About Superloop

Superloop (ASX:SLC) is an independent provider of connectivity services. The company designs, constructs and operates networks throughout the Asia-Pacific metropolitan region.

The company owns and operates 1,047 km of carrier-grade metropolitan fibre networks in Australia, Singapore and Hong Kong, connecting more than 464 key data centres and bandwidth-intensive commercial buildings. These extensive carrier-grade, metro fibre networks deliver high-performance, connectivity solutions to wholesale and end-user customers that are scalable and reliable.

In addition to its own fibre network, Superloop is connected to all NBN Points Of Interconnect across Australia and operates its own nationwide fixed wireless network that collectively delivers high performance, connectivity solutions to businesses and homes underpinning the region's digital economy.

Strategic acquisitions continue to increase Superloop's network utilisation, and the company's transformation into an end-to-end provider of connectivity and cloud services.
