About APA Group (APA)

APA is a leading Australian Securities Exchange (ASX) listed energy infrastructure business. We own and/or manage and operate a diverse, \$21 billion portfolio of gas, electricity, solar and wind assets. Consistent with our purpose to strengthen communities through responsible energy, we deliver approximately half of the nation's gas usage and connect Victoria with South Australia and New South Wales with Queensland through our investments in electricity transmission assets. We are also one of the largest owners and operators of renewable power generation assets in Australia, with wind and solar projects across the country. APT Pipelines Limited is a wholly owned subsidiary of Australian Pipeline Trust and is the borrowing entity of APA Group. For more information visit APA's website, apa.com.au.

Results for the half year ended 31 December 2021

23 February 2022

The bottom half of the slide features several large, white, abstract geometric shapes on a red background. These shapes include a large upward-pointing arrow on the left, a vertical bar, and a large diagonal line that extends from the bottom left towards the top right, creating a sense of movement and progress.

disclaimer

This presentation has been prepared by Australian Pipeline Limited (ACN 091 344 704) as responsible entity of the Australian Pipeline Trust (ARSN 091 678 778) and APT Investment Trust (ARSN 115 585 441) (APA Group).

The information in this presentation does not contain all the information which a prospective investor may require in evaluating a possible investment in APA Group and should be read in conjunction with the APA Group's other periodic and continuous disclosure announcements which are available at www.apa.com.au.

All references to dollars, cents or '\$' in this presentation are to Australian currency, unless otherwise stated.

Not financial product advice: Please note that Australian Pipeline Limited is not licensed to provide financial product advice in relation to securities in the APA Group. This presentation is for information purposes only and is not financial product or investment advice or a recommendation to acquire APA Group securities and has been prepared without taking into account the objectives, financial situation or needs of individuals. Before making an investment decision, prospective investors should consider the appropriateness of the information having regard to their own objectives, financial situation and needs and seek professional advice if necessary.

Past performance: Past performance information should not be relied upon as (and is not) an indication of future performance.

Forward looking statements: This presentation contains certain forward looking information, including about APA Group, which is subject to risk factors. "Forward-looking statements" may include indications of, and guidance on, future earnings and financial position and performance, statements regarding APA Group's future strategies and capital expenditure, statements regarding estimates of future demand and consumption and statements regarding climate change and other environmental and energy transition scenarios. Forward-looking statements can generally be identified by the use of forward-looking words such as, 'expect', 'anticipate', 'likely', 'intend', 'could', 'may', 'predict', 'plan', 'propose', 'will', 'believe', 'forecast', 'estimate', 'target', 'outlook', 'guidance' and other similar expressions and include, but are not limited to, forecast EBIT and EBITDA, free cash flow, operating cash flow, distribution guidance and estimated asset life.

APA Group believes that there are reasonable grounds for these forward looking statements and due care and attention have been used in preparing this presentation. However, the forward looking statements, opinions and estimates provided in this presentation are based on assumptions and contingencies which are subject to change without notice, as are statements about market and industry trends, which are based on interpretations of current market conditions and are subject to risk factors associated with the industries in which APA Group operates. Forward-looking statements, opinions and estimates are not guarantees or predictions of future performance and involve known and unknown risks and uncertainties and other factors, many of which are beyond the control of APA Group, and may involve significant elements of subjective judgement and assumptions as to future events which may or may not be correct. There can be no assurance that actual outcomes will not materially differ from these forward-looking statements, opinions and estimates. A number of important factors could cause actual results or

performance to differ materially from such forward-looking statements, opinions and estimates.

Investors should form their own views as to these matters and any assumptions on which any forward-looking statements are based. APA Group assumes no obligation to update or revise such information to reflect any change in expectations or assumptions.

Investment risk: An investment in securities in APA Group is subject to investment and other known and unknown risks, some of which are beyond the control of APA Group. APA Group does not guarantee any particular rate of return or the performance of APA Group.

Non-IFRS financial measures: APA Group results are reported under International Financial Reporting Standards (IFRS). However, investors should be aware that this presentation includes certain financial measures that are non-IFRS financial measures for the purposes of providing a more comprehensive understanding of the performance of the APA Group. These non-IFRS financial measures include FCF, EBIT, EBITDA and other "normalised" measures. Such non-IFRS information is unaudited, however the numbers have been extracted from the audited financial statements.

Not an offer: This presentation does not constitute an offer, invitation or recommendation to subscribe for or purchase any security. In particular, this presentation does not constitute an offer to sell, or a solicitation of an offer to buy, any securities in the United States. Securities may not be offered or sold, directly or indirectly, in the United States or to persons that are acting for the account or benefit of persons in the United States, unless they have been registered under the U.S. Securities Act of 1933, as amended (the U.S. Securities Act), or are offered and sold in a transaction exempt from, or not subject to, the registration requirements of the U.S. Securities Act and any other applicable state securities laws.

Non-GAAP financial measures: Investors should be aware that certain financial data included in this presentation are "non-GAAP financial measures" under Regulation G of the U.S. Securities Exchange Act of 1934, as amended. These measures are EBITDA, normalised EBITDA and statutory EBITDA. The disclosure of such non-GAAP financial measures in the manner included in the presentation may not be permissible in a registration statement under the U.S. Securities Act. These non-GAAP financial measures do not have a standardised meaning prescribed by Australian Accounting Standards and therefore may not be comparable to similarly titled measures presented by other entities, and should not be construed as an alternative to other financial measures determined in accordance with Australian Accounting Standards. Although APA Group believes these non-GAAP financial measures provide useful information to users in measuring the financial performance and condition of its business, investors are cautioned not to place undue reliance on any non-GAAP financial measures included in this presentation.

Acknowledgement: Certain icons used in the presentation were designed by Freepik, Icongreek26, Nikita Golubev, Eucalypt and Strip from Flaticon.

***In the spirit of reconciliation APA
acknowledges the Traditional
Custodians of country throughout
Australia and their connections to land,
sea and community.***

***We pay our respects to their elders past
and present, and extend that respect to
all Aboriginal and Torres Strait Islander
Peoples today.***

Our people are the keys to our success

APA is a leading energy infrastructure business

Creating value for our Securityholders and the Community

- Developing and operating critical energy infrastructure
 - Australia's largest gas pipeline owner and operator
 - Connecting regions with electricity transmission
 - Powering industry and communities with gas and renewable energy
- Earnings stability from highly contracted and regulated operations
- Maintaining investment discipline and a competitive cost of capital
- Paying \$2.8 billion in distributions to our securityholders in the last 5 years

Diverse energy infrastructure portfolio

Gas infrastructure

Transmission ⁽¹⁾

>15,000 km transmission pipelines

Storage

12,000 tonnes LNG
18 PJ gas

Processing ⁽¹⁾

90 TJ/day processing plants

Distribution ⁽²⁾

>29,500 km gas mains and pipelines
>1.4 million gas customers

Power Generation

Renewable energy ⁽¹⁾

342 MW Wind
237 MW Solar

Gas fired ⁽¹⁾

440 MW

Electricity transmission

243 km high voltage lines⁽¹⁾

(1) Includes 100% of assets operated and/or under construction by APA Group, which form part of Energy Investments segment, including SEA Gas and EII (partially owned)

(2) Includes 100% of assets operated by APA Group in Queensland, New South Wales, Victoria and South Australia

