## CATEGORY

Inventory management and ecommerce

## OPPORTUNITY

Supporting increased inventory and ecommerce needs of customers

## ALIGNMENT WITH CUSTOMER NEEDS

### Acquisition of LOCATE Inventory

LOCATE's inventory-accounting workflows will help develop Xero's new inventory solution

This will help customers track and manage inventory in real-time, across multiple locations and channels including Xero's ecommerce partners

Expected to launch in the US before other markets

### Working with ecommerce platforms

New integration launched in the Shopify App Store and Xero App Store will help Xero's customers to:

- Simplify reconciliation

- Interpret sales data

- Use finance, cash flow and performance insights within Xero

# Strategic priorities

**Drive cloud accounting**

**Grow small business platform**

**Build for global scale and innovation**

# Financial results

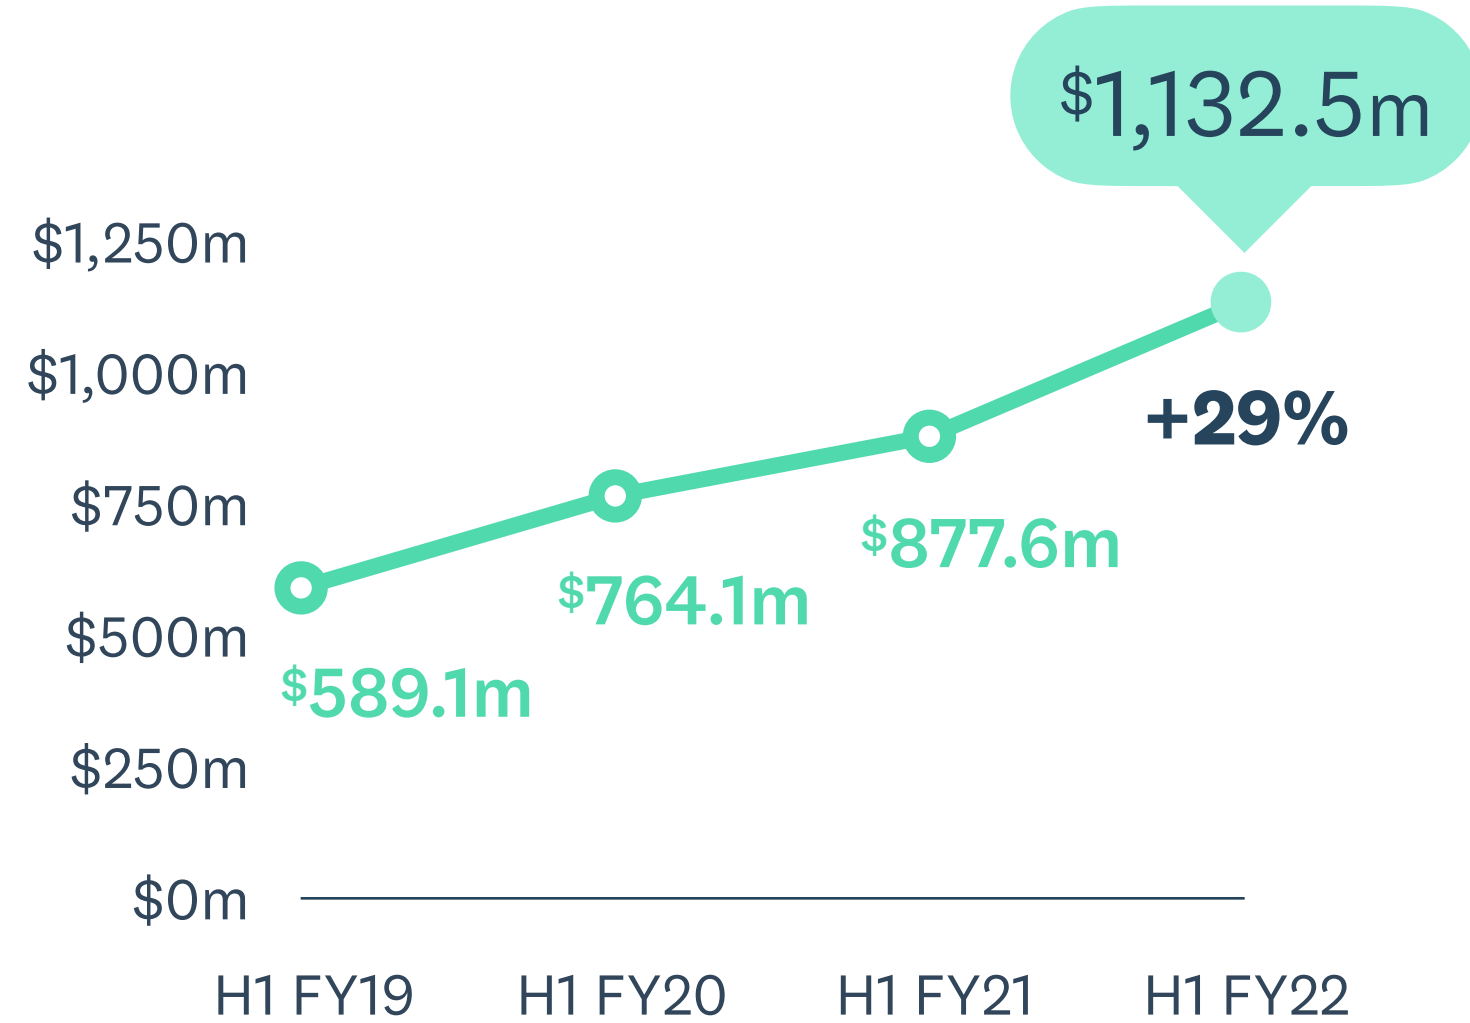

**Kirsty Godfrey-Billy**  
CHIEF FINANCIAL OFFICER

# Strong financial performance with continued investment in the long term

## AMRR

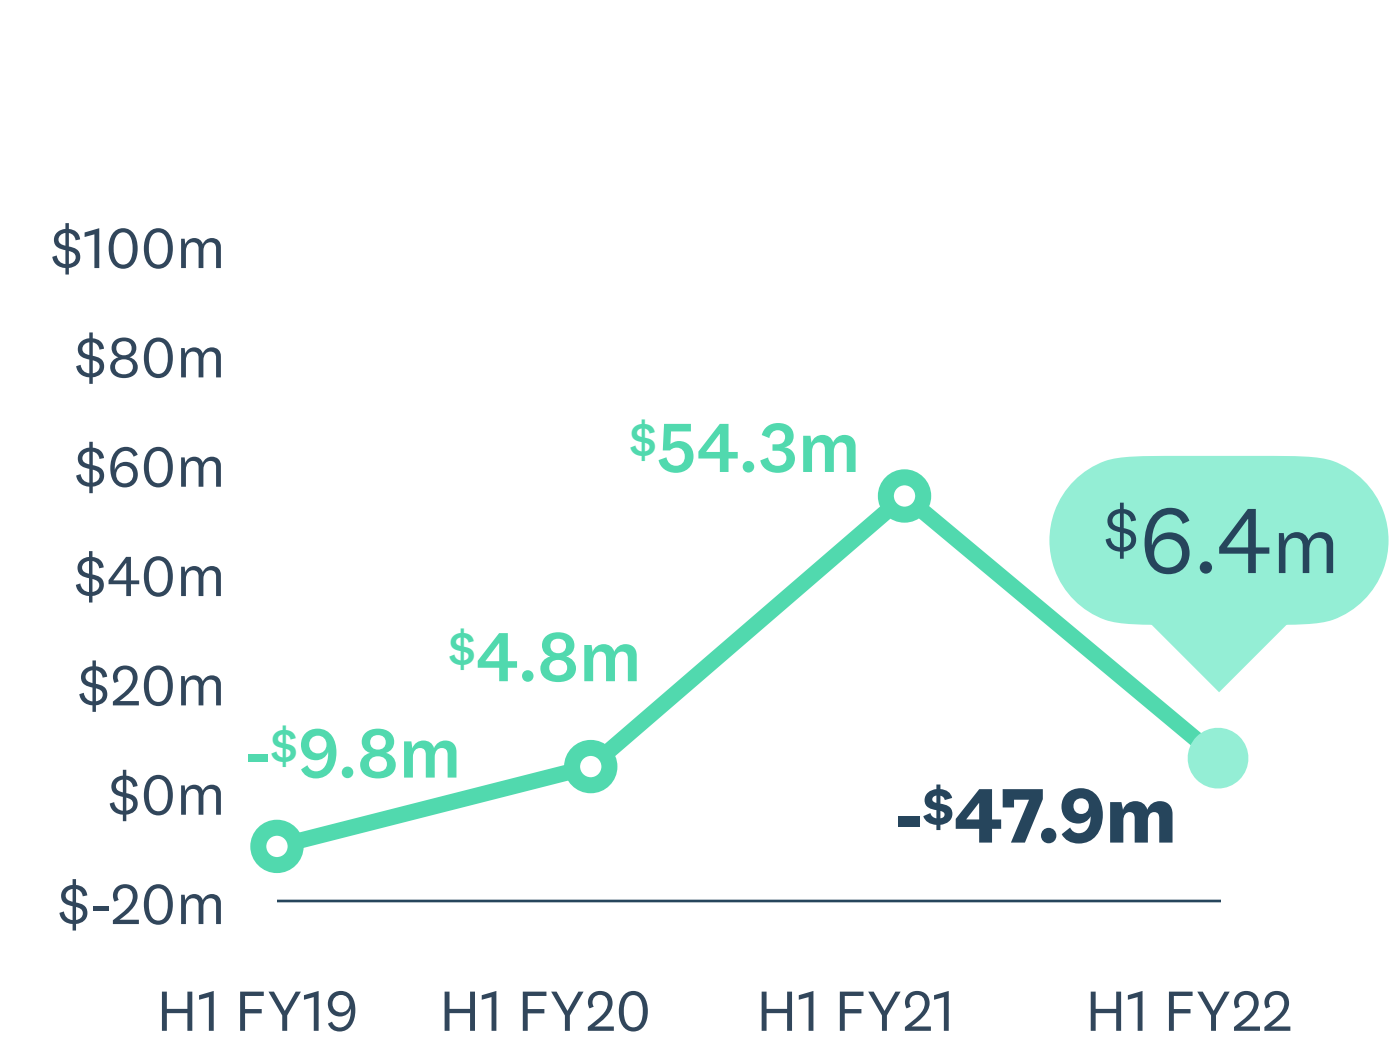

Growth in AMRR of \$255m or 29% YOY (32% in constant currency) reflects subscriber growth of 23%, and ARPU increase of 5% YOY (7% YOY in constant currency)

## EBITDA

EBITDA decreased by \$22.7m or 19% YOY, reflecting strong revenue growth and a return to pre-pandemic levels of spend across sales and marketing and product design and development during H1 FY22, consistent with operating expense guidance

