Benefits of the Offer

The Offer provides Redhill Education Shareholders with the ability to exchange 1 Redhill Education Share for 7.6 iCollege Shares. This is equivalent to \$1.14 per Redhill Education Share.

The key strategic rationale for the Offer includes:

- creating a national champion education portfolio by combining two Australian industry leaders;
- combining complementary businesses that benefit from expanded geographic diversity;
- significant value creation for both sets of shareholders;
- greater scale and stronger balance sheet facilitating future growth opportunities; and
- enhanced product offering providing the opportunity to extend student lifecycles through the offering of a broader collection of courses.

³ Based on the closing price of Redhill Education Shares on ASX on 19 February 2021.

⁴ Calculated over the 30 trading days before the announcement of the Offer.

I would encourage Redhill Education Shareholders to accept this Offer which provides a synergistic and collaborative approach to a challenging and uncertain market by providing diverse revenue streams addressing the opportunities in both domestic and international education. iCollege and Redhill Education, both industry leaders with strong brands, vary in their campus locations, course offerings and international agent network, providing significant scope for both revenue and cost synergies.

We encourage you to read this Bidder's Statement for more details about the Offer and about iCollege.

The Offer is conditional

The Offer is subject to a number of Conditions that are set out in the Bidder's Statement. These include a condition that iCollege acquires at least 90% of Redhill Education Shares. 1 Reasons to accept the Offer

1	The Offer represents an attractive premium to all of the relevant metrics, including the competing UCW offer and the undisturbed share price of Redhill Education Shares prior to the announcement of the UCW offer.
2	Combining iCollege and Redhill Education brings together two Australian industry leaders creating a champion education portfolio delivering: • diversified earnings base • expansive geographic footprint • immediate and long-term cost and revenue synergies, otherwise not available on a standalone basis • strengthened balance sheet • greater liquidity and increased market capitalisation
3	On a standalone basis, there is uncertainty surrounding the timing of the recovery for Redhill Education given its exposure to the international student market and ambiguity around the easing of international border restrictions.
4	iCollege employs a highly regarded and experienced board and management team that has a demonstrated track record of prudent cash management, turnaround, acquisition, and integration experience.
5	Should you choose to reject this complementary and synergistic offer, there are risks in remaining a minority shareholder in Redhill Education.
6	No other superior proposal has emerged for your Redhill Education Shares at the date of this Bidder's Statement.
7	Redhill Education shareholders who are Australian residents are not expected to pay stamp duty or brokerage to accept the Offer ⁵ .
8	You may be eligible for CGT rollover relief.

⁵ Unmarketable Parcel Shareholders and Foreign Shareholders may be required to pay a brokerage fee. You should consult your professional adviser in this regard.

1 The Offer represents an attractive premium to all of the relevant metrics, including the competing UCW offer and the undisturbed share price of Redhill Education Shares prior to the announcement of the UCW offer.

The Offer provides Redhill Education Shareholders with the ability to retain exposure to Redhill Education's assets whilst capturing an attractive premium for your shareholding.

If you accept the Offer, you will be issued 7.6 iCollege Shares for every one Redhill Education Share you hold.⁶ This represents:

- a premium of 40.7% on Redhill Education's closing share price of \$0.81 on 19 February 2021, the last day of trading prior to the announcement of the Offer⁷;
- a premium of 90.0% on Redhill Education's June 2020 capital raise price of \$0.60;
- a premium of 49.0% on Redhill Education's undisturbed price of \$0.765 on 11 December 2020, the last day of trading prior to the announcement of UCW's takeover offer for Redhill Education;
- a premium of 29.8% on UCW's implied offer price of \$0.878, 4.5x UCW's closing share price of \$0.195 on 19 February 2021, the last day of trading prior to the announcement of the Offer;
- a premium of 31.4% based on Redhill Education's 30-day VWAP prior to the announcement of the Offer⁸; and
- a premium of 28.8% based on implied price of the Redhill Education Shares at the close of trading on 8 April 2021, being the day before lodgement of the Bidder's Statement with ASIC.

The implied value of the Offer represents an attractive premium to trading in Redhill Education Shares prior to the Offer announcement on 19 February 2021, as demonstrated in the chart below.

Notes

⁶ If you are an Ineligible Foreign Shareholder or an Unmarketable Parcel Shareholder your iCollege Shares will be sold and the net proceeds paid to you.

2.1 Diversified earnings base

Redhill Education has a significant reliance on international students, which represents 85% of the revenue derived from education services.

Prior to the emergence of COVID-19 iCollege's revenues were evenly split between international and domestic students. In April 2020, iCollege increased its focus on the domestic training market while maintaining appropriate resources to ensure readiness for the resumption of the stalled international student market. iCollege expects to see continued and sustained growth in the domestic student market, representing at least 65% of enrolments in the near term.

The Combined Entity will provide Redhill Education Shareholders with immediate access to the \$6.2bn subsidised domestic training market and \$1bn Federal Government vocational JobTrainer initiative.

iCollege, through its state funded subsidised training contracts across 5 states and territories including ACT, NSW, QLD, SA and WA, already enjoys access to these existing and lucrative markets which are currently being driven by the need to upskill and or reskill the existing Australian workforce.

VET Funding Contributions by Jurisdiction 2019

Source: NCVET

The graph above demonstrates the amount of domestic training revenue available by state. iCollege currently draws 90% of its revenue from Western Australia, South Australia and Queensland. Given the opportunity to rapidly expand into the more lucrative markets of New South Wales and Victoria, iCollege would expect to gain market share at the same time addressing the underutilisation of Redhill Education's facilities.

Course mix and business model

The Combined Entity will have the capacity to extend student lifecycles through the provision of an expanded course offering, driving material revenue synergies. Currently Redhill Education provides training from ELICOS⁹ through to tertiary level qualifications, while iCollege is mainly focussed on the skill shortage areas in vocational training. The iCollege scope of training frequently provides the graduate with employment outcomes and/or a potential pathway to immigration. A merger between Redhill Education and iCollege provides an opportunity to all graduates of the Redhill Education English program to continue their studies within the broader group course offering, removing the need to move on to other third-party providers.

Redhill Education predominantly offers ELICOS, business and management, technology and design courses, while iCollege focuses on hospitality, health and community services, building and construction, business and ELICOS courses. The expanded training portfolio of the Combined Entity is expected to provide international and domestic students with a range of study options.

International student diversity

Redhill Education recruits many of its international students from South America, parts of Asia and Europe, while iCollege's international agent network draws most of its international

⁹ English Language Intensive Courses.

students from the Indian subcontinent, South East Asia and South America. The shared international agent network resource provides the opportunity to expand each entity's international reach and increase existing student enrolment pipelines, ensuring a boost to student numbers upon the reopening of Australia's borders. Additionally, the broader geographical coverage ensures there will not be an over dependence on a particular country or region.

2.2 Expansive geographic footprint

Approximately 90% of Redhill Education's domestic revenue is derived from New South Wales and Victoria – most of Redhill Education's campuses are in New South Wales and Victoria. By comparison, iCollege derives over 90% of its annual revenue from Queensland, South Australia and Western Australia.

Redhill Education currently has an overall campus utilisation rate of approximately 26%. The Combined Entity will benefit from greater utilisation of all campuses through the provision of additional training offerings to both domestic and international students.

The combination of both entities will create the opportunity to firmly establish an Australia wide footprint with 14 campuses located across 7 cities including Adelaide, Brisbane, Canberra, Gold Coast, Melbourne, Perth and Sydney. This will enable a more balanced revenue distribution in the Combined Entity.

Campus locations

RDH Campuses		ICT Campuses	
Sydney	4	Brisbane	2
Melbourne	1	Perth	2
Brisbane	1	Sydney	1
Total Locations	6	Adelaide	1
		Gold Coast	1
		Canberra	1
		Total Locations	8

2.3 Immediate and long-term cost and revenue synergies, otherwise not available on a standalone basis.

iCollege anticipates that following integration of the two entities and assuming iCollege is entitled to proceed to compulsory acquisition and does so, the Combined Entity will likely enjoy material operating efficiencies resulting in a lower overall cost base.

Through a collaborative integration process with the Redhill Education team, iCollege estimates potential annual cost savings of \$3.7m can be realised by the elimination of duplication of duties, including administrative and corporate functions, along with the rationalisation of campuses and implementation of programs to increase utilisation.

