### **Safe Harbor Statement**

This announcement contains forward-looking statements, which address a variety of subjects including, for example, financial projections, our statements regarding expected events, including expected revenue and earnings, system shipments, expected product offerings, product development, market adoption and technical advances. Statements that are not historical facts, including statements about our beliefs, plans and expectations, are forward-looking statements. Such statements are based on our current expectations and information currently available to management and are subject to a number of factors and uncertainties, many of which are outside the control of the Company, which could cause actual results to differ materially from those described in the forward-looking statements. The Company’s management believes that these forward-looking statements are reasonable as and when made. However, you should not place undue reliance on any such forward-looking statements because such statements speak only as of the date they are made. Revasum does not undertake any obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law or the ASX Listing Rules. In addition, forward-looking statements are subject to certain risks and uncertainties that could cause actual results, events, and developments to differ materially from our historical experience and our present expectations or projections.

**About Revasum, Inc. (ASX: RVS)**

Revasum, Inc. (ARBN: 629 268 533) specializes in the design and manufacturing of equipment used for the global semiconductor industry. Revasum's technology and equipment assists in the advancement of technology for a wide range of markets and applications including automotive, IoT, 5G, telecommunications, electrification, and power devices. Revasum's product portfolio includes equipment for grinding, polishing, and chemical mechanical planarization processes used to manufacture devices for key end markets. Its flagship 6EZ Silicon Carbide (SiC) Wafer Polisher is the world's first fully automated single SiC wafer polisher. Revasum's tools, including the 6EZ SiC polisher, are uniquely positioned to meet the growing global demand, maximizing quality and efficiency. Revasum's equipment is designed and developed in close collaboration with its customers. [www.revasum.com](http://www.revasum.com)
