ABOUT THETA GOLD MINES LIMITED

Theta Gold Mines Limited (ASX: TGM | OTCQB: TGMGF | FSE: 3LM) is a gold development company that holds a range of prospective gold assets in a world-renowned South African gold mining region. These assets include several surface and near-surface high-grade gold projects which provide cost advantages relative to other gold producers in the region.

Theta Gold's core project is located next to the historical gold mining town of Pilgrim's Rest, in Mpumalanga Province, some 370km northeast of Johannesburg by road or 95km north of Nelspruit (Capital City of Mpumalanga Province). Following small scale production from 2011 – 2015, the Company is currently focussing on the construction of a new gold processing plant

within its approved footprint at the TGME plant, and for the processing of the initial ore reserves.

The Company aims to build a solid production platform to over 160kozpa based primarily around shallow, open-pit or adit-entry shallow underground hard rock mining sources. Theta Gold has access to over 43 historical mines and prospect areas that can be accessed and explored, with over 6.7Moz of historical production recorded.

Theta Gold holds 100% issued capital of its South African subsidiary, Theta Gold (SA) Pty Ltd ("TGSA"). TGSA holds a 74% shareholding in both Transvaal Gold Mining Estates Limited ("TGME") and Sabie Mines (Pty) Ltd ("Sabie Mines"). The balance of shareholding is held by Black Economic Empowerment ("BEE") entities as part of the country's ESG initiatives. The BEE shareholding in TGME and Sabie Mines is comprised of a combination of local community trusts, an employee trust and a strategic entrepreneurial partner.

Second Supplementary Bidder's Statement

in respect of the offer for shares in Focus Minerals Ltd

Important Information

This document is the second supplementary bidder's statement (**Second Supplementary Bidder's Statement**) given by Theta Gold Mines Limited (ABN 30 131 758 177) (**TGM**) in connection with its takeover offer for all shares in Focus Minerals Ltd (ABN 56 005 470 799) (**Focus**) that existed on the Register Date of 21 December 2021.

This Second Supplementary Bidder's Statement supplements, and must be read together with, TGM's first supplementary bidder's statement dated 4 January 2022 (**First Supplementary Bidder's Statement**) and TGM's replacement bidder's statement dated 4 January 2022 (**Replacement Bidder's Statement**) which replaced TGM's original bidder's statement dated 20 December 2021. This Second Supplementary Bidder's Statement will prevail to the extent of any inconsistency with the First Supplementary Bidder's Statement and Replacement Bidder's Statement.

A copy of this Second Supplementary Bidder's Statement was lodged with the Australian Securities and Investments Commission (**ASIC**) on 18 January 2022. Neither ASIC nor its officers takes any responsibility for the contents of this Second Supplementary Bidder's Statement.

Unless the context otherwise requires, defined terms used in this Second Supplementary Bidder's Statement have the same meaning as given to them in the Replacement Bidder's Statement. Section 10.2 (*References to certain general terms*) of the Replacement Bidder's Statement also applies to this Second Supplementary Bidder's Statement.

1. SHANDONG GOLD INTENTION STATEMENTS

In the Replacement Bidder's Statement, TGM made clear that because:

- Focus has proceeded with the Focus Entitlement Offer; and
- TGM's Offer only relates to Focus Shares that existed on the Register Date of 21 December 2021 (so does not extend to new Focus Shares issued under the Focus Entitlement Offer),

TGM would not be able to acquire 100% of Focus Shares under the Offer. The Replacement Bidder's Statement contemplated that TGM may be able to acquire control of Focus under the Offer, but that this would only be possible if Shandong Gold accepted the Offer (in respect of those of its Focus Shares to which the Offer relates) and a large proportion of minority Focus Shareholders also accepted the Offer.

On 5 and 7 January 2022, Focus released ASX announcements which attached statements made by Shandong Gold. In those statements, Shandong Gold has said that "it does not support the Offer and does not intend to accept the Offer in its current form in respect of any Focus shares that Shandong Gold owns or controls".

On the basis of these statements, TGM will not be able to acquire control of Focus under the Offer in its current form. In these circumstances (that Shandong Gold does not accept the Offer in respect of those of its Focus Shares to which the Offer relates), the maximum interest that TGM could acquire in Focus as a result of the Offer (in its current form) is 32.65% - as outlined at section 6.3 of the Replacement Bidder's Statement. Focus Shareholders should bear this in mind when considering statements in the Replacement Bidder's Statement that relate to the "Controlled Group" or that otherwise clearly contemplate a situation where TGM has acquired control of Focus (including, without limitation, section 5.3 of the Replacement Bidder's Statement which sets out TGM's intentions should it gain control of Focus).

TGM notes that, were TGM to improve the terms of its Offer (which TGM reserves the right to do), the statements by Shandong Gold would no longer apply and (if Shandong Gold accepted in respect of

those of its Focus Shares to which the Offer relates) it would still be possible for TGM to acquire control of Focus in the circumstances contemplated by the Replacement Bidder's Statement.

2. IMPLIED VALUE OF THE OFFER

The Replacement Bidder's Statement:

- notes that TGM believes its Offer represents an attractive premium to the price at which Focus Shares were trading prior to the Announcement Date of the TGM Offer (9 December 2021); and
- clearly states in a number of places that the implied value of the Offer will change as a consequence of changes in the market price of TGM Shares from time to time.

For example, and simply by way of update:

- (a) as at the close of trade on Thursday 13 January 2022 the Offer implies a value of A\$0.34 for each Focus Share (based on the TGM closing price on ASX of \$0.17 on Thursday 13 January 2022). This represents premiums of:
- 21.4% to the closing price of Focus Shares on ASX of A\$0.28 on 13 January 2022;
 - 36% to the Focus Entitlement Offer price of A\$0.25;
 - 9.4% to the 30 day VWAP of Focus Shares on ASX of A\$0.3109 to 13 January 2022; and
 - 15.5% to the 90 day VWAP of Focus Shares on ASX of A\$0.2943 to 13 January 2022.
- (b) as at the close of trade on Monday 17 January 2022 (the last trading day prior to the date of this Second Supplementary Bidder's Statement) the Offer implies a value of A\$0.33 for each Focus Share (based on the TGM closing price on ASX of \$0.165 on Monday 17 January 2022). This represents premiums of:
- 26.9% to the closing price of Focus Shares on ASX of A\$0.26 on 17 January 2022;
 - 32% to the Focus Entitlement Offer price of A\$0.25;
 - 4.1% to the 30 day VWAP of Focus Shares on ASX of A\$0.3170 to 17 January 2022; and
 - 12.1% to the 90 day VWAP of Focus Shares on ASX of A\$0.2944 to 17 January 2022.

As noted in the Replacement Bidder's Statement, these figures will continue to change from time to time as a result of changes in the prices of TGM Shares and Focus Shares on ASX. When assessing the Offer, Focus Shareholders should ensure that they take into account the latest trading price of Focus Shares and the implied price of the Offer based on the latest trading price of TGM Shares.

3. INFORMATION ON TGM

Sections 1 and 2 of the Replacement Bidder's Statement set out information on TGM and TGM's securities. As noted at section 1.7 of the Replacement Bidder's Statement, TGM is a disclosing entity for the purposes of the Corporations Act, and is subject to regular reporting and disclosure obligations. This includes the continuous disclosure of any information that TGM has concerning it that a reasonable person would expect to have a material effect on the price or value of its securities. Such information is readily available publicly and (as noted at section 1.7 of the Bidder's Statement) a number of items will be provided to Focus Shareholders free of charge and upon request to TGM.

Notwithstanding this, Focus has corresponded with TGM querying certain matters relating to TGM. As a result, TGM makes the following additional statements to assist Focus Shareholders notwithstanding that this information is readily available publicly or can be readily ascertained from such information:

- As noted at section 2.1 of the Replacement Bidder's Statement, TGM has various classes of securities on issue. These include 16,220,000 unlisted performance rights. The performance hurdles, vesting dates and expiry dates of these performance rights are all set out on page 35 of TGM's annual financial report for the year ended 30 June 2021 (released by TGM to ASX on 1 November 2021). The performance hurdles are all project related (with the intention of incentivising performance that benefits TGM and TGM shareholders as a whole). Based on the current number of TGM Shares on issue, vesting of all of these performance rights would dilute existing TGM Shareholders by approximately 3.0%.
- In addition to these performance rights, there are currently 41,169,786 TGM options on issue with expiry dates and exercise prices as specified in section 2.1 of the Replacement Bidder's Statement. These exercise prices are all between A\$0.275 and A\$0.50. To be exercised, these options will require cash proceeds to be paid by the option holder(s) to TGM in return for the issue of the resultant TGM Shares. Based on the current number of TGM Shares on issue, exercise of all of these options would dilute existing TGM Shareholders by approximately 7.3% but would result in cash proceeds for TGM of approximately \$16.16 million.
- TGM has released a Pre-Feasibility Study (**PFS**) for its TGME Underground Project to ASX on 13 April 2021. This PFS included a capital cost estimate (dated February 2021) for TGM's three underground operations. These capital costs were all developed in South African Rand (ZAR) and converted to USD (TGM's reporting currency) at an exchange rate of ZAR/USD of 15.89. That PFS noted a total capital requirement of US\$78.5 million, but that the peak funding requirement is US\$37 million (over the first three years of the project) with the remaining capital to be funded from cash flow. The PFS also noted that the TGME Underground Project has a projected EBITDA of \$US241.2 million over the life of mine (of 7.67 years), and a net present value of US\$91.2 million¹. Further to this, TGM has clearly stated in its Replacement Bidder's Statement (see section 1.2) that:
 - TGM is progressing a Definitive Feasibility Study for the TGME Underground Project which is scheduled to be delivered in 2022²;
 - TGM is targeting project commissioning (of the TGME Underground Project) in 2023;
 - following finalisation of the Definitive Feasibility Study, TGM will assess the further funding requirements for the commissioning of its TGME Underground Project (it being noted, for completeness, that a Definitive Feasibility Study will have a greater level of certainty than a Pre-Feasibility Study);
 - TGM anticipates that such funding would be by way of a mix of debt and equity (with the proportions yet to be determined); and
 - to the extent that equity capital is required, this will necessarily dilute TGM shareholders (with the level of dilution depending upon the size of the equity issue).

Equity capital may also be required to be raised by TGM (which will, in turn, dilute TGM Shareholders) in order to meet TGM's obligations under existing financing arrangements (as described in the Replacement Bidder's Statement at section 2.1). This includes, but is not limited

¹ Subject to the factors and assumptions set out in the PFS, including obtaining the necessary funding to develop the project – see TGM announcement of 13 April 2021, "Pre-Feasibility Study for Initial Underground Projects". See also the "Production Targets and Forecast Financial Information" notice in the "Important Information" section of the Replacement Bidder's Statement on page 2.

² This is expected to be released in Q2 of 2022 – see TGM announcement of 13 January 2022 "Incorporation of the Rietfontein Mine into TGME Underground Mine's Definitive Feasibility Study". As announced on 13 January 2022, TGM proposes to extend the existing PFS to add the Rietfontein Mine to the mine schedule for the PFS (noting that Rietfontein requires validation from metallurgical testwork that is still in progress and is expected in Q2, 2022).

to, equity raised pursuant to TGM's existing at-the-market facility with Acuity Capital. Obviously, any such dilution would also impact holders of New TGM Shares (who receive those shares as consideration under the Offer). Focus Shareholders should bear this in mind when assessing the Offer.

4. RISK FACTORS

Section 8 of the Replacement Bidder's Statement sets out certain risks that investors in TGM (including those persons who receive New TGM Shares under the Offer) may be exposed to. The list is not (and is not expressed to be) exhaustive. However, in relation to certain specific matters:

- Section 8.2(i) ("Risks associated with a minority stake") outlines scenarios where TGM is able to acquire control of Focus³, and where it is not so able. In the control scenario, it outlines the risk that (with both TGM and Shandong Gold as substantial holders) remaining Focus Shareholders could experience lower levels of liquidity. Obviously this (and the possibility of resultant lower trading prices) may also apply in circumstances where TGM is not able to acquire control and Shandong Gold remains as a substantial or controlling shareholder of Focus⁴.
- Section 8.2(k) ("Financing risks and capital requirements") notes that TGM currently has no producing assets and does not generate any revenue; and that Focus' Coolgardie Project is currently in care and maintenance and Focus has suspended mining operations. While this section makes it clear that TGM's ability to effectively implement its strategy over time will depend in part on its ability to obtain sufficient capital; and that any additional financing that TGM undertakes may dilute TGM Shareholders, TGM notes that these factors (relating to access to funding and dilution) will apply to both the development of TGM's own TGME Underground Project and (if TGM is able to acquire control of Focus⁵ and further Focus funding is required notwithstanding the receipt of proceeds of the Focus Entitlement Offer⁶) to the resumption of mining operations at Focus' Coolgardie Project.

5. TGM'S INTENTIONS

Section 5.3(d)(i) of the Replacement Bidder's Statement makes it clear that, if TGM acquires control of Focus pursuant to the Offer⁷, it would use Focus' cash reserves (including the proceeds of the recent Focus Entitlement Offer) and Focus' undrawn loan facilities (to the extent they are available on appropriate terms) to continue (and expedite to the extent possible) the planned resumption of operations at Focus' Coolgardie Project or in further developing the Laverton assets. To be clear:

- TGM is not proposing to use Focus' cash reserves or available loan funds⁸ for the development of TGM's projects (and TGM anticipates raising its own funding to develop its projects (via a mix of

³ Which can only occur if Shandong Gold accepts the Offer (in respect of those Focus Shares to which the Offer relates) and a large proportion of minority Focus Shareholders also accept the Offer. In relation to Shandong Gold's intentions see section 1 of this Second Supplementary Bidder's Statement above.

⁴ Note in particular Shandong Gold's publicly stated intentions as outlined at section 1 of this Second Supplementary Bidder's Statement above.

⁵ See footnote 3 above.

⁶ As appears contemplated by Focus in the Focus Entitlement Offer Booklet of 3 December 2021 at section 5.3 – noting the risk of further dilution of Focus Shareholders to fund "working capital and development requirements".

⁷ See footnote 3 above.

⁸ In respect of which loan funds TGM has very little visibility. TGM notes that the terms and conditions of the Shandong Gold loans have not, to TGM's knowledge, been disclosed publicly.

debt and equity) on the basis set out in the Replacement Bidder's Statement and at section 3 of this Second Supplementary Bidder's Statement); and

- TGM's proposition is that it believes it can add value to the development of Focus' projects (for the benefit of all Focus Shareholders) for the reasons set out in the Replacement Bidder's Statement.

6. TAXATION CONSIDERATIONS FOR NON-RESIDENT FOCUS SHAREHOLDERS

Section 7.5 of the Replacement Bidder's Statement outlines some of the potential consequences for non-Australian resident Focus Shareholders who accept the Offer. That section notes (amongst other things) that non-Australian resident Focus Shareholders (who hold their Focus Shares on capital account) will generally not have to pay Australian tax on any capital gain arising on disposal of Focus Shares unless several conditions are met.

Those conditions are where:

- the relevant Focus Shareholder (together with its associates) owns a 'non portfolio interest' of at least 10% of Focus either at the time it disposes of its Focus Shares, or for at least 12 months during the 24 months before it disposes of its Focus Shares; and
- more than 50% of the value of Focus is represented by real property in Australia.

The Replacement Bidder's Statement notes that pursuant to the foreign resident CGT withholding tax rules (and unless an exemption applies) a buyer (here TGM) is required to withhold and pay (in cash) to the ATO an amount equal to 12.5% of the capital proceeds paid for the acquisition of Focus Shares from non-Australian resident Focus Shareholders. This will be 12.5% of the market value of the TGM Shares issued to acquire the Focus Shares.

TGM will be required to withhold a portion of the Offer Consideration (in accordance with the foreign tax resident CGT withholding rules) where:

- (a) TGM knows that the Focus Shareholder is a foreign resident for Australian income tax purposes; or
- (b) TGM reasonably believes that the Focus Shareholder is a foreign resident for Australian income tax purposes; or
- (c) TGM does not reasonably believe that the Focus Shareholder is an Australian resident for Australian income tax purposes and either the Focus Shareholder has an address outside of Australia (according to any record that is in TGM's possession or is kept or maintained on TGM's behalf about the disposal of Focus Shares) or TGM is authorised to provide a related financial benefit to a place outside Australia; or
- (d) the Focus Shareholder has a connection outside Australia of a kind specified in the relevant tax regulations.

The foreign resident CGT withholding tax rules aim to facilitate the collection of CGT from foreign resident sellers and should only apply to the disposal of Focus Shares where a Focus Shareholder meets the following conditions:

- (a) it is a non-resident of Australia for Australian income tax purposes; and
- (b) it (together with its associates) owns at least 10% of Focus either at the time it disposes of its Focus Shares or for at least 12 months during the 24 months before it disposes of its Focus Shares; and
- (c) more than 50% of the value of Focus is represented by real property in Australia.

A relevant non-resident Focus Shareholder that does not meet the conditions of the foreign resident CGT withholding rules described above should provide TGM with a signed and completed foreign resident declaration form. The relevant form (which needs to be completed and returned by the non-resident shareholder) is available by contacting the Offer Information Line on 1300 737 760 (toll-free within Australia) or +61 2 9290 9600 (from outside Australia) Monday to Friday between 8.30am and 5.00pm (Sydney time). Where a non-resident Focus Shareholder has provided a signed and completed foreign resident declaration form, TGM should not be required to withhold the foreign resident CGT withholding amount. However, TGM will be required to withhold the foreign resident CGT withholding amount where it does not receive a signed and completed foreign resident declaration form by the applicable payment date. In this case, the relevant Focus Shareholder would only receive the net proceeds (including, where applicable, the requisite net number of New TGM Shares after an adjustment in respect of deduction on account of this amount to reduce the number of New TGM Shares provided). The deducted amount will be paid by TGM to the ATO.