Costs associated with Redhill Education's ASX listing will no longer be incurred in the event that Redhill Education is delisted from ASX (refer to sections 7.2 and 7.3 for more information about iCollege's intentions in respect of Redhill Education's ASX listing).

The full extent of savings can only be quantified on the completion of the transaction and a complete audit of operations and management of the Redhill Education business.

However, a proposed estimate of cost savings is set out below:

Category	Description of Key Costs	Cost Savings	Time Frame
Cost of services	• Student acquisition costs (agent commissions) • Teaching resource costs	\$ 1.0m	3-24 months
Corporate Costs	• Public company expenses • Board and executive costs	\$ 0.6m	0-4 months
Sales, general & administration	• Marketing costs • Administration costs • General business costs • Insurance and IT costs	\$ 0.5m	0-12 months
Employee expenses	• Salaries and employee costs	\$ 1.2m	0-12 months
Property	• Occupancy costs	\$ 0.4m	0-12 months

2.4 Strengthened balance sheet, stronger revenues and increased profitability.

On a proforma H1 FY21 basis, the Combined Entity will have:

- Revenues of \$30.53m;
- EBITDA of \$7.41m excluding cost synergies;
- Cash at bank of \$28.6m.

iCollege expects that the diversified earnings base, broader geographic footprint, and implementation of immediate and ongoing cost and revenue synergies will lead to a financially stronger business.

2.5 Greater liquidity and increased market.

As a result of the COVID-19 pandemic, the Redhill Education Share price fell to a 12-month low of \$0.43 in August 2020. The Redhill Education business continues to suffer from lower levels of liquidity and on a standalone basis, with declining revenues and profitability, it is possible the price of Redhill Education Shares may continue to fall if market consolidation does not proceed.

By comparison, iCollege has outperformed Redhill Education in share price growth with greater liquidity.

The Board expects that the successful combination of the businesses should result in greater liquidity and market capitalisation leading to increased capital markets relevance.

Share price performance - 22 February 2019 to 19 February 2021

Trading volume - 22 February 2019 to 19 February 2021

3 On a standalone basis, there is uncertainty surrounding the timing of the recovery for Redhill Education given its exposure to the international student market and ambiguity around the easing of international border restrictions.

3.1 Declining revenues

Up until the COVID-19 pandemic, Redhill Education Shareholders have enjoyed continued and ongoing organic revenue growth for several years.

During FY 2020, approximately 85% of Redhill Education revenue was generated from delivering courses and services to international students.

Due to the emergence of COVID-19 and Redhill Education's significant exposure to the international student market, the business experienced a small decline in revenue during H2

FY20 and a heavier decline in revenue during H1 FY21 with revenues of \$22.6m representing a 32% decline from the previous corresponding period.

Two of Redhill Education's business units, Greenwich English College and Go Study Australia, are the most reliant on international students arriving to Australia and as such, iCollege expects that these business units will continue to experience a further decline in revenue for as long as international border restrictions remain in place. While the Redhill Education Board and management have made significant effort during H1 FY21 to change their focus towards marketing initiatives onshore in Australia and create new growth opportunities in the domestic training market, due to Redhill Education's limited exposure to the domestic Australian training market, the Board of iCollege expect that it will be some time before those efforts bear fruit, and Redhill Education's revenue will continue to decline during H2 FY21 and further into FY 2022, if international border restrictions continue to remain in place.

Redhill Education Half Year Revenue

3.2 High cost base

Redhill Education has a large annual cost base related to occupancy and employee expenses. Redhill Education saw an additional \$1,200,000 in new lease commitments in FY 2020 by way of 2 new campuses in Melbourne and Sydney, but subsequently successfully exited lease commitments across 3 sites in Sydney with ongoing annualised cost savings of \$500,000 during H1 FY21.

Additionally, Redhill Education incurred employee costs of \$13,081,000 during H1 FY21 and received \$3,896,000 in Jobkeeper subsidies during the period. With Jobkeeper subsidies coming to an end on March 31, 2021, Redhill Education may be faced with a difficult decision to make several redundancies with large associated termination costs and risk losing experienced and highly skilled staff in the process.

The declining revenues and high cost base are likely to have an ongoing material impact on profitability and cash balances in H2 FY21. iCollege acknowledges that Redhill Education

currently has a strong cash balance. However, Redhill Education may be forced to divert cash at bank to address cash flow deficit rather than a more positive deployment of shareholder funds to support growth opportunities.

3.3 **Uncertainty around border openings and staged border openings**

While all international education providers are excited at the prospect of Australia's borders re-opening, iCollege expects that the reality is that this will likely be undertaken on a gradual and staged basis with an early reliance on travel bubbles between Australia and certain countries being established. iCollege expects that these "travel bubbles" will likely be driven by countries showing success with vaccination programs. According to an article published in news.com.au on March 15, 2021, the Deputy Prime Minister Michael McCormack stated, "We have been in productive discussions with Singapore [in relation to a travel bubble], and we have that travel bubble with New Zealand that is one way at the moment...".

Under the proposal, Australians who had received a COVID-19 vaccine would not need approval from the Department of Foreign Affairs and Trade (DFAT) to travel to Singapore. Singaporeans who had been immunised would be allowed to travel to Australia without undergoing two weeks in quarantine.

Approximately 61% of Greenwich English College's current student cohort is drawn from South America and less than 20% of its cohort is drawn from Asia. Therefore, if travel bubbles were to be put in place under a gradual and staged program, due to the limited vaccination rates in South America currently known, the Board of iCollege anticipates that students from those regions will not gain as much priority as students coming from Asia and Europe which may drive a further downturn in the enrolments at Greenwich English College and Go Study Australia's student recruitment channels.

Therefore, whilst Redhill Education has a strong cash balance to manage the ongoing period of uncertainty, iCollege expects that there will likely be a significant period before the recovery of revenues and profitability return to a pre-pandemic level. As a result, the price of Redhill Education Shares may also continue to fall, and ongoing poor average daily trading volumes may continue.

4 iCollege employs a highly regarded and experienced board and management team that has a demonstrated track record of prudent cash management, turnaround, acquisition, and integration experience.

In February 2018, the members of iCollege voted to acquire 100% of Manthano Limited assets which included Sero Institute and Capital Training Institute plus an additional cash component of AUD\$1,000,000.

At the time, iCollege was operating two Registered Training Organisations being Celtic Training located in South Australia and Mathisi Limited in Queensland.

During this initial period, the attention of the Board was focused on a legacy \$9,000,000 legal claim surrounding the acquisition of Management Institute of Australia acquired in 2015. The Board was rapidly restructured to its current format with two Executive Directors and a Non-Executive Chairman. This restructure was completed in May 2018 with the appointment of Badri Gosavi. The new Board sought to efficiently extinguish the claim against the company, which was successfully settled in October 2018 with no material effect on the cash position of the company.

While operating with a consistently low cash balance the Board and management successfully focused on the organic growth of the new combined business delivering year on year growth against all relevant metrics.

iCollege announced its maiden profit in H1 FY20, only to be faced with the challenges of the COVID-19 pandemic in H2 FY20. The Board and management have driven significant revenue growth of over

300% between FY18 and FY20. While the revenue growth has come from a much smaller base, this revenue growth has been comparatively higher than that of Redhill Education.

Despite the impact of the COVID-19 pandemic on iCollege's business, iCollege's revenues have continued to grow with iCollege reporting H1 FY21 revenues of \$7.9m, representing an increase of 12% from the previous corresponding period. iCollege's agility and management of the impact of the COVID-19 pandemic has created significant value for shareholders.

iCollege's growth through the COVID-19 pandemic was largely driven by its ability to swiftly respond to the decline of international students. iCollege quickly shifted its focus to the delivery of in demand domestic training for the reskilling of Australians – a necessary pivot given the current challenges facing the international student market.

5 Should you choose to reject this complementary and synergistic offer, there are risks in remaining a minority shareholder in Redhill Education.

iCollege's intentions in the event that it gains effective control of Redhill Education are set out in Section 7.2 and 7.3.

If iCollege gains effective control of Redhill Education, iCollege will seek board representation on the Redhill Education Board. While iCollege's nominees will, at all times, act in accordance with their fiduciary duties, the presence of a controlling shareholder with board representation gives rise to a risk that Redhill Education may be considered a less attractive investment.

