Quarterly Activity Report – September 2021

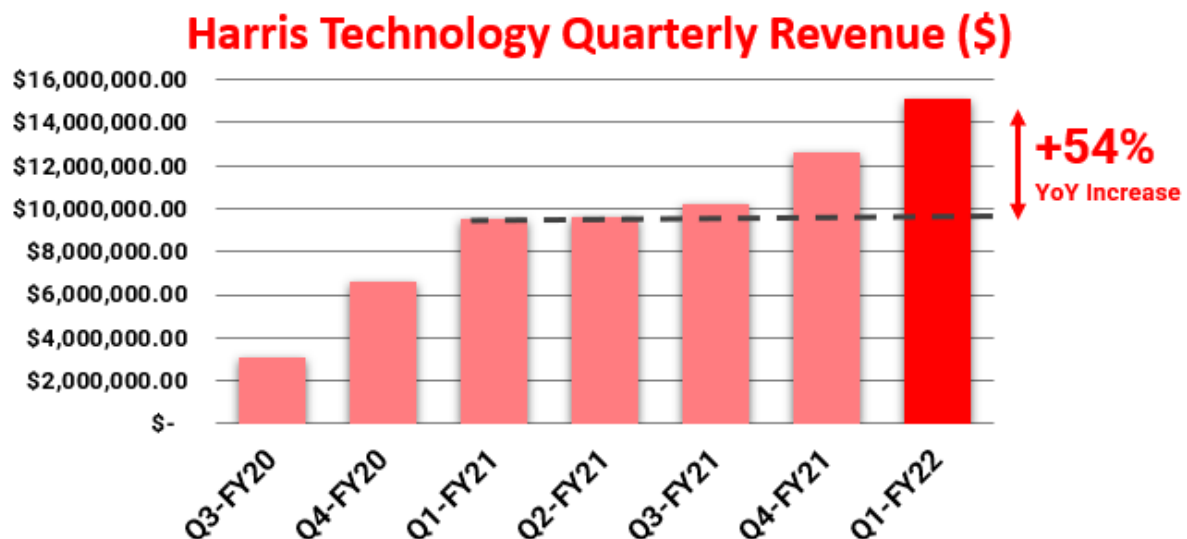

Highlights:

- Record breaking Q1 sales of \$15.1M compared to previous corresponding period of \$9.8M – 54% YoY growth.
- Single month record set in August 2021 with \$5.6M in total sales.
- Positive Q1 operating cash flow of \$502K.
- Harris Technology has maintained its Number 1 seller ranking on Amazon AU and achieved 100% positive customer reviews again in recent months.
- A new website of www.ht.com.au has been launched with additional features and further improvement being made continuously.
- Warehouse upgrade scheduled for November 2021 to consolidate the current three smaller warehouses into one larger complex to facilitate greater inventory turnover and operational efficiency.

Pure-Play IT and Consumer Electronics online retailer Harris Technology Group Limited (ASX: HT8) is pleased to provide its activity report for the September FY22 quarter.

Operations Update

Sales revenue for the quarter of \$15.1M* represented a new quarterly record and a 54% increase on the previous corresponding quarter.

Technology and consumer electronics products continue to sell well through marketplace channels including Amazon AU where Harris Technology has maintained 100% positive customer reviews over the past 12 months assisting Harris in maintaining its Number 1 ranked seller rating on Amazon AU. Sales across Amazon, eBay, Catch, Kogan and MyDeal all delivered quarter-on-quarter increases.

The new Harris Technology website has been launched with further improvements being made. Further development of integration to the back-end ERP is being undertaken.

Having achieved some major milestones in its revenue growth in recent quarters, the Company is now working on balancing revenue growth and profitability. Management has carried out reviews of brands sold and has increased direct importing and private label business in recent months.

Inventory Update

The Company notes that ongoing chipset shortage and international shipping disruption have resulted in some lengthy supply chain delays. Through well-established international and domestic vendor and distribution partnerships and a proactive buying strategy however, Harris Technology's inventory has been well replenished and remains well stocked to meet customer demand.

On 30 September 2021, inventory on hand was \$12.6M representing an 18% quarter-on-quarter increase on the \$10.8M as of 30 June 2021. This increase in inventory has been funded from free cash flow.

Moving Warehouse

In order to consolidate its 3 warehouses, improve efficiency and co-site all employees, Harris Technology is set to move into one large complex in November 2021. This move is not expected to cause major impact in dispatch of customer orders.

Expenditure incurred during the quarter

Expenditure Category	Amount \$
Purchase of Inventory	14,411,000
Advertising	5,000
Staff Administrative and Corporate Costs	904,000

Cash Flow

During the quarter Harris Technology recorded a positive cash flow from operating activities of \$502,000 and repaid borrowings of \$255,000.

Cash on hand was \$3.5M, up from \$3.2M at 30 June 2021.

Related Party Payment

Payment of directors' fees were \$38k during the quarter (refer line 6.1 of appendix 4C).

Harris Technology CEO, Garrison Huang commented, "Harris Technology has continued to build on the momentum of 206% FY21 revenue increase. FY21 was a year that saw 82% of Australian households participate in online shopping ^[1]. This has Harris Technology ideally positioned to capitalise on online shopping trends in the upcoming busy holiday season."