This may also apply to the cash proceeds distributed to non-resident Focus Shareholders in accordance with the procedure outlined in section 9.3 of the Replacement Bidder's Statement.

A Focus Shareholder who believes that the disposal of their Focus Shares may trigger a foreign resident CGT withholding tax liability should obtain independent professional advice, and consider contacting TGM.

The foreign resident CGT withholding tax is not a final withholding tax. Accordingly, Focus Shareholders may be able to claim a credit for any foreign resident CGT withholding amount remitted on their behalf in their Australian income tax return for the relevant year. In addition, Focus Shareholders may apply to the ATO prior to the transaction to vary the rate of withholding down from 12.5% if the tax liability expected to arise from the disposal of Focus Shares is less than 12.5% of the Offer Consideration.

7. FOCUS ANNOUNCEMENT OF 18 JANUARY 2022

TGM notes Focus' ASX announcement of 18 January 2022 headed "Lancefield Far North Maiden Mineral Resource". In that announcement, Focus refers to a maiden inferred mineral resource of 33.9koz of gold for the Lancefield Far North deposit, part of Focus' Laverton Gold Project.

In the Replacement Bidder's Statement (including "Reasons to accept the Offer" – reason 4 (The Offer represents a logical combination of complementary assets)), reference is made to Focus' mineral resource estimates including inferred mineral resources of approximately 2.5Moz (based on announcements by Focus prior to the date of that document). When considering these references (and any references based on them) Focus Shareholders should have regard to the additional information contained in Focus' announcement of today's date.

Chairman's Letter

Dear Focus Shareholder,

On behalf of TGM, I am pleased to make you an offer for all of your Focus Shares that exist on the Register Date of 21 December 2021. This Offer does not extend to any Focus Shares issued after the Register Date, so does not extend to Focus Shares issued under the Focus Entitlement Offer.

TGM believes that the Offer presents a compelling opportunity for Focus Shareholders to realise value for their shareholding while continuing to have an indirect interest in the Focus assets (the size of which indirect interest will depend on the outcome of the Offer).

If TGM is able to acquire control of Focus pursuant to the Offer, the combination of TGM and Focus would create a Controlled Group with a significant presence on the ASX, with bases in South Africa and WA, and over 12Moz of gold resources under management (on a 100% basis, ignoring outside equity interests). Focus also has numerous old mine sites in the Eastern Goldfields with good grades and potential at depth and TGM believes its experienced underground mining management team could add value to any consideration of these assets.

As originally announced, TGM's Offer was subject to a condition that Focus not proceed with the Focus Entitlement Offer. Notwithstanding the concerns expressed by TGM (including that the Focus Entitlement Offer would likely entrench control for Shandong Gold at a significant discount and require Focus Shareholders to subscribe for further shares or risk being substantially diluted) Focus proceeded with the Focus Entitlement Offer which closed on 23 December 2021. As a consequence (and as disclosed by Focus in its announcement of 31 December 2021), Shandong Gold now has an interest in 63.18% of Focus Shares following the issue of Focus Shares under the Focus Entitlement Offer.

While this Offer only relates to Focus Shares in existence on 21 December 2021 (so does not relate to Focus Shares issued under the Focus Entitlement Offer), so as to permit this Offer to proceed, TGM will formally waive the Focus Entitlement Offer Condition and will not rely on any other Condition (including the prescribed occurrence conditions at paragraph (b)(iv) or paragraph (c)(iv) of Appendix 2) to the extent that those Conditions would be triggered by the completion of (or the issue of Focus Shares under) the Focus Entitlement Offer.

TGM did not extend its Offer to new Focus Shares issued under the Focus Entitlement Offer for a number of reasons. These include that it did not wish to encourage Focus to proceed with the Focus Entitlement Offer (and remained hopeful that Focus would withdraw the Focus Entitlement Offer); and because an Offer for all Focus Shares (including the substantial number of new Focus Shares issued under the Focus Entitlement Offer) would have constituted a 'reverse takeover' for the purposes of the ASX Listing Rules - requiring prior TGM shareholder approval. TGM wished to make a timely offer to Focus Shareholders (and, in particular, minority Focus Shareholders) without the delay of a prior shareholder approval.

Focus has indicated that it may seek to issue the residual shortfall shares not taken up under the Focus Entitlement Offer by way of placement at the discretion of the Focus directors. The waiver above does not extend to (and TGM has not agreed to waive any Condition that may be triggered by) any issue of residual shortfall shares following completion of the Focus Entitlement Offer (or any other issue of Focus Shares other than pursuant to the Focus Entitlement Offer) which would result in further dilution for Focus Shareholders.

Accepting the Offer

Please carefully read this Bidder's Statement. Full terms and all conditions of the Offer are set out in Appendix 1 and Appendix 2 of this Bidder's Statement.

I strongly encourage you to accept the Offer as soon as possible. The Offer is scheduled to close at 7.00 pm (Sydney Time) on 21 February 2022, unless extended or withdrawn. To accept the Offer, you must follow the instructions in the attached Acceptance Form.

If you require any assistance, please contact the Offer Information Line on 1300 737 760 (toll free within Australia) or +61 2 9290 9600 (normal charges apply) between 9.00 am and 5.00 pm (Sydney Time) Monday to Friday.

I look forward to receiving your acceptance and welcoming you as a shareholder in TGM.

Yours sincerely,

Theta Gold Mines Limited

Summary of reasons to accept the Offer

The TGM Board believes that there are a number of compelling reasons why you, as a Focus Shareholder, should accept the Offer, namely:

1. The Offer may provide a premium for your Focus Shares.
2. The ability for Focus Shareholders to exit a minority position in an illiquid company now overwhelmingly controlled by Shandong Gold – who, Focus says, may have interests that do not align with your own.
3. You will potentially benefit from greater diversification.
4. The Offer represents a logical combination of complementary assets.
5. You will have the opportunity to share in the potential upside of TGM's business.
6. TGM has an experienced management team.

These reasons are explained in further detail in this Bidder's Statement.

Frequently Asked Questions

You may have questions in relation to the Offer. The following set of questions and answers is intended to assist in your understanding of the Offer. They are qualified by, and should be read in conjunction with, the detailed information contained in Appendix 1 of this Bidder's Statement. You should read the Bidder's Statement in full before deciding whether or not to accept the Offer.

Part A of these Frequently Asked Questions deals with the Offer. Part B deals with TGM, its business and assets and TGM securities. Part C deals with risks relating to TGM, the Offer and the Controlled Group. Part D deals with other relevant questions.

PART A - OVERVIEW OF THE OFFER

No.	Question	Answer	Further information
1.	What is the Offer?	<p>TGM is offering to buy ALL of your Focus Shares that exist on the Register Date (of 21 December 2021) by way of an off-market takeover bid.</p> <p>The Offer does not extend to any Focus Shares issued after the Register Date (of 21 December 2021). It therefore does not extend to Focus Shares issued under the Focus Entitlement Offer.</p>	<i>Appendix 1 contains the full terms of the Offer. The answers to questions 2 to 4 and 14 to 27 explain other aspects of the Offer.</i>
2.	What will I receive if I accept the Offer?	<p>If you are not an Ineligible Foreign Shareholder, and you accept the Offer then, subject to satisfaction or waiver of the Conditions, you will receive 2 New TGM Shares for every 1 Focus Share (that existed on the Register Date) that you own.</p> <p>If you are an Ineligible Foreign Shareholder and you accept the Offer then, subject to satisfaction or waiver of the Conditions, you will receive the net proceeds of the sale of the New TGM Shares that you would have received from the Nominee.</p>	<p><i>Appendix 1 contains full terms of the Offer. Appendix 2 contains full terms of the Conditions. The answer to question 25 summarises the Conditions.</i></p> <p><i>Clauses 2 and 6.3 of the Offer Terms in Appendix 1 contain more information regarding Ineligible Foreign Shareholders and how their consideration will be provided. See also question 17 below.</i></p>
3.	What is the value of the Offer?	<p>If you are not an Ineligible Foreign Shareholder, then, because you are being offered New TGM Shares for the Focus Shares to which this Offer relates, the "value" of the Offer depends on the value or price of TGM Shares from time to time. By way of example, using the closing price of A\$0.180 for TGM Shares traded on ASX on the last day before the Announcement Date (being 8 December 2021), the Offer results in an implied value of A\$0.36 for each Focus Share.</p>	<p><i>Questions 5 to 12 and sections 1, 2 and 8 of this Bidder's Statement contain more information regarding TGM, its business and assets and the risks that apply to TGM.</i></p> <p><i>The section of this Bidder's Statement entitled "Reasons to</i></p>

No.	Question	Answer	Further information
		<p>TGM believes that its Offer represents an attractive premium to the price at which Focus Shares were trading prior to the Announcement Date. However, the implied value of the Offer may change as a consequence of changes in the market price of TGM Shares after the Announcement Date. For example:</p> <ul style="list-style-type: none"> • using the closing price of A\$0.16 for TGM Shares traded on ASX on 17 December 2021 (the last trading day before the Original Bidder's Statement was lodged with ASIC) results in an implied value of the Offer of A\$0.32 for each Focus Share; and • using the closing price of A\$0.16 for TGM Shares traded on ASX on 4 January 2022 (the date this Bidder's Statement was lodged with ASIC) results in an implied value of the Offer of A\$0.32 for each Focus Share. <p>If you are an Ineligible Foreign Shareholder, then because the New TGM Shares that you would have received will be sold, the amount of cash that you receive will depend on the price received for those New TGM Shares on the day that they are sold less selling expenses. There is no certainty as to what that price may be and this will affect the amount of cash that you might receive.</p>	<p><i>accept the Offer" contains the view of the TGM Board as to why they think you should accept the Offer.</i></p> <p><i>See clauses 2 and 6.3 of the Offer Terms in Appendix 1 for more information regarding Ineligible Foreign Shareholders and how their consideration will be provided.</i></p>
4.	When does the Offer close?	The Offer is currently scheduled to close at 7.00 pm (Sydney Time) on 21 February 2022, unless extended or withdrawn.

PART C - OVERVIEW OF RISKS

No.	Question	Answer	Further information
13.	Are there risks if I accept the Offer?	<p>Yes, if you accept the Offer, and it becomes unconditional, you will be issued New TGM Shares and TGM will acquire an interest in Focus. Many of these risks are beyond the control of the TGM Board and management.</p> <p>Section 8 of this Bidder's Statement provides a detailed explanation of some of these risks. Specifically, it deals with:</p> <ul style="list-style-type: none"> • risks related to the Offer and TGM (or the Controlled Group, in circumstances where TGM acquires control of Focus); • industry risks; and 	<i>See section 8 of this Bidder's Statement for full details of each of the risks.</i>

It does not extend to any Focus Shares issued after that date (including pursuant to the Focus Entitlement Offer).	
19.	If I accept the Offer, can I withdraw my acceptance?	You cannot withdraw or revoke your acceptance unless a withdrawal right arises under the Corporations Act. A withdrawal right will arise if, after you have accepted the Offer TGM varies the Offer in a way that postpones for more than 1 month the time that TGM has to meet its obligations under the Offer (for example, if TGM extends the Offer for more than 1 month while the Offer remains subject to any of the Conditions).	<i>Clause 8.1 of the Offer Terms set out in Appendix 1 contains more information as to the limited circumstances in which you may be able to revoke or withdraw your acceptance.</i>

23.	What happens if I do not accept the Offer?	<p>Subject to the explanation below, if you do not accept the Offer you will remain the holder of those Focus Shares to which the Offer relates.</p> <p>If you do not accept the Offer and TGM acquires control of Focus, then unless you sell your Focus Shares, you will remain a shareholder in Focus. In this case, TGM would be able to solely determine the outcome of ordinary shareholder resolutions that it is permitted to vote on and would have effective control over (amongst other things) the appointment and removal of directors of Focus and, consequently, the financial and operating policies and strategic direction of Focus.</p> <p>In these circumstances and, depending on the number of Focus Shares acquired by TGM, you may be a minority shareholder in what may be a less liquid stock.</p> <p>Given that Focus has proceeded with the Focus Entitlement Offer and that the Offer</p>	<p>Section 5.3 of the Bidder's Statement provides more information regarding TGM's intentions if it acquires control of Focus.</p> <p>See section 5.4 regarding TGM's intentions if it remains a minority holder of Focus Shares.</p>

This means that TGM will not be able to proceed to compulsory acquisition of the outstanding Focus Shares pursuant to Part 6A.1 of the Corporations Act. TGM may be able to acquire control of Focus under the Offer, but only if Shandong Gold accepts the Offer in respect of those of its Focus Shares to which the Offer relates and a large proportion of minority Focus Shareholders also accept the Offer. If a significant proportion of Focus Shareholders do not accept the Offer in respect of the Focus Shares to which this Offer relates, TGM cannot acquire control of Focus and will remain a minority shareholder.</p>

Reasons to accept the Offer

1. The Offer may provide a premium for your Focus Shares

The Offer may provide Focus Shareholders with an opportunity to receive a premium for those shares the subject of the Offer, particularly when compared to the price for the recent Focus Entitlement Offer (announced on 3 December 2021) of A\$0.25. The Focus Entitlement Offer entrenched control for Shandong Gold (the largest Focus Shareholder) at a significant discount and resulted in substantial dilution for minority Focus Shareholders who did not participate.

If, under the Offer, TGM acquires control of Focus (which can only occur if Shandong Gold accepts the Offer for those Focus Shares to which the Offer relates and a large proportion of minority Focus Shareholders also accept the Offer), accepting Focus Shareholders will become members of a larger and more geographically diverse group with a combined exploration portfolio of over 1,000km²¹ spread across the West Australian goldfields and South Africa. Should Shandong Gold not accept the Offer (for those Focus Shares to which the Offer relates), the Offer seeks to aggregate minority holdings in Focus and (with an increased holding and substantial management experience) may (depending on the Focus shareholding acquired) allow TGM to exercise influence to encourage the prompt development of the Focus assets.

The Offer also provides Focus Shareholders with the ability to retain indirect exposure (as shareholders of TGM) to Focus' portfolio of assets while potentially capturing a premium for their shareholding. The extent of this ongoing indirect exposure to Focus' assets will depend on the outcome of the Offer.

TGM is offering you 2 New TGM Shares for every 1 Focus Share (that existed as at 21 December 2021), which implies a value for the Focus Shares to which the Offer relates (as at 8 December 2021, the last trading day prior to the announcement of the Offer) of A\$0.36 per share.²

This represents attractive premiums of:

- (a) 41.2% to the closing price of Focus Shares on ASX of A\$0.255 on 8 December 2021;
- (b) 44.0% to the Focus Entitlement Offer price of A\$0.25;
- (c) 28.6% to the 30 day VWAP of Focus Shares on ASX of A\$0.280 to 8 December 2021;³ and
- (d) 31.1% to the 90 day VWAP of Focus Shares on ASX of A\$0.275 to 8 December 2021.⁴

¹ ~450km² per Focus' Website – Coolgardie Gold Project (as at 8 December 2021); and ~620km² per TGM 19 October 2021 Investor Presentation – IMARC Mines & Money 2021.

² TGM closing price on ASX of A\$0.18 on 8 December 2021. The implied value of the Offer will change as a consequence of changes in the market price of TGM Shares from time to time.

³ VWAP of A\$0.2799 for the 30 days up to and including 8 December 2021.

⁴ VWAP of A\$0.2745 for the 90 days up to and including 8 December 2021.

As at the date this Bidder's Statement was lodged with ASIC (4 January 2022), the Offer implies a value for your Focus Shares of A\$0.32 per share.⁵

This represents:

- (a) a discount of 1.5% to the closing price of Focus Shares on ASX of A\$0.325 on 4 January 2022;
- (b) a premium of 28.0% to the Focus Entitlement Offer price of A\$0.25;
- (c) a premium of 5.6% to the 30 day VWAP of Focus Shares on ASX of A\$0.3031 to 4 January 2022;⁶ and
- (d) a premium of 9.1% to the 90 day VWAP of Focus Shares on ASX of A\$0.2933 to 4 January 2022.⁷

2. **The ability for Focus Shareholders to exit a minority position in an illiquid company now overwhelmingly controlled by Shandong Gold – who, Focus says, may have interests that do not align with your own**

The Offer provides Focus Shareholders with an opportunity to exit their shareholding in Focus (other than any Focus Shares issued to them in connection with the Focus Entitlement Offer) and to become shareholders of an ASX-listed company with a strong management team and a greater free-float. Accepting Focus Shareholders will continue to have indirect exposure (as shareholders of TGM) to Focus' portfolio of assets, the extent of which will depend on the outcome of the Offer.

Following the close of the Focus Entitlement Offer, Shandong Gold's interest in Focus has increased from 49.53% to 63.18%. It acquired this increased control without paying a premium. Instead, it acquired the Focus Shares that entrenched its control at a significant discount of **15.4%** (to the 5 day VWAP of Focus Shares up to the close of trading on 2 December 2021). The price paid by Shandong Gold to move from 49.53% to 63.18% represents a discount of **23.1%** to the closing price of Focus Shares of \$0.325 on 4 January 2022, the date of this Bidder's Statement.