By not accepting the Offer, there is a risk that Redhill Education Shareholders may become minority shareholders with less influence over the future direction of Redhill Education.

Issuer Sponsored Holding

If your Redhill Education Shares are registered in an Issuer Sponsored Holding in your name and you deliver them directly to iCollege, you are not expected to incur any brokerage fees or be obliged to pay stamp duty in connection with your acceptance of the Offer.

CHESS Holding

If your Redhill Education Shares are registered in a CHESS Holding, or if you are a beneficial owner whose Redhill Education Shares are registered in the name of a broker, bank, custodian or other nominee, you will not be obliged to pay stamp duty by accepting the Offer, and it is unlikely that you will be obliged to pay brokerage.

However, you should ask your Controlling Participant (usually your Broker) or nominee whether it will charge any transactional fees or service charges in connection with your acceptance of the Offer.

8 You may be eligible for CGT rollover relief

As outlined in Section 10 of this Bidder's Statement, where iCollege acquires 80% of the Redhill Education Shares on issue (**80% threshold**), Redhill Education Shareholders may be eligible to apply CGT rollover to the disposal of their Redhill Education Shares under the Scrip for Scrip provisions of the Income Tax Assessment Act 1997.

If iCollege does not meet the 80% threshold as a result of the Offer and acquires your Redhill Education Shares, the CGT rollover relief will not be available and a CGT event will crystallise for the relevant shareholders.

Please refer to Section 10 of this Bidder's Statement for further details relating to the CGT implications of this Offer.

You should not rely on that description as advice for your own affairs. You should consult your taxation adviser for detailed taxation advice before making a decision as to whether or not to accept the Offer. iCollege has appointed Advanced Share Registry Ltd as the facility operator and agent for the Acceptance Facility (**Facility Agent**). The Facility Agent will be remunerated in accordance with its standard services fees for work performed in its capacity as the acceptance collection agent.

Operation of the Acceptance Facility

An Eligible Shareholder who would like to indicate their intention to accept the Offer may lodge their duly completed appointment of facility agent form (**Appointment Form**) with the Facility Agent, along with the following:

4.5 Acquisitions

History

Acquisitions pre-August 2017 (Previous Board)

Acquisition Date	Acquisition Made	Acquired	Acquisition Price
9 December 2014	BookKeeping School	100%	\$115,000
1 April 2015	Mathisi Pty Ltd	100%	\$550,000
1 April 2015	Management Institute of Australia	100%	\$2,000,000 (incorporates the effect of sale of share and gain on settlement)
7 January 2016	Celtic Training & Consultancy Pty Ltd	100%	\$2,250,000 including milestone payments

The above acquisitions were made under the iCollege Board prior to 2017. The restructured Board took decisive action to effectively mitigate any risks associated with the legacy acquisitions.

- Bookkeeping School Pty Ltd has been renamed iCollege International and was structured to deliver any training outside Australia. This company remains registered but is dormant.
- Mathisi Pty Ltd was determined by the Board to be an underperforming asset and was disposed of by way of sale as a going concern in October 2018.
- Management Institute of Australia, MIA1 and MIA2 were all deregistered with the regulator ASQA considering significant compliance challenges with the operations of the businesses. Additionally, Management Institute of Australia was subject to a \$9,000,000 legal challenge brought by the vendor, Walker Investments. The Board strenuously defended the action which was settled and announced to the market on October 11, 2018. The settlement did not financially impact iCollege.
- Celtic Training and Consulting was determined to be a viable business and resources were allocated to drive the expansion of the business. Celtic Training and Consulting is currently active and delivers significant revenues to iCollege.

Acquisitions post-August 2017 (Current Board)

Acquisition Date	Acquisition Made	Acquired	Acquisition Price
12 February 2018	Manthano Ltd (Comprised of Brisbane Career College and Capital Training Institute)	100%	250m fully paid ordinary shares

In February 2018, iCollege underwent a full transformation following the acquisition of the Manthano asset. This transformation included a full restructure of the Board and a complete overhaul of operating processes. The acquisition brought into play a further two RTOs operating in skill shortage high demand areas of training. Most significantly, Sero Institute (the Group Flagship) was also accredited by ASQA to deliver training to international students.

The Board and management team of iCollege have worked diligently to provide shareholders with year on year organic growth delivered by the expansion of its scope of training services and geographic locations.

6 Profile of Combined Entity

6.1 Introduction

The profile of the Combined Entity will vary depending on the outcome of the Offer. Unless otherwise indicated, the description of the Combined Entity in this section 6 assumes that Redhill Education is a wholly-owned subsidiary of iCollege. If iCollege is not entitled to compulsorily acquire Redhill Education Shares during the Offer Period, some of the benefits that would otherwise accrue to iCollege if Redhill Education were to become a wholly owned subsidiary of iCollege may not be fully realised.

6.2 Overview of the Combined Entity

The Combined Entity will provide investors with exposure to an expanded education services offering covering qualifications from certificate I level through to higher education, The Combined Entity will provide the full range of services in 6 of the 8 States and Territories, whilst maintaining a multi-brand strategy.

The creation of one larger single company by way of a merging and integrating the two entities is expected to have numerous benefits for the shareholders of both Redhill Education and iCollege. These benefits include:

Multi-brand strategy

The Combined Entity will continue to adopt a multi-brand approach, operating across different brands in Australia to cater to the needs of the student community. These brands will significantly increase the existing offerings of both individual groups providing for the opportunity to significantly increase the student lifecycle within the Combined Entity. Additionally, the operation of a multi-brand group greatly mitigates regulatory risk and allows for the continuation of associated companies if one of the businesses is subject to an adverse regulatory decision. This strategy also mitigates risk in the event the market changes significantly through regulatory or environmental pressure.

Revenue underpinned by supportive government policies

Supportive government policies in the form of government subsidised training, Vet Student Loans (VSL), FEE-HELP, Commonwealth support payments and specific initiatives designed to provide affordable training to Australian citizens contributes to the financial revenue generated by the Combined Entity. The addition of significant domestically generated revenues allows for a longer runway relieving some of the pressure currently being sustained by both businesses due to extended Australian border closures.

Strong long-term demand for education services

The Combined Entity will have access to the Australian Government training incentives and the ability to expand rapidly through rolling out domestic training in the lucrative New South Wales and Victorian markets. Development of these markets while maintaining readiness for the easing of border restrictions will see the Combined Entity generating revenue domestically to address the downturn in international students. It will be important to remain ready to welcome new international students which should see revenues from both domestic and international students achieving parity in the mid-term.

6.5 Pro forma adjustments and transaction assumptions

The following key assumptions have been made in producing the Pro Forma Financial Information:

General

The pro forma financial information has been prepared using the Australian Accounting Standards and reflects the accounting policies of iCollege. It has not been audited. Amounts presented have been rounded.

The pro forma financial information has been prepared by aggregating the financial information of iCollege and Redhill Education as at and for the six-month period ended 31 December 2020. This financial information has been extracted from the reviewed financial information published by both iCollege and Redhill Education.

The pro forma financial information excludes the impact of general trading and other transactions which have occurred since 31 December 2020.

Redhill Education acquisition

Financial information about Redhill Education has been obtained from publicly available sources.

The Pro Forma Financial Information assumes the acquisition of Redhill Education by iCollege had been completed by that date. The actual date of the acquisition will be at a date to be determined and subject to the completion of this transaction.

AASB 3 'Business Combinations' states that the acquirer shall, at the acquisition date, allocate the cost of a business combination by recognising the acquirer's identifiable assets, liabilities and contingent liabilities that satisfy the recognition criteria at their fair values at that date. Accordingly, iCollege will assess the fair value of identifiable net assets of Redhill Education on completion of the acquisition.

The calculation of purchase consideration payable by iCollege is calculated by applying the closing price of iCollege's shares on the trading day immediately before the Announcement Date, and then applying this to the per share offer for each Redhill Education share

The Pro Forma Balance Sheet is based on the assumption that the fair value of assets (other than intangible assets) and liabilities of Redhill Education are equal to their book value. A full purchase price allocation exercise will be undertaken post acquisition, and the fair value of the assets will be more accurately assessed at that time. This will not impact on the valuation of the business, but may impact the classification between tangible assets, identifiable intangible assets and goodwill.