Relentless focus on operational reliability, health, safety and wellbeing

Reliable infrastructure operations

99.9%
Gas transmission nominations delivery⁽¹⁾

Safety at the forefront

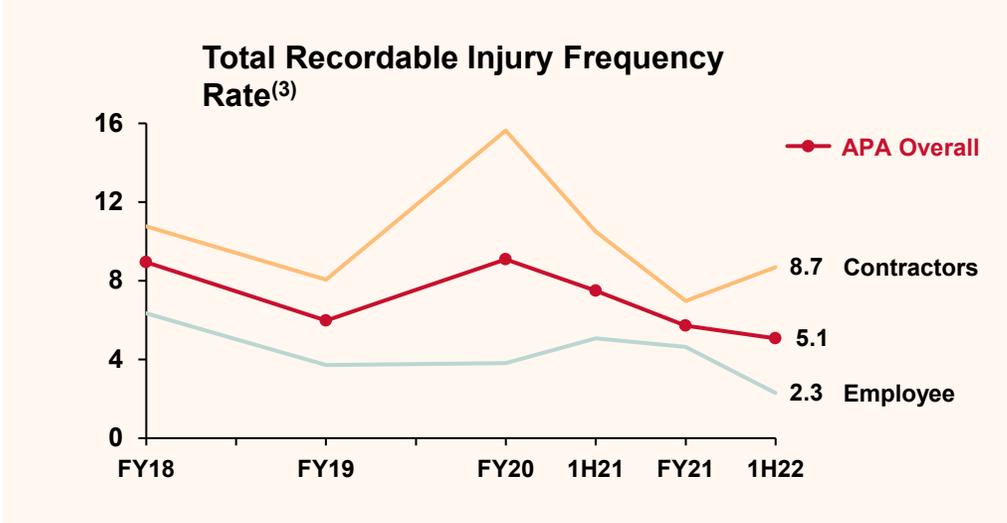

~32% reduction
in Total Recordable Injury Frequency Rate (TRIFR)⁽²⁾

>97%
Gas transmission compressors average reliability

~94%
Availability factor with 511 GWh of renewable energy

Notes:
 (1) As at 1H22. (2) TRIFR reduction from 1H22 period versus the previous corresponding period of 1H21. TRIFR is measured as the number of lost time and medically treated injuries sustained per million hours worked. Data includes both employees and contractors. (3)The FY21 Actual TRIFR rate has been amended from 6.3 to 5.7 in response to receipt of additional contractor hours post the FY21 result

Solid 1H22 financial results

- **Solid financial performance** reflecting recent investments, improving conditions for gas infrastructure and the broader economic recovery

Revenue up 4.3% with positive contributions from every **operating segment**⁽¹⁾

Underlying EBITDA up 4.5%⁽¹⁾

FCF up 22.6% driven by higher EBITDA, lower interest costs and lower tax paid

- **Distribution growth** reflects strong cash conversion, benefits from the March 2021 debt refinancing activities and a positive outlook

1H22 distribution of 25.0 cps, 4.2% increase on 1H21

FY22 distribution guidance of 53.0 cps retained, 3.9% increase on FY21

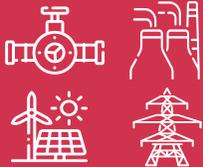

Favourably exposed to rising inflation with almost **100% of contracted revenues** linked to inflation indices

Notes:

(1) Revenue excluding pass-through and underlying EBITDA excludes significant items; 1H22 Profit after tax including significant items was \$155.6 million; 1H21 loss \$15.5m

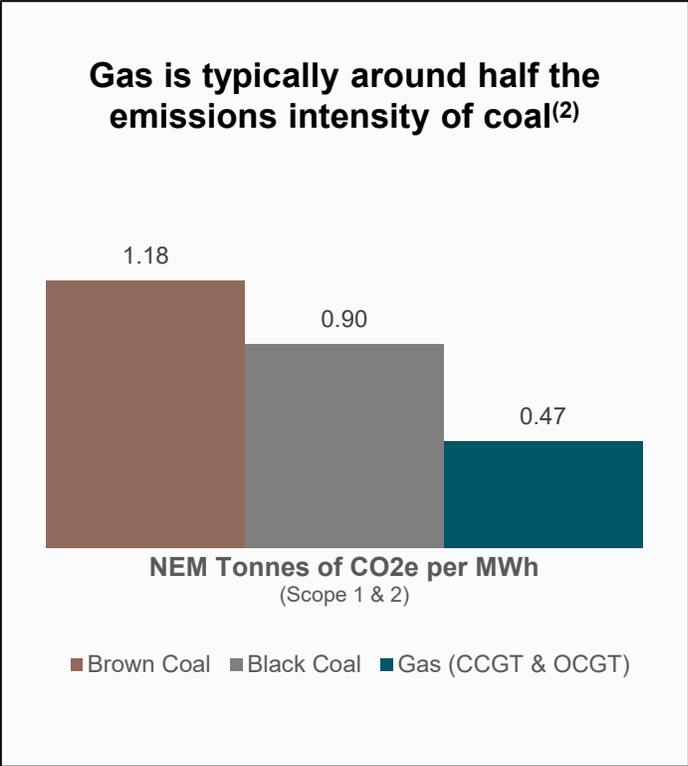

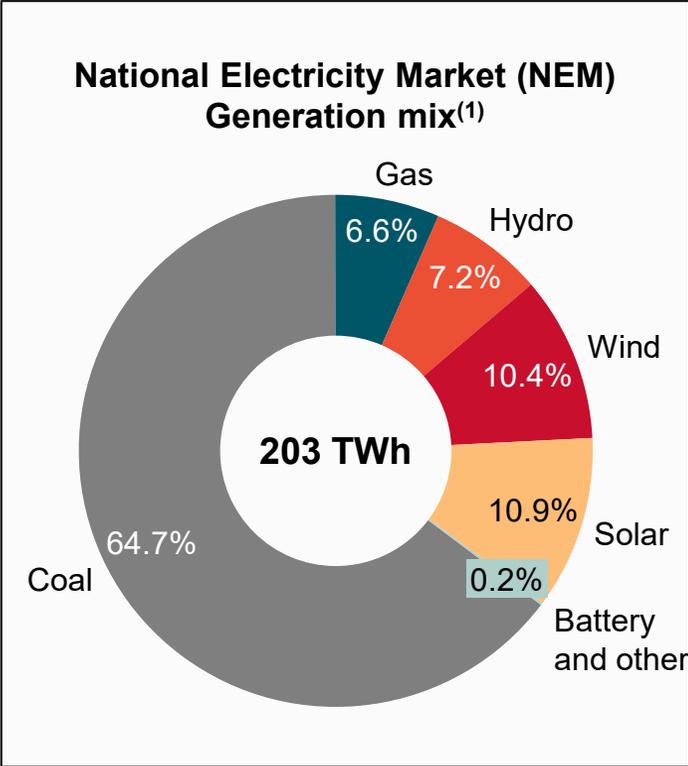

Strong progress on the execution of APA's strategy

<p>Gas, electricity and renewables infrastructure investments</p> <p>1</p> 	<ul style="list-style-type: none"> • \$150m investment in Mica Creek Solar Farm • Kurri Kurri Lateral subject to FID • East Coast Grid expansion • Strategic investment in Basslink senior secured debt (100%) • Organic growth pipeline now in excess of \$1.4b for FY22 to FY24 	<p>Next generation energy technologies (Pathfinder Program)</p> <p>2</p> 	<ul style="list-style-type: none"> • Parmelia Gas Pipeline Hydrogen Project phase 2 • Proposal for a hydrogen feasibility study in the Victorian Transmission System • Feasibility study for Central Queensland Hydrogen Project • Mid-West Blue Hydrogen and Carbon Capture and Storage feasibility study
<p>Respond to the changing needs of our customers and communities</p> <p>3</p> 	<ul style="list-style-type: none"> • Stakeholder engagement on Victorian Transmission System and Roma Brisbane Pipeline • Collaboration with Boonthamurra People of southwest Queensland • Gruyere battery energy storage system complete; commissioning of 13MWp solar expected Q3 FY22 	<p>Disciplined investments and maintaining a strong balance sheet</p> <p>4</p> 	<ul style="list-style-type: none"> • \$1.8b of liquidity from cash and undrawn debt facilities⁽¹⁾ • Significant credit metric headroom to fund growth and / or support potential future capital management initiatives • Average debt tenor at 7.4 years with average cost of debt at 4.6%⁽¹⁾ • FY22 distribution guidance of 53c, up 3.9% maintained