## Free cash flow

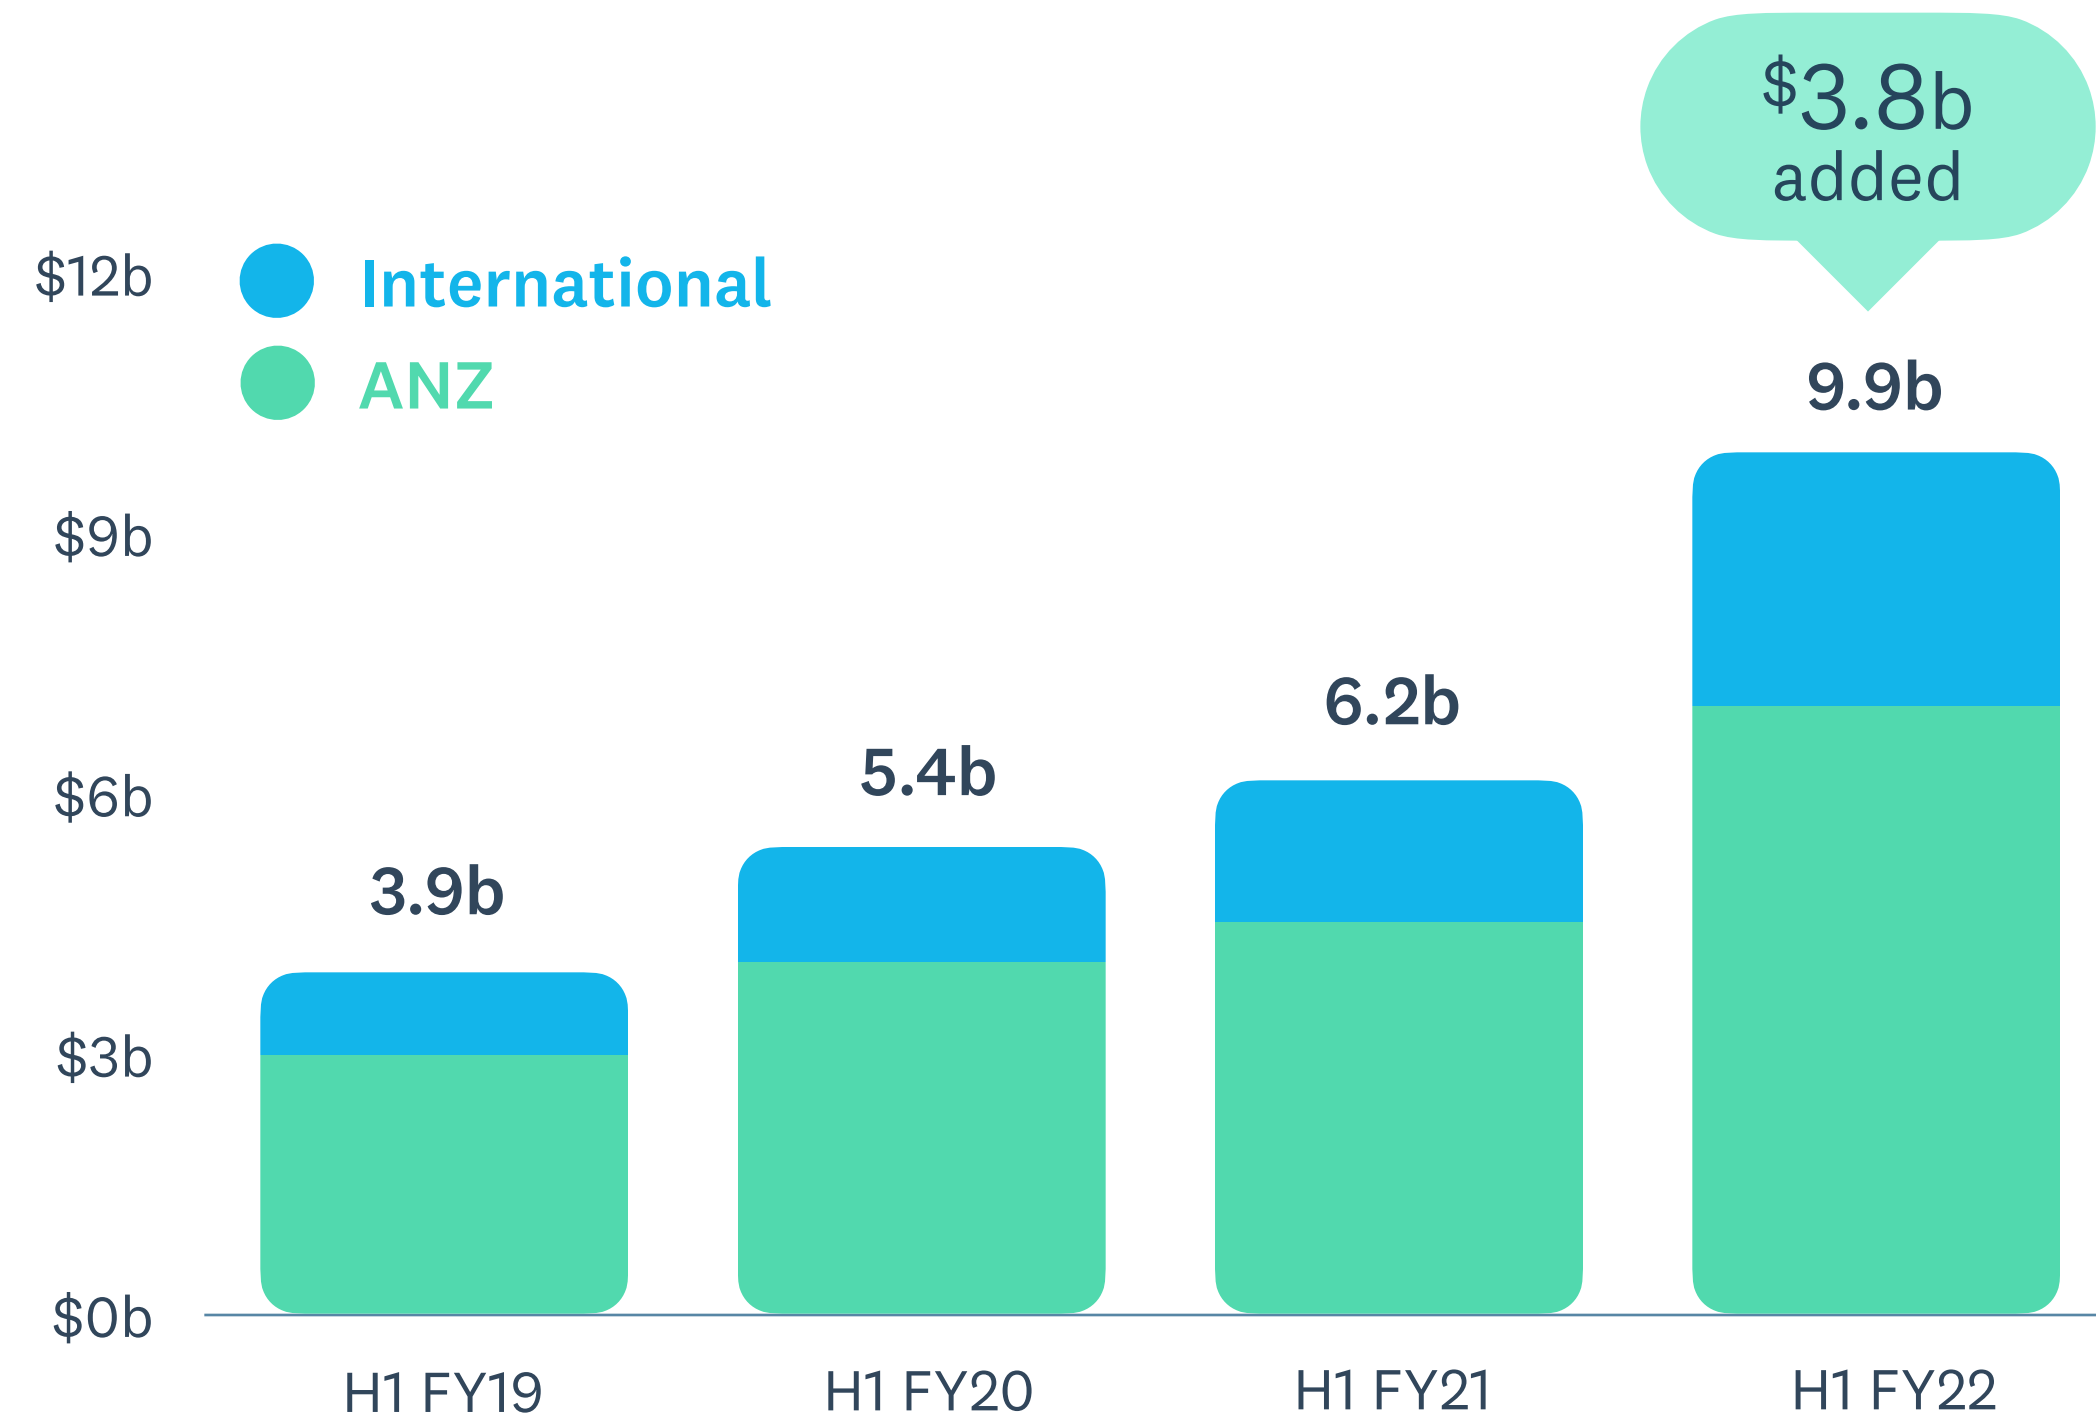

Free cash flow decreased by \$47.9m to \$6.4m. Free cash flow as a percentage of revenue decreased 11.9pp from 13.2% to 1.3% YOY