Identifiable intangible assets recognised on acquisition may need to be amortised over the period of their economic benefit to the Combined Entity and those amortisation charges will reduce future reported earnings. Due to limited public information available on Redhill Education, it is not possible for iCollege to identify all of the intangible assets and consequent amortisation charges at this stage.

For fair value accounting purposes, each iCollege Share issued under the Offer is assumed to have an issue price of \$0.165 (being the closing price of iCollege Shares on ASX on the trading day immediately before the Announcement Date). The actual fair value of iCollege Shares to be issued under the Offer is determined by the market price of iCollege Shares at the actual date of acquisition of Redhill Education.

The accounting policies of iCollege and Redhill Education are similar and consistent in all material aspects.

6.6 Prospective financial information of the Combined Entity

iCollege has given careful consideration as to whether a reasonable basis exists to produce reliable and meaningful forecast financial information on the Combined Entity. The Board has concluded that providing forecast financial information would potentially be misleading. A reasonable basis does not exist for producing forecasts that would be sufficiently meaningful and reliable, particularly considering the effect that variations in key inputs may have on future earnings performance.

7 iCollege's intentions

7.1 Limitations and further review

- (a) This section sets out iCollege's current intentions for:
 - (i) the continuation of Redhill Education's business;
 - (ii) any major changes to be made to Redhill Education's business, including the redeployment of the fixed assets of Redhill Education; and
 - (iii) the future employment of the present employees of Redhill Education.
- (b) iCollege's current intentions for Redhill Education have been formed following a review of information about Redhill Education that was publicly available at the date of this Bidder's Statement. iCollege has not had the opportunity to conduct due diligence on Redhill Education. That review of public information by iCollege did not provide iCollege with sufficient information necessary to finally determine its intentions for Redhill Education. As such, statements set out in this section are statements of current intention only which may change as new information becomes available or circumstances change.
- (c) Following the close of the Offer, it is iCollege's intention to undertake a further detailed review of the operations, assets and employees of Redhill Education. The objective of the detailed review will be to:
 - (i) evaluate the performance, prospects and strategic relevance of the Redhill Education business to iCollege;
 - (ii) develop a strategy to effectively integrate Redhill Education's business with iCollege's business;
 - (iii) identify opportunities to increase revenue at Redhill Education and improve wage efficiency; and
 - (iv) assess opportunities to reduce costs associated with Redhill Education's current operations by merging the head office operations of iCollege and Redhill Education.

This review may result in iCollege proposing changes to some of Redhill Education's existing operations.

Only upon completion of the detailed review and considering all material facts and circumstances will iCollege finally determine its intentions for Redhill Education and will take the action it considers desirable to achieve optimum integration and synergies.

7.2 Intentions upon acquisition of 90 percent or more of Redhill Education shares

This section sets out iCollege's current intentions if, by virtue of acceptance of the Offer, iCollege obtains a Relevant Interest in 90 percent or more of the Redhill Education Shares and is entitled to proceed to compulsory acquisition of the outstanding Redhill Education Shares.

Compulsory acquisition

If it becomes entitled to do so, iCollege intends to give notices to compulsorily acquire any outstanding Redhill Education Shares under section 661B Corporations Act and elect to acquire Redhill Education Shares issued as a result of exercise of the Redhill Education Rights:

- (a) after the end of the Offer Period and before the compulsory acquisition notice; and
- (b) within six weeks after the compulsory acquisition notice is given, in each case subject to satisfaction of the relevant statutory conditions.

In certain circumstances, iCollege may be required to buy out the holders of Redhill Education Rights. iCollege will comply with the statutory obligation in that regard.

Amend Redhill Education constitution

iCollege intends to amend the constitution of Redhill Education to reflect its status as a wholly owned subsidiary of iCollege and will seek to convert Redhill Education from a public company to a proprietary company.

ASX listing

After conclusion of the compulsory acquisition process, iCollege intends to procure that Redhill Education be removed from the official list of ASX.

Directors

Subject to the Corporations Act and Redhill Education's constitution, iCollege will seek to reconstitute the combined Board with nominees of the iCollege and Redhill Education. There has been no pre-emptive determination or recommendation as to the preferred constitution of the board of directors for the combined entity. iCollege has not made any decision as to who would be nominated for appointment to the Redhill Education board should iCollege obtain a majority shareholding in Redhill Education. Once appointed the newly constituted board will make formal recommendations regarding the appointment of the executive team.

Operations

iCollege intends to conduct a thorough and broad-based general review of Redhill Education's corporate structure, assets, businesses, personnel and operations. This review will be conducted in concert with the Redhill Education executive team to best utilise their deep knowledge of the existing operations.

This review will build on the due diligence iCollege has undertaken to date and be completed as expeditiously as possible. Whilst iCollege does not have any specific intentions in relation to this review or its outcomes, its current expectation is that the review will focus on identifying opportunities in relation to:

- resource consolidation and integration of management operating systems and platforms, administrative procedures, systems and reporting lines. The aim is to bring these integral functions of the business into line with best practices and to optimise operating costs;
- potential cost synergies, including overhead costs, compliance costs, insurances, IT expenses, professional advisory fees and other synergistic operational costs;
- external commercial relationships with service providers; and
- optimising the use and value of Redhill Education campuses and other property interests.

This review will apply quantitative and qualitative factors to measure performance and areas for improvement. Following this review, the intentions described in this section 7 may be confirmed, developed, or reconsidered. Accordingly, the specific intentions that have been formed are conditional upon the outcome of more complete investigations to be undertaken after iCollege acquires all the Redhill Education Shares.

Employees

The acquisition of Redhill Education by iCollege will provide Redhill Education employees an opportunity to be a part of a larger Combined Entity, which has a strong commitment to developing its employees and employee engagement.

With the benefit of its detailed review, iCollege will consider the best allocation of Redhill Education employees to continuing and new roles. iCollege expects to expend significant time in attempting to ensure that Redhill Education employees either maintain their existing job role or that a suitable alternative is provided.

iCollege also expects that there will be overlap in administrative and corporate functions, including head office positions at Redhill Education that will have diminished responsibility. For example, certain head office positions associated with Redhill Education's financial management or its ASX listing will likely be no longer required if iCollege acquires 100% of Redhill Education.

iCollege would aim to identify suitable alternative roles for Redhill Education employees in business areas that are significantly adversely affected by any integration. Where this is not feasible or the employee does not wish to accept an alternative role, those individuals would receive redundancy payments and other benefits in accordance with their legal and contractual entitlements.

7.3 Intentions upon acquisition of between 50.1 percent and 90 percent of Redhill Education shares

This section sets out iCollege's current intentions if, by virtue of acceptance of the Offer, it was to gain effective control of Redhill Education but was not entitled to proceed to compulsory acquisition of the outstanding Redhill Education Shares.

Compulsory acquisition

If iCollege does not become entitled to compulsorily acquire Redhill Education Shares under section 661B Corporations Act, it may nevertheless become entitled to exercise the general compulsory acquisition power under part 6A.2 Corporations Act in the future. iCollege intends to exercise that power if it becomes entitled to do so. This could occur, for example, if iCollege acquired further Redhill Education Shares in reliance on the 3% creep exception provided in item 9 of section 611 Corporations Act.

ASX listing

If iCollege gains a controlling interest of 50% or greater of the Redhill Education Shares, iCollege intends to explore and to procure, subject to Redhill Education's compliance with the ASX Listing Rules and guidance, particularly ASX guidance note 33, that Redhill Education apply for removal from the official list of the ASX.

ASX's guidance states, among other things, that it may accept an application from Redhill Education to be removed from the official list of the ASX without any need for Redhill Education Shareholder approval if at the end of the Offer Period, iCollege owns or controls at least 75% of the Shares of Redhill Education and the Offer has remained open for at least two weeks after iCollege attained ownership or control of at least 75% of the Redhill Education Shares, and fewer than 150 Redhill Education Shareholders (other than iCollege) have holdings with a value of at least \$500.

In addition, subject to the ASX listing rules and guidance, iCollege may decide to cause Redhill Education to apply for delisting after the date that is 12 months after the close of the Offer Period.