Notes:
 (1) As at 31 December 2021

Gas will play a critical role in Australia's energy system as an essential companion to renewables and a critical industrial energy source

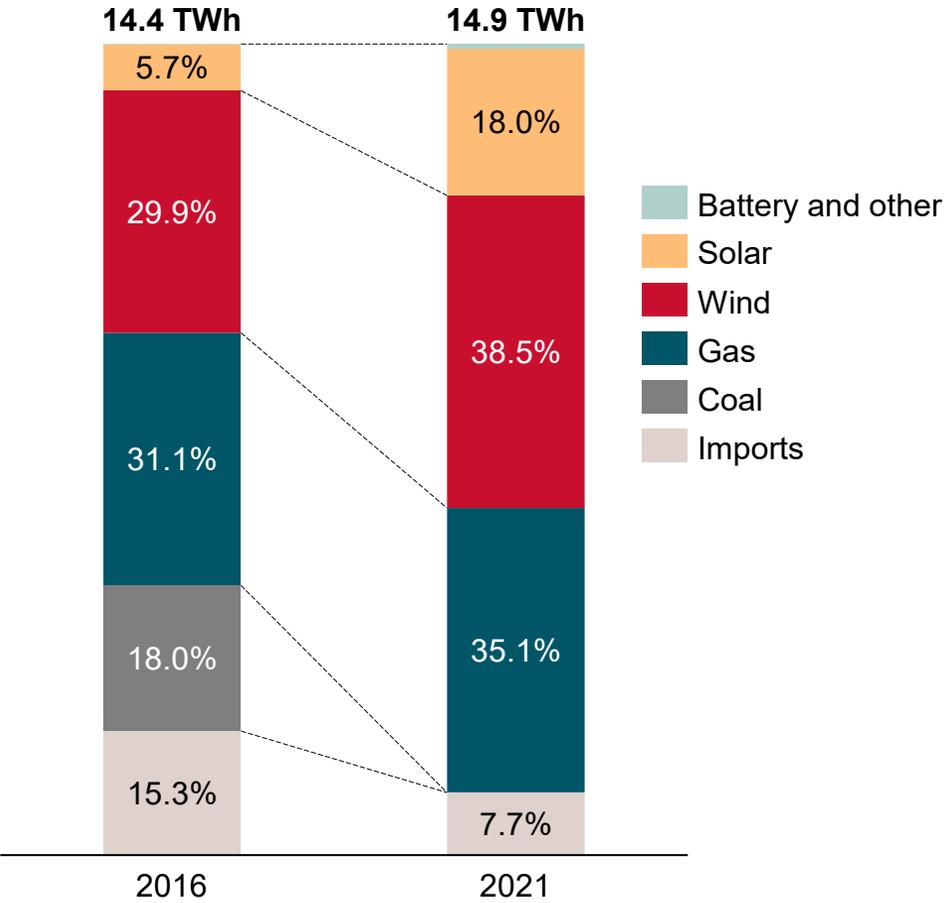

- In Australia, gas accounts for:
 - 27% of primary energy consumption
 - 21% of electricity generation
 - 7% of the electricity generation in the NEM
- Gas is critical for:
 - firming of renewable energy
 - to support industry, including high heat and hard to abate sectors
- Natural gas is the most efficient and cleanest firming energy source

Notes:
 (1) National Electricity Market (East Coast Australia) 2021 OpenNEM data
 (2) National Greenhouse and Energy Reporting data, Clean Energy Regulator (2020)

Removing coal power generation from South Australia increased gas as a proportion of the state's energy mix to 35%

- Five years after South Australia removed coal from its energy system, gas continues to play a vital role to support renewables and has grown from 31% to 35% of the energy mix⁽¹⁾
- When renewable power generation supply is low, gas provides the necessary firming to keep the state's lights on
- With no coal power generation, South Australia relies on 35% gas power generation. Australia's NEM relies on 65% of coal power generation and 7% of gas power generation
- The recent European experience, where energy prices have more than doubled, demonstrates the risks associated with not having enough gas in the energy mix⁽²⁾

Notes:
 (1) OpenNEM Data
 (2) Source: <https://www.iss.europa.eu/content/europes-energy-crisis-conundrum>

APA continues to make progress with our organic growth pipeline across all energy markets

Gas infrastructure

East Coast Grid Expansion

- Increasing winter peak capacity up to 25% through two-staged expansion
- Capital investment of ~\$270m

Northern Goldfields Interconnect

- A new 580km pipeline that increases capacity to the Goldfields region
- Capital investment of ~\$460m

Kurri Kurri Lateral Pipeline

- Proposed development of gas pipeline to the Hunter Power Project with the ability to deliver blended hydrogen to the receipt station
- Capital investment of ~\$250m

Electricity and renewables

Gruyere Hybrid Energy Microgrid

- Combined gas, renewable energy and battery storage energy solution
- Capital investment ~\$40m

Mica Creek Solar Farm

- 88MW solar farm backed by gas power generation; biggest off-grid solar in Australia
- Capital investment ~\$150m

APA is executing its strategy to grow its electricity footprint with a strategic investment to acquire 100% of Basslink senior secured debt

Triple tuned harmonic filter in Loy Yang AC yard

Acquisition of 100% of Basslink senior secured debt⁽¹⁾

Debt acquired at a discount to face value. APA intends to work constructively with the receivers and managers, and Hydro Tasmania and the State of Tasmania, to put Basslink on a stable footing and ultimately convert it into a regulated asset

Attractive electricity transmission asset

Aligns with APA's strategic focus on contracted and regulated energy infrastructure and our support for renewable energy generation

Platform for further growth

Through its involvement in Basslink, APA will be well placed to support and potentially participate in adjacent energy opportunities

Notes:

(1) As at 23 February 2022, APA has rights to acquire 82% of Basslink senior secured debt, subject to satisfaction of conditions precedent; taking total to 100%. See announcement lodged with the ASX on 21 February 2022

APA is also playing a critical role in Australia's energy transition via its investment in future energy technologies

Parmelia Gas Pipeline Hydrogen Project

- Proposed 100% hydrogen conversion of a section of existing pipeline in Western Australia
- Phase 2 underway - lab testing of the pipeline materials in gaseous hydrogen conditions

Central Queensland Hydrogen Project

- Feasibility study into the development of a large scale renewable hydrogen project in Central Queensland with exports to Japan

Victorian Transmission System

- Proposal to develop Australia's first blueprint for state-wide hydrogen blending
- Hydrogen safety proposal to test network under access arrangement

Mid-West Blue H2 & CCS Project

- Feasibility study to identify opportunities to commercialise and distribute low-cost blue hydrogen
- Potential use of the Cliff Head oil project to store carbon dioxide