Focus itself has acknowledged a number of the implications of this, including that:

⁵ TGM closing price on ASX of A\$0.16 on 4 January 2022. The implied value of the Offer will change as a consequence of changes in the market price of TGM Shares from time to time.

⁶ VWAP of A\$0.3031 for the 30 days up to and including 4 January 2022.

⁷ VWAP of A\$0.2933 for the 90 days up to and including 4 January 2022.

- “If Shandong Gold’s voting power were to increase above 50%, it would be able to **solely determine** the outcome of ordinary shareholder resolutions that it is permitted to vote on, including **the issue of new shares beyond the limit set under the ASX Listing Rules**, and would have greater influence over the outcome of any special shareholder resolutions, including amendments to the Constitution of the Company”⁸;
- “there is ... a risk that Shareholders will be **further diluted as a result of future capital raisings required** in order to fund working capital and development requirements of the Company”⁹; and
- “Shandong Gold’s interests **may not always be aligned with the interests of the Company’s other shareholders**”¹⁰ (emphasis added).

Shandong Gold’s control of Focus is now entrenched. Shandong Gold is now in (and minority shareholders are subject to) the position foreshadowed above. Notwithstanding this, and contrary to TGM’s public request that it do so¹¹, Focus has not announced to ASX that it has put in place an independent board committee (excluding the Shandong Gold nominee directors) to consider and respond to the Offer. Nor did it announce that it had put in place an independent board committee to consider whether the Focus Entitlement Offer should have been withdrawn in light of the announcement of TGM’s takeover bid for Focus, notwithstanding the clear control effect of the Focus Entitlement Offer on Shandong Gold which has resulted in its level of control being entrenched at a significant discount.

Set against this backdrop (with the prospect of yet further dilution and the divergence of interests outlined by Focus) the Offer presents minority Focus Shareholders with an exit in a manner that will still give them some indirect exposure (as shareholders of TGM) to Focus’ portfolio of assets, the extent of which will depend on the outcome of the Offer. TGM believes that by aggregating the minority interests in Focus under TGM’s ownership, TGM would be able to exert more influence on Focus than minorities would otherwise be able to exert.

The Offer is not subject to a minimum acceptance condition and (despite Shandong Gold’s entrenched control) TGM would very much welcome an acceptance of the Offer by Shandong Gold (noting that as the Offer does not extend to Focus Shares issued under the Focus Entitlement Offer, the Offer can only be accepted by Shandong Gold in respect of half of its holding). If Shandong Gold were to accept the Offer, it would obtain a substantial interest in TGM of up to approximately 20.4% (if all Focus Shareholders accept the Offer) or 25.6% (if Shandong Gold is the only Focus Shareholder to accept the Offer). However, as noted above, the Offer is not subject to any minimum acceptance condition so will proceed even if Shandong Gold does not accept.

3. **You will potentially benefit from greater diversification.**

In TGM’s opinion, Focus’ current ownership structure discourages independent investors from acquiring shares. Focus has itself noted that “*there are low levels of institutional ownership on [Focus] current register*”; that “*[Focus] shares are considered to have low levels of stock liquidity*”; and that these and other factors have prevented Focus from securing any broker who could secure a sufficient level of sub-underwriting commitments from investors to effect

an underwriting of the Focus Entitlement Offer.¹² The Focus Entitlement Offer will not, in TGM's opinion, cure these issues, and may make them worse.

These factors all potentially result in the market value of Focus not reflecting its underlying resource base. In TGM's opinion, a combination of TGM and Focus would (if TGM secured sufficient acceptances and obtained control of Focus pursuant to the Offer) result in a larger group with a significant resource base and a less concentrated ownership structure (see further detail below). This in turn would likely lead to a more open share register – which should itself attract greater interest from third party investors, analysts and financiers.

TGM believes that if it obtains control of Focus (and subject to the outcome of the review referred to in section 5.3(c)) it may be able to develop Focus' assets (and in particular Focus' Coolgardie project) with less dilution to shareholders (such as that caused by the Focus Entitlement Offer).

Even in circumstances where Shandong Gold does not accept TGM's Offer, acceptance by minority shareholders of Focus could result in TGM acquiring a significant stake in Focus, which would (depending on the Focus shareholding acquired) give TGM greater influence in relation to Focus than individual minority shareholders are likely to have at present. This would, again, allow TGM to seek to exercise influence over Focus in a manner which seeks to enhance value for all shareholders of Focus and of TGM.

In summary, Focus Shareholders who accept TGM's Offer will maintain an indirect exposure to Focus' assets (the extent of which will depend on the outcome of the Offer) but also gain exposure to TGM's portfolio of gold assets.

4. The Offer represents a logical combination of complementary assets

The Controlled Group¹³ would have a combined holding of complementary assets (diversified across both the Western Australian goldfields and South Africa) at a similar pre-definitive feasibility study stage and the opportunity to benefit from the capabilities and experience of a combined management team. It may also have an opportunity for cost synergies resulting from the sharing of resources including personnel and corporate functions.

The combination of TGM and Focus (that would result if TGM acquired control of Focus pursuant to the Offer) is logical and would create a combined group with a JORC compliant Mineral Resource under management of approximately 12.3Moz (reported on a 100% basis).¹⁴ TGM's Mineral Resources are reported as total Mineral Resources (on a 100% project basis). As TGM's projects are located in South Africa, 26% of the equity in the project holding subsidiary companies is held by local shareholders to comply with South African Black Economic Empowerment (BEE) requirements. TGM holds the remaining 74% interest in those project holding subsidiary companies. Notwithstanding this, as TGM has funded the development of the projects, there are significant loan balances owing from the project holding

¹² See generally the Focus Offer Booklet of 3 December 2021 at paragraph 1.6.

¹³ References to the Controlled Group are to a situation where TGM acquires control of Focus pursuant to the Offer which will only be possible if Shandong Gold accepts the Offer (in respect of those of its Focus Shares to which the Offer relates) and a large proportion of minority Focus Shareholders also accept the Offer.

subsidiary companies to TGM. These loan balances (plus interest) may, at TGM's discretion, be paid in priority to any dividends or distributions from the project holding subsidiary companies to their shareholders. As a result, up to 100% of the free cashflows generated by the projects may be paid to TGM until those loan balances (including interest) are satisfied. As at 30 November 2021, the value of these loan balances (including interest) was approximately A\$79 million.

TGM, Focus and combined Pro Forma Mineral Resource Estimates (Moz)¹⁵

More specifically, the JORC compliant Mineral Resource estimates for TGM (on a standalone basis) is set out below.

TGM – JORC compliant Mineral Resource Estimate (reported on a 100% project basis)¹⁶

Measured			Indicated			Inferred			Total		
Tonnes	Grade	Gold	Tonnes	Grade	Gold	Tonnes	Grade	Gold	Tonnes	Grade	Gold

In addition to Mineral Resources, TGM has reported total Proved Ore Reserves of 8.16koz and total Probable Ore Reserves of 571.29koz across its projects (each reported on a 100% project basis).¹⁷

Focus has reported:

- for its Coolgardie project, total Ore Reserves of 422koz (comprising Proved Ore Reserves of 65.5koz and Probable Ore Reserves of 356.5koz)¹⁸; and
- for its Laverton project, total Probable Ore Reserves of 546koz.¹⁹

¹⁵ See footnote 14 above.

¹⁷ TGM Ore Reserve estimates extracted from TGM's ASX announcement dated 8 April 2021 "Initial Maiden Underground Mining Reserve" (reported on a 100% project basis). Note, however, TGM's ASX announcement dated 25 October 2021 "TGME Project Permitting Update" regarding the declaration of a forest nature reserve over 607 hectares (out of some 62,000 hectares) in tenement areas. See further detail above regarding 26% interest in project holding companies held by BEE interests.

¹⁹ Focus Ore Reserve estimates extracted from Focus announcement dated 16 April 2021 "Updated Laverton Stage 1 Open Pit PFS Progressive Results".

In terms of potential production, both TGM and Focus have released extensive pre-feasibility studies in relation to their respective projects.²⁰ Each of these is detailed and contains a number of assumptions (including, importantly as to funding and capital expenditure requirements to progress these projects to development). However, drawing on information disclosed in these pre-feasibility studies:

- (1) TGM estimates (on the basis of its pre-feasibility study) that its TGME underground project could produce an average of 51.038koz of gold per annum over a life of mine of 7.67 years.²¹ TGM's estimates are reported on a 100% project basis. See further detail above regarding 26% interest in project holding companies held by BEE interests.
- (2) Focus estimates (on the basis of its pre-feasibility study) that its Coolgardie project could produce an average of 63koz of gold per annum (mostly from open pit production) over 6 years.²²
- (3) Focus estimates (on the basis of its pre-feasibility study for Stage 1) that its Laverton project could produce an average of 51.3koz of gold per annum over 10 years.²³

If TGM were to acquire control of Focus pursuant to the Offer, aggregating these figures would result in a potential aggregate production estimate for the Controlled Group of approximately 165koz of gold per annum under management (reported on a 100% project basis).²⁴ Of this, TGM would only be entitled to such proportion of Focus' potential aggregate production as equated to its percentage interest in Focus at the time, and see further detail above regarding 26% interest in project holding companies held by BEE interests.

Given that the Offer does not extend to any shares issued under the Focus Entitlement Offer, even if TGM were able to acquire control of Focus pursuant to the Offer, it could not acquire a relevant interest of 90% or more of the Focus Shares on issue (so will not be able to proceed to compulsory acquisition). Accordingly, Focus would have ongoing minority shareholder interests. As noted above, TGM would not have a full entitlement to all economic benefits attributable to the Focus Mineral Resource or any potential Focus production (and would obviously need to manage the Focus assets in the interests of all Focus Shareholders, including any remaining minority).

The Focus announcement notes that production will vary from year to year over the life of mine and this figure has been derived by dividing the total estimated gold production over the stated 10 year period.

²⁴ Based on a simple addition of the previously reported figures derived from the TGM and Focus pre-feasibility studies (on a 100% project basis). As noted above, this figure is subject to a number of assumptions (including, importantly as to funding and capital expenditure requirements to progress to development) and is based on annualised average figures which may not reflect the actual production profile in a given year. The above figures also assume that development can occur at the same time. Any development of these projects will be subject to a number of risks. See further information in section 8.

5. Opportunity to share in the potential upside of TGM's business

By accepting TGM's Offer, Focus Shareholders will gain exposure to the potential upside from TGM's growth prospects. These include the potential development of TGM's Sabie-Pilgrims Rest Goldfields Project in north-east South Africa.²⁶

TGM is well serviced by existing plant and infrastructure (situated at its TGME underground project) that is easily accessible by road and has connection to grid power and water. Further, TGM has office buildings, machinery sheds and a tailings storage facility.

6. TGM has an experienced management team

TGM has a highly skilled and credentialed management team with experience gained in the top tier mining jurisdictions of Australia and South Africa. This team has a proven history of successfully taking projects from exploration through to production. TGM believes that this team could provide additional project execution skills and modern day exploration and operating techniques to assist with the restart of Focus' projects in a timely and cost-efficient manner. Such assistance could be provided in circumstances where TGM is able to acquire control of Focus pursuant to the Offer.²⁷ It could, however, also be offered to Focus in circumstances where the Offer results in TGM holding a minority, but substantial, interest in Focus.

As indicated in the diagram below, Focus' historical capital expenditure on exploration over the five-year period to September 2021 has resulted in limited returns to Focus Shareholders on their investment - TGM considers that if it is able to provide management input and assistance it is well placed to address this and bridge the opportunity gap.

²⁵ See footnotes 20 - 24 above. Refer also to statements above regarding TGM and Focus minority interests.

²⁶ See further information contained in TGM's 2021 Annual Report released to ASX on 1 November 2021. See also the risks described in sections 8.2 to 8.4 of this Bidder's Statement.

²⁷ This can only occur where Shandong Gold accepts the Offer (in respect of those Focus Shares to which the Offer relates) and a large proportion of minority Focus Shareholders also accept the Offer.

Comparison of Focus' Cumulative Exploration Expenditure (A\$'000) to Cumulative Change in Market Cap²⁸

A comparison between Focus and its ASX-listed peer companies (with core projects in proximity to the Laverton and Coolgardie areas) shows that Focus has incurred the highest exploration expenditure. This is demonstrated in the diagram below.²⁹ TGM considers that there are inefficiencies inherent in this approach and that Focus' large cash outlay has not rewarded shareholders with a value uplift or brought any of the underlying projects into production. This can be contrasted with the demonstrated returns that have been experienced by shareholders in Focus' ASX-listed peer companies.

²⁸ Exploration expenditure sourced from Focus Quarterly Cashflow Reports (the aggregate value of "exploration and evaluation" in both operating and investing activities) over the period from September 2016 to September 2021. If TGM is not able to acquire control of Focus pursuant to the Offer (which will occur if Shandong Gold does not accept the Offer), TGM considers that it can add value as a Focus Shareholder. This would be via a combination of its Focus shareholding (which, as noted above, may give it more influence than any existing minority shareholder in Focus, assuming a strong level of acceptances from minority Focus Shareholders) and the management and project development experience of its senior team. TGM could also offer to provide operational resources to Focus (which may assist in a tight labour market).

See sections 1.3 and 1.4 of this Bidder's Statement for more detail about the TGM Board and management team.

1 INFORMATION ON TGM

1.1 OVERVIEW OF TGM

TGM is a gold exploration and development company that holds a range of prospective gold assets in a world-renowned South African gold mining region. These assets include several surface and near-surface high-grade gold projects which provide cost advantages relative to other gold producers in the region. TGM's shares are listed on the Australian Securities Exchange (ASX: TGM).

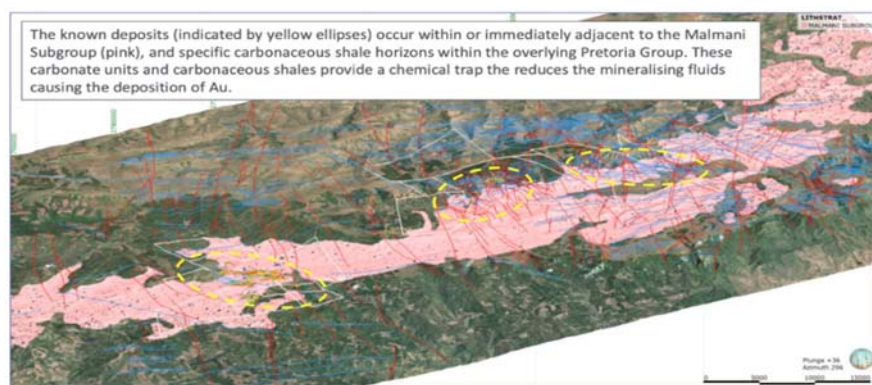

Through its controlling subsidiaries (74% equity interest) in South Africa, TGM's gold assets include:

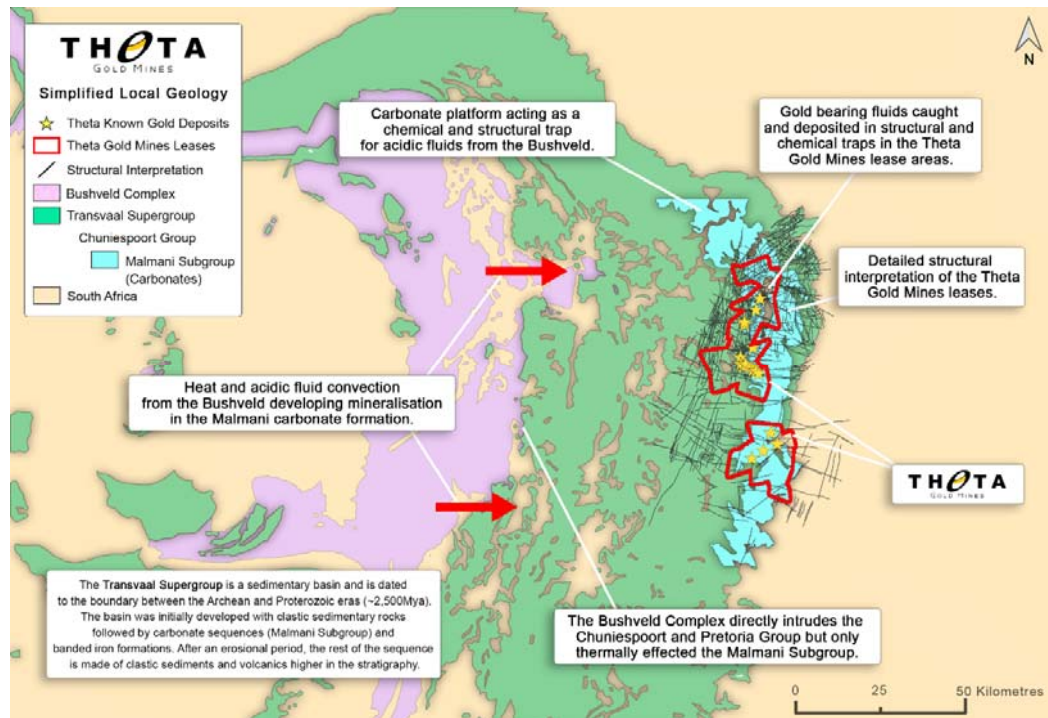

- (a) over 62,000 hectares of gold mining rights which covers the majority of the Eastern Transvaal Gold Fields approximately 350km East of Johannesburg;
- (b) over 6.1Moz Au of a shallow underground and open-pit resources (on a 100% project basis – see further detail above regarding 26% interest in project holding companies held by BEE interests); and
- (c) a plant and Tailings-Storage-Facility on-site, ready to be expanded for production.