Directors

If, following the close of the Offer, iCollege is the majority shareholder in Redhill Education, it will (subject to formal requirements of the Corporations Act and Redhill Education's constitution) seek to procure the appointment of a majority of iCollege nominees to the Redhill Education Board so that the proportion of iCollege nominee directors is broadly in line with

iCollege's voting power in Redhill Education. This would likely involve the removal of some of the existing directors of Redhill Education to ensure that director fees of the Redhill Education Board remain reasonable having regard to the financial capacity of the entity. iCollege would determine which directors it would invite to resign, based on the iCollege nominees to be appointed and having regard to maintaining an appropriate mix of skills on the Redhill Education Board. The identity of such nominee directors has not yet been determined, but nominees would likely be drawn from the existing iCollege board of directors particularly those identified in Section 7.2. Such nominees will be directed to ensure that they comply with their fiduciary duties and obligations as directors of Redhill Education.

Intentions generally (including about matters at section 7.2 above)

If, following the close of the Offer, Redhill Education becomes a controlled entity but not a wholly owned subsidiary of iCollege, it is the present intention of iCollege to procure that the new Redhill Education Board implements the objectives and goals outlined in section 7.2 to the extent possible and appropriate.

Limitations on intentions

To the extent that Redhill Education is not a wholly owned subsidiary of iCollege and there are minority shareholders of Redhill Education, iCollege intends to ensure that the iCollege nominees appointed to the board of Redhill Education will act at all times in accordance with their fiduciary duties and that all requisite shareholder approvals and other legal requirements are complied with in pursuing any of the intentions outlined above.

The requirement to have regard to those fiduciary duties in the context of a partly owned company and the possible requirements of minority shareholder approval may prevent this objective being achieved.

Dividend

iCollege will review the dividend policy of Redhill Education having regard to any capital funding and ongoing operational requirements of Redhill Education on the one hand and the appropriateness of paying dividends to Redhill Education Shareholders on the other.

8 Risks

Before deciding whether to accept the Offer, you should read this Bidder's Statement carefully.

Redhill Education Shareholders will receive iCollege Shares as consideration under the Offer. The value of iCollege Shares will depend on the future performance of iCollege and the market price of iCollege Shares from time to time. The future performance of iCollege may be influenced by factors associated with investing in the education industry and listed securities generally which are beyond the control of iCollege.

Redhill Education Shareholders should be aware of the following key risks that may affect the performance of the Combined Entity and the value of iCollege Shares issued under the Offer.

8.1 General risks

The price at which iCollege Shares trade on ASX may be determined by a range of factors including movements in local and international equity and bond markets, general investor sentiment in those markets, inflation, interest rates, general economic conditions and outlooks and changes in the supply of, and demand for, education industry services.

The market for iCollege Shares may also be affected by a wide variety of events and factors including changes in iCollege's operating results, recommendations by securities analysts, and the operating and trading price performance of other listed education industry entities that investors consider to be comparable to iCollege. Some of these factors could affect iCollege's share price regardless of iCollege's underlying operating performance.

8.2 Specific business risks associated with iCollege

Set out below are examples of risks associated with iCollege. In determining these risks, the Directors have concentrated on risks attaching specifically or more acutely to an investment in iCollege as compared to risks of the education industry and Redhill Education, to which Redhill Education Shareholders are already exposed.

(a) Reputational risk

iCollege has the reputation of providing high quality education services. This reputation is a key driver in ensuring that iCollege maintains the enrolment rates and earnings. There is a risk that an isolated incident, either within one of the subsidiary businesses or an action taken by a single staff member may have a material adverse impact on the reputation of iCollege and the profitability of iCollege's business.

(b) Key personnel risk

iCollege's business model depends on a management team with the talent and experience to manage iCollege's diverse business operations. The ongoing success of iCollege also depends on its ability to identify and retain high quality management, trainers and administrative personnel who, with the assistance of iCollege's leadership team, execute the strategies of iCollege.

There is a risk that operating and financial performance would be adversely affected by the loss of key personnel.

(c) Compliance and regulatory risk

iCollege holds funding contracts in various states that contribute significantly to the group's revenues and should there be any compliance breaches, these funding contracts may be suspended or cancelled indefinitely. This will have a material adverse impact on the group's revenue. Future changes to funding policies and legislation that iCollege cannot ensure compliance with may also adversely affect financial performance of the company.

The education industry in Australia within which iCollege operates is currently regulated by Australian Skills Quality Authority (ASQA). iCollege holds registrations

and accreditations for four registered training organisations within Australia. Changes to regulations and legislation in the future or failure to renew or cancellation of registrations may have a material adverse impact on iCollege's financial performance.

(d) Competition risk

iCollege competes in various states with multiple Registered Training Organisations (RTOs) and there are two main risks facing the group:

(i) Loss of enrolments

iCollege has a price point for the various courses that allows the group to remain competitive in the international and domestic education sectors. Competing RTOs may lower their prices or offer additional incentives to encourage students to enrol with them. Whilst the damage this will do the RTOs financially in the medium to long term cannot be easily quantified, iCollege faces a risk of lower enrolments in the short to medium term leading to a fall in the group's revenues.

(ii) Loss of staff

With the number of RTOs now taking advantage of the various Government stimulus programs across the country, there is an ongoing risk that high quality trainers may be lured away to other competing RTOs with better remuneration.

The occurrence of either or both events could have a material adverse impact on iCollege's operations and profitability.

(e) Risk associated with COVID-19 pandemic

The unprecedented global COVID-19 pandemic has led to closures of international borders. This has resulted in a drop in international student enrolments. There is a risk of future similar pandemics that leaves every RTO vulnerable to a similar situation in terms of border closures and a significant drop in international student revenues. iCollege, whilst only 46% reliant on the international student market, now recognises this type of event as an ongoing risk.

With continued uncertainty around the impact of COVID-19, including extended periods of lock down, international travel bans and domestic travel restrictions, disruptive and varying quarantine measures, social distancing and restrictions around venue capacity, iCollege recognises that the COVID-19 pandemic, and other such similar events have the potential to have a material adverse impact on iCollege's operations and financial performance.

In addition, the ongoing economic downturn risk associated with countries which have historically been the source of significant international students to Australia and the protracted financial recovery of the global economy generally due to the financial impact of COVID-19 could adversely affect the ability of international students to fund travel and education in Australia.

(f) Immigration risk

Changes to immigration policies driven by the Department of Home Affairs in relation to student visas could result in a reduction in the number of international students to Australia. This could have a direct impact on the number of enrolments of international students for iCollege, which could in turn have a material adverse impact on iCollege's operations and financial performance.

(g) Third-party agents

iCollege's international student business relies on a network of third-party agents and other suitably qualified businesses to provide student recruitment services. Most of these relationships are non-exclusive and can be re-negotiated or terminated at short notice. Some of these providers collect tuition fees on behalf of iCollege and are obliged to pay in arrears or adjust deducting commission fees payable to them. There

is a risk that one or more of these third parties fails to comply with negotiated obligations and payment terms, seeks to re-negotiate or terminate its agreement with iCollege or does not provide a level of service consistent with that expected and required by iCollege. The occurrence of any one or more of these events could adversely impact the brand, business strategy and future financial position and performance.

(h) **Compliance with workplace legislation**

The employment arrangements for most of iCollege's employees falls within the jurisdiction of the Fair Work Act 2009 (Cth), and the Educational Services (Post-Secondary Education) Award 2020. Future changes to workplace legislation, or any possible contraventions of workplace legislation, by iCollege could have a material and adverse impact on iCollege's financial position and performance.

(i) **Impairment of intangible assets**

iCollege's intangible assets consist of goodwill and right of use assets. At the end of each financial year, intangible assets are tested for impairment. There is a risk that adverse change in market or operating conditions could require an impairment charge which could have a material adverse impact on the financial position of the company.

(j) **Reliance on third party technology platforms and software**

iCollege uses the services of several of third-party technology providers for data management, course management and delivery of services. There is a risk that these technology providers could have faults, technical difficulties and temporary or permanent disruptions to services which could result in operational challenges for iCollege, which could in turn have a material adverse impact on the operational and financial performance of the company.

(k) **Privacy of personal information and internal data management of students and staff**

iCollege collects and stores data of students, staff and third party agents required to conduct its operations.

This information includes and is not limited to personal information, identity documents, financial and banking information.

There is a risk that iCollege could be exposed to cyber-attacks, loss of data or unauthorised access of this information which could in turn lead to legal action against iCollege. The occurrence of any such event could result in iCollege suffering reputational damage, which could have a material adverse impact on the financial position of the company.