Net Zero 2050

- Progressing our ambition to achieve Net Zero operational emissions (Scope 1 and 2) by 2050 with interim targets to be released during 2022
- Joined as Founding Members of Materials & Embodied Carbon Leaders' Alliance to be a part of an industry-wide and cross-sector conversation seeking to stimulate demand for low-carbon materials, including steel and concrete.
- Joined CEO Climate Leaders Coalition

Progressing our Sustainability Roadmap to 2024

BUILD	ACCELERATE	MAINTAIN & EVOLVE
Priority issues to be built into strengths	Fundamental issues which require strengthening	Existing plans & processes to evolve via ESG lens
<ul style="list-style-type: none"> • Climate Change Transition & Risk • Community & Social Performance • First Nations People 	<ul style="list-style-type: none"> • Environmental and heritage management 	<ul style="list-style-type: none"> • Safety, Health & Wellbeing • Diversity & Inclusion • People & Culture • Governance & Risk Management
PROGRESS IN 1H22		
<ul style="list-style-type: none"> ➤ Net Zero & Climate Transformation Program underway ➤ Joined the CEO Climate Leaders' Coalition and the UN Global Compact ➤ Supporting people in vulnerable circumstances through the Uniting Energy Support Program ➤ Social impact studies underway for Kurri Kurri and Central Queensland hydrogen project ➤ Strategy to define our approach and outcomes for Community and Social Performance underway ➤ A new Indigenous Land Use Agreement (ILUA) in place for the development of a compressor site on the South West Queensland Pipeline, to underpin the expansion of the East Coast Grid 	<ul style="list-style-type: none"> ➤ Participating in the Global Compact Network Australia Sustainable Development Goal (SDG) Ambition Accelerator ➤ New Perth office certified with a 5 star NABERS energy rating ➤ Heritage e-learning package rolled out to boost awareness and capability in built heritage, cultural heritage and natural heritage 	<ul style="list-style-type: none"> ➤ COVID Response Manager appointed ensuring agility in our health and wellbeing response ➤ Enhanced parental leave policy established⁽¹⁾ ➤ Culture Survey puts APA in the top quartile of global businesses for employee engagement⁽²⁾ ➤ Ongoing enhancement of modern slavery risk management activities ➤ Appointment of Responsible Sourcing Manager

Notes:
 (1) These beneficial changes were developed following a benchmarking review against our industry peers and other leading businesses
 (2) The 2021 Culture Survey benchmarked APA against other global businesses on: Engagement Capital; Engagement; Discretionary effort; Intent to Stay; and Employee Inclusion

Financial performance

Adam Watson
Chief Financial Officer

1H22 solid financial performance

\$1.1 billion
up 4.3%

Revenue⁽¹⁾

\$859.8 million
up 4.5%

Underlying EBITDA⁽¹⁾

\$515.1 million
up 22.6%

Free Cash Flow

\$155.6 million

Profit after tax⁽²⁾

25.0 cents
up 4.2%

Distribution Per Security

\$1.8 billion

Cash and undrawn debt facilities⁽³⁾

Notes:

(1) Revenue excluding pass-through, underlying EBITDA excludes significant items

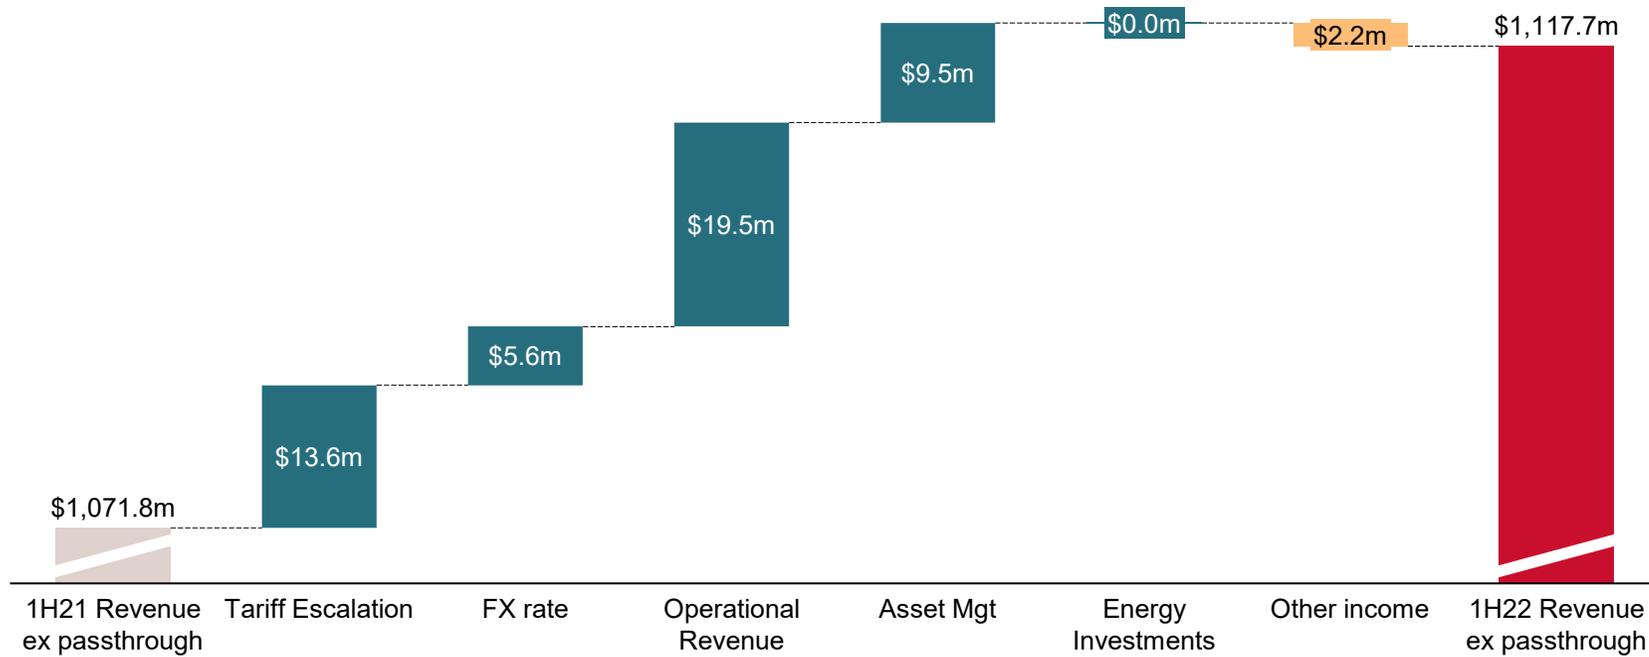

(2) 1H22 profit after tax \$155.6 million; 1H21 loss \$15.5m post significant items