1.2 OVERVIEW OF TGM'S OPERATIONS

TGM's core project is located next to the historical gold mining town of Pilgrim's Rest, in Mpumalanga Province, some 370km northeast of Johannesburg by road or 95km north of Nelspruit (Capital City of Mpumalanga Province). Following small scale production from 2011 – 2015, TGM is currently focussing on the construction of a new gold processing plant within its approved footprint at the Transvaal Gold Mining Estates (TGME) plant, and for the processing of the initial ore reserves.

TGM's TGME Underground Project capitalizes on 130 years of mining history and underground development. Phase-1 of the project includes 3 mines – Frankfort, CDM, and Beta. TGM's goal is to simply extend the ore drives and stopes of existing mine's complex to extract high-grade gold ore for processing at its gold plant.

TGM's total Mining Reserve is 580,000oz³⁰ including 419,000oz³¹ of Probable Ore Reserves which was included in the mine schedule for the TGME Underground Project. Currently, there are 3.5 Moz of global underground inferred mineral resource across the ground holdings that have potential to be converted into Proven/Probable Ore Reserves as exploration sampling, drilling, and underground development is extended into new zones of gold reefs. These figures are reported on a 100% project basis – see further detail above regarding 26% interest in project holding companies held by BEE interests.

TGM has completed a Prefeasibility Study (PFS)³² on the first three mines as a demonstration that these large, narrow, tabular reefs systems can be mined with modern mechanized mining. The findings in the PFS have been further validated by trial mining to support a Definitive

An assessment of regional targeting priorities has been carried out by CSA Global for TGM with the intention of assisting in exploration strategies with regard to tenement acquisition and exploration priorities. Based on the reviewed mineral systems model, conceptual target areas have also been defined to focus future exploration efforts.

TGM is currently focused on the big picture strategy to deliver long term organic growth, with projects focusing on the evaluation and permitting of six mines, targeting 160,000 ounces per annum (on a 100% project basis), with the TGME Underground Project (Phase 1) incorporating the first three mines. In April 2021 TGM declared a maiden underground mining reserve of 419,000 oz @ 5.49 g/t gold (on a 100% project basis). This first Maiden Underground Prefeasibility Study and Mining Reserve is based on only 16% of the 4.5m oz Au underground gold resource and incorporates only three mines out of a total of 43 historical mines across the project area.

TGM's Phase 1 project Definitive Feasibility Study is scheduled to be delivered during Q1 2022, and all environmental licensing requirements are scheduled to be concluded during 2022, with targeted project commissioning in 2023, producing up to 70,000 oz per annum (on a 100% project basis).³⁴ Project commissioning is subject to a number of factors and assumptions as set out in the PFS, including TGM obtaining the necessary funding to develop the project.³⁵ TGM aims to build a solid production platform to over 160,000 oz per annum (on a 100% project basis) by systematically developing TGM's Phase 2 and Phase 3 projects, incorporating other mines across TGM's mining rights, which provide build-up flexibility and further growth potential.

Following finalisation of its Definitive Feasibility Study, TGM will assess the further funding requirements for the commissioning of its TGME Underground Project. It is anticipated that such funding would be by way of a mix of debt and equity (with the proportions yet to be determined). To the extent that equity capital is required, this will necessarily dilute existing TGM shareholders (with the level of dilution depending upon the size of the equity issue).

On request to TGM and free of charge, Focus Shareholders may obtain a copy of:

A substantial amount of information about TGM is available in electronic form from: <https://thetagoldmines.com/>. A list of ASX Announcements made by TGM since 30 June 2021 is set out in Annexure A.

2 INFORMATION ABOUT TGM SECURITIES

2.1 TGM SECURITIES

As at the date of this Bidder's Statement, TGM's issued and granted securities consisted of:

- 525,432,336 TGM Shares;
- 5,000,000 options expiring 30 June 2022 with an exercise price of \$0.50;
- 3,158,353 options expiring 27 April 2022 with an exercise price of \$0.40;
- 7,500,000 options expiring 31 July 2023 with an exercise price of \$0.275;
- 18,571,433 options expiring 30 September 2023 with an exercise price of \$0.40;
- 400,000 options expiring 31 December 2022 with an exercise price of \$0.30;
- 1,900,000 options expiring 31 December 2025 with an exercise price of \$0.50;
- 3,200,000 options expiring 30 September 2025 with an exercise price of \$0.40;
- 640,000 options expiring 30 September 2025 with an exercise price of \$0.50;
- 800,000 options expiring 30 September 2022 with an exercise price of \$0.30;
- 16,220,000 performance rights; and
- 15 Bearer Bond Notes 2021/2023 with a face value of \$400,000 each and an aggregate value of \$6,000,000 (being, secured bonds to be redeemed no later than 31 January 2023, carrying a 20% per annum coupon rate, payable in cash semi-annually in arrears).

None of these securities will be varied or accelerated as a consequence of the Offer. To the extent any TGM Shares are issued on any subsequent exercise or vesting of the above options and performance rights, such issues will dilute all existing holders of TGM Shares (including any holders of New TGM Shares received pursuant to the Offer).

TGM also has an undrawn A\$15 million 'at-the-market' facility with Acuity Capital with an expiry date of 31 July 2023.⁴⁰ TGM can draw down funds by way of share issue at up to a 10% discount to the then TGM share price. TGM has already placed 24 million TGM Shares with Acuity Capital as security for this arrangement (that have not yet been paid for). Any draw down of funds that required an issue of TGM shares in excess of 24 million shares would cause dilution to existing holders of TGM Shares (including any holders of New TGM Shares received pursuant to the Offer). There is no requirement for TGM to use this facility and TGM may terminate it at any time, without cost or penalty.

TGM anticipates that it can meet any obligations to repay financing (including Bearer Bond) interest and principal charges out of existing cash reserves, the undrawn Acuity Capital facility referred to above, the proceeds any of future debt or equity financings, and/or potential early cash flows from the development of TGM's TGME Underground Project.

⁴⁰ See TGM ASX announcement of 25 March 2021 "\$15 Million At-The-Market-Facility".

A summary of the main rights and liabilities attaching to TGM Shares is set out below. This summary does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities attaching to the New TGM Shares. Such rights and liabilities involve complex questions of law arising from the interaction of the constitution and statutory and common law requirements. Subject to the TGM Constitution, every shareholder is entitled, on a show of hands, to one vote and on a poll, to one vote for each fully paid share held by that shareholder (and a fraction of a vote for each partly paid share).

(e) **Dividends**

The TGM Board may pay any interim and final dividends that, in its judgement, the financial position of TGM justifies. Subject to any rights or restrictions attached to any shares or class of shares, all dividends must be paid equally on all shares, except that a partly paid share confers an entitlement only to the proportion of the dividend which the amount paid (not credited) on the share is of the total amounts paid and payable (excluding amounts credited). When resolving to pay a dividend, the TGM Board may direct payment of the dividend from any available sources permitted by law.

The TGM Board may establish share reinvestment and dividend selection plans on terms that it decides.

As noted above, TGM does not currently pay dividends.

(f) **Winding up**

If TGM is wound up, the liquidator may, with the authority of a special resolution, divide among the shareholders the whole or any part of the property of TGM and how the division is to be carried out as between the shareholders or different classes of shareholders.

(g) **Transfer of shares**

Generally, TGM Shares are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a breach of the laws of Australia or a court order and the transfer not being in breach of the Corporations Act, the ASX Listing Rules and the ASX Settlement Operating Rules.

(h) **Alteration of capital**

The issue of shares, options to acquire shares and other securities with rights of conversion to shares to any person is under the control of the TGM Board.

A director must retire from office no later than the longer of the third annual general meeting or three years following their last appointment.

A retiring director is eligible for re-election. The TGM Board may appoint a person as a director to fill a casual vacancy who then must retire at the next annual general meeting following their appointment. The company may appoint a director by a resolution passed at a general meeting.

(l) **Amendments**

In accordance with the Corporations Act, the TGM Constitution can only be varied by a special resolution of shareholders.

Project Status: Exploration and development

The Coolgardie Gold Project covers 138km² of tenements on the outskirts of the Coolgardie township in the Goldfields region.

The assets include a 1.4Mtpa processing plant at Three Mile Hill and the Tindals Mining Centre.⁴² The Tindals Mining Centre comprises a large underground operation with a stated gold endowment of approximately 2,500 ounces per vertical metre.⁴³

⁴¹ Focus announcement of 3 December 2021 "Plan to Resume Gold Mining at Coolgardie".

⁴² 1.2Mtpa per Focus' Website – Coolgardie Gold Project (as at 9 December 2021); and 1.4Mtpa per Focus announcement of 3 December 2021 "Focus Minerals Announces \$45.69M Non-Renounceable Entitlement Offer", page 4.

⁴³ Per Focus' Website – Coolgardie Gold Project (as at 9 December 2021).

In 2013 Focus suspended production in Coolgardie in response to lower gold prices. It thereafter undertook exploration of the wider Coolgardie area within the Focus tenements while looking to expand near mill mineable reserves. The Tindals Mining Centre was placed on care and maintenance in preparation for the resumption of operations.

Focus completed a Pre-Feasibility Study into a potential resumption of gold mining operations at Coolgardie in 2020, and (as noted above) has developed a resumption plan targeted at recommencing operations at Coolgardie in 2022. The resumption plan contemplated a number of actions, including an additional loan facility from Shandong Gold. Simultaneously with the announcement of the resumption plan, Focus announced the Entitlement Offer. However, Focus also noted that it may require additional funding (over and above the Entitlement Offer) depending on the progress of the resumption plan.⁴⁴

In December 2021, Focus announced a maiden mineral resource of 45,600 ounces of Green Light Gold Deposit.⁴⁵

(b) **Laverton Gold Project**

Project Status: Exploration and development

The Laverton Gold Project covers 362km² of tenements, including the historic Lancefield and Chatterbox Trend mines, on the outskirts of the Laverton township in the Goldfields region. Focus' priority target is to confirm sufficient gold mineralisation at the Beasley Shear Zone, Lancefield-Wedge Thrust, Karridale and Burtville to support a Stage 1 production restart at Laverton.

As part of its acquisition of Crescent Gold in 2011, Focus acquired the 1.45Mtpa Barnicoat plant which sits central to the majority of the Laverton operations.⁴⁶ Barnicoat was refurbished in 2008 and has been kept on care and maintenance. Focus has undertaken a number of scoping studies to assess the opportunities for recommissioning and or expanding the mill.

3.8 PUBLICLY AVAILABLE INFORMATION ABOUT THE FOCUS GROUP

Focus is a listed disclosing entity for the purposes of the Corporations Act and as such is subject to regular reporting and disclosure obligations. Specifically, as a listed company, Focus is subject to the ASX Listing Rules which require continuous disclosure of any information Focus has concerning it that a reasonable person would expect to have a material effect on the price or value of its securities.

In addition, Focus is required to lodge various documents with ASIC. Copies of documents lodged with ASIC by Focus may be obtained from or inspected at an ASIC office. A substantial amount of information about Focus, including its ASX filings are available in electronic form from its website <http://www.focusminerals.com.au/>.

The most recent audited financial statements of Focus for a full financial year are for the year ended 31 December 2020, which were lodged with the ASX on 31 March 2021. Since 31 March 2021, Focus has made a number of announcements to the ASX that may be relevant to its financial position (including its half-year interim financial report for the year ended 30 June 2021 which was lodged with the ASX on 13 September 2021). A copy of each of these announcements, including Focus' full-year financial report for the years ended 31 December 2020 and 31 December 2019 along with its interim financial reports for the half-years ended 30 June 2021 and 30 June 2020, may be obtained from the ASX.

In addition, the Corporations Act requires the Focus Directors to provide a Target's Statement to TGM Shareholders, setting out certain material information regarding Focus.

4 INFORMATION ON FOCUS' SECURITIES

4.1 FOCUS' ISSUED SECURITIES

According to documents provided by Focus to the ASX, Focus' issued securities consisted of 182,748,565 Focus Shares as at the Register Date. This does not include any Focus Shares issued after the Register Date (including under the Focus Entitlement Offer).

On 30 December 2021 and 31 December 2021, Focus announced that it had completed the Focus Entitlement Offer. All 103,810,080 Focus Shares allocated under the Focus Entitlement Offer were issued on 31 December 2021, increasing the number of Focus Shares on issue to 286,558,645. This Offer does not extend to Focus Shares issued under the Focus Entitlement Offer.

Focus Shares are quoted on the ASX.

4.2 DEALINGS IN FOCUS SHARES

(a) Previous four months

During the period beginning 4 months before the date of this Bidder's Statement and ending on the day immediately before the date of this Bidder's Statement, TGM or any associate of TGM has provided, or agreed to provide, consideration for Focus Shares under any purchase or agreement as follows:

- (i) TGM has purchased Focus Shares on-market between 12 November 2021 and 8 December 2021. A total of 1,842,436 Focus Shares have been acquired at an average price of \$0.2783501.
- (ii) The highest price paid for Focus Shares was \$0.31 on 22 November 2021.

Given that Focus did not withdraw the Focus Entitlement Offer, TGM also subscribed for 1,343,395 Focus Shares under the Focus Entitlement Offer (being TGM's full entitlement). This was on the basis that the Focus Entitlement Offer price of A\$0.25 was lower than the Offer Price and that participation by TGM would assist in minimising the control effect of Shandong Gold's participation in the Focus Entitlement Offer.

(b) Period before Offer

During the period starting on the date of this Bidder's Statement and ending on the date immediately before the date of the Offer, neither TGM nor any of its associates has provided, or agreed to provide, consideration for Focus Shares under any purchase or agreement.

(c) No escalation agreements

Neither TGM nor any associate of TGM has entered into any escalation agreement that is prohibited by section 622 of the Corporations Act.

(d) Valuation date – Reliance on ASIC Instrument

TGM may rely on the provisions of ASIC Corporations (Minimum Bid Price) Instrument 2015/1068 (**ASIC Instrument**). The ASIC Instrument provides relief from section 621(3) of the Corporations Act and allows a bidder up to 5 business days before the date of the offer to value the quoted securities being offered as part of the bid consideration, for the purposes of determining whether the value of its bid consideration at least equals the maximum value of consideration paid by the bidder

for bid class securities in the four months prior to the date of the offer. Relying on that relief, TGM may value the New TGM Shares to be provided under the Offer at any date nominated by TGM (the **Valuation Date**) within the 5 business days before the date of the Offer. The valuation is determined by calculating the VWAP of the TGM Shares in the ordinary course of trading on ASX during two trading days before the Valuation Date.

Under section 621(4A) of the Corporations Act (as inserted by the ASIC Instrument) the following information is provided:

- (i) the value of TGM Shares under section 621(4A): \$0.1592; and
- (ii) the trading days on which the valuation is based: 12 January 2022 and 13 January 2022.

The value of the Offer per New TGM Share for the purposes of section 621 of the Corporations Act, using the valuation methodology under the ASIC Instrument, is therefore \$A0.3184. This value equals or exceeds the maximum value of consideration paid by TGM for Focus Shares in the 4 months prior to the date of the Offer. As TGM Shares are listed on the ASX, the market price can fall as well as rise and may be subject to varied and unpredictable influences. Accordingly, as Focus Shareholders will receive a specified number of New TGM Shares, the implied value of the Offer may fluctuate depending on the market value of TGM Shares.

4.3 TRADING OF FOCUS SHARES

The latest recorded sale price of Focus Shares on ASX before the Announcement Date was A\$0.255 as at the close of trading on ASX on 8 December 2021.

The 30 day VWAP of Focus Shares on ASX before the Announcement Date was A\$0.280.⁴⁷

The 90 day VWAP of Focus Shares on ASX before the Announcement Date was A\$0.275.⁴⁸

The latest recorded sale price of Focus Shares on ASX before the Original Bidder's Statement was lodged with ASIC was A\$0.27 as at the close of trading on ASX on 17 December 2021.

The latest recorded sale price of Focus Shares on ASX before this Bidder's Statement was lodged with ASIC was A\$0.325 as at the close of trading on ASX on 4 January 2022.

The highest recorded sale price of Focus Shares on the ASX before the date on which this Bidder's Statement was lodged with ASIC and after the Announcement Date was A\$0.39.

4.4 DIVIDENDS

As far as TGM is aware, no dividends have been paid to Focus Shareholders.

4.5 NO PRE-OFFER BENEFITS

(a) Previous four months

Other than as set out in this Bidder's Statement, during the period beginning 4 months before the date of this Bidder's Statement and ending on the day immediately before the date of this Bidder's Statement, neither TGM nor any of its associates

⁴⁷ VWAP of A\$0.2799 for the 30 days up to and including 8 December 2021.

⁴⁸ VWAP of A\$0.2745 for the 90 days up to and including 8 December 2021.

gave, or offered to give, or agreed to give a benefit to another person which was likely to induce the other person, or an associate of the other person, to:

- accept the Offer; or
- dispose of Focus Shares,

and which is not offered to all holders of Focus Shareholders under the Offer.

(b) **Period before Offer**

Other than as set out in this Bidder's Statement, during the period starting on the date of this Bidder's Statement and ending on the date immediately before the date of the Offer, neither TGM nor any of its associates gave, or offered to give, or agreed to give a benefit to another person which was likely to induce the other person, or an associate of the other person, to:

- accept the Offer; or
- dispose of Focus Shares,

and which is not offered to all holders of Focus Shareholders under the Offer.