(l) **Leasing arrangements of campuses and offices**

iCollege currently does not own any of the premises from which it operates. iCollege has entered several commercial leases across Australia to conduct its operations. There is a risk that at the end of the term of any of these leases, iCollege may not be able to retain premises or access new tenancies on favourable terms. The occurrence of any of these events could have a material adverse impact on the operations and financial position of the company.

8.3 Industry risks

The Directors note that iCollege is subject to the same risks as Redhill Education in relation to the operation of an education business including:

- (a) changes to law and government policy regulating the education industry;
- (b) changes to government policy regarding immigration or student visa requirements

- (c) changes to government funding to the education sector in Australia;
- (d) changes to the demographic structure of the Australian population;
- (e) sourcing high quality staff;
- (f) lease arrangements;
- (g) employee misconduct;
- (h) competition; and
- (i) regulatory and accreditation risk.

8.4 **Transaction specific risks**

(a) **Issue of iCollege Shares as Offer consideration**

Redhill Education Shareholders are being offered iCollege Shares as consideration under the Offer. As a result, the value of the Offer will fluctuate depending upon the market price of iCollege Shares. The market price of the iCollege Shares at the time you receive them may vary significantly from their market price on the date of your acceptance of the Offer. The price and value of the iCollege Shares can be expected to fluctuate depending on various factors including general worldwide economic conditions, changes in government policies, investor perceptions, movements in interest rates and stock markets and variations in operating costs.

Furthermore, some of the Redhill Education Shareholders that receive iCollege Shares as consideration under the Offer may not intend to continue to hold those iCollege Shares and may sell them on the ASX. There is a risk that if a significant number of Redhill Education Shareholders seek to sell their iCollege Shares, this may adversely impact the price of iCollege Shares, at least in the short term.

(b) **Integration risk**

There are risks that any integration of iCollege and Redhill Education may take longer than expected and that anticipated efficiencies and benefits of that integration may be less than estimated. These risks include possible differences in the management culture of the two groups and inability to achieve synergy benefits and cost savings and the potential loss of key personnel.

While iCollege expects that value will be added through the Offer, there is a risk that the full benefits may be achieved only in part or not at all.

(c) **Less than 100 percent ownership**

It is possible that iCollege may not acquire all Redhill Education Shares under the Offer. The impact upon iCollege of acquiring less than 100 percent will depend upon the final level of ownership acquired. However, the existence of minority shareholders in Redhill Education could have an impact on iCollege's intentions regarding Redhill Education (refer to Section 7).

(d) **Assumed financial information for Redhill Education**

There is a risk that the publicly available financial information provided by Redhill Education and utilised by iCollege in formulating the Offer and preparing this Bidder's Statement is not correct in all material particulars.

(e) **Regulatory risks**

The Offer is subject to the statutory condition in section 625(3) Corporations Act regarding quotation of the iCollege Shares (which cannot be waived).

iCollege may be required to seek regulatory approval from various regulators, including and not limited to ASQA, TEQSA and the Department of Education for change of control of all of Redhill Education businesses. There is a risk that the relevant regulator may not provide the requisite approval in a timely manner, or at all. Any such delay or refusal could have a material adverse impact on iCollege's operations and financial performance.

(f) **Reporting risks**

iCollege has assumed that Redhill Education has met all its reporting obligations and that disclosures made by it are true in all material respects and are not misleading in any material respects.

9 Sources of Offer Price

9.1 Offer price

The consideration for the acquisition of Redhill Education Shares under the Offer is to be satisfied by the issue of iCollege Shares.

The number of iCollege Shares to be issued under the offer will depend on the number of Redhill Education Shares that iCollege acquires under the Offer.

9.2 Maximum number of iCollege shares

The maximum number of iCollege Shares required to be issued under the Offer if acceptances are received for all the Redhill Education Shares on issue at the date of this Bidder's Statement not already owned by iCollege is approximately 386,971,399(excluding rounding adjustments).

iCollege Shares issued under the Offer are exempt from ASX Listing Rule 7.1 (which prohibits issues of equity securities exceeding 15 percent of a company's share capital in any 12-month period). Accordingly, iCollege has the capacity to issue the maximum number of iCollege Shares that may need to be issued under the Offer.

10 Taxation Considerations

10.1 Introduction

The following is a summary of the potential Australian income tax consequences generally applicable to a Redhill Education Shareholder who disposes of Redhill Education Shares under the Offer. This summary is based on the law and practice in effect on the date of this Bidder's Statement.

The following summary is not intended to be an authoritative or complete statement of the tax law applicable to the specific circumstances of every Redhill Education Shareholder.

In particular the summary is only applicable to Redhill Education Shareholders that are Australian residents for income tax purposes and hold their Redhill Education Shares on capital account for income tax purposes. This summary does not apply to Redhill Education Shareholders that hold their Redhill Education Shares in the course of a business of trading or dealing in securities. The summary does not apply to Redhill Education Shareholders who acquired their Redhill Education Shares as part of an employee share scheme operated by Redhill Education.

All Redhill Education Shareholders are advised to seek independent professional advice about their particular circumstances and non-resident Redhill Education Shareholders should seek their own advice on the Australian and foreign taxation consequences of any sale of their Redhill Education Shares.

10.2 CGT consequences on the disposal of Redhill Education shares

A Redhill Education Shareholder that accepts the Offer and whose Redhill Education Shares are subsequently transferred to iCollege is taken to have disposed of their Redhill Education Shares for Australian capital gains tax (**CGT**) purposes. Shareholders make a capital gain equal to the amount by which the Offer consideration exceeds the cost base that the Redhill Education Shareholder has for the Redhill Education Shares. The taxpayer may be able to apply capital losses (if available) to reduce the gross capital gain. Subject to the availability of the CGT discount (see below), this capital gain may then be reduced by applicable discount percentage to calculate the taxpayer's net capital gain. A taxpayer's net capital gain is included in assessable income.

A Redhill Education Shareholder will alternatively make a capital loss equal to the amount by which the reduced cost base of the Redhill Education Shares exceeds the Offer consideration. A capital loss may be used to offset a capital gain made in the same income year or be carried forward to offset a capital gain made in a future income year, subject to the satisfaction of certain loss recoupment tests applicable to companies and trusts.

The cost base of Redhill Education Shares would generally be equal to the amount the relevant shareholder paid to acquire the Redhill Education Shares, plus certain incidental costs of the acquisition (such as brokerage), and certain other costs of ownership.

10.3 CGT discount

Any Redhill Education Shareholder who is an individual, the trustee of a complying superannuation fund or a beneficiary of a trust who is either of the aforementioned entities (and is presently entitled to the capital gain) may be entitled to claim the CGT discount in calculating any net capital gain, provided that:

- (a) the Redhill Education Shares were acquired at least 12 months before disposal to iCollege;
- (b) the Redhill Education Shareholder did not choose to index the cost base of their Redhill Education Shares; and
- (c) the CGT discount is applied to the capital gain after any available capital losses are first applied against the gross capital gain.

The CGT discount allows a Redhill Education Shareholder who is an individual or the trustee of a trust to discount the capital gain by 50 percent and include 50 percent of the capital gain in the taxable income of that individual or trust.

A Redhill Education Shareholder that is a complying superannuation entity may discount the capital gain by 33.3333 percent and include 66.6667 percent of the capital gain in the taxable income of that complying superannuation entity.

The CGT discount is not available to any Redhill Education Shareholder that is a company.

10.4 CGT Rollover

Where iCollege acquires 80% of the Redhill Education Shares on issue (**80% threshold**), a Redhill Education Shareholder may be eligible to choose for CGT rollover relief to apply to their disposal of Redhill Education Shares under the scrip for scrip rules so that any CGT payable on the disposal is deferred. Whether the rollover is available depends on the individual circumstances of each Redhill Education Shareholder. Also, if iCollege does not meet the 80% threshold as a result of the Offer and acquires your Redhill Education Shares, the rollover relief will not be available.

If a Redhill Education Shareholder is eligible and chooses to apply the scrip for scrip rules, iCollege Shares received by the Redhill Education Shareholder should have a cost base equal to the cost base of the original Redhill Education Shares. The cost base will be relevant in determining any future CGT liability on the subsequent disposal of the iCollege Shares.