(3) As at 31 Dec 2021

1H22 Revenue – positive contributions from all operating segments

Key Drivers

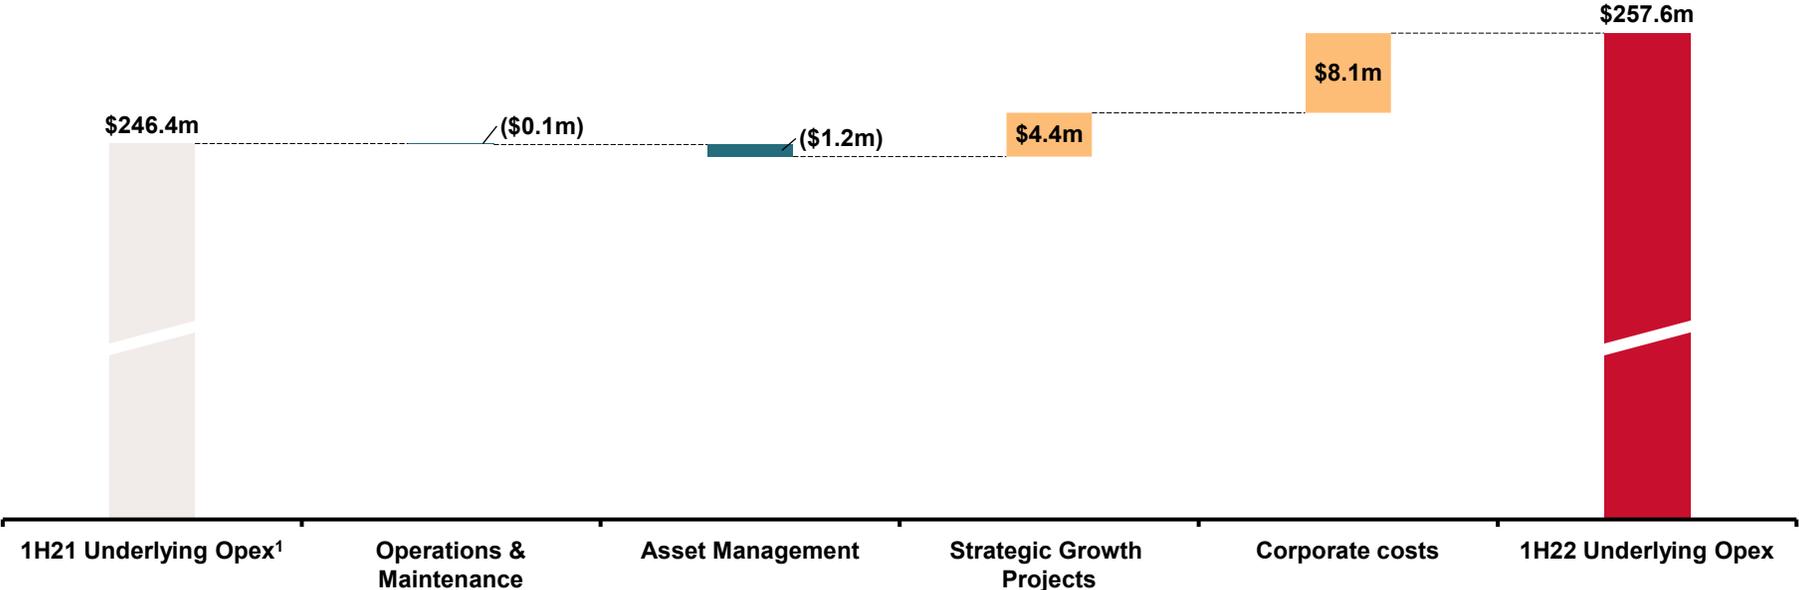

- Favourable tariff escalation given exposure to Australian and US inflation indices
- Operating revenue growth across all segments, with particularly strong growth from the Victorian Transmission System and Diamantina Power Station
- Higher earnings from customer contribution works in Asset Management

1H22 Expenditure - operating cost discipline and investment in capability to support long term growth

Key Drivers

- Ongoing discipline in management of Operations & Maintenance
- Higher bidding costs associated with corporate development activities
- Higher insurance premiums, and enhancements across technology, sustainability and leadership capability

Notes
 1. Excluding cloud SaaS costs following the IFRIC Agenda Decision published in April 2021

1H22 Free Cash Flow and Distributions - solid earnings growth and benefits stemming from recent capital management initiatives

Key Drivers

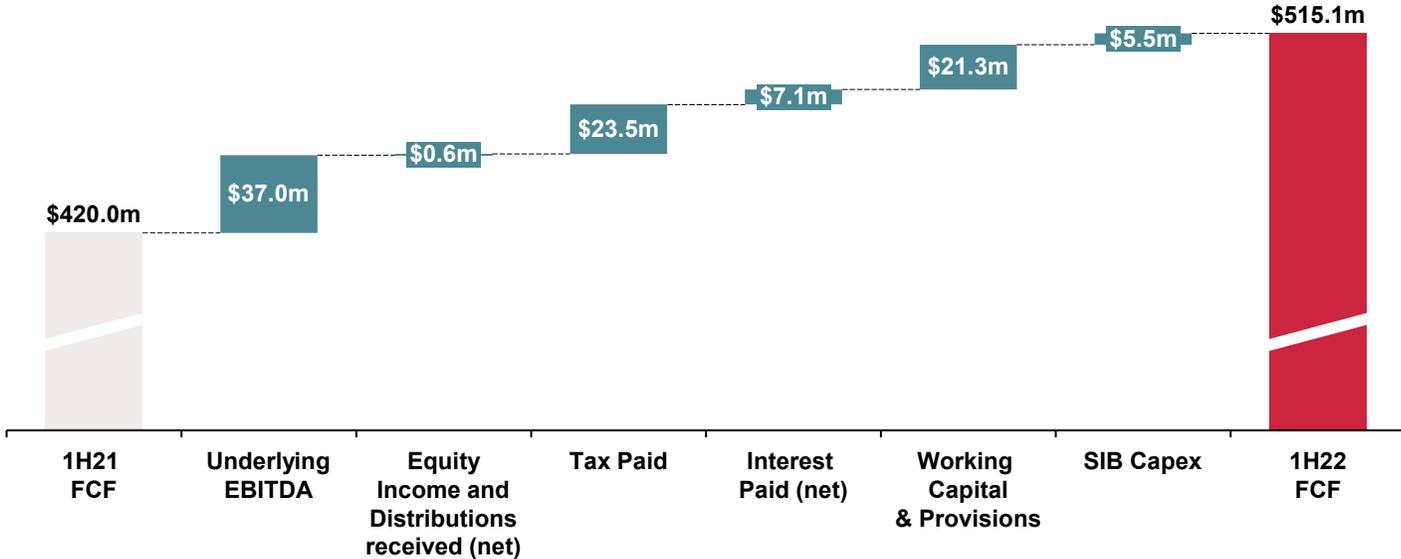

- Lower tax payments and interest paid as a result of the March 2021 \$2.2b debt refinance
- Favourable working capital management including construction capital contribution received
- Lower Stay-In-Business (SIB) capex following completion of the Diamantina Power Station overhaul in 1H21

Distribution target

- Payout ratio of 60-70% of Free Cash Flow⁽¹⁾
- Fully funds maintenance capex
- Supports appropriate level of funding for organic growth capex

FY22 distributions

- 1H22 interim distribution of 25.0 cps, up 4.2%
- Payout ratio of 57.3%
- FY22 total distributions guidance of 53.0 cps, up 3.9%

Notes:

(1) Free Cash Flow is Operating Cash Flow less SIB capex (SIB capex includes operational assets lifecycle replacement costs and technology lifecycle costs)

Growing organic growth pipeline, now in excess of \$1.4 billion⁽¹⁾

	FY22	FY23	FY24
Select major growth projects			
Northern Goldfields Interconnect		\$460m	
Gruyere Hybrid Energy Microgrid	\$40m		
Western Outer Ring Main		\$167m	
ECG Expansion stage 1 & 2 ⁽²⁾			\$270m
Mica Creek Solar Farm		\$150m	
Kurri Kurri Pipeline ⁽³⁾			~\$250m

Notes:
 (1) As at 23 February 2022
 (2) East Coast Grid expansion stage 2, are subject to customer demand and final investment decision
 (3) \$250m is a high level APA estimate only