# Uplift in lifetime value of subscribers

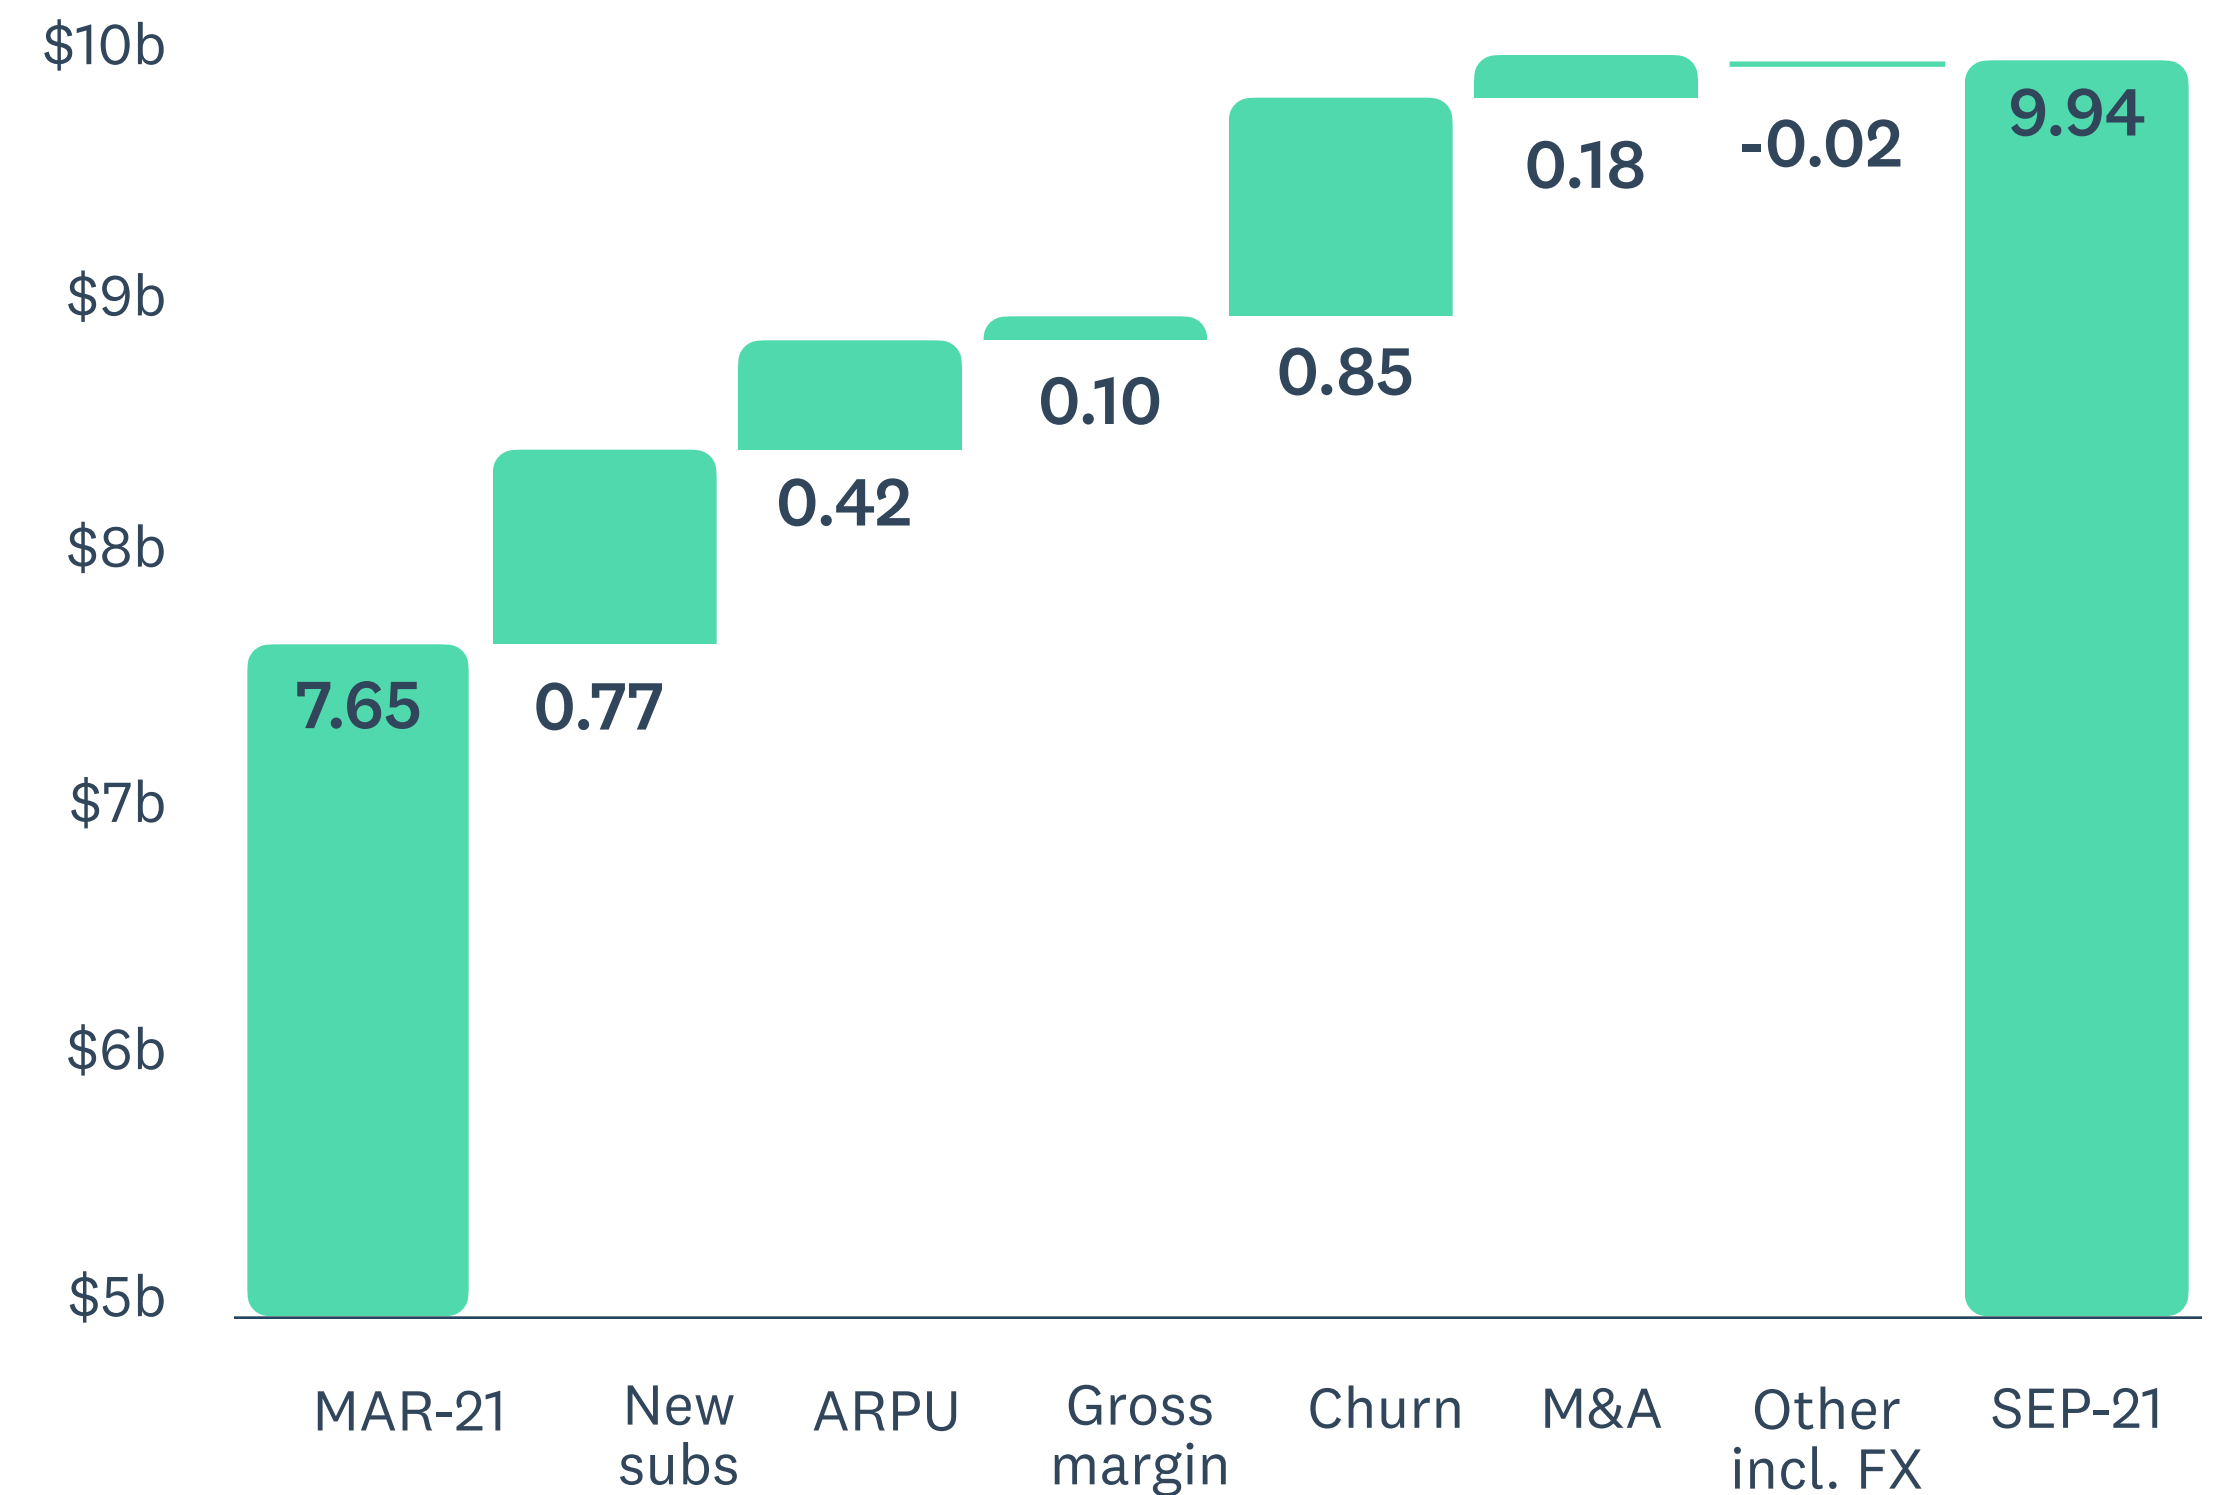

## Total LTV over time

- LTV 5 year CAGR was 38% for ANZ and 56% for International
- Average customer lifetime of 9.5 years

