### Highlights

### Innamincka Dome, Cooper Basin

Red Sky Energy Limited (ASX: ROG) is pleased to provide an update on the work programme review for the Yarrow gas field by Cooper Basin operator Santos Ltd (ASX:STO) included in Red Sky's onshore Cooper Basin retention licences. These are PRL 14, 17, 18, 180, 181 and 182 collectively known as the Innamincka Dome Projects.

#### Since our last announcement Santos have advised:

- The reprocessing of the 2D over the Yarrow Gas Field is nearing completion
- Priority sites for the next Yarrow well have been identified
- The final location will be decided after re-interpretation of the seismic
- If proven commercial a pipeline will be built to deliver the gas to market

The Yarrow well is scheduled by Santos to be drilled in the second half of 2021. A pipeline of approximately 20km would potentially be built to tie into the grid at Napowie to the south of the Yarrow gas field. The pipeline is expected to have a gross capacity of 20mmcfpd (4mmcfpd net to Red Sky).

Yarrow has previously been estimated to have a 2C contingent resource of 18BCF. A further 20BCF 2C of associated gas is estimated at the Flax oil field 8km to the south east of Yarrow.