5 TGM'S INTENTIONS

5.1 INTRODUCTION

This section sets out TGM's intentions in relation to the following:

- the continuation of the business of Focus;
- any major changes to be made to the business of Focus, including any redeployment of the fixed assets of Focus; and
- the future employment of the present employees of Focus.

Those intentions have been formed on the basis of the facts and information regarding Focus, and the general business environment, which are known to TGM at the time of preparation of this Bidder's Statement. This information is limited to publicly available information. Final decisions on these matters have not been made and will only be reached in the light of all material facts and circumstances at the relevant time, including once TGM has had an opportunity to conduct a review of Focus' operations and assets as referred to below. Accordingly, the statements set out in this section are statements of current intentions only, which may vary as new information becomes available or circumstances change.

5.2 TGM CANNOT ACQUIRE 100% OF FOCUS UNDER THE OFFER

Given that:

- Focus has proceeded with the Focus Entitlement Offer (and TGM will waive the Focus Entitlement Offer Condition set out at paragraph (a) of Appendix 2);
- Focus has issued 103,810,080 new Focus Shares pursuant to the Focus Entitlement Offer; and
- this Offer only relates to Focus Shares that existed on the Register Date of 21 December 2021 (and therefore does not extend to new Focus Shares issued under the Focus Entitlement Offer),

TGM will not be able to acquire a relevant interest in 90% or more of the Focus Shares under this Offer. This means that TGM will not be able to proceed to compulsory acquisition of the outstanding Focus Shares pursuant to Part 6A.1 of the Corporations Act. Rather:

- if all Focus Shareholders to whom the Offer is made (including Shandong Gold in respect of those Focus Shares to which this Offer relates) were to accept the Offer, TGM could acquire an interest in Focus of approximately 64.24%; and
- if fewer Focus Shareholders to whom the Offer is made were to accept the Offer (including in circumstances where Shandong Gold does not accept the Offer), TGM will end up with a minority interest in Focus. See section 6.3 for further detail.

While TGM would very much welcome an acceptance of the Offer by Shandong Gold, it does not know Shandong Gold's current intentions. TGM emphasises that the Offer is **not** subject to a minimum acceptance condition.

5.3 INTENTIONS UPON GAINING CONTROL OF FOCUS

This section describes TGM's intentions if, by the end of the Offer Period, TGM holds a sufficient number of Focus Shares to exercise control over operations and management of Focus such that Focus becomes a controlled entity of TGM (noting, as described at section 5.2 above, that TGM will not be able to acquire a relevant interest in 90% of Focus Shares or to proceed to compulsory acquisition in accordance with Part 6A.1 of the Corporations Act pursuant to the Offer). TGM will only be able to acquire control of Focus if Shandong Gold accepts the Offer (in respect of its Focus Shares to which the Offer relates) and a large proportion of minority Focus Shareholders also accept the Offer. While TGM would very much welcome an acceptance of the Offer by Shandong Gold, it does not know Shandong Gold's current intentions. TGM emphasises that the Offer is **not** subject to a minimum acceptance condition.

If TGM acquires control of Focus, then TGM would be able to solely determine the outcome of ordinary shareholder resolutions that it is permitted to vote on and would have effective control over (amongst other things) the appointment and removal of directors of Focus and, consequently, the financial and operating policies and strategic direction of Focus.

In these circumstances, TGM's current intentions are as follows:

(a) **ASX Listing**

Subject to continued compliance by Focus with the ASX listing rules (including Focus maintaining a sufficient spread of shareholders), TGM intends to maintain Focus' listing on the ASX (although Focus Shareholders should be aware that in this circumstance the liquidity of Focus Shares on the ASX may be materially diminished).

(b) **Directors**

Subject to the Corporations Act and Focus' constitution, TGM intends to change the make-up of the Focus Board by appointing nominees of TGM. TGM will consider the recommendations in the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations when determining the composition of the Focus Board.

Replacement Focus Board members have not yet been finally identified by TGM and their identity will depend on the circumstances at the relevant time. However, it is expected that the majority of the replacement Focus Board members will be members of the TGM management team with operational and/or Western Australia Goldfields experience.

At this time, TGM has not determined whether any current Focus directors would be removed and anticipates that it would not make such a determination without prior discussion with the Focus Board.

(c) **General operational review**

Given that TGM has only had access to publicly available information in respect of Focus, it is not in a position to form firm intentions in respect of the business of Focus and any changes to be made to that business. After the end of the Offer Period, TGM intends to propose to the Focus Board that an immediate, thorough broad-based review of Focus' assets, business, personnel and operations be conducted on both a strategic and financial level. TGM will seek to formalise this process following completion of the Offer.

TGM intends, subject to the approval of the Focus Board, to participate in this review.

(d) **Intentions in relation to conduct of business**

Currently, but subject to completion of the review referred to above (and after reviewing Focus' geological (and other) data that is not publicly available), TGM intends to:

- (i) continue with (and expedite to the extent possible) the planned resumption of operations at Focus' Coolgardie project, including by utilising Focus' existing cash reserves (including proceeds of the Focus Entitlement Offer) and, subject to paragraph 5.3(d)(vi) below, undrawn loan facilities (to the extent still available to Focus) as efficiently as possible for this purpose;
- (ii) carry out an independent review of Focus' pre-feasibility study for Coolgardie and Laverton with a view to progressing a definitive feasibility study, which includes an assessment of the 3 Mile Mill located at Coolgardie;
- (iii) undertake a geological review of Focus' other projects in the Eastern Goldfields;
- (iv) seek further de-risking of resource, mine evaluation and mill optimisation to target potential increases in the gold production rate, and potential increases in mine life for, Coolgardie and Laverton;
- (v) honour all of Focus' existing debt and service contracts known and Disclosed by Focus at the date of this Bidder's Statement; and
- (vi) consider the appropriate level of funding required to progress each project in, and the terms on which such funding can be obtained for, the Controlled Group.

(e) **Intentions in relation to current Focus employees**

Following the review undertaken by TGM referred to above, certain positions of the current Focus employees may become redundant, and employees may be redeployed or terminated to the extent that roles are duplicated and it is economically efficient to do so. If any employee is made redundant, they will receive, as a minimum, payment and other benefits in accordance with their legal and contractual entitlements. However, TGM notes the current high demand for employees in the mining industry and as such is committed to retaining as many employees as possible.

(f) **Dividends**

Focus does not currently pay dividends. The discretion to pay dividends is at the discretion of the Focus Board. TGM has not formed an intention about the current dividend policy of Focus. However given the likely anticipated funding requirements of the Controlled Group (including as contemplated by the pre-feasibility study that has been released by Focus) TGM does not anticipate that Focus would be paying dividends in the foreseeable future.

(g) **Further acquisitions or compulsory acquisition at a later time**

Following completion of the Offer, TGM will not be in a position to obtain 100% control of Focus. Accordingly, there will remain other shares in Focus not held by TGM. This will include all Focus Shares issued pursuant to the Focus Entitlement Offer. TGM may continue acquiring Focus Shares as a result of, for example, acquisitions of Focus Shares in reliance on the "3% creep" exception in item 9 of

section 611 of the Corporations Act or through participation in future Focus capital raisings including in reliance on the “rights issue” exception in item 10 of section 611 of the Corporations Act. It is possible that, even though TGM will not be entitled to proceed to compulsory acquisition of minority holdings after the end of the Offer Period under Part 6A.1 of the Corporations Act, it may subsequently become entitled to exercise rights of compulsory acquisition under Part 6A.2 of the Corporations Act following acquisitions of further Focus Shares or, if applicable, under Part 6A.1 if any further offer is made. If so, it may exercise those rights.

(h) **Limitations on intentions**

The ability of TGM to implement the intentions set out in this section 5.3, will be subject to the legal obligation of the TGM Board to have regard to the interests of Focus and all Focus shareholders, and the requirements of the Corporations Act and the ASX Listing Rules relating to transactions between related parties. TGM will only make a decision on the above-mentioned courses of action following legal advice in relation to those requirements.

5.4 INTENTIONS IF TGM DOES NOT ACQUIRE EFFECTIVE CONTROL OF FOCUS

This section sets out TGM's intentions if it acquires a minority shareholding in Focus, but does not gain effective control of Focus. This will occur if a significant proportion of Focus Shareholders do not accept the Offer in respect of the Focus Shares to which this Offer relates. TGM repeats that the Offer is **not** subject to a minimum acceptance condition.

In the circumstance contemplated by this section 5.4:

- TGM does not expect to be in a position to implement the intentions set out in section 5.3 of the Bidder's Statement, but would seek to exercise any influence it has; and
- TGM would have regard to the circumstances at the time and consider the appropriate courses of action that are in the best interests of TGM Shareholders. Such courses of action might include, but not be limited to, acquiring further Focus Shares as permitted by law, seeking representation on the Focus Board and exercising its voting rights as it deems fit. This would be done with a view to seeking to use its holding in Focus (and its substantial management expertise) to encourage the prompt development of the Focus assets.

5.5 OTHER INTENTIONS

Other than as set out in this section 5, it is the present intention of TGM:

- to continue the businesses of Focus as at the date of the Bidder's Statement;
- not to redeploy any of the fixed assets necessarily required to perform the business of Focus; and
- subject to the completion of its review referred to above, to maintain employment of Focus' existing operational employees.

6 EFFECT OF OFFER ON TGM AND PROFILE OF TGM FOLLOWING THE OFFER

6.1 INTRODUCTION

The profile of TGM (and, if TGM is able to acquire control of Focus pursuant to the Offer, the Controlled Group) will vary depending on the outcome of the Offer. A description of the Controlled Group in this section 6 assumes that Focus is controlled by (but not a wholly-owned subsidiary of) TGM.⁴⁹ If this is not the case, some of the benefits that would otherwise accrue to TGM if Focus were to become a controlled entity may not be realised.

Except as set out below, TGM does not anticipate that the Offer will have any significant effect on TGM or its board and management.

6.2 PROFILE OF TGM FOLLOWING THE OFFER

Following the completion of the Offer:

- (a) if TGM is able to acquire control of Focus pursuant to the Offer, the Controlled Group will have an expanded portfolio of diversified growth opportunities, across various stages of exploration and development under management on the basis of a combination of the assets held by both Focus and TGM; or
- (b) if TGM does not acquire control of Focus pursuant to the Offer, TGM will hold a minority interest in Focus.

6.3 EFFECT ON CAPITAL STRUCTURE

The actual number of TGM Shares on issue at completion of the Offer will depend upon the number of acceptances of the Offer. There are many potential scenarios, depending on the above factors, which will result in different effects on the capital structure of TGM.

If the Offer is accepted by all holders of Focus Shares to which this Offer relates (other than Focus Shares already held by or on behalf of TGM), TGM would have approximately 887.24 million fully paid ordinary shares on issue of which approximately 361.81 million (or 40.78%) would represent shares issued pursuant to the Offer. In this scenario (that all holders of Focus Shares to which the Offer relates accept):

- (a) Shandong Gold would obtain a substantial interest in TGM of up to approximately 20.4%; and
- (b) TGM would hold an interest in 64.24% of Focus Shares with Shandong Gold continuing to hold an interest in 31.59% of Focus Shares (and minority Focus Shareholders holding the remaining balance of 4.17% of Focus Shares).

If the Offer is accepted by all holders of Focus Shares to which this Offer relates other than Shandong Gold (and other than Focus Shares already held by or on behalf of TGM), TGM would have approximately 706.20 million fully paid ordinary shares on issue of which approximately 180.77 million (or 25.60%) would represent shares issued pursuant to the Offer. In this scenario (that all holders of Focus Shares to which the Offer relates other than Shandong Gold accept) TGM would hold an interest in 32.65% of Focus Shares with

⁴⁹ This will only be possible if Shandong Gold accepts the Offer in respect of those Focus Shares held by it to which the Offer relates and a large proportion of minority Focus Shareholders also accept the Offer. While TGM would very much welcome an acceptance of the Offer by Shandong Gold, it does not know Shandong Gold's current intentions. TGM emphasises that the Offer is **not** subject to a minimum acceptance condition.

Shandong Gold continuing to hold an interest in 63.18% of Focus Shares (and minority Focus Shareholders holding the remaining balance of 4.17% of Focus Shares).

If the Offer is not accepted by Shandong Gold but is accepted by minority Focus Shareholders representing 50% of the holdings of minority Focus Shareholders to which this Offer relates other than Focus Shares already held by or on behalf of TGM (that is, 45,193,088 Focus Shares), TGM would have approximately 615.82 million fully paid ordinary shares on issue of which approximately 90.39 million (or 14.68%) would represent shares issued pursuant to the Offer. In this scenario (that minority Focus Shareholders representing 50% of the holdings of minority Focus Shareholders to which this Offer relates accept) TGM would hold an interest in 16.88% of Focus Shares with Shandong Gold continuing to hold an interest in 63.18% of Focus Shares (and minority Focus Shareholders holding the remaining balance of 19.94% of Focus Shares).

The above scenarios are not the only scenarios which may apply.

In all potential scenarios, the number of TGM securities other than its fully paid ordinary shares on issue (such as TGM's options, performance rights and bonds on issue as set out in section 2.1) will not change as a result of the Offer. To the extent any TGM Shares are issued on exercise or vesting of these options and performance rights, such issues will dilute all existing holders of TGM Shares (including any holders of New TGM Shares received pursuant to the Offer).

6.4 PRO FORMA CONSOLIDATED FINANCIAL INFORMATION

(a) Basis of presentation of pro forma financial information

This section 6.4 provides an overview of the effects of the transaction on TGM in two scenarios. These assume:

- (i) (**Controlled Group**) TGM has an interest in 50.1% of Focus Shares on completion of the Offer; and
- (ii) (**minority interest**) TGM has an interest in 25% of Focus Shares on completion of the Offer.

In scenario (i), the pro forma consolidated financial information has been prepared on the basis that the pro forma balance sheet of the Controlled Group represents the pro forma consolidation of the balance sheets of TGM and Focus using the assumptions outlined in part (c) below. For the TGM Group, this represents the audited consolidated balance sheet as at 30 June 2021. For Focus, this represents the unaudited (but audit reviewed) interim consolidated balance sheet as at 30 June 2021.

In scenario (ii), the pro-forma financial information has been prepared on the basis of the balance sheet of TGM (representing a substantial but minority investment in Focus) and using the assumptions outlined in part (e) below. This is based on the audited consolidated balance sheet for the TGM Group as at 30 June 2021.

This section 6.4 should be read in conjunction with the underlying financial information from which it is derived, the risk factors set out in section 8, the accounting policies of TGM and Focus as contained in their financial statements and the notes to those financial statements, and other information contained within this Bidder's Statement.

Other than the pro forma balance sheets, the pro forma financial information presented in this section includes only information that has otherwise been publicly disclosed by TGM and the financial reports of Focus. The pro forma financial

information should be considered as indicative only and does not include the impact of any potential cost synergies available to the Controlled Group relating to the sharing of resources including personnel and corporate functions.

(c) **Scenario (i) - Pro forma adjustments and assumptions**

The pro forma balance sheet has been prepared on the basis of the following assumptions which contemplate the acquisition by TGM of a 50.1% controlling interest in Focus:

1. TGM would be required to issue 280,760,100 New TGM Shares to existing Focus Shareholders to acquire a 50.1% controlling interest in Focus (taking into account that it already held 3,185,831 Focus Shares at a cost value of \$848,691) at an implied price of \$0.36 per Focus Share in a scrip transaction with each TGM Share valued at \$0.18 (being the closing price on 8 December 2021, the last trading day before the Announcement Date). The total purchase price to acquire 50.1% of Focus Shares on issue at the date of this Bidder's Statement is therefore approximately \$50.54m using TGM's closing price on 8 December 2021 (the last trading day before the Announcement Date) of \$0.18.⁵⁰
2. Scenario (i) assumes 50.1% of Focus Shares are acquired and that TGM has formally waived the Focus Entitlement Offer Condition and will not rely on any other Condition (including the prescribed occurrence conditions at paragraph (b)(iv) or paragraph (c)(iv) of Appendix 2) to the extent that those Conditions would be triggered by the completion of (or the issue of Focus Shares under) the Focus Entitlement Offer.
3. In this scenario, the non-controlling interest holders' share of 49.9% of Focus of \$51.48m has been calculated on the same basis as in paragraph 1 above and is reflected in the pro forma balance sheet adjustments for scenario (i). The non-controlling interest holding has been calculated using TGM's closing price on 8 December 2021 of \$0.18.
4. Estimated costs of the Offer are \$500,000 which include legal fees, audit fees, financial advisory costs, consultants' fees, corporate compliance fees and regulatory and printing costs have been capitalised to exploration and evaluation assets in adjustments/eliminations.
5. A capital raising completed by TGM, raising \$10.37m (net of transaction costs) occurred in the period subsequent to 30 June 2021 and resulted in 21,266,870 TGM Shares being issued at \$0.21 per share and debt funding of A\$6m (by way of Bonds) being raised and is reflected in the 30 September 2021 Appendix 5B for TGM.
6. During the December 2021 quarter and included in adjustments/eliminations, TGM purchased 1,842,436 Focus Shares on market at a cost of \$512,842 and applied for and was allotted 1,343,395 Focus Shares under the Focus Entitlement Offer at a cost of \$335,849. TGM also received \$30,000 in proceeds net of fees, as part of remaining balance of its Share Purchase Plan resulting in TGM Shares issued at \$0.21.
7. Appendix 5B Cashflow entries as at 30 September 2021 for TGM and Focus are adjusted in the merged statement of financial position to include unaudited net cash inflows/(outflows) of \$7,183 and (\$5,821) for TGM and Focus respectively. TGM has converted its cashflow entries using the closing USD/AUD spot rate provided by the RBA of 0.7206 as at 30 September 2021.