Capital strategy complements strong investment fundamentals

Stable business operations and solid cash flow conversion

Strong distributions (60% to 70% of free cash flow on a full year basis)

Enhanced investor engagement and communication

High level of liquidity reflects prudent treasury policy and supports growth funding

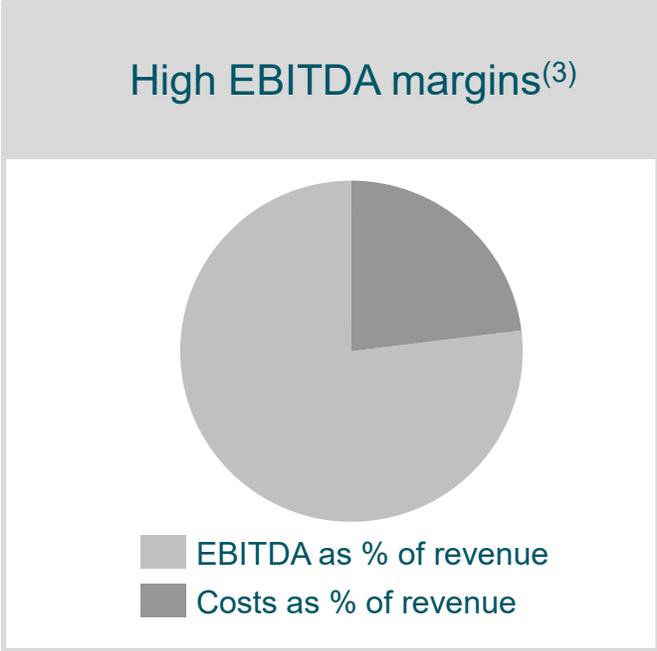

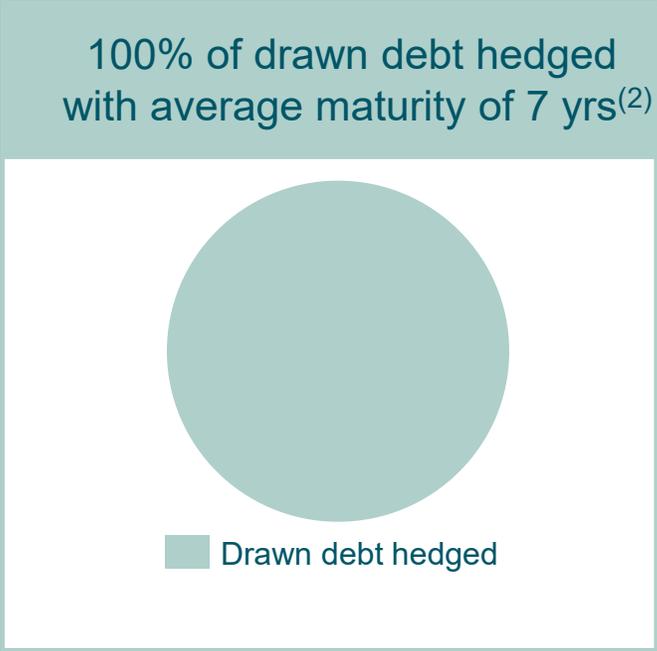

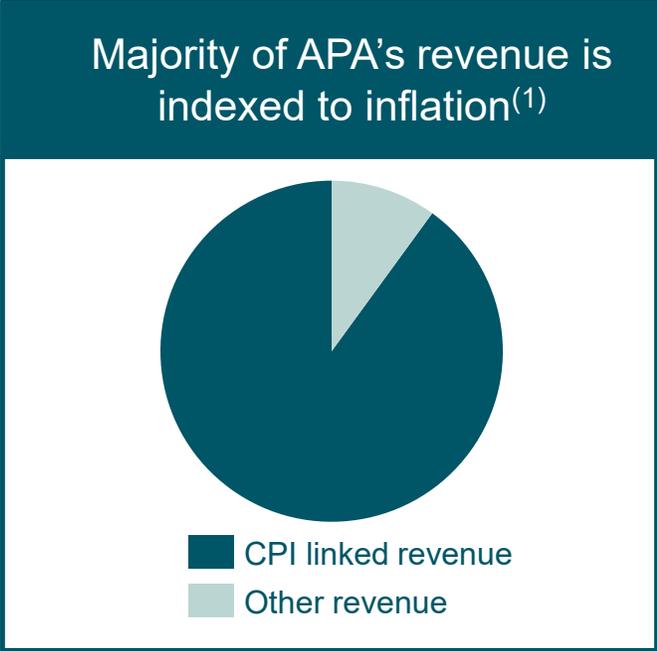

Low cost of capital and strong support for APA credit

Strong balance sheet enhanced by liability management exercise in March 2021

APA is positively leveraged to rising inflation

With the majority of our revenues linked to inflation and our drawn debt fully hedged, our high operating margins means the majority of the revenue benefit flows through to free cash flow

Notes:
 (1) Contracts within Australia that contain inflation linked escalations typically apply a formula based on either quarterly, bi annual or annual Australian Consumer Price Index (CPI). The Wallumbilla Gladstone Pipeline contract escalates annually, on 1 January each year, based on November US inflation. For the CY22 the increase due to US inflation will be 7.5%.
 (2) As at 31 December 2021
 (3) For 1H22 excluding passthrough revenue and significant items

Capital management delivering a strong balance sheet to support growth

\$1.8b of liquidity

BBB / Baa2 ratings with Stable outlooks

FFO : Debt of 11.5% providing headroom to fund growth and support capital management¹

No material debt refinancing obligations until FY25

Average cost of debt 4.6% (1H21 5.2%) and average maturity 7 years (1H21 6 years)

Drawn debt is 100% hedged

Notes: All figures at 31 December 2021 unless otherwise specified
1. We are in the process of amending our constitution to facilitate buy backs. Any assessment regarding the implementation of a buyback will be done with reference to our ability to create securityholder value

FY22 Financial outlook

<p>Distribution reconfirmed</p> <p>1 </p>	<p>FY22 distribution per security 53.0 cps reconfirmed, a 3.9% increase on FY21</p>	<p>Beneficiary of rising inflation</p> <p>2 </p>	<p>Rising inflation having a favourable impact on earnings, with almost all revenue inflation linked</p>
<p>Wallumbilla Gas Pipeline</p> <p>3 </p>	<p>Wallumbilla Gas Pipeline FX enters next phase of hedge relationship in March 2022⁽¹⁾; cash flow impact immaterial</p>	<p>Investing to create long term value</p> <p>4 </p>	<p>Ongoing investment in business development and systems and processes including cloud / SaaS based technology solutions</p>

Notes:
(1) This is expected to result in a net reduction in revenue (and EBITDA) for 2H22 of ~\$14 million (non-cash). The annualised impact to revenue (and EBITDA) from FY23 onwards is expected to ~\$36 million (non cash). The impact on operating cash flows is expected to be immaterial. The next phase of the hedge relationship concludes in late CY25

Summary and Outlook

Rob Wheals
CEO and Managing Director

Strong business fundamentals, delivering on strategy and attractive growth opportunities to create securityholder value

Leading energy infrastructure company

- Solid 1H22 financial performance
- Improved safety performance
- Maintained strong operational reliability
- FY22 DPS 53.0 cps reconfirmed, +3.9% on FY21
- Strong balance sheet with headroom to fund growth / support capital management
- Beneficiary of rising inflation
- Diversified revenue sources across a range of markets and services