## LTV movements by driver

From 31 March to 30 September 2021

# Higher ARPU, lower churn helping drive LTV uplift

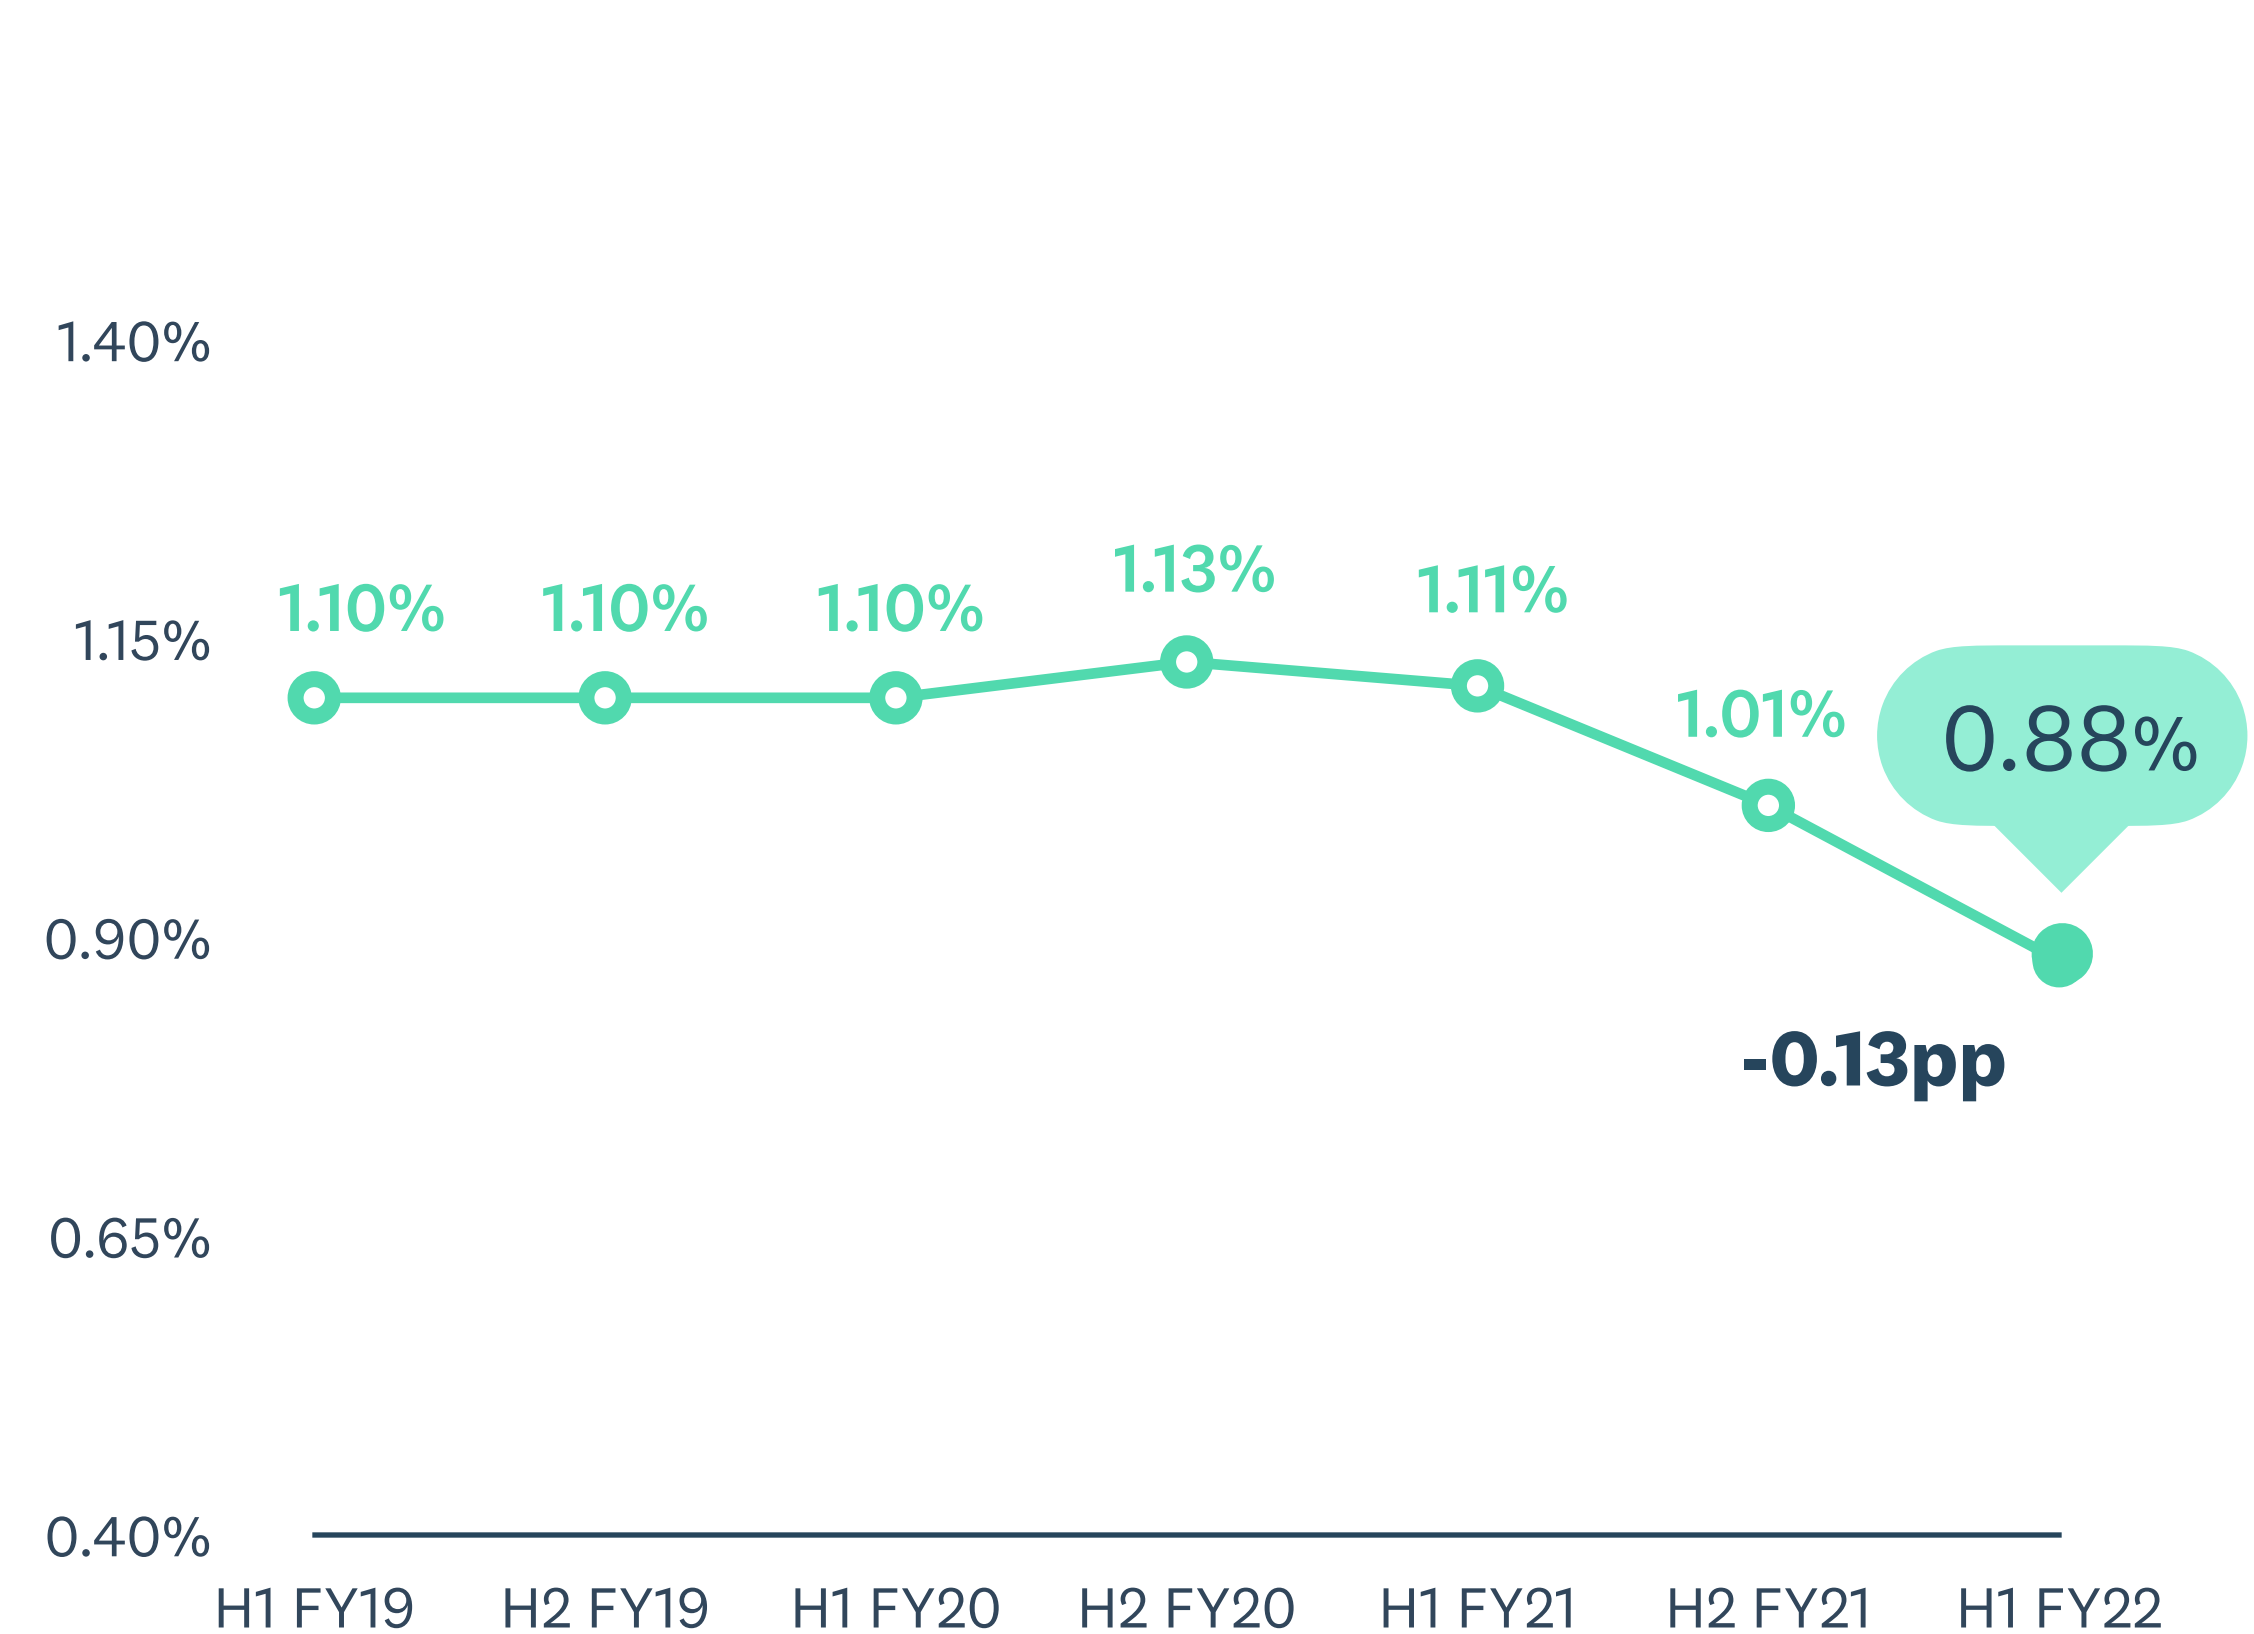

## ARPU movement contributors

ARPU has increased by just over \$2 since 31 March 2021

## Churn<sup>1</sup>

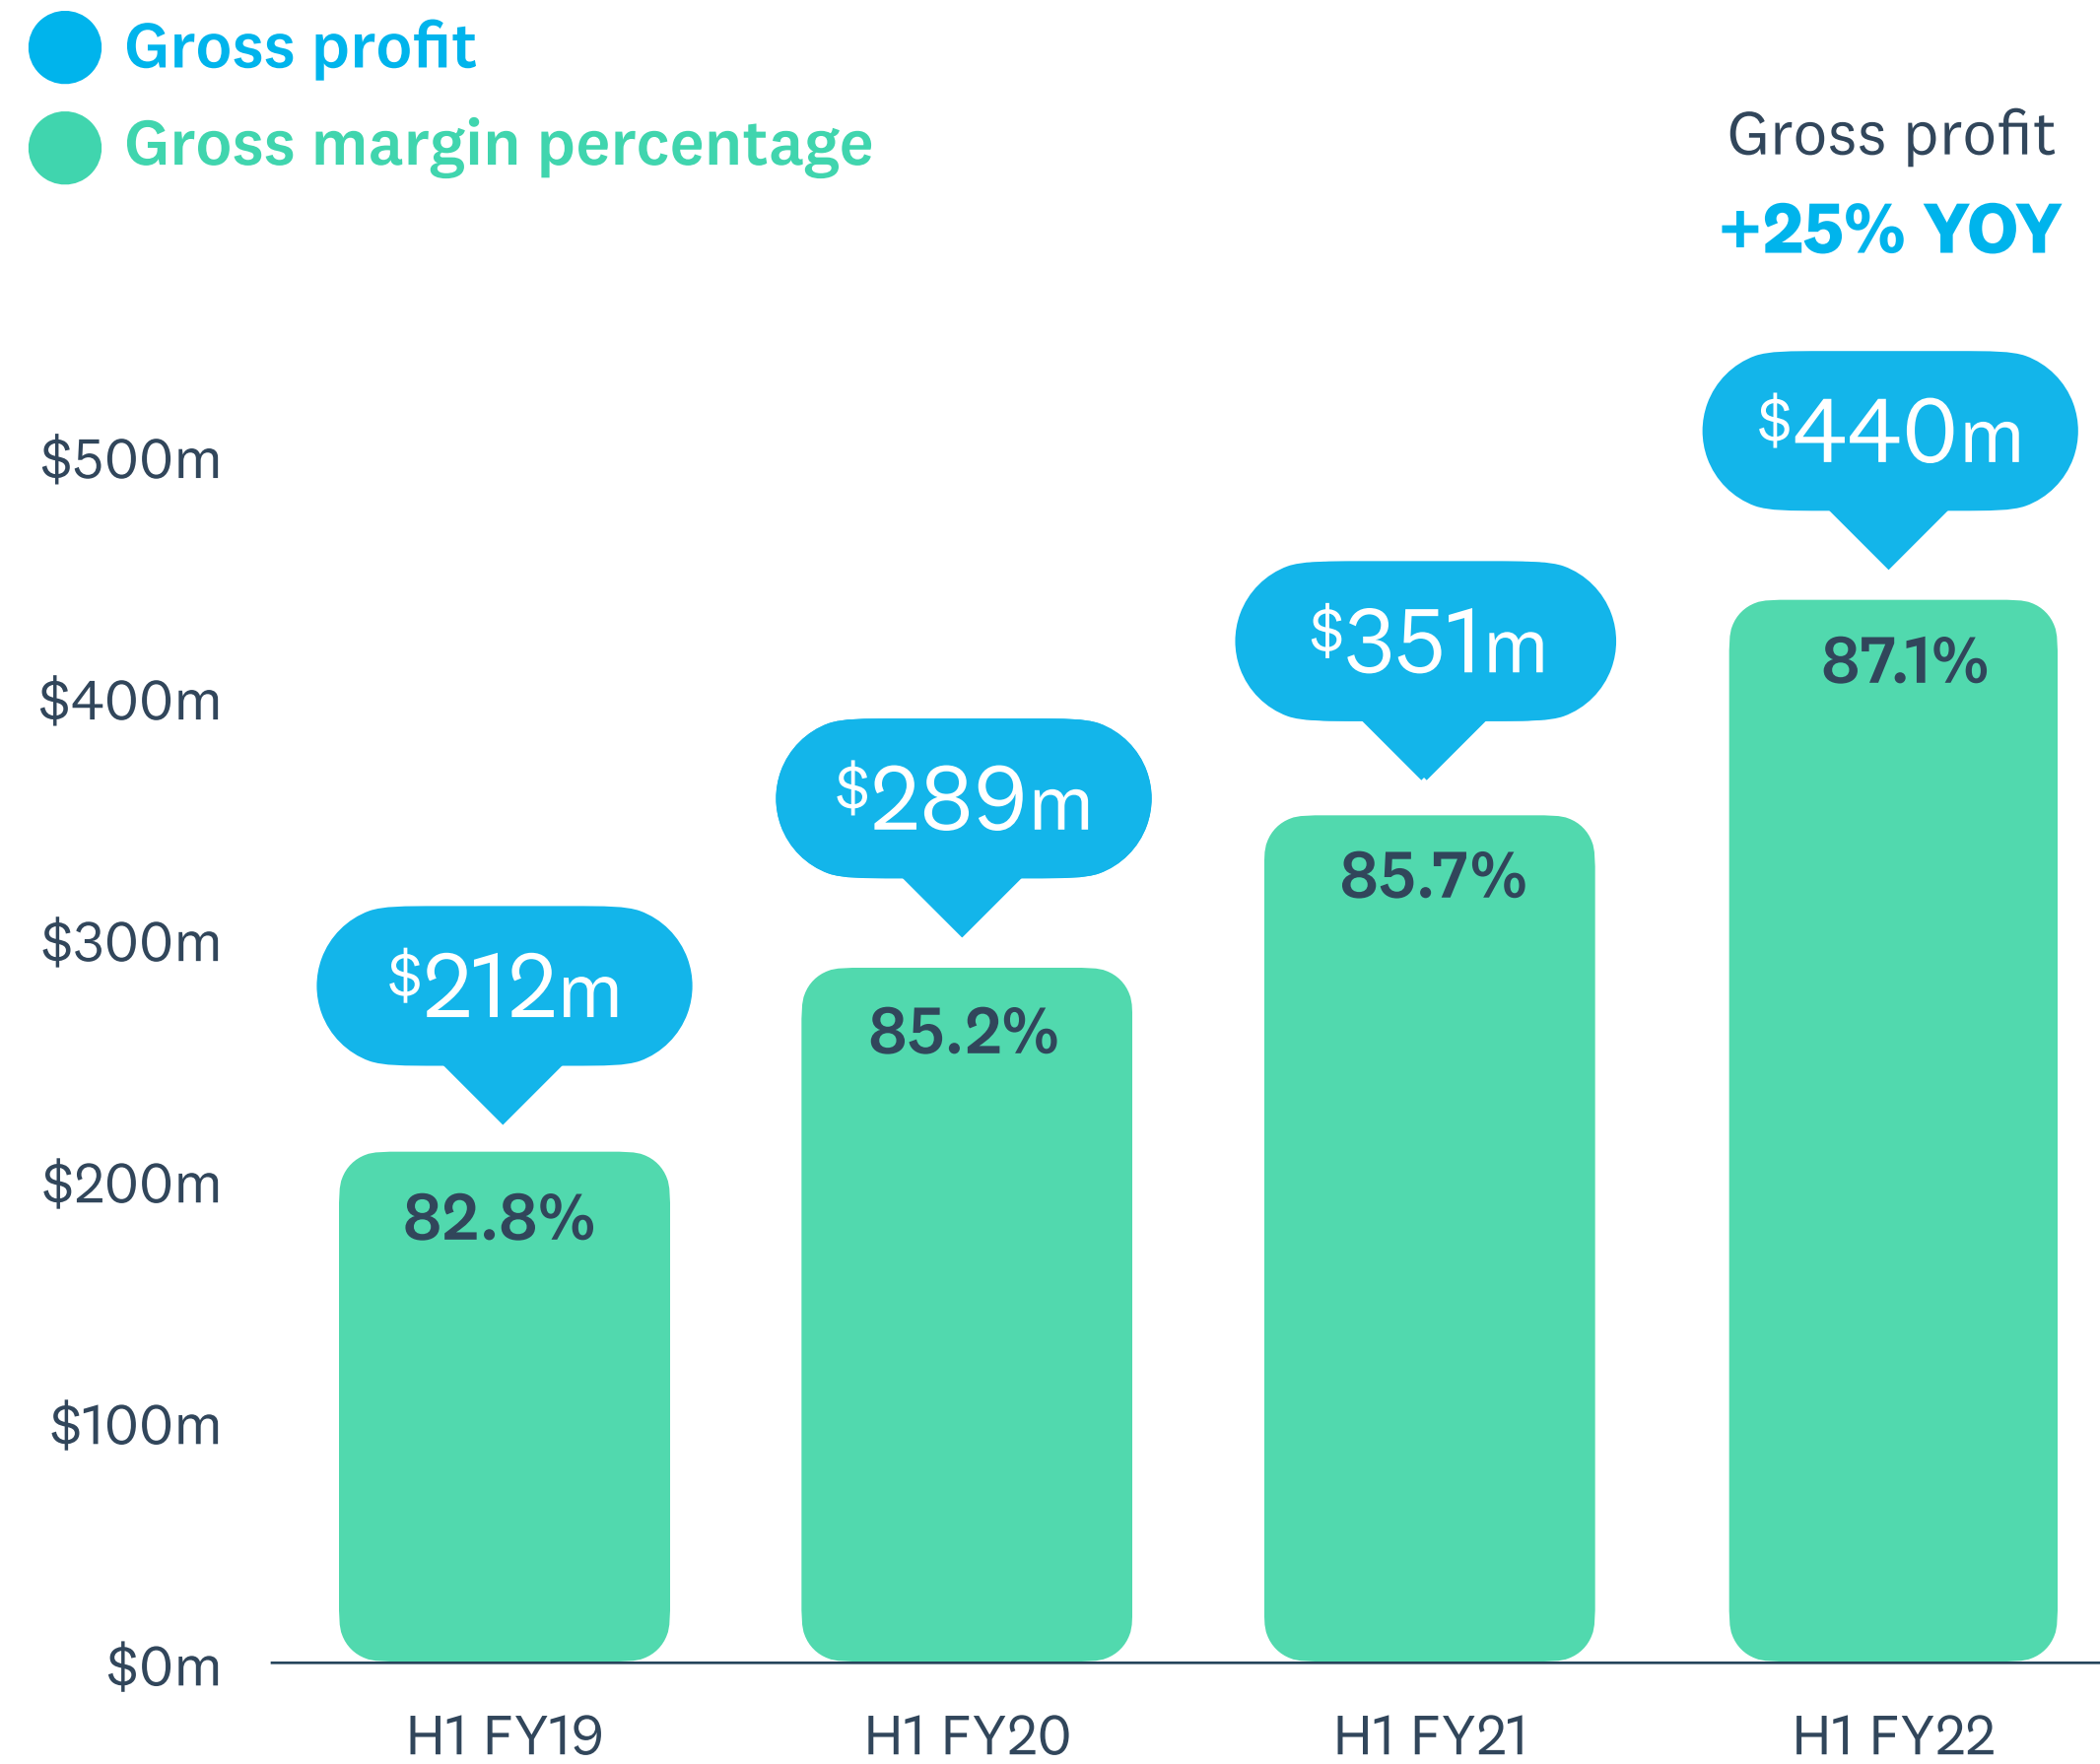

All markets recorded lower churn

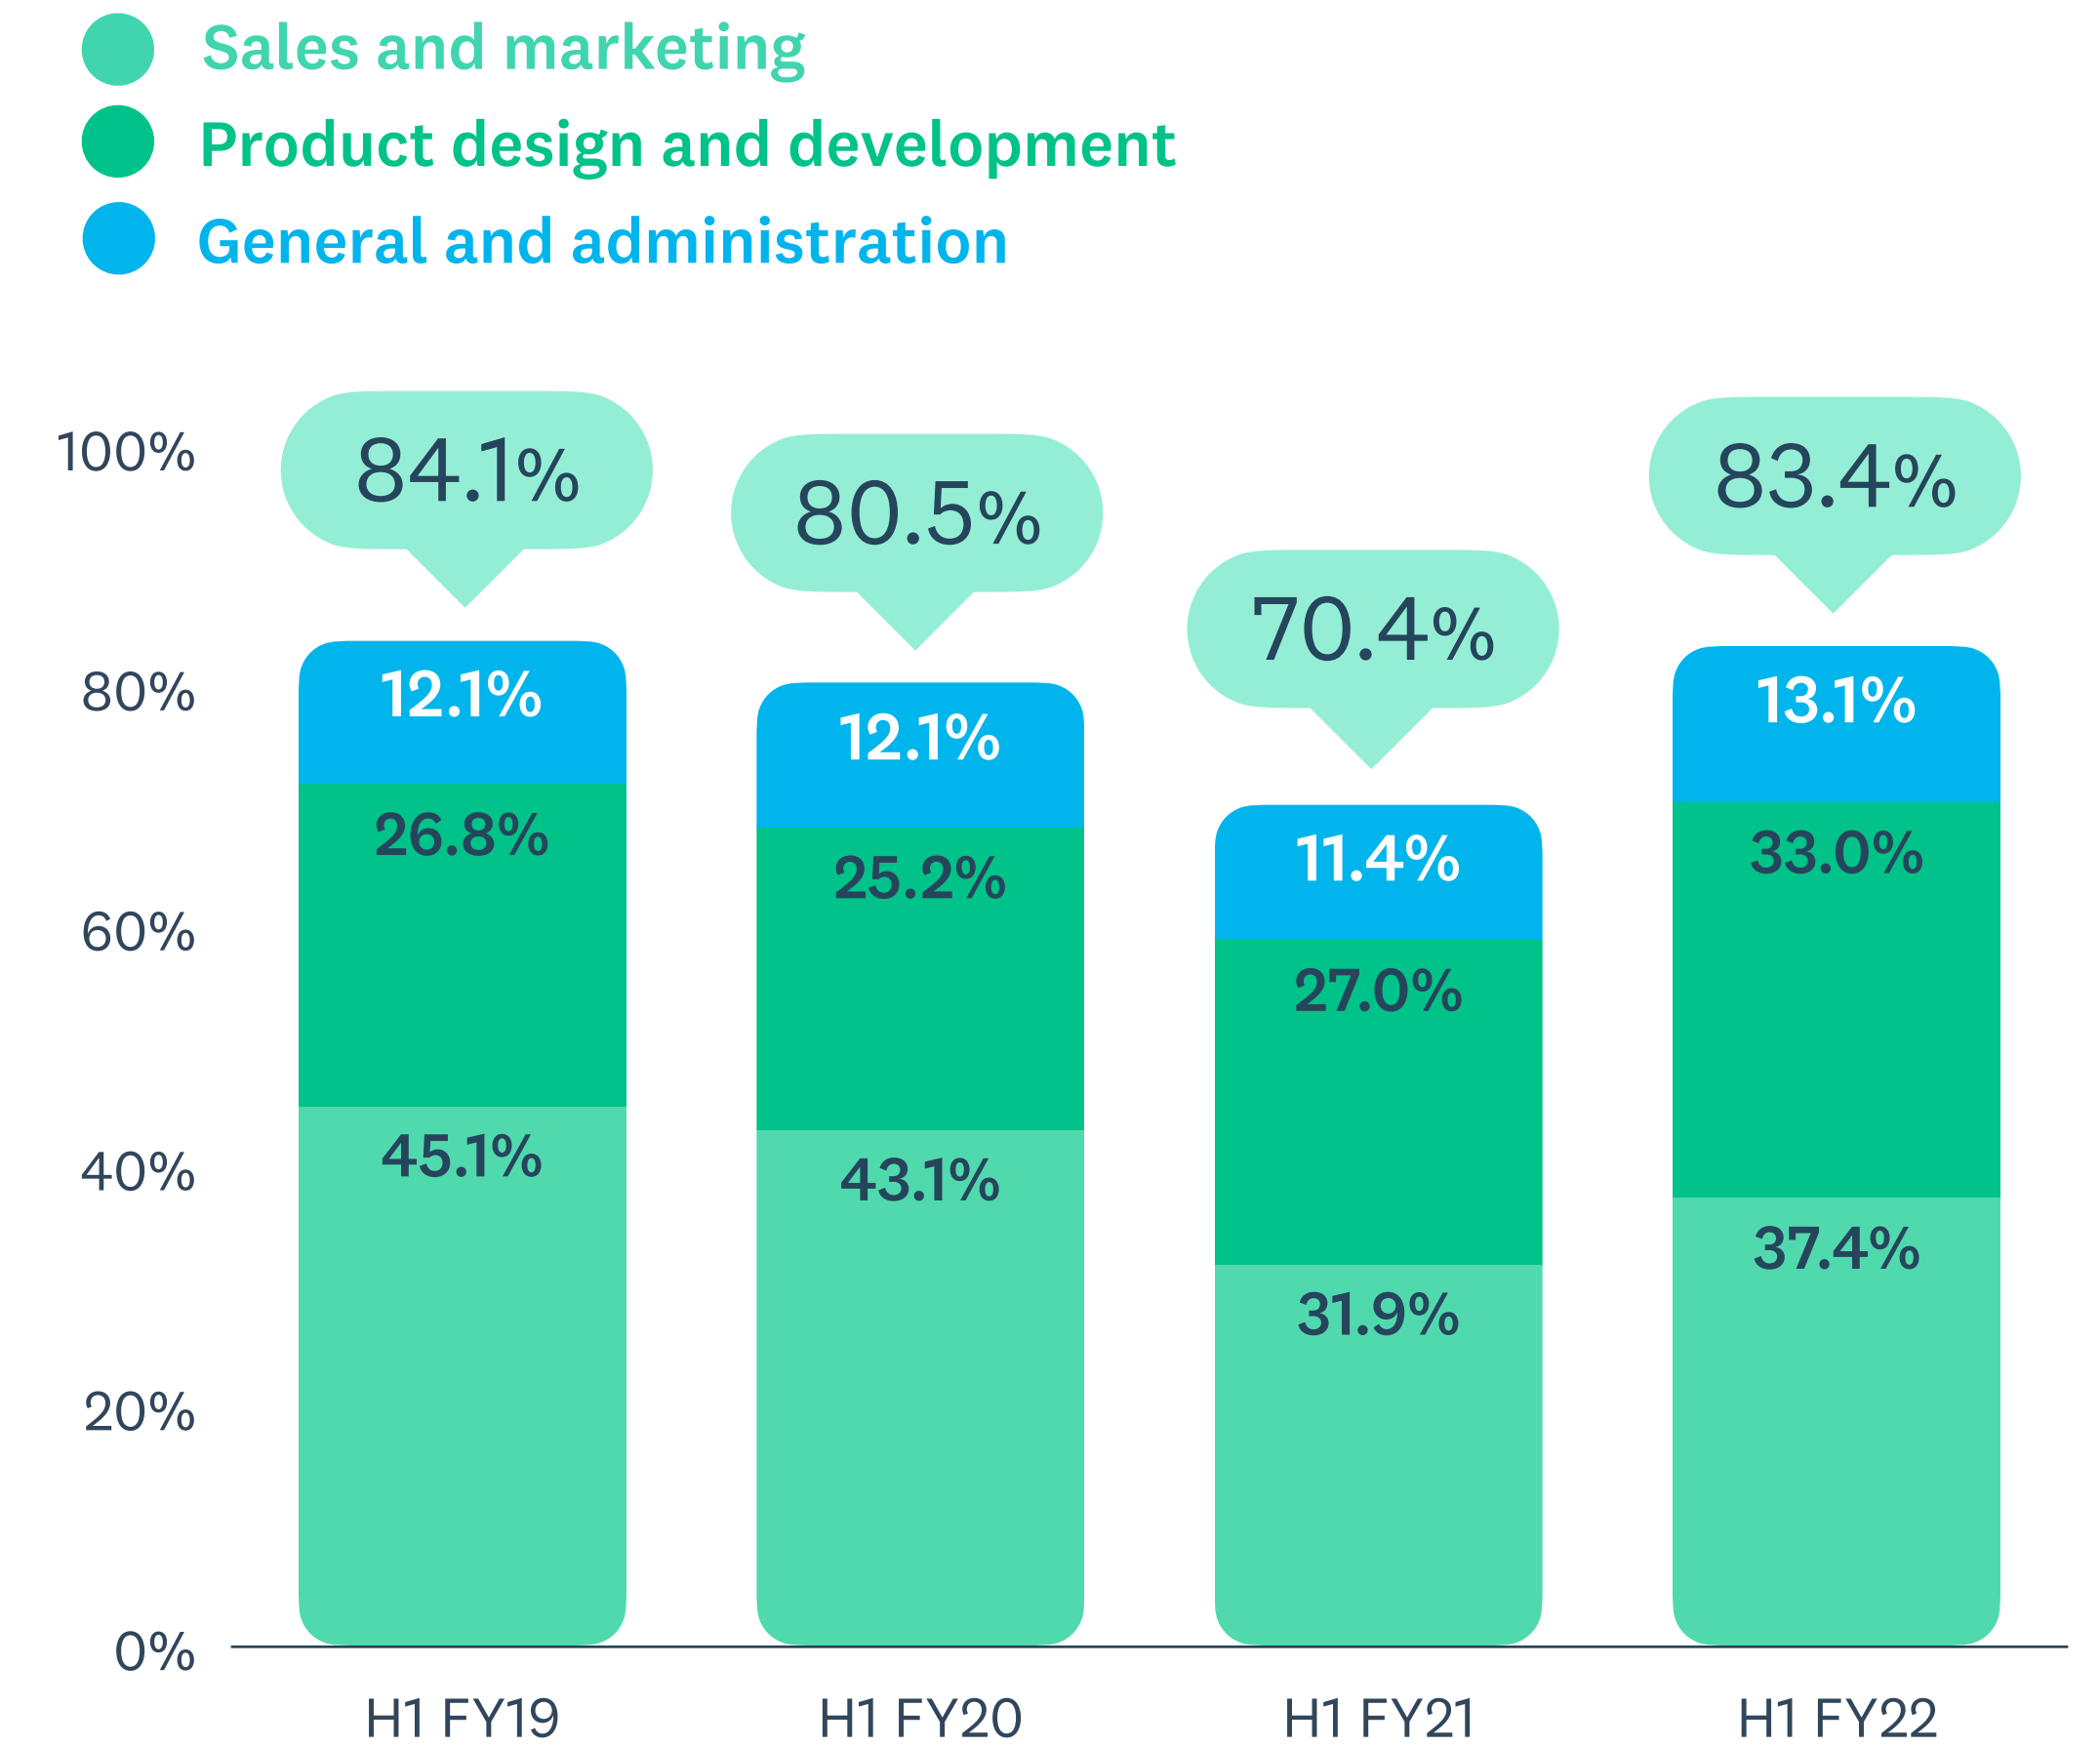

<sup>1</sup> See glossary on page 29 for definition of churn

# Improved gross profit with normalising expenses

## Gross profit and gross margin percentage

## Operating expenses as a % of revenue

# Financial performance

Operating revenue growth of 23% YOY (26% constant currency), driven primarily by subscriber growth across all markets

Operating expenses, inclusive of acquisition integration costs, increased 46% YOY and represented 83% of operating revenue, consistent with guidance for FY22

EBITDA reduced \$22.7m YOY, resulting in a 10.1pp decrease in EBITDA margin over the period. Half year net loss of \$5.9m. These movements primarily reflected the increase in operating expenses