In certain circumstances, it may be necessary for iCollege to make a joint election with Redhill Education Shareholders in order for CGT rollover relief to apply. To the extent a joint election is necessary for rollover relief to apply then, at the request of the Redhill Education Shareholder and provided the Redhill Education Shareholder has informed iCollege in writing of the cost base of their Redhill Education Shares, iCollege will make the joint election.

Also, iCollege will not make any choice or election under the CGT rollover provisions to prevent Redhill Education Shareholders from obtaining CGT rollover relief.

10.5 Stamp duty and GST

Redhill Education Shareholders who dispose of their Redhill Education Shares under the Offer are not expected to incur any Australian stamp duty or be subject to GST on that disposal.

10.6 Obtain your own taxation advice

Do not rely on the comments or the statements contained in this Bidder's Statement as advice about your own affairs. The taxation laws are complex and there could be implications in addition to those generally described in this Bidder's Statement.

Accordingly, consult your own tax advisers for advice applicable to your individual needs and circumstances. To the extent permitted by law, iCollege does not accept any responsibility for tax implications for individual Redhill Education Shareholders.

iCollege is not a registered tax agent under the *Tax Agent Services Act 2009* (Cth) and cannot provide tax advice to specific Redhill Education Shareholders. Redhill Education Shareholders should obtain tax advice from a registered tax agent on the consequences of accepting the Offer.

11 Additional information

11.1 iCollege is a disclosing entity

As iCollege is offering iCollege Shares as consideration for the acquisition of Redhill Education Shares, the Corporations Act requires that this Bidder's Statement includes all information that would be required for a prospectus for an offer of iCollege Shares under sections 710 to 713 of the Corporations Act. iCollege does not need to issue a separate prospectus for the offer of the iCollege Shares.

iCollege is a disclosing entity (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act that is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, iCollege is required to continuously disclose to the market any information it has which a reasonable person would expect to have a material effect on the price or the value of iCollege Shares.

iCollege Shares have been quoted on ASX during the 12 months before the date of this Bidder's Statement. For this reason, iCollege is only required to disclose information in this Bidder's Statement that would usually be required where its shares have been continuously quoted securities.

In general terms, where iCollege Shares are continuously quoted securities, the Bidder's Statement is only required to contain information on the effect of the Offer on iCollege and the rights and liabilities attached to the iCollege Shares. It is not necessary to include general information on all of the assets and liabilities, financial position and performance, profits and losses or prospects of the issuing company unless that information has been excluded from a continuous disclosure notice in accordance with the Listing Rules and it is information that investors and their professional advisers would reasonably require for the purpose of making an informed assessment of those matters and the rights and liabilities attaching to the iCollege Shares.

Information that is already in the public domain is not reported in this Bidder's Statement other than that which is considered necessary to make this Bidder's Statement complete. iCollege, as a disclosing entity under the Corporations Act, states that:

- (a) it is subject to regular reporting and disclosure obligations.
- (b) copies of documents lodged with ASIC on iCollege (not being documents referred to in section 1274(2)(a) Corporations Act) may be obtained from, or inspected at, an ASIC office; and
- (c) it will provide a copy of each of the following documents, free of charge, to any person on request during the Offer Period:
 - (i) the financial statements of iCollege for the 12 months ended 30 June 2020 (being the annual financial report most recently lodged by iCollege with ASIC);
 - (ii) the half-year financial report lodged for the six months ended 31 December 2020 lodged with ASIC by iCollege; and
 - (iii) all continuous disclosure notices given by iCollege after the lodgement of that annual financial report with ASIC and before the lodgement of this Bidder's Statement with ASIC.

If you would like to receive a copy of any of these documents or publications, please contact Registry Services.

Copies of all documents lodged with ASIC in relation to iCollege can be inspected at the registered office of iCollege during normal office hours. A list of announcements made by iCollege on ASX since the FY 2020 annual report up to the date of this Bidder's Statement appears in Schedule 2.

Other than information contained in this Bidder's Statement, there is no information which has been excluded from a continuous disclosure notice in accordance with the Listing Rules and is information that a Redhill Education Shareholder or a professional adviser to a Redhill Education Shareholder would reasonably require for the purposes of making an informed assessment of:

- (a) the assets and liabilities, financial position and performance, profits and losses and prospects of iCollege; or
- (b) the rights and liabilities attaching to the iCollege Shares.

None of the information referred to in this section 11.1 is incorporated by reference into this Bidder's Statement or is included with this Bidder's Statement.

11.2 iCollege capital structure

The total number of iCollege Shares on issue is 581,564,649 ordinary shares.

The effect of this Offer on iCollege's capital structure is set out in section 6.3.

11.3 Rights and liabilities attaching to iCollege shares

The rights and liabilities attaching to ownership of the iCollege Shares arise from a combination of iCollege's constitution, statute, the Listing Rules and general law.

A summary of the significant rights and liabilities attaching to iCollege Shares is set out below. This summary is not exhaustive, nor does it constitute a definitive statement of the rights and liabilities of iCollege Shareholders.

Voting at a general meeting

Subject to any shares which may in the future be issued with special or preferential rights, every member present in person at a general meeting of iCollege or by proxy, representative or attorney has one vote on a show of hands and, on a poll, one vote for each fully paid iCollege Share held. On a poll, partly paid shares confer a fraction of a vote in proportion to the amount paid up on the share.

Meeting of members

Each iCollege Shareholder is entitled to receive notice of, attend and vote at meetings of iCollege and to receive all notices, accounts and other documents required to be sent to iCollege Shareholders under iCollege's constitution, the Corporations Act and the Listing Rules.

Dividends

The Directors may authorise the payment to members of dividends that appear to the Directors to be justified by the profits of iCollege. Dividends are payable on all iCollege Shares in proportion to the amount of the total issue price paid and payable (but not credited) for the iCollege Shares. This is subject to any special or preferential rights attached to any class of shares created after the issue of the iCollege Shares.

Transfer of iCollege Shares

iCollege Shares may be transferred by a proper transfer effected under the ASX Settlement Operating Rules, or by a written instrument of transfer in any usual form or in any other form approved by the Directors.

The Directors may only decline to register a transfer of iCollege Shares (other than a proper transfer under the ASX Settlement Operating Rules) where permitted or required to do so under the Listing Rules.

Issue of further iCollege Shares

The Directors may allot, issue, grant options in respect of, or otherwise dispose of, further shares in iCollege on terms as they see fit. However, the Directors must act in accordance with the restrictions imposed by iCollege's constitution, the Corporations Act, the Listing Rules and any rights for the time being attached to the shares in any special class of those shares.

Winding-up

If iCollege is wound up, then, subject to any special rights attaching to any class of shares, iCollege Shareholders will be entitled to participate in any surplus assets of iCollege in proportion to the amount paid up (or which ought to have been paid up) on their iCollege Shares when the winding-up begins.

Unmarketable parcels

Subject to the Corporations Act, Listing Rules and ASX Settlement Operating Rules, iCollege may sell existing unmarketable parcels of shares in accordance with the procedure in the constitution.

Share buy-back

Subject to the provisions of the Corporations Act and the Listing Rules, iCollege may buy back iCollege Shares.

Variation of class rights

Unless otherwise provided by iCollege's constitution or by the terms of issue of a class of shares and subject to the Corporations Act, the rights attaching to any class of shares may be varied or abrogated:

- (a) with the consent in writing of the holders of three-quarters of the issued shares included in that class; or
- (b) with the sanction of a special resolution passed at a separate meeting of the holders of those shares.

Dividend reinvestment plan and bonus share plan

iCollege's constitution authorises the Directors to establish and maintain dividend reinvestment plans (whereby any member may elect that dividends payable by iCollege be reinvested by way of subscription for shares in iCollege).

Indemnities

To the extent permitted by law, iCollege indemnifies every officer of iCollege against a liability incurred by the person acting in that capacity. In addition, every officer is indemnified against any legal costs incurred in defending any civil or criminal proceedings to the extent permitted by the Corporations Act.

Alteration of iCollege's constitution

iCollege's constitution can only be amended by special resolution passed by at least 75 percent of iCollege Shareholders present and voting at a general meeting of iCollege. iCollege must give at least 28 days written notice of its intention to propose a resolution as a special resolution.