⁵⁰ The Offer consideration is subject to change as the price of TGM Shares changes between the Announcement Date and the expiration of the Offer Period.

8. Fair value adjustment attributed to exploration and evaluation assuming TGM acquires 50.1% controlling interest of Focus under the Offer, based on the issue of 2 TGM Shares for each 1 Focus Share on issue as at the Register Date (being 280,760,100 New TGM Shares valued at \$50.54m taking into account that TGM already holds 3,185,831 Focus Shares).
9. Focus has noted in its offer booklet for the Focus Entitlement Offer (released to ASX on 3 December 2021) that the Shandong Loan Facility for US\$10m (A\$14m) may be drawn down and used to fund exploration and development. This is in addition to the \$20m Shandong Loan included in Focus' Balance Sheet as at 30 June 2021.
10. Tax effect accounting has not been adjusted in the pro-forma balance sheet.
11. TGM presentational reporting currency is in USD which has been converted to AUD in financial statements presented in this Bidder's Statement.
12. The pro-forma balance sheet is indicative only and will vary in aggregate as well as asset and liability classes following the comprehensive fair value assessment of Focus' assets and liabilities upon completion of the Offer including fair purchase price allocations and related tax effect accounting. Furthermore, the actual number of New TGM Shares on issue at completion of the Offer and the price paid to acquire shares in Focus will depend upon the number of acceptances of the Offer.

(e) **Scenario (ii) - Pro forma adjustments and assumptions**

The pro forma balance sheet has been prepared on the basis of the following assumptions which contemplate the acquisition of a minority interest of 25% in Focus by TGM:

1. The purchase price to obtain 25% of Focus of approximately \$24.6m, is included in adjustments for scenario (ii) and has been calculated using TGM's closing price on 8 December 2021 (the last trading day before the Announcement Date) of \$0.18.⁵¹ The purchase price will be satisfied by the issue of 136,907,661⁵² New TGM Shares at a ratio of 2 TGM Shares for every 1 Focus Share (in

⁵¹ The Offer consideration is subject to change as the price of TGM Shares changes between the Announcement Date and the expiration of the Offer Period.

⁵² The number of New TGM Shares has been calculated by taking the total number of Focus Shares on issue of 286,558,645 multiplied by 25% less the 3,185,831 Focus Shares already owned by TGM, multiplied by the implied offer price of \$0.36 per share and then divided by the price of TGM Shares on the date the offer was made, \$0.18 per share (286,558,645 x 25% - 3,185,831 x \$0.36 / \$0.18) = 136,907,661 New TGM Shares.

calculating the purchase price, 3,185,831 Focus Shares already held by TGM have also been taken into account at a cost of approximately \$848,691).

2. Assumes 25% of Focus Shares are acquired and that TGM has formally waived the Focus Entitlement Offer Condition and will not rely on any other Condition (including the prescribed occurrence conditions at paragraph (b)(iv) or paragraph (c)(iv) of Appendix 2) to the extent that those Conditions would be triggered by the completion of (or the issue of Focus Shares under) the Focus Entitlement Offer.
3. The 25% minority interest in Focus will be treated as an investment in an associate and equity accounted as shown in the pro-forma balance sheet adjustments for scenario (ii). All other assumptions are the same as those shown above at items 4 to 12 in scenario (i).

(f) **Focus financial information**

In preparing pro forma financial information, financial information regarding Focus was required. For the purposes of this Bidder's Statement, that information has been prepared based on publicly available financial information released by Focus and included in the financial reports for the year ended 31 December 2020, and interim financial statements for the 6 months to 30 June 2021.

TGM does not make any representation or warranty, express or implied, as to the accuracy or completeness of that information. Focus may release updated financial information in any target's statement which is sent to Focus Shareholders.

7 AUSTRALIAN TAXATION CONSIDERATIONS

7.1 INTRODUCTION

The following is an outline of the principal Australian income tax consequences applicable to a Focus Shareholder who disposes of their Focus Shares under the Offer. This outline reflects the current provisions of the *Income Tax Assessment Act 1936* (Cth) and the *Income Tax Assessment Act 1997* (Cth) and the regulations made under those Acts, taking into account TGM's understanding of the current administrative practices of the Australian Taxation Office. The outline does not otherwise take into account or anticipate changes in the law, whether by way of judicial decision or legislative action, nor does it take into account tax legislation of countries apart from Australia.

The following outline is not exhaustive of all possible Australian income tax considerations that could apply to Focus Shareholders. In particular, the summary is only relevant to those Focus Shareholders who hold their shares on capital account and it does not address all tax considerations applicable to Focus Shareholders that may be subject to special tax rules, such as banks, insurance companies, tax exempt organisations, superannuation funds, dealers in securities, Focus Shareholders who do not hold the Focus Shares on capital account or Focus Shareholders who hold the Focus Shares on behalf of another person. For Focus Shareholders who are non-residents of Australia for tax purposes, it is assumed that the Focus Shares are not held and have never been held, as an asset of a permanent establishment of that Focus Shareholder in Australia. This outline does not constitute tax advice, is not intended to and should not be used or relied upon by anyone, and we accept no duty of care to any other person or entity. Each Focus Shareholder should consult their own tax adviser regarding the consequences of acquiring, holding or disposing of their Focus Shares.

7.2 TAXATION ON THE DISPOSAL OF FOCUS SHARES

If you accept the Offer, you will be treated as having disposed of your Focus Shares for Australian income tax purposes. The disposal of a Focus Share will constitute a capital gains tax (CGT) event A1.

7.3 AUSTRALIAN RESIDENT FOCUS SHAREHOLDERS

You will realise a capital gain in connection with the disposal of a Focus Share to the extent that the amount you receive (or will receive) for the disposal of that Focus Share as determined in accordance with the tax law is more than the CGT cost base of that Focus Share. You will realise a capital loss to the extent that the amount you receive (or will receive) is less than the CGT reduced cost base of the Focus Share. Capital losses can usually only be offset against capital gains you realise in the same income year or in later income years.

Generally, the cost base of a Focus Share should be the total amount you paid for the Focus Share, your acquisition costs and other costs relating to the holding and disposal of the Focus Share, to the extent to which you have not claimed an income tax deduction for such costs. The reduced cost base of a Focus Share is usually determined in a similar, but not identical, manner.

There are a number of circumstances which may result in your cost base or reduced cost base being calculated in a different manner to that outlined above. We recommend that you consult your tax adviser to confirm the cost base or reduced cost base of your Focus Shares.

Any net capital gain should be included in your assessable income for that income year. Broadly, your net capital gain in respect of an income year will be calculated by aggregating all of your capital gains realised in that income year and reducing that amount by your capital losses realised in that income year and any available net capital losses from prior years.

Focus Shareholders who are individuals, trusts or complying superannuation funds may be eligible for discount capital gains treatment in respect of a Focus Share if they have held that Focus Share for at least 12 months. Companies are not eligible for discount capital gains treatment.

If you realise a capital gain in connection with the disposal of your Focus Shares pursuant to the Offer, tax may be payable by you in respect of that disposal even though you receive TGM Shares (and not cash) under the Offer.

The above comments will not apply to you if you do not hold your Focus Shares on capital account. We recommend that those Focus Shareholders seek their own independent professional tax advice.

7.4 CGT ROLL-OVER RELIEF NOT AVAILABLE

CGT roll-over relief is only available where (amongst other things) a bidder acquires 80% or more of the original voting shares in the target company pursuant to the offer. Following the completion of the Focus Entitlement Offer, and as the Offer only relates to Focus Shares that existed on 21 December 2021 (so does not extend to any Focus Shares issued pursuant to the Focus Entitlement Offer) TGM will not be able to acquire 80% or more of the Focus Shares under the Offer. Accordingly, CGT roll-over relief will **not** be available to accepting Focus Shareholders.

As CGT Roll-Over Relief will no longer be applicable, Focus Shareholders who accept the TGM Offer will crystallise a CGT event in relation to the Offer where the value of the New TGM Shares accepted as a result of the Offer exceeds the cost base of the Focus Shares disposed of. Focus Shareholders will therefore be required to include in their taxable income any relevant capital gain in their income tax returns for the year of disposal. Focus Shareholders will be required to calculate their capital gain or capital loss on the basis that their capital proceeds will be the market value of the New TGM Shares received under the Offer at the time of disposal of the Focus Shares. The Focus Shareholder will be required to fund the taxation payable on the gain so included in their assessable income, if any, without any cash being realised as a result of the sale of their Focus Shares, unless the New TGM Shares received as consideration are subsequently sold.

Focus Shareholders will have a cost base for their New TGM Shares equivalent to the market value of the New TGM Shares received under the Offer at the time of disposal of the Focus Shares. The date of acquisition of the New TGM Shares received is the date when you enter into the contract to acquire the New TGM Shares for an unconditional offer or the latter of the date that the conditions of the Offer are satisfied or accepted for a conditional offer. Any capital gain or loss on the subsequent sale of the New TGM Shares will be determined based upon the difference of the consideration received from the sale of the New TGM Shares compared against the cost base of the New TGM Shares acquired under the Offer. New TGM Shares will need to be held for a minimum period of 12 months from the date of acquiring the New TGM Shares for CGT discount to apply, where applicable.

7.5 NON-RESIDENT FOCUS SHAREHOLDERS

If you are not a resident of Australia and accept this Offer, you may not be entitled to receive TGM Shares in exchange for your Focus Shares and may instead have the TGM Shares that you would otherwise be entitled to sold by a nominee in accordance with the procedure described in section 9.3.

If you are not a resident of Australia for income tax purposes, you will generally not have to pay Australian tax on any capital gain when you dispose of your Focus Shares, unless Focus Shares are deemed to be “taxable Australian property” where you, on ceasing to be an

Australian resident, make an election under s104-165 or both of the following requirements are satisfied:

- you hold a “non-portfolio interest” in Focus; and
- the Focus Shares pass the principle asset test.

If either element is absent, any capital gain made on the disposal of your Focus Shares should not be subject to income tax in Australia.

You will hold a “non-portfolio interest” in Focus if you (together with your associates) own at the time of disposal, or have owned, throughout a 12-month period during the two years preceding the sale of your Focus Shares, 10% or more of (broadly) all of the shares in Focus.

Broadly, the Focus Shares would pass the principle asset test to be an indirect Australian real property interest if the market value of Focus’ assets that are taxable Australian real property (i.e real property situated in Australia, a lease of Australian land and mining, quarrying or prospecting rights where the materials are situated in Australia) is more than the market value of its other assets (including direct and indirect interests in overseas assets) at the time you accept the Offer. Detailed calculations are necessary to determine whether shares are “taxable Australian property”.

If you hold a “non-portfolio interest” in Focus, you should contact Focus to determine if the Focus Shares would be considered “taxable Australian property”.

If you are an individual and choose to disregard making a capital gain or a capital loss when ceasing to be an Australian resident, Focus Shares are taken to be taxable Australian property until the earlier of:

- a CGT event happening in relation to the asset (i.e. when you accept the offer), if the CGT event involves you ceasing to own the asset;
- you again become an Australian resident.

Taxation of any gain on the sale of the Focus Shares may also be subject to any Double Taxation Agreements entered into between Australia and your country of residence.

Pursuant to the foreign resident CGT withholding tax rules, unless an exemption applies, TGM is required to withhold 12.5% of the capital proceeds paid for the acquisition of Focus Shares from foreign shareholders and pay such amount withheld to the ATO. The Focus Shareholder would then only receive the net proceeds after deduction of this withheld amount and payment of the net proceeds will be taken to be full payment for the purposes of this Offer. In order to avoid any withholding, foreign residents that consider their Focus Shares to not be indirect Australian real property interests (and therefore not subject to CGT) should complete a Foreign resident capital gains withholding – vendor declaration form and provide this to TGM prior to the applicable payment date.

This should apply to the proceeds distributed to non-Australian resident Focus Shareholders in accordance with the process referred to in section 9.3. Non-Australian resident Focus Shareholders should seek their own advice in relation to the vendor declaration and the application of an exemption from CGT withholding in respect of the transaction.

The above comments will not apply to you if you do not hold your Focus Shares on capital account. We recommend that those Focus Shareholders seek their own independent professional tax advice.

You should seek advice from your tax adviser as to the taxation implications of accepting the Offer in your country of residence.

7.6 STAMP DUTY

Any stamp duty payable on the transfer of Focus Shares to TGM pursuant to the Offer will be paid by TGM (noting that the transfer of Focus Shares is not expected to give rise to any stamp duty liability). In addition, there should be no stamp duty payable by Focus Shareholders upon the issue to them of the New TGM Shares.

7.7 GST

The provision, acquisition or disposal of shares for non-monetary consideration will not be subject to GST. Accordingly, no GST should be payable on:

- the disposal of the Focus Shares to TGM;
- the issue of New TGM Shares; or
- the future disposal of New TGM Shares.

The ability to claim input tax credits on related acquisitions (if any) may be restricted. This is a complex area of the GST law and GST registered entities should seek their own professional tax advice in this regard.

8 RISKS

8.1 INTRODUCTION

The future performance of TGM and the future investment performance of the Shares may be influenced by a range of factors, many of which are outside the control of TGM. TGM is subject to risks that are both of a general nature and risks which are specific to its business activities.

This section describes what TGM considers to be some of the key risks associated with TGM's business, the industry in which it operates, and the risks associated with an investment in TGM. If the Offer becomes unconditional, Focus Shareholders who accept the Offer will become TGM Shareholders. In that event, Focus Shareholders will continue to be indirectly exposed to risks associated with having an interest in Focus' assets as well as general economic, share market and industry risks. There are also additional risks relating to TGM and, where relevant, the Controlled Group to which Focus Shareholders will be exposed through their holding of TGM Shares.

The risks listed in this section should not be considered to be an exhaustive list of every possible risk associated with accepting the Offer, the industry in which TGM operates, or the risks associated with an investment in TGM now or in the future. The types of risks to which TGM is exposed can change over time and vary with changes in economic, technological, environmental and regulatory conditions. The occurrence or consequences of some of these risks are partially or completely outside of the control of TGM, the Directors and TGM's senior management team.

The selection of risks is based on an assessment of a combination of the probability of the risk occurring, the ability to mitigate the risk and the impact of the risk if it did occur. They are not listed in order of likelihood of occurrence or impact. The assessment is based on the knowledge of the Directors and management as at the date of this Bidder's Statement, but there is no guarantee or assurance that the importance of these or other risks will not change or that no other new risks will emerge. Any of these risks, and any other risks that may emerge, may have a material adverse effect on the operations, performance and position of TGM. There can be no guarantee that TGM will achieve its stated objectives or that any forward-looking statements or forecasts will eventuate.

Before accepting the Offer, you should read the entire Bidder's Statement carefully and satisfy yourself that you have a sufficient understanding of the risks described in this section 8, together with the other information set out in this Bidder's Statement. You should also consider whether accepting the Offer is suitable for you in light of your investment objectives, financial situation, taxation position and particular needs. If you do not understand any part of this Bidder's Statement or have any questions about whether to accept the Offer, you should consult your accountant, financial adviser, stockbroker, solicitor or other independent and qualified professional adviser before deciding whether to accept the Offer.

This section deals with:

- risks related to the Offer and TGM (or the Controlled Group in circumstances where TGM acquires control of Focus);
- industry risks; and
- general risks.

8.2 RISKS RELATING TO THE OFFER AND TGM (OR THE CONTROLLED GROUP)

(a) **Limited withdrawal rights**

Once you have accepted the Offer for your Focus Shares, you have the right to withdraw your acceptance of the Offer only in limited circumstances. This means that a decision to accept the Offer may be irrevocable. Under Australian law, if after you have accepted the Offer and while it remains subject to conditions, the Offer is varied (such as by an extension of the Offer Period) so as to postpone for more than one month the time when TGM must meet its obligations under the Offer, you will be able to withdraw your acceptance. Otherwise, you will be unable to withdraw your acceptance of the Offer even if the market value of TGM Shares varies significantly from their value on the date of your acceptance of the Offer.

(b) **Issue of New TGM Shares as consideration**

Focus Shareholders are being offered consideration under the Offer in the form of a specified number of New TGM Shares (rather than a number of shares with a specified market value). As a result, the value of the consideration will fluctuate depending upon the market value of TGM Shares.

Furthermore, under the Offer, TGM will issue a significant number of New TGM Shares. Some Focus Shareholders may not intend to continue to hold their New TGM Shares and may wish to sell them on ASX. There is a risk that if a significant number of Focus Shareholders seek to sell their New TGM Shares, this may adversely impact the price of TGM Shares. Any New TGM Shares received by accepting Focus Shareholders under the Offer will have a cost base for capital gains tax purposes equivalent to the implied Offer Price. Any disposal of those New TGM Shares could have tax consequences for the selling shareholder. Focus Shareholders are recommended to seek independent professional advice in respect of their own particular circumstances.