# Outlook

Xero will continue to focus on growing its global small business platform and maintain a preference for reinvesting cash generated, subject to investment criteria and market conditions, to drive long-term shareholder value.

Total operating expenses (excluding acquisition integration costs) as a percentage of operating revenue for FY22 are expected to be in a range of 80-85% which is consistent with levels seen in the second half of FY21 and the pre-pandemic period. Integration costs, relating to all the acquisitions announced since the start of FY21, are expected to increase total operating expenses as a percentage of operating revenue by up to 2% for FY22.

As previously stated, the acquisition of Planday is expected to contribute approximately three percentage points of additional operating revenue growth in FY22.

# Glossary

## AMRR

Annualised monthly recurring revenue (AMRR) represents monthly recurring revenue at 30 September, multiplied by 12. It provides a 12 month forward view of revenue, assuming any promotions have ended and other factors such as subscriber numbers, transaction volumes, pricing and foreign exchange remain unchanged during the year

## ARPU

Average revenue per user (ARPU) is calculated as AMRR at 30 September divided by subscribers at that time (and divided by 12 to get a monthly view)

## CAC months

Customer Acquisition Cost (CAC) months are months of ARPU to recover the cost of acquiring each new subscriber. The calculation is sales and marketing costs for the year excluding the capitalisation and amortisation of commissions paid to sales people, less conference revenue (such as Xerocon), divided by gross new subscribers added during the same period, divided by ARPU

## CAGR

Compound annual growth rate

## Churn

Churn is the value of monthly recurring revenue (MRR) from subscribers who leave Xero in a month as a percentage of the total MRR at the start of that month. The percentage provided is the average of the monthly churn for the previous 12 months

## Constant currency (cc)

Constant currency comparisons for revenue are based on average exchange rates for the 6 months ended 30 September 2020. Comparisons for ARPU, AMRR and LTV are based on exchange rates at 30 September 2020

