This presentation contains certain statements that may constitute forward-looking information under applicable securities laws. All statements, other than those of historical fact, which address activities, events, outcomes, results, developments, performance or achievements that Webcentral anticipates or expects may or will occur in the future (in whole or in part) should be considered forward-looking information. In some cases, forward-looking information is identified by the use of terms and phrases such as “anticipate”, “believe”, “could”, “estimate”, “expect”, “intend”, “may”, “plan”, “predict”, “project”, “will”, “would”, and similar terms and phrases, including references to assumptions. Such information may involve, but is not limited to, comments with respect to expectations, planned operations or future actions. These forward-looking statements are based on currently available information as of the date of this presentation but are subject to known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to be materially different from those expressed or implied by such forward-looking information. The forward-looking information contained in this presentation is expressly qualified by this cautionary statement.

A number of risks, uncertainties and other factors could cause actual results to differ materially from the results discussed in the forward-looking information, including, but not limited to, the following: risks associated with reliance on key personnel; financial health of Webcentral and its related cash flows; general industry and market conditions and growth rates; legislative and regulatory developments; general economic conditions and levels of economic activity; global financial conditions; financing risks; degree of competition in the industry; risks associated with the development of projects; changes in employee relations; and control of costs and expenses.

Forward-looking information reflects Webcentral’s current beliefs and is based on information currently available to Webcentral and on assumptions it believes to be reasonable. The forward-looking information is made as of the date of this presentation and Webcentral assumes no obligation to update or revise such information to reflect new events or circumstances, except as may be required by applicable law. Prospective investors should not read forward-looking information as guarantees of future performance or results and should not place undue reliance on forward-looking information. Nothing in this presentation is, or should be relied upon as, a promise or representation as to the future.

The results presented for the period ending 31 December 2020 are unaudited and subject to change following completion of the review for the Interim period ending 31 December 2020 by the company’s auditors.

## Key Highlights

### Ongoing EBITDA Improvements

Annualised EBITDA from Feb-21 to be \$7-8m<sup>1</sup> with continued improvements as growth initiatives and cost synergies are implemented

### Free Cashflow

Annualised free cash from Mar-21 to be \$10-12m<sup>2</sup>

### Revenue Acceleration

Industry transformation is driving considerable market expansion through the expected introduction of .au domains by auDA in 2H 2021 with expected 25-35% growth in new domain name registrations

1. Normalised EBITDA before non-recurring costs, transaction, restructuring and option/share issue costs.  
2. Assumes Sydney lease novation March 21 normalised.

*"The completion of the takeover has delivered significant value to both groups of shareholders. We are now focussed on our Strategic Transformation Program to improve customer experience, achieve revenue growth and simplify Webcentral's operations"*

- Managing Director, Joe Demase.

## Interim Results – Financial Commentary

- **Domain** registration revenue increased in early 2020 as COVID first started to impact the working environment, followed by a small decline in the second half of 2020
  - Strong growth expected with the introduction of the .au domains from second half of 2021 – pre-registrations expected towards the end of first half of 2021
- **Email** services remained steady through to Dec 20 and we expect this growth to continue
- **Hosting** services impacted by same factors observed in domains with expected rebound in growth as we shift back to this core service, streamline suppliers and invest in customer online experience improvements
- **Digital Marketing** is a value add to our core products and will grow inline with their success
- **Other Income** will continue to decline over time as transitional service agreements are completed and property sublease income reduces in line with our smaller property footprint

Overall revenue has declined due to the impact of COVID in 2020 and poor customer experience summarised in these three main areas:

1. Support services (Voice, Chat and Email) – poor quality communication, slow responsiveness and repeated call backs
2. Console (Customer platform) experience – outdated processes impacting the customer experience including billing and service provisioning
3. Technical stability – Network and cloud issues have impacted customer experience which has impacted the service

We've undertaken a number of initiatives to address these issues. Management is confident that revenue growth will return across all four core services as these short term issues are resolved
