Data#3

# Data#3 expects to improve on previous 1H record result

## First half pre-tax profit estimate of approximately $13.7M, up 8 to 9% on the PCP

**BRISBANE, Monday 18 January 2021:** Australian business technology solutions leader Data#3 Limited (ASX: DTL) has advised that the consolidated net profit before tax (NPBT) for the first half of FY21 is expected to be near the top end of the guidance provided at the AGM in November 2020. Given the current market conditions this reflects encouraging growth on the FY20 record first half result.

Subject to finalising the interim accounts and the audit review, the first half NPBT is expected to be approximately $13.7 million.

The board intends to announce the audited results and interim dividend on 18 February 2021, and it is the board's intention to maintain the usual dividend practice.

*Approved for distribution by Mr Richard Anderson, Chairman.*