1 Offer

- 1.1 iCollege offers, to acquire all of your Redhill Education Shares, together with all the Rights attaching to them on the terms set out in this Schedule 1. This Offer extends to any person who is able during the Offer Period to give good title to Redhill Education Shares and has not already accepted an Offer for those Redhill Education Shares.
- 1.2 This Offer extends to all Redhill Education Shares that:
- (a) exist at the Register Date; and
 - (b) are issued and for which quotation is sought at any time during the Offer Period as a result of the exercise of the Redhill Education Options and Redhill Education Rights.

- 1.4 iCollege Shares issued under this Offer will rank equally in all respects with iCollege Shares on issue at the Register Date.
- 1.5 This Offer is dated 15 April 2021.

2 Offer price

- 2.1 Subject to clause 2.2 of this Schedule 1, the price under the Offer Price is 7.6 iCollege Shares for every 1 Redhill Education Share you own.

If you are entitled to a fraction of a cent, that fraction is rounded to the nearest cent on the same basis. - e. if it purchases a legal and beneficial interest or beneficial interest in additional Target Shares, it must notify the Facility Agent in writing, (as set out in paragraph a above) (**Acquisition Notice**) within 24 hours of the additional number of Target Shares acquired and how those Target Shares are registered and by doing so acknowledges that those additional Target Shares are subject to the Acceptance Instructions; and
 - f. it will give the Facility Agent written notice in accordance with paragraph a above revoking the Acceptance Instructions if the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) either:
 - iv. intends to dispose of, encumber or otherwise create any third party interest whatsoever in respect of any of the Target Shares or, where the Target Shares are held by a custodian, the custodian is changed or the Beneficial Holder becomes registered as the holder of the Target Shares; or
 - v. intends, wishes or decides to withdraw any of its Acceptance Instructions.
9. The Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) warrants and acknowledges to the Facility Agent both at the time the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) delivers the Acceptance Form and/or Custodian Direction in respect of its Target Shares to the Facility Agent and at the time when the Facility Agent delivers those documents to the relevant person in accordance with these Terms, that:
- a. it has read and understood these Terms;
 - b. these Terms apply as between the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) and the Facility Agent, not the Bidder;
 - c. any contract formed on the Eligible Institutional Target Shareholder's or Beneficial Holder's (as applicable) acceptance of the Offer is between it and the Bidder, not the Facility Agent;
 - d. the Facility Agent has not provided any investment, financial advice or other advice, or has any obligation to provide such advice, concerning the Eligible Institutional Target Shareholder's or Beneficial Holder's (as applicable) decision to participate in the Institutional Acceptance Facility and has no obligation to provide such advice; and
 - e. these Terms and the Institutional Acceptance Facility are governed by the laws in force in Australia.
10. The Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) acknowledges, and by accepting the Acceptance Form and/or Custodian Direction, the Facility Agent agrees, that the Facility Agent does not have any duties, obligations, rights or powers in relation to the Target Shares or the bare trust referred to in these Terms other than as expressly set out in these Terms and that nothing in the arrangement described in these Terms creates in the Facility Agent a *relevant interest* (as defined in the Corporations Act), or legal or equitable interest (including any proprietary interest), or association or fiduciary relationship between the Facility Agent and the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) in, or in relation to, any of the Target Shares which are the subject of the Acceptance Form and/or Custodian Direction held by the Facility Agent. To the fullest extent permitted by law, the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) agrees that the Facility Agent shall not have any liability to the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) for any claim, demand, loss, cost, expense, liability or action (**Loss**) arising directly or indirectly from or relating to the Eligible Institutional Target Shareholders' or Beneficial Holder's (as applicable) participation in the Institutional Acceptance Facility or the actions of the Facility Agent with respect to the Institutional Acceptance Facility (including Losses as a result of the Facility Agent's negligence or default).

11. The Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) further acknowledges that it is only the Acceptance Instructions and the rights and obligations conferred under these Terms which the Facility Agent holds as acceptance collection agent and bare trustee, and that the Facility Agent has, and will have, no interest whatsoever (including as trustee, legal, equitable or otherwise) in the Target Shares to which the Acceptance Instructions relate, or the rights attaching to them.
12. The Facility Agent does not accept and the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) releases the Facility Agent from any responsibility in relation to its appointment as Facility Agent including for ensuring that the Confirmation Letter from the Bidder is delivered, that it is delivered in time to effect acceptance of the Offer in respect of Target Shares, or for investigating the authorisation of the Bidder's authorised officer who signs any Confirmation Letter. The Facility Agent is entitled to rely on a Confirmation Letter and any information and reconciliations from either the Bidder or the Registry as conclusive evidence of the number of Target Shares in the Institutional Acceptance Facility and the Facility Agent does not accept, and the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) releases the Facility Agent from, any liability whatsoever should there be any discrepancies in calculation or reconciliation as a result of such reliance or otherwise.
13. The Facility Agent and its related bodies corporate, subsidiaries, branches and affiliates (**Facility Agent Group Group**):
 - a. do not accept and the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) releases the Facility Agent Group from any responsibility if there is any defect in the completion, execution or implementation of the Acceptance Form or Custodian Direction by the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) or by the custodian, which would render the Acceptance Form or the Custodian Direction (or any Acceptance Form provided by the Custodian in relation to the Target Shares) ineligible for acceptance;
 - b. do not represent or warrant that the Bidder will provide the Confirmation Letter once a particular level of acceptances under the Offer is achieved;
 - c. will rely on the representations and warranties in paragraph 8 of these Terms including when informing the Bidder of the number of Target Shares which are the subject of Acceptance Forms held by the Facility Agent; and
 - d. are not providing advice or making any recommendation in relation to the Institutional Acceptance Facility or the Offer.
14. The Appointment Letter and enclosures should be provided to the Facility Agent by post at the address set out in paragraph 7a above. However, the Facility Agent reserves the right to act on documents emailed or sent by facsimile to the Facility Agent.
15. By signing and returning the Appointment Letter, or otherwise appointing the Facility Agent under these Terms, the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) will be deemed to have (subject to withdrawal under paragraph 7 of these Terms) irrevocably authorised:
 - i. the Bidder and each of its officers and agents to correct any errors in, and omissions from, the form or the Acceptance Instructions, as may be necessary to make the form a valid Appointment Letter or to make an Acceptance Instruction valid or correct, and
 - ii. the Facility Agent to disclose the Acceptance Instructions to the Bidder or allow the Bidder and their representatives to review the Acceptance Instructions at any time, provided the Bidder and their representatives must keep such Acceptance Instructions confidential.

16. The Terms may be amended by the Facility Agent (with the consent of the Bidder) by notice provided to ASX, provided that no amendment is prejudicial to the interests of the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) or confer on the Bidder or the Facility Agent any control or discretion over the voting or disposal of the Target Shares to which Acceptance Instructions relate.
17. If there is in effect a final order of the Takeovers Panel, Court, or a government agency which prevents the Offer from being completed before the Facility Agent receives a Confirmation Letter, the Institutional Acceptance Facility will terminate and Acceptance Instructions will be returned to the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable).
18. The invitation to participate in the Institutional Acceptance Facility is made to you only and you should not distribute the Appointment Letter without the consent of the Facility Agent.
19. The Facility Agent is a full service securities firm and it, along with its affiliates, is engaged in various activities, including securities trading, investment management, research, commercial banking, financing and brokerage activities and financial planning and benefits counselling for both companies and individuals. In the ordinary course of these activities, the Facility Agent and its affiliates may actively trade in debt and equity securities (or related derivative securities) of Target (and its related bodies corporate) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities.
20. The Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) acknowledges that the Facility Agent is not providing advice or making any recommendation in relation to the Eligible Institutional Target Shareholder's or Beneficial Holder's (as applicable) participation in the Institutional Acceptance Facility.
21. These Terms, including (for the avoidance of doubt) the Appointment Letter, may be amended by the Facility Agent with the consent of the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable).
22. The Bidder may at any time by notice provided to ASX remove the Facility Agent as acceptance facility collection agent under this Institutional Acceptance Facility and appoint another entity on the same terms or on terms which are no less favourable to the Eligible Institutional Target Shareholder or Beneficial Holder (as applicable) than these Terms, and the Eligible Institutional Target Shareholders or Beneficial Holders (as applicable) will continue to be bound by the Terms as if they had provided their Acceptance Instructions to the new acceptance facility collection agent and the new terms had applied at that time.
