

1 September 2021

Acting Chief Financial Officer appointment

Cooper Energy (ASX: COE) refers to its announcement of 7 July 2021 advising that its Chief Financial Officer (CFO), Virginia Suttell, will be leaving Cooper Energy effective 30 September 2021. The search for a replacement CFO is underway.

Cooper Energy is pleased to announce that David Di Blasio has been appointed Acting CFO while the replacement search is underway. David joined Cooper Energy in 2019 as Finance Manager and has managed all aspects of the finance function. Prior to Cooper Energy, David held senior finance roles over a 13-year period with Santos and before that worked in audit and assurance at PwC.

David is a Chartered Accountant and holds an MBA and Bachelor of Commerce degree from the University of South Australia.

Cooper Energy Limited (ASX: COE) is an exploration and production company which generates revenue from gas supply to south-east Australia and low-cost Cooper Basin oil production. The company is an emerging player in the south-east Australian energy sector holding a portfolio of gas supply contracts and one of the most extensive portfolios of gas-focused acreage and assets, including well located reserves and resources in the Otway and Gippsland basins. These include the Sole gas field in the Gippsland Basin which recently became the first new offshore gas development in south-east Australia to commence production in several years, the Casino Henry operations in the offshore Otway Basin and undeveloped resources such as Manta and Annie.

Disclaimer: This announcement may contain forward looking statements that are subject to risk factors related to oil, gas and associated businesses. The expectations reflected in these statements are believed to be reasonable. However, they may be affected by a variety of variables and changes in underlying assumptions which could cause actual results or trends to diverge materially, including in respect of: price fluctuations and currency fluctuations, drilling and production results, actual demand, reserve estimates, loss of market, competition in the industry, risks (environmental, physical, political etc.), developments (regulatory and fiscal etc.), economic and financial market conditions in Australia and elsewhere, changes in project timings, approvals and cost estimates.
