## **ASX ANNOUNCEMENT**

### **MAGNETITE RANGE—GRANT OF MINING LEASE**

Accent Resources NL (“Company”) wishes to inform shareholders that the Western Australian Department of Mines, Industry Regulation, and Safety has granted the Company a Mining Licence (M59/764) which covers Stage 1 of the proposed development of its iron ore resources at Magnetite Range in the Mid-West region of Western Australia. The resource at Magnetite Range totals 434 million tonnes at 31.4% Fe at 15% weight recovery cut off.

The Mining Licence, which has been granted for a period of 21 years until 2042, is an important milestone in the proposed Stage 1 development of the Magnetite Range iron ore deposit. The Company is continuing its efforts to advance development of the deposit. It is currently undertaking a 57 hole (11,000 metre) RC drill program over the Julia deposit.

Yours Sincerely

Albert Zhou  
Executive Director
