upon vesting and prior to the Expiry Date, an employee can exercise the options by either:</p> <ul style="list-style-type: none">• providing the Company with an exercise notice that specifies the number of options to be exercised, together with payment of the Exercise Price in respect of those exercised options; or• electing a cashless exercise in respect of some or all of their options. <p>If the employee pays the Exercise Price, they will be issued with one share per exercised option. If they elect a cashless exercise, they will be issued with a lower number of shares, calculated in accordance with the following formula:</p> <p><i>(A minus B) divided by C, where:</i></p> <p><i>A = Number of Shares to which each vested option relates (ie. 1) x Number of vested options exercised x Market Price per Share</i></p> <p><i>B = Number of vested options exercised x Exercise Price</i></p> <p><i>C = Market Price per Share, being an amount equal to the volume weighted average price of a Share recorded on the ASX over 10 ASX trading days immediately preceding the date on which the Market Price is to be calculated or, if no sale occurred during such period, the last sale price of a Share recorded on the ASX prior to that period.</i></p>
Sale restriction	<p>50% of shares delivered on the exercise of the vested options will be subject to a restriction period (during which the shares cannot be sold or otherwise dealt with) which will end on the earlier of (i) 12 months following vesting and (ii) the date that an employee ceases employment with the Company.</p>
Service conditions	<p>If an employee ceases employment before their options vest due to termination for cause, all of their unvested options will lapse at cessation.</p> <p>Where an employee ceases employment for any other reason (which generally includes “good leaver” circumstances such as death or disability), a pro-rata number of unvested options, based on the proportion of the Performance Period served (or a lesser number of options determined by the Board, which may be zero) will generally continue on-foot and be tested at the end of the original vesting date against the relevant performance conditions. However, the Board has discretion to apply any other treatment that it deems appropriate in the circumstances.</p>
Change of Control	<p>The Board has discretion to determine an appropriate treatment for unvested and/or vested, but unexercised, options in the event of a change of control.</p>
Clawback	<p>The Board has the discretion to clawback unvested and/or vested, but unexercised, options in the case of fraud, gross misconduct and other prescribed circumstances.</p>