(c) **Shandong Gold's acceptance of the Offer**

TGM understands that Shandong Gold is a 'foreign government investor' for the purposes of the *Foreign Acquisitions and Takeovers Act 1975* (Cth). Accordingly, the Commonwealth Treasurer has a broad range of powers to make orders regarding Shandong Gold's shareholding (including its receipt of New TGM Shares under the Offer) if the Treasurer considers that this is contrary to Australia's national interest or Australia's national security interests. These could, potentially, include prohibiting Shandong Gold from accepting New TGM Shares. If Shandong Gold accepts the Offer, this could result in TGM being deemed a 'foreign government investor' and this may affect TGM's ability to undertake future transactions without the Commonwealth Treasurer's approval.

(d) **Accounting for the Offer**

If TGM acquires control of Focus (which can only occur if Shandong Gold accepts the Offer in respect of its Focus Shares to which the Offer relates and a large proportion of minority Focus Shareholders also accept the Offer), then depending on the level of control it acquires, TGM may be required to perform a fair value assessment of all Focus' assets and liabilities if the Offer is successful. This assessment may result in increased non-cash depreciation and amortisation

charges. There is a risk that these charges may be substantially greater than those that would exist in TGM and Focus as separate businesses.

(e) **Integration risks**

If required, integrating two companies such as TGM and Focus may produce some risks, including integrating management, information systems and work practices. Any integration may take longer than expected and the anticipated efficiencies and benefits of that integration may be less than estimated. These risks include possible differences in the management culture of the two groups, inability to achieve synergy benefits and cost savings, and the potential loss of key personnel.

(f) **Synergy risks**

Whilst the directors of TGM anticipate that synergy benefits relating to the sharing of resources including personnel and corporate functions may potentially be realised in circumstances where TGM acquires control of Focus (which can only occur if Shandong Gold accepts the Offer in respect of its Focus Shares to which the Offer relates and a large proportion of minority Focus Shareholders also accept the Offer), achievement of these synergies is never certain. Synergies may not be realised to their full extent or may be realised over a longer period of time than the directors of TGM expect.

(g) **Change of control**

Focus may be a party to agreements that contain pre-emptive rights or change of control provisions that may be triggered if TGM acquires Focus Shares representing a majority of the voting rights in Focus. The operation of these change of control provisions, if triggered, could have negative consequences. These provisions may be waived with the consent of the other party and TGM would consider seeking such waivers if it discovered that pre-emptive rights or change of control provisions affecting Focus' assets or agreements may be triggered. In the absence of these waivers, the operation of any of these provisions could have an adverse effect on operations.

(h) **Change in risk and investment profile**

Focus Shareholders who accept the Offer will be exposed to risk factors relating to TGM, and in circumstances where TGM acquires control of Focus (which can only occur if Shandong Gold accepts the Offer in respect of its Focus Shares to which the Offer relates and a large proportion of minority Focus Shareholders also accept the Offer), to certain additional risks relating to the Controlled Group and the integration of the two companies. These include risks relating to the broader suite of assets held by both TGM and Focus.

(i) **Risks associated with minority stake**

As noted in section 5.2, TGM will not be able to acquire 100% of Focus Shares under the Offer.

If TGM acquires more than 50% of the Focus Shares (which, can only occur if Shandong Gold accepts the Offer in respect of its Focus Shares to which the Offer relates and a large proportion of minority Focus Shareholders also accept the Offer), TGM will hold a controlling interest in Focus. The remaining Focus Shareholders may be in a minority position in a company with a controlling shareholder whose objectives for the company may differ from their own. Focus would also have Shandong Gold as a continuing substantial shareholder (in respect of those Focus

Shares subscribed for by it under the Focus Entitlement Offer). Focus Shareholders could therefore also experience lower levels of liquidity in Focus Shares, which could result in a lower price for those Focus Shares should they wish to sell them in the future.

If TGM does not acquire more than 50% of the Focus Shares (which will be the case if a significant proportion of Focus Shareholders do not accept the Offer in respect of the Focus Shares to which this Offer relates) it will hold a non-controlling interest. This could have an impact on TGM's ability to realise its intentions regarding Focus (refer to section 5).

(j) **Unavailability of CGT scrip for scrip rollover relief**

TGM will not, pursuant to the Offer, be able to hold 80% or more of the Focus Shares. Focus Shareholders who sold their Focus Shares into the Offer will therefore be unable to elect scrip for scrip rollover. This means that for those Australian resident shareholders, for income tax purposes, who hold their Focus Shares on capital account and who would make a gain on disposal of their Focus Shares will be unable to disregard the gain and a capital gain would crystallise at the time of sale of their Focus Shares, even though the Offer Consideration is received entirely in New TGM Shares. A general summary of the tax consequences to Australia resident holders of Focus Shares as a result of accepting the Offer is set out in section 7.

(k) **Financing risks and capital requirements**

TGM is in an exploration phase and currently has no producing assets and does not generate any revenue. Focus' Coolgardie project is currently in care and maintenance and Focus has suspended all mining operations. TGM believes it may be able to develop Focus' assets (and in particular Focus' Coolgardie project) with less dilution to shareholders than the current Focus proposal (which gave rise to the Focus Entitlement Offer).

However, TGM's ability to effectively implement its business strategy over time, will depend in part on its ability to obtain sufficient capital. In particular, the resumption of mining operations at Focus' Coolgardie project would require further capital including for the purposes of re-testing and reconsidering the assumptions on which Focus' previous pre-feasibility studies for the Coolgardie were based.

Any additional financing that TGM (or, where relevant, the Controlled Group) undertakes in the future may dilute TGM Shareholders. The terms of any additional debt financing, if available, may impose further restrictions on TGM's (or, where relevant, the Controlled Group's) financing and operating activities. The ability to raise further capital (equity or debt) within an acceptable time, of a sufficient amount and on terms acceptable to TGM, will vary according to a number of factors, including stock market and industry conditions, results of exploration, and the outcome of feasibility studies. There can be no assurance that TGM (or, where relevant, the Controlled Group) will be able to obtain capital when required in the future, or that the terms and the time in which any such financing can be obtained will be acceptable to TGM. This may have an adverse effect on TGM's financial position, prospects and the proposed development of its projects.

Failure to obtain additional funding may also cause TGM to postpone any development plans, forfeit rights to some or all of its projects or reduce its operating structures, including staff and overhead levels, which may delay or suspend TGM's (or, where relevant, the Controlled Group's) business strategy and could have a

material adverse effect on activities or require TGM to sell down an interest in its projects or assets.

Failure to obtain additional funding (through capital raisings or otherwise) may also cause TGM (or, where relevant, the Controlled Group) to default in its payment obligations, including under the loan facilities Focus has in place with Shandong Gold (referred to in section 3.6 above) and the 2Invest AG Secured Bond (as described in paragraph (l) below). Any failure to meet payment obligations may heighten risks of insolvency or entry into voluntary administration.

One of Focus' loan facilities with Shandong Gold is denominated in United States dollars. TGM does not have any foreign exchange hedging and it is assumed that Focus does not either. As such, net asset positions may be negatively impacted if the Australian dollar weakens compared to the US dollar. Conversely, net asset positions may be positively impacted if the Australian dollar strengthens against the US dollar.

(l) **TGM's Repayment of 2Invest AG Secured Bond**

On 27 July 2021 TGM entered into a \$6,000,000 Secured Bond with 2Invest AG, which comprise of fifteen (15) 'bearer partial bonds', each with a face value of \$400,000. The full principal repayment of the bond is due by 31 January 2023 and is secured:

- (i) over all present and future dividends, distributions, sale proceeds, liquidation proceeds and other payments received by the Company's South African subsidiary, Transvaal Gold Mining Estates Limited (South Africa) (**Transvaal**); and
- (ii) by way of a grant of an option right to 2Invest AG to acquire all present and future shares in Transvaal.

The Secured Bond carries a cash coupon rate of 20% per annum payable half yearly in arrears.

Focus Shareholders should be aware of this borrowing by TGM and the obligation to pay interest of \$600,000 half yearly in arrears (total interest payable of \$1,800,000) as well as a principal repayment of \$6,000,000 on 31 January 2023. Any default of the terms of the Secured Bond will have material adverse consequences for TGM and the value of TGM Shares. TGM may mitigate this risk by prepaying the Secured Bond.

(m) **TGM going concern risk**

TGM's last financial statements contained a note regarding a going concern risk. Since the balance date for those financial statements, TGM has raised equity capital (pursuant to a capital raising) and issued Bonds to raise further debt funding.

However, it is always recognised that there is significant uncertainty to the realisation of any production revenue stream, both timing and quantum. To that extent any cash

forecast has been reviewed independently of production with recognition that further shortfalls in cash may be experienced before ongoing positive cashflow is achieved.

TGM takes comfort from ongoing shareholder and institutional investor support and the introduction of a new strategic bond investor as evidenced by the successful completion of its recent capital raising initiatives.

8.3 INDUSTRY RISKS

(a) Regulatory and permitting risks

Exploration, development and mining activities (including in relation to TGM's mining rights in South Africa) require approvals from regulatory authorities which may not be forthcoming or which may not be able to be obtained on acceptable terms. Failure to obtain any approvals would mean that the ability of TGM (or, where relevant, the Controlled Group) to develop or operate any project, or possibly acquire any project, may be limited or restricted either in part or absolutely. In relation to TGM's mining rights in South Africa, while TGM has no reason to believe that all requisite approvals will not be forthcoming and while TGM's obligations for expenditure will be predicated on any requisite approvals being obtained, investors should be aware that TGM cannot guarantee that any requisite approvals will be obtained.

(b) Resource and Reserve Estimates

There is a risk that stated Mineral Resources and Ore Reserves, which are estimates only, are incorrect. If those estimates are materially in excess of the recoverable mineral content of the tenements, the forecast production and financial performance of TGM, or Focus, or, where relevant, the Controlled Group would be adversely affected.

Mineral Resources which are not Ore Reserves may not have demonstrated economic viability. These estimates are prepared in accordance with the JORC Code 2012 and are expressions of judgement based on knowledge, experience and industry practice, and may require revision based on actual production experience which could in turn affect mining plans and ultimately financial performance and value. Estimates that are valid when made may change significantly when new information becomes available. In addition, gold price fluctuations, as well as increased production costs or reduced throughput and/or recovery rates, may render Reserves and Resources uneconomic and so may materially affect the estimates.

(c) TGM's Maintenance of Black Economic Empowerment (BEE) in South Africa

TGM must comply and remain compliant with certain black economic empowerment requirements in South Africa in order to retain its prospecting and mining rights. Any failure by TGM to satisfy and to continue to satisfy the black economic empowerment requirements could jeopardise the prospecting and mining rights in which the TGM Group holds an interest and impede its ability to acquire, develop or maintain any additional mining or prospecting rights.

(d) Sovereign risk (South Africa)

TGM carries out exploration activities in South Africa. As a result, TGM will be subject to political, social, economic and other uncertainties including, but not limited to, changes in policies or the personnel administering them, foreign exchange restrictions, changes of law affecting foreign ownership, currency fluctuations, royalties and tax increases in the country. The TGM Board believes that the Government of South Africa supports the development of natural resources by

foreign investors. However there are no assurances that political and economic conditions will not result in the Government adopting different policies regarding foreign development and ownership of mineral resources. Any changes in policy may result in legislative changes affecting ownership of assets, taxation, rates of exchange, environmental protection, labour relations, repatriation of income and return on capital all of which may affect TGM's ability to develop its business.

Potential risk to TGM's activities may occur if there are changes to the political, legal and fiscal systems which might affect the ownership and operation of TGM's interests in South Africa. This may also include changes in exchange control systems, expropriation of mining rights, changes in government and in legislative and regulatory regimes

(e) **External factors that may impede operational activities**

TGM's, Focus' and, where relevant, the Controlled Group's activities are subject to numerous operational risks, many of which are beyond the control of those entities. Activities may be curtailed, delayed or cancelled as a result of factors such as adverse weather conditions, mechanical difficulties, shortages or increases in the costs of consumables, spare parts, plant and equipment, external services failure, industrial disputes and action, IT system failures, mechanical failures and compliance with governmental requirements. Industrial and environmental accidents could lead to substantial claims against these entities for injury or loss of life, and damage or destruction to property, as well as regulatory investigations, penalties and the suspension of operations. The occurrence of any one or a combination of these events may have a material adverse effect on TGM's, or Focus' or, where relevant, the Controlled Group's performance and the value of its assets.

(f) **Exploration risk**

Exploration is inherently associated with risk. Notwithstanding the experience, knowledge and careful evaluation a company brings to an exploration project, there is no assurance that recoverable mineral resources will be identified. Even if identified, other factors such as technical difficulties, geological conditions, adverse changes in government policy or legislation or lack of access to sufficient funding may mean that the resource is not economically recoverable or may otherwise preclude TGM or, where relevant, the Controlled Group from successfully exploiting the resource.

(g) **Development and Mining Risk**

TGM's, Focus' and, where relevant, the Controlled Group's projects are at various stages of exploration and development. Ultimate and continuous success of activities is dependent on a number of factors including:

- (i) the discovery and/or acquisition of economically recoverable Ore Reserves;
- (ii) access to adequate capital to fund and develop its projects;
- (iii) construction of efficient development and production infrastructure within capital expenditure budgets;
- (iv) securing and maintaining title to interests;
- (v) obtaining regulatory consents and approvals necessary for the conduct of mineral exploration, development and production; and

- (vi) retention of appropriately skilled and experienced employees, contractors and consultants.

Operations may be delayed or prevented as a result of factors including weather conditions, mechanical difficulties or a shortage of technical expertise or equipment. There may be difficulties with obtaining government and/or third-party.

(h) **Environmental Regulation**

TGM's, Focus' and, where relevant, the Controlled Group's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is TGM's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events, such as unpredictable rainfall or bushfires, may impact on ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed for damages, clean-up costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or noncompliance with environmental laws or regulations.

The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous making TGM's or, where relevant, the Controlled Group's operations more expensive.

(i) **Tenure and access**

Tenements are subject to the applicable mining acts and regulations. The renewal of the term of a granted tenement is also subject to the discretion of the relevant Minister or government body. Renewal conditions may include increased expenditure and work commitments or compulsory relinquishment of areas of the tenements comprising TGM's, Focus' or, where relevant, the Controlled Group's projects. The imposition of new conditions or the inability to meet those conditions may adversely affect operations, financial position and/or performance. In addition, as Focus' Coolgardie project is currently in care and maintenance, approvals will be required prior to the commencement of any future mining operations on that project. There is no certainty that all of the necessary approvals will be granted.

(j) **Aboriginal Heritage and Native Title**

As Focus holds tenements in Western Australia, tenements are granted subject to a condition requiring observance of the *Aboriginal Heritage Act 1972 (WA)* (**WA Heritage Act**). The WA Heritage Act makes it an offence to alter or damage sacred ritual or ceremonial Aboriginal sites and areas of significance to Aboriginal persons. The Minister's consent is required where any use of land is likely to result in the excavation, alteration or damage to an Aboriginal site or any objects on or under that site. The existence of Aboriginal heritage sites within Focus' projects may lead to restrictions on the areas that TGM or, where relevant, the Controlled Group will be able to explore and mine.

In relation to tenements which Focus (or, where relevant, the Controlled Group) has an interest in or may in the future acquire an interest in, there may be areas over

which legitimate common law native title rights of Aboriginal Australians exist. If native title rights do exist, the ability of an entity to gain access to tenements (through obtaining consent of any relevant landowner), or to progress from the exploration phase to the development and mining phases of operations may be adversely affected.

(k) **Reliance on key personnel**

TGM's or, where relevant, the Controlled Group's ability to remain productive, profitable and competitive and to effect its planned growth initiatives, depends on its ability to attract and retain skilled labour. Tightening of the labour market in key regions due to a shortage of skilled labour, combined with a high industry turnover rate and growing number of competing employers for skilled labour, may inhibit an ability to hire and retain employees.

TGM is exposed to increased labour costs in markets where the demand for labour is strong. A shortage of skilled labour could limit TGM's (or, where relevant, the Controlled Group's) ability to grow its business or lead to a decline in productivity and an increase in training costs and adversely affect its safety record. Each of these factors could materially adversely impact its revenue and, if costs increase or productivity declines, its operating margins.

(l) **Fluctuation in commodity prices and foreign currency exchange rates**

International factors such as inflation, exchange rates, supply and demand and political and economic events, amongst other things, impact on gold prices, particularly in the current global economic market. As TGM and Focus are currently not in production, future revenue that may come from the sale of gold and future profits are related to and influenced by the market price of gold.

If the price of gold declines significantly in the future, this may materially impact TGM's or Focus' or, where relevant, the Controlled Group's ability to continue with projects. TGM gives no assurance that fluctuations in commodity prices and foreign currency exchange rates will not affect timing and viability of projects.

(m) **Competition Risk**

TGM (or, where relevant, the Controlled Group) will compete with other companies, including major gold companies in Australia and internationally. Some of these companies will have greater financial and other resources and, as a result, may be in a better position to compete for future business opportunities.

8.4 GENERAL RISKS

(a) **Investment and share market risk**

Focus Shareholders should be aware that there are risks associated with any investment in financial products quoted on a stock exchange.

Share market conditions may affect the value of TGM's quoted securities regardless of the TGM's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;

- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

Share price movements could affect the value of consideration paid under the Offer and the value of any investment in TGM regardless of TGM's performance. The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general. The past performance of TGM is not necessarily an indication as to future performance. Neither TGM nor the TGM Board warrant the future performance of TGM or any return on an investment in TGM.

In addition, the extent of the effects of COVID-19 is at this stage uncertain and continuing to evolve. The COVID-19 pandemic is having, and is expected to continue to have, a significant influence on the volatility of equity markets generally and may continue to impact and influence the value of TGM's quoted securities.