Delivering on our strategy

- Organic pipeline in excess of \$1.4billion
- Development of Mica Creek Solar Farm
- Progressing Kurri Kurri Lateral Pipeline
- Acquiring 100% interest in Basslink senior secured debt
- Pathfinder Program to deliver new energy infrastructure solutions
- Progressing Net Zero 2050 ambitions with interim targets communicated in 2022

Attractive growth opportunities

- Further investment in gas infrastructure to complement renewables as coal is withdrawn
- Gas is essential to support high heat and hard to abate industrial users
- Ongoing investment in electricity infrastructure
- Participation in Renewable Energy Zones

We have the strategy and capability to deliver our vision to be world class in energy solutions

Q&A Session

Supplementary information

APA overview

Existing APA operational footprint diversified across a range of energy infrastructure assets

Assets

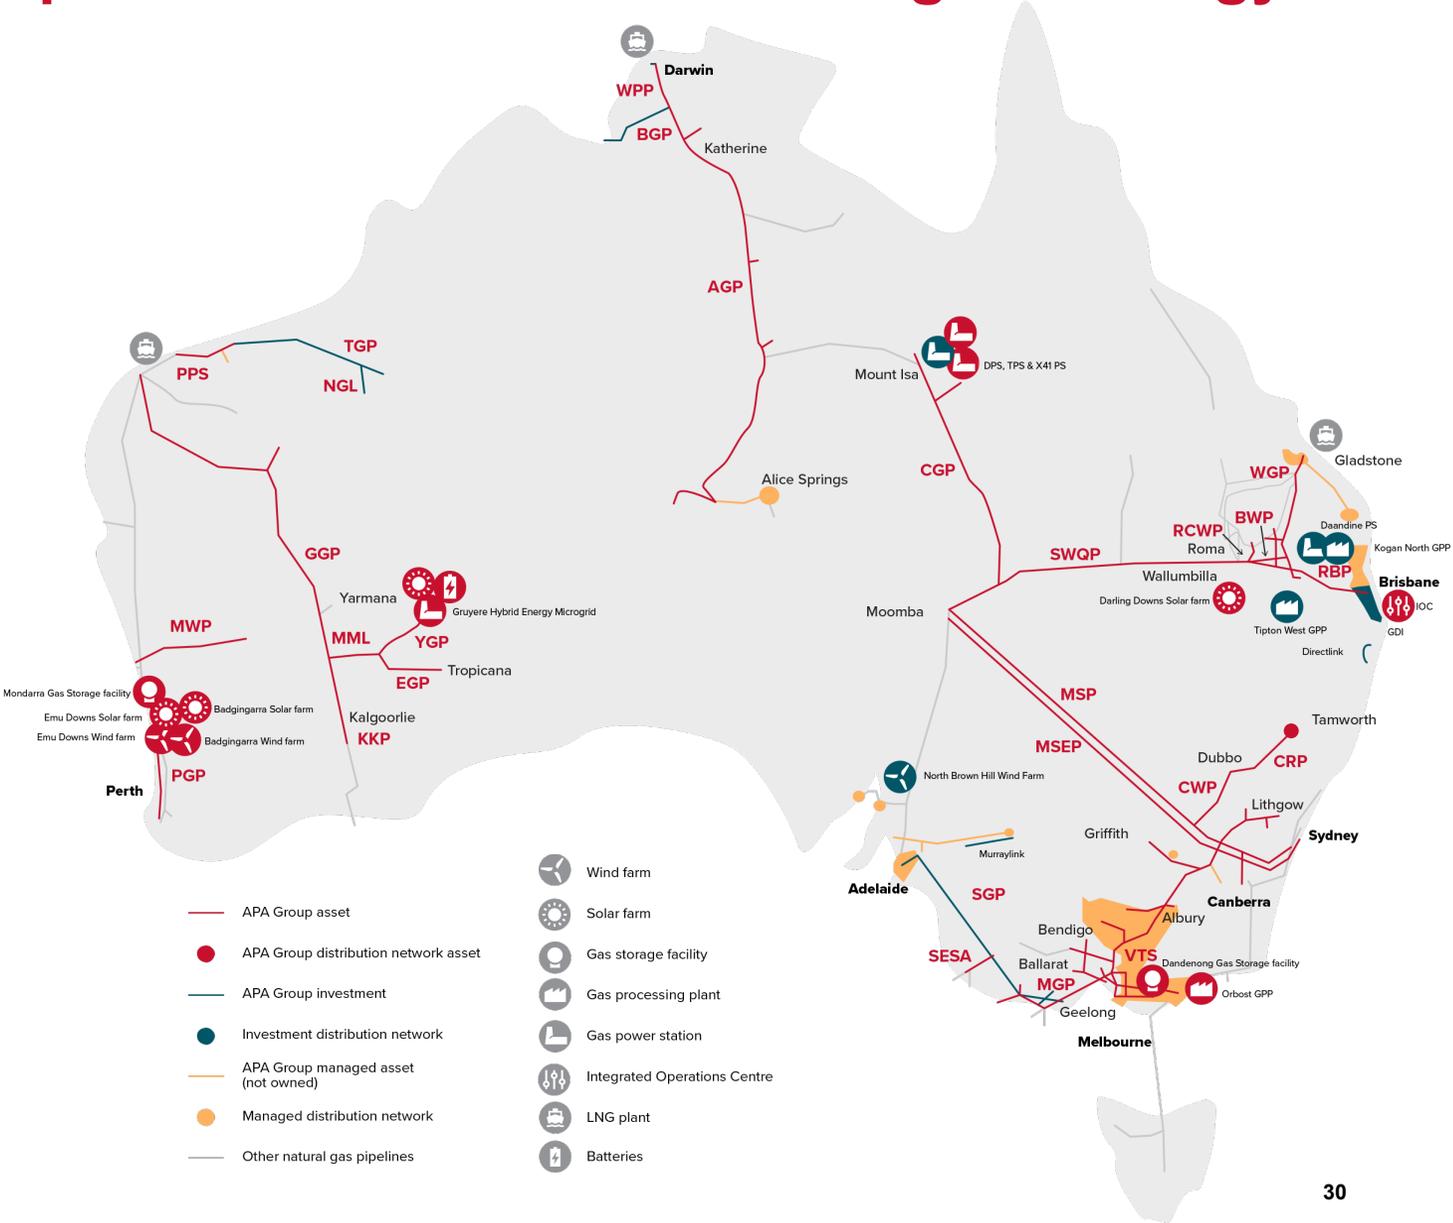

Gas pipelines, processing & storage
 Gas-fired generation
 Renewables generation
 Electricity transmission

Customers

Servicing ~80 wholesale and
 >1.4 million network customers

Operations

>1,200 employee spread across more than 50
 locations in Operations & Maintenance, Engineering,
 Health, Safety & Environment and Networks
 operations

