Natural Nanotech Formalises Major Research Project with University of Newcastle

Summary

- **Andromeda Metals and Minotaur Exploration, the joint owners of Natural Nanotech Pty Ltd, have signed a \$4 million research partnership with the University of Newcastle's Global Innovative Centre for Advanced Nanomaterials (GICAN) to fund research into carbon dioxide capture through the use of halloysite nanotubes.**
- **The research will investigate the conversion of halloysite nanotubes into advanced nanomaterials that can be utilised as novel adsorbent systems and catalysts for CO2 capture and conversion processes.**
- **Further details may be found at:**
newcastle.edu.au/newsroom/featured/4-million-partnership-carbon
- **Refer ADN ASX announcement dated 12 April 2021 titled "Carbon Capture Utilising Halloysite-Derived Adsorbent Nanomaterials" for additional discussion on carbon capture application for halloysite nanomaterials.**