(b) **Tax risk**

Changes to income tax (including capital gains tax), GST, stamp duty or other revenue legislation, case law, rulings or determinations issued by the Commissioner of Taxation or other practices of tax authorities may change following the date of this Bidder's Statement or adversely affect the Controlled Group's profitability, net assets and cash flow. In particular, both the level and basis of taxation may change.

(c) **Economic conditions risk**

Operating and financial performance is influenced by a variety of general economic and business conditions, including levels of consumer spending, inflation, interest rates and exchange rates, supply and demand, industrial disruption, access to debt and capital markets and government fiscal, monetary and regulatory policies. Changes in general economic conditions may result from many factors including government policy, international economic conditions, significant acts of terrorism, hostilities or war or natural disasters. A prolonged deterioration in general economic conditions, including an increase in interest rates or a decrease in consumer and business demand, could be expected to have an adverse impact on operating and financial performance and financial position.

TGM is exposed to the impact of economic cycles and, in particular, how these cycles increase or decrease future capital expenditure by local governments and by energy and resources companies. These economic cycles are in turn impacted by a number of factors including: the fiscal conditions of the economy; government policies on capital expenditure; and commodity prices.

Future possible revenues and share prices can be affected by any and all of these factors, which are beyond the control of TGM and Focus.

(d) **Dividends**

Any future determination as to the payment of dividends by TGM will be at the discretion of the TGM Board and will depend on the financial condition of TGM, future capital requirements and general business and other factors considered relevant by the TGM Board. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by TGM. However given the likely

anticipated funding requirements of TGM or, where relevant, the Controlled Group, TGM does not anticipate paying dividends in the foreseeable future.

(e) **Changes in Legislation and Government Regulation**

Government legislation, including changes to the taxation system, may affect future earnings and the relative attractiveness of investing in marketable securities. Changes in government policy (such as in relation to taxation or media and entertainment) or statutory changes may affect the attractiveness of an investment in securities.

(f) **Force majeure events risk**

Events may occur within or outside Australia that could impact upon the Australian economy, TGM's operations and the price of TGM Shares. These events include, but are not limited to, acts of terrorism, an outbreak of international hostilities, fires, floods, earthquakes, labour strikes, civil wars, natural disasters, outbreaks of disease, uranium concentrate risk or other natural or man-made events or occurrences that can have an adverse effect on the demand for TGM's products and its ability to operate its assets. TGM has only a limited ability to insure against some of these risks.

(g) **Cyber security**

Increased cyber-security threats and computer crime also pose a potential risk to the security of information technology systems, including those of contracted third-party service providers, as well as confidentiality, integrity and availability of data stored on those systems. Any breach in information technology security systems could result in the disclosure or misuse of confidential proprietary information, including sensitive employer, employee or investor information maintained in the ordinary course of business.

Any such event could cause damage to reputation, loss of valuable information or loss of revenue and could result in large expenditures to investigate or remediate, to recover data, to repair or replace networks or information systems, or to protect against future events.

(h) **Climate Risk**

There are a number of climate-related factors that may affect the operations and proposed activities. The climate change risks particularly attributable to TGM (or, where relevant, the Controlled Group) include:

- (i) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. TGM (or, where relevant, the Controlled Group) may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact profitability. While TGM will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that TGM (or, where relevant, the Controlled Group) will not be impacted by these occurrences; and
- (ii) climate change may cause certain physical and environmental risks that cannot be predicted by TGM, including events such as increased severity

of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which TGM (or, where relevant, the Controlled Group) operates.

(i) **Coronavirus (COVID-19)**

The outbreak of the coronavirus disease (**COVID-19**) is impacting global economic markets. The nature and extent of the effect of the outbreak on performance remains unknown. The price of TGM Shares may be adversely affected in the short to medium term by the economic uncertainty caused by COVID-19. Further, any governmental or industry measures taken in response to COVID-19 may adversely impact TGM's (or, where relevant, the Controlled Group's) operations and are likely to be beyond their control.

In addition, TGM's South African projects may be impacted by international supply issues and the inability for TGM's workforce to move between locations. As a result of sudden and unpredictable border travel changes, freight of interstate supply items may be impacted which in turn may cause delays in the delivery of projects.

TGM has been monitoring the situation closely and has considered the impact of COVID-19 on business and financial performance. However, the situation is continually evolving, and the consequences are therefore inevitably uncertain.

(j) **Litigation risks**

Any listed mining entity is exposed to possible litigation risks (or disputes that may give rise to litigation) including contractual disputes, occupational health and safety claims and employee claims. Any such claim or dispute if proven, may impact adversely on operations, financial performance and financial position.

(k) **Insurance**

Insurance against all risks associated with mineral exploration is not always available or affordable. TGM will maintain insurance where it is considered appropriate for its needs, however it will not be insured against all risks - either because appropriate cover is not available or because the directors consider the required premiums to be excessive having regard to the benefits that would accrue.

The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on business, financial condition and results. There is no assurance that TGM (or, where relevant, the Controlled Group) will be able to maintain adequate insurance in the future at rates that it considers is reasonable.

8.5 RISKS NOT EXHAUSTIVE

The risks set out in this section 8 are not exhaustive of all the risks faced or that may be faced by Focus Shareholders. Accordingly, no assurances or guarantees of future performance or profitability are given by TGM or any of its officers or employees.

9 ADDITIONAL INFORMATION

9.1 DATE FOR DETERMINING HOLDERS OF SHARES

For the purposes of section 633 of the Corporations Act, the date for determining the people to whom information is to be sent under items 6 and 12 of section 633(1) is the Register Date. This Offer extends to Focus Shares that existed at the Register Date. It does not extend to any Focus Shares that may be issued after the Register Date (including those Focus Shares issued under the Focus Entitlement Offer).

9.2 ASIC MODIFICATIONS AND EXEMPTIONS, ASX WAIVERS

ASIC has published various “Class Order” instruments providing for modifications and exemptions that apply generally to all persons, including TGM, in relation to the operation of Chapter 6 of the Corporations Act. TGM may rely on this “Class Order” relief.

9.3 INELIGIBLE FOREIGN SHAREHOLDERS

This Bidder’s Statement does not constitute an offer of TGM Shares in any jurisdiction in which it would be unlawful. In particular, this Bidder’s Statement may not be distributed to any person, and the TGM Shares may not be offered or sold, in any country outside Australia except to existing Focus Shareholders to the extent permitted below.

For the purposes of the Offer an “**Ineligible Foreign Shareholder**” means a Focus Shareholder whose address shown in the Register is a place outside Australia and its external territories, New Zealand, Hong Kong or the United States (unless such person is not an accredited investor (as defined in Rule 501(a) under the US Securities Act of 1933) or any other person whom TGM may otherwise determine may participate in the Offer in compliance with applicable securities laws) unless TGM determines that:

- (a) it is lawful and not unduly onerous or unduly impracticable to issue that Focus Shareholder with New TGM Shares on completion of the Offer; and
- (b) it is lawful for that Focus Shareholder to participate in the Offer by the law of the relevant place outside Australia and its external territories.

Notwithstanding anything else in this Bidder’s Statement, TGM is not under any obligation to spend any money, or undertake any action, in order to satisfy itself that a person is not an Ineligible Foreign Shareholder and is therefore eligible to receive New TGM Shares under the Offer.

Focus Shareholders outside of Australia should refer to the specific offering and cautionary language below.

The New TGM Shares which would otherwise have been issued to Ineligible Foreign Shareholders will instead be issued to a nominee approved by ASIC, who will sell the shares. The net proceeds of the sale of such shares will then be remitted to the relevant Ineligible Foreign Shareholders. See clause 6.3 of Appendix 1 of this Bidder’s Statement for further details.

Appendix 1 - Offer Terms

1 OFFER

TGM offers to acquire all of your Focus Shares, together with all Rights attaching to them, on the following terms and conditions.

This Offer relates to Focus Shares that exist or will exist as at the Register Date. It does not extend to any Focus Shares that are issued between that date and the end of the Offer Period. In particular, the Offer does not extend to any Focus Shares that may be issued under the Focus Entitlement Offer (if it proceeds).

You may only accept this Offer for all of your Focus Shares (that exist on the Register Date). The Offer extends to any person who is able during the Offer Period to give good title to a parcel of your Focus Shares (see clause 11 ("Acceptances by Transferees and Nominees")).

By accepting this Offer, you undertake to transfer to TGM not only the Focus Shares to which this Offer relates but also all Rights attached to those Focus Shares (see clauses 6.5 and 6.6).

2 CONSIDERATION

The consideration offered is 2 New TGM Shares for every 1 Focus Share (**Offer Consideration**).

If you are an Ineligible Foreign Shareholder, you will not receive New TGM Shares and will only be entitled to receive a cash amount in Australian dollars for your Focus Shares determined in accordance with clause 6.3.

If the number of New TGM Shares you become entitled to is not a whole number, that fraction shall be rounded up to the nearest whole number of New TGM Shares.

If TGM reasonably believes that a Focus Shareholder's holdings have been manipulated to take advantage of this rounding up, then any fractional entitlement will be rounded down.

The New TGM Shares to be issued under the Offer will be issued fully paid and will rank equally in all respects with all other TGM Shares currently on issue.

3 OFFER PERIOD

This Offer will, unless withdrawn, remain open for acceptance during the period commencing on the date of this Offer, being 18 January 2022, and ending at 7.00 pm (Sydney Time) on:

- (a) 21 February 2022; or
- (b) any date to which the period of this Offer is extended in accordance with the Corporations Act,

whichever is the later.

4 OFFICIAL QUOTATION OF NEW TGM SHARES

- (a) TGM has been admitted to the official list of ASX. Securities of the same class as those to be issued as Offer Consideration have been granted official quotation by ASX.
- (b) This Offer and any contract that results from your acceptance of this Offer are subject to a condition that:

- (i) TGM applies to ASX within 7 days after this Bidder's Statement is given to Focus, for the admission of the New TGM Shares to official quotation; and
 - (ii) permission for admission to official quotation by ASX of the New TGM Shares to be issued under the Offers which are accepted, is granted no later than 7 days after the end of the Offer Period.
- (c) The condition in clause 4(b) is required by section 625(3) of the Corporations Act, is not a defeating condition for the purposes of the Corporations Act, and is not of the same nature as the conditions set out in Appendix 2 of this Bidder's Statement. Section 625(3) of the Corporations Act provides that this Offer cannot be freed of the condition prescribed in that section, and consequently no statement made by TGM can be taken to be a waiver of that condition. If this condition is not fulfilled all contracts resulting from acceptance of the Offer will be void automatically.

6.2 WHEN OFFER CONSIDERATION IS PROVIDED

Subject to clause 6.4 and the Corporations Act, if the contract resulting from your acceptance of this Offer becomes unconditional, TGM will provide the Offer Consideration to which you are entitled on acceptance of this Offer on or before the earlier of:

- (a) one month after the date this Offer is validly accepted by you or, if this Offer is subject to a defeating condition when accepted, within one month after this Offer or the contract resulting from your acceptance of this Offer becomes unconditional; and

- (b) 21 days after the end of the Offer Period.

6.3 PAYMENTS TO INELIGIBLE FOREIGN SHAREHOLDERS

- (a) If you accept the Offer and you are an Ineligible Foreign Shareholder, then in respect of any New TGM Shares which you would have become entitled to receive under clause 2, TGM will:
- (i) arrange for the issue to the Nominee of the number of New TGM Shares to which you and all other Ineligible Foreign Shareholders would have become entitled to receive as part of the Offer Consideration as a result of acceptance of the Offer (**Nominee Shares**);
 - (ii) cause the Nominee to offer for sale on ASX the Nominee Shares as soon as practicable or otherwise in such manner, at such price and on such other terms and conditions as are determined by the Nominee;
 - (iii) cause the Nominee to pay to you the amount calculated in accordance with the following formula:

$$\frac{\text{Net Proceeds of Sale} \times \text{Your New TGM Shares}}{\text{Total Nominees Shares}}$$

Where:

“**Net Proceeds of Sale**” is the amount the Nominee receives on sale of all Nominee Shares less brokerage and other sale expenses;

“**Your New TGM Shares**” is the number of New TGM Shares which TGM would otherwise be required to issue to you as part of the Offer Consideration; and

“**Total Nominee Shares**” is the total number of Nominee Shares issued to the Nominee under clause 6.3(a)(i).

- (b) Payment will be made by cheque drawn on an Australian branch of an Australian deposit taking institution and payable in Australian dollars. The cheque will be posted to you at your risk by pre-paid airmail to your address as shown on the Register as soon as practicable and in any event within the period required by the Corporations Act. If your Focus Shares are held in a joint name, the cheque will be issued in the name of the joint holders; and
- (c) Under no circumstances will interest be paid on your share of the proceeds of the sale of the Nominee Shares, regardless of any delay in remitting these proceeds to you.

Residents of certain places are not entitled to receive their share of the Net Proceeds of Sale unless and until all requisite authorities or clearances have been obtained from the Reserve Bank of Australia and/or the Australian Taxation Office. Refer to clause 6.7 for further information.

Notwithstanding anything else in the Bidder's Statement, TGM is under no obligation to spend any money, or undertake any action, in order to satisfy itself that a person is not an Ineligible Foreign Shareholders and is therefore eligible to receive TGM Shares under the Offer or their share of the Net Proceeds of Sale as set out in this clause 6.3.

6.4 WHERE ADDITIONAL DOCUMENTS ARE REQUIRED

Where the Acceptance Form or any subsequent request from TGM requires additional documents to be given with your acceptance (such as a certified copy of any of a power of attorney, grant of probate or letters of administration, or any other document reasonably requested by TGM to give better effect to your acceptance):

- (a) if the documents are given with your acceptance, TGM will provide the consideration in accordance with clauses 6.2 or 6.3; or
- (b) if the documents are given after acceptance and before the end of the Offer Period and this Offer is subject to a defeating condition at the time that TGM is given the documents, TGM will provide the consideration by the end of whichever of the following periods ends earlier:
 - (i) one month after the contract resulting from your acceptance of this Offer becomes unconditional; and
 - (ii) 21 days after the end of the Offer Period; or
- (c) if the documents are given after acceptance and before the end of the Offer Period and this Offer is unconditional at the time that TGM is given the documents, TGM will provide the consideration by the end of whichever of the following periods ends earlier:
 - (i) one month after TGM is given the documents; and
 - (ii) 21 days after the end of the Offer Period; or
- (d) if the documents are given after the end of the Offer Period, TGM will provide the consideration within 21 days after the documents are given; but if at the time TGM is given the documents, the contract resulting from your acceptance of this Offer is still subject to one or more of the conditions referred to in paragraph (b) of Appendix 2, TGM will provide the consideration within 21 days after that contract becomes unconditional.

If you do not provide TGM with the required additional documents within one month after the end of the Offer Period, TGM may, in its sole discretion, rescind the contract resulting from your acceptance of this Offer.

6.5 WHERE TGM IS ENTITLED TO ANY RIGHTS

If TGM becomes entitled to any Rights as a result of your acceptance of this Offer, it may require you to give TGM all documents necessary to vest those Rights in TGM or otherwise to give TGM the benefit or value of those Rights. If you do not give those documents to TGM, or if you have received the benefit of those Rights, then TGM may deduct from the consideration otherwise due to you the amount (or value, as reasonably assessed by TGM) of those Rights in accordance with clause 6.6.

6.6 RIGHTS GENERALLY

If:

- (a) you have (or any previous holder of your Focus Shares has) received the benefit of any Rights (whether in respect of non-cash benefits or otherwise); or
- (b) you are (or any previous holder of your Focus Shares is) entitled to receive the benefit of any Rights under the terms that provide for or otherwise apply to those Rights (for example, if the Right is to receive a dividend, if you are (or any previous

holder of your Focus Shares is) the registered holder of the share at the specified time for determining those entitled to the dividend); or

- (c) your Focus Shares were issued (or otherwise came into existence) on or after the specified time for determining entitlements in respect of any Rights to Focus Shareholders,

then TGM may deduct the value (as reasonably assessed by TGM) of such Rights from any Offer Consideration otherwise payable to you.

If TGM does not, or cannot, make such a deduction, you must pay such value or amount to TGM.

6.7 CLEARANCES FOR CERTAIN FOCUS SHAREHOLDERS

If, at the time of acceptance of this Offer, any consent, authority or clearance of the Reserve Bank of Australia, the Australian Taxation Office or any other government authority is required for you to receive any consideration under this Offer or you are resident in or a resident of a place to which, or you are a person to whom:

- (a) the Banking (Foreign Exchange) Regulations 1959 (Cth);

- (c) the Charter of the United Nations (Dealing with Assets) Regulations 2008 (Cth);
- (d) Part 9 of the Anti-Money Laundering And Counter-Terrorism Financing Act 2006 (Cth);
- (e) any other regulations made under Part 4 of the Charter of the United Nations Act 1945 (Cth); or
- (f) any other law of Australia that would make it unlawful for TGM to provide the Offer Consideration for your Focus Shares,

applies, then acceptance of this Offer will not create or transfer to you any right (contractual or contingent) to receive (and you will not be entitled to receive) the Offer Consideration under this Offer unless and until all requisite consents, authorities or clearances have been obtained by TGM.

If TGM is required by law to retain or withhold (and pay to a Public Authority) any amount of the Offer Consideration you are entitled to under this Offer, the retention or payment by TGM of that amount in conjunction with providing the remaining Offer Consideration to be provided to you in accordance with clause 6 will constitute full and proper provision of the Offer Consideration to you under this Offer.