## Core accounting revenue

Core accounting revenue comprises subscription based revenue to Xero's cloud based platform, including any revenue for products that are bundled into subscription plans (such as Hubdoc and Payroll in some regions)

## Free cash flow

Free cash flow is defined as cash flows from operating activities less cash flows used for investing activities excluding cash used for acquisitions of, and investments into, businesses and strategic assets

## GAAP

Generally accepted accounting principles

## Lifetime value (LTV)

LTV is the gross margin expected from a subscriber over the lifetime of that subscriber. This is calculated by taking the average subscriber lifetime (1 divided by churn) multiplied by ARPU, multiplied by the gross margin percentage. Group LTV is calculated as the sum of the individual segment LTVs, multiplied by their respective segment subscribers, divided by total Group subscribers

## Liquid resources

Liquid resources comprises cash and cash equivalents, short-term deposits including proceeds from convertible notes, and undrawn committed debt facilities

## Other revenues

Other comprises non-recurring revenues and WorkflowMax. Non-recurring includes revenue from events (such as Xerocons and roadshows), and other non-subscription or platform services. WorkflowMax is online workflow and job management software

## Platform revenue

Platform revenues include revenue derived from related services, including adjacent products (such as Hubdoc subscriptions on other accounting platforms) and add-ons with incremental revenue (such as payroll, projects and expenses modules), payments and revenue share agreements with partners

## Subscribers

Subscriber means each unique subscription to a Xero-offered product that is purchased by a user (eg a small business or accounting partner) and which is, or is available to be, deployed. Subscribers that have multiple subscriptions to integrated products on the Xero platform are counted as a single subscriber

## TAM

Total addressable market