Note: Gruyere Hybrid Energy Microgrid is under construction

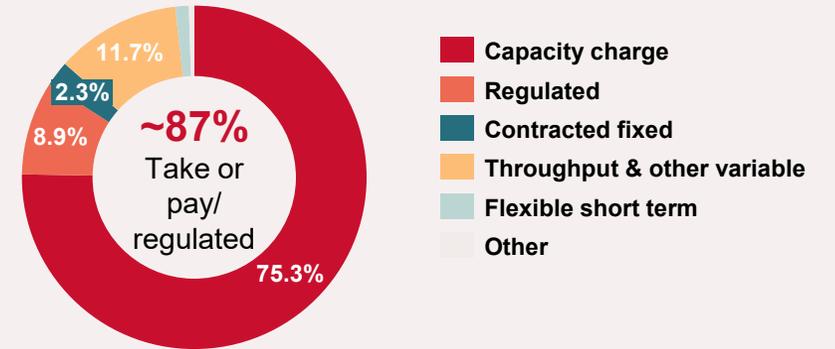

Low risk business model

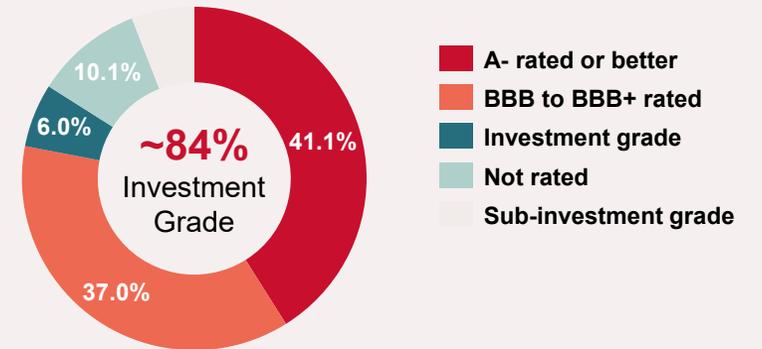

- Solid risk management processes in place
- Continue to manage counterparty risks by:
 - Diversification of customers and industry exposures
 - Assessment of counterparty creditworthiness
 - Entering into stable contracted revenue to support major capital spend

Energy Infrastructure revenue by

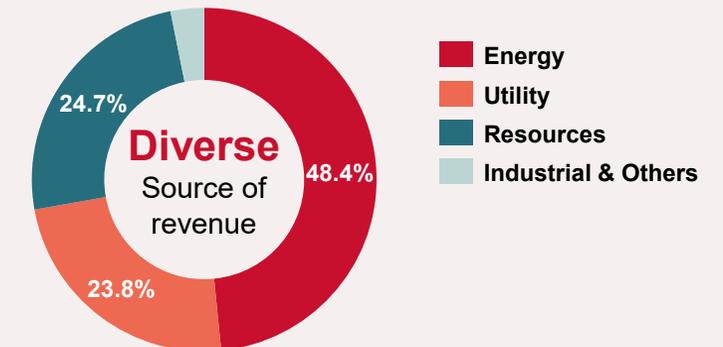

Revenue type

Customer credit rating

Customer industry

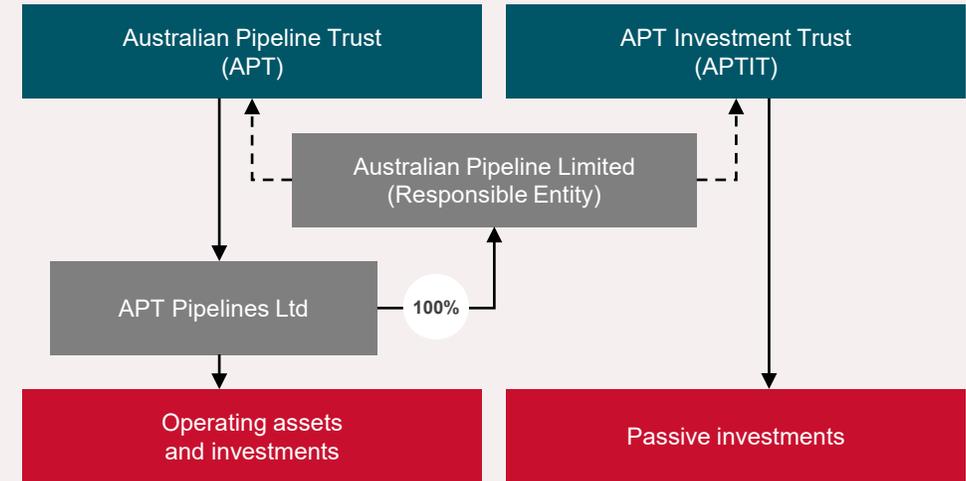

Group structure

- APA Group is listed as a stapled structure on the Australian Securities Exchange (ASX:APA)
- APA is comprised of two registered managed investment schemes:
 - Australian Pipeline Trust (ARSN 091 678 778)
 - APT Investment Trust (ARSN 115 585 441) is a pass-through trust
- Australian Pipeline Limited (ACN 091 344 704) is the responsible entity of APT and APTIT
- The units of APT and APTIT are stapled and must trade and otherwise be dealt with together
- APT Pipelines Limited (ABN 89 009 666 700), a company wholly owned by APT, is APA's borrowing entity and the owner of the majority of APA's operating assets and investments

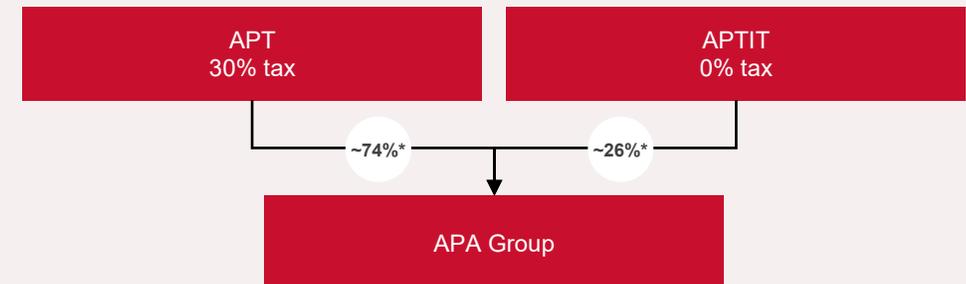

Financial reporting segments within APT:

- Energy Infrastructure: APA's wholly or majority owned energy infrastructure assets
- Asset Management: provision of asset management and operating services for the majority of APA's investments
- Energy Investments: interests in energy infrastructure investments

Financial Metrics

1H22 financial summary

Results \$ million	1H22	1H21 ⁽¹⁾	Change	Key Drivers
Revenue ⁽²⁾	1,117.7	1,071.8	4.3%	Positive contribution across all segments including Victorian Transmission System, Diamantina Power Station and Asset Management
Underlying EBITDA ⁽³⁾	859.8	822.8	4.5%	Positive contribution across all operating segments partly offset by increased investments in capability and strategic projects
Fair value and other adjustments	5.5	11.9	(53.4%)	Includes Darling Downs Solar Farm fair value adjustment and IT Cloud (SaaS) costs
Total reported EBITDA ⁽³⁾	865.3	834.7	3.7%	
Depreciation and amortisation	(371.2)	(330.9)	12.2%	Larger depreciable asset base and changes to useful life for certain assets
Total reported EBIT ⁽³⁾	494.1	503.8	(1.9%)	
Net interest expense	(239.2)	(246.9)	(3.1%)	Lower average interest costs due to liability management exercise completed March 2021
Profit before tax excluding significant items	254.9	256.9	(0.8%)	
Income tax expense ⁽³⁾	(99.3)	(97.9)	1.4%	
Profit after tax excluding significant items	155.6	159.0	(2.2%)	
Significant items after tax ⁽⁴⁾	-	(174.5)	(100%)	Orbost impairment in 1H21
Profit after tax including significant items	155.6	(15.5)	1,104.8%	
Free Cash Flow ⁽⁵⁾	515.1	420.0	22.6%	Higher EBITDA, lower interest costs and lower tax payments
Distribution per security (cents)	25.0	24.0	4.2%	Payout ratio 57.3% of FCF

1) 1H21 is restated as a result of a change in the APA Group's accounting policy following the IFRIC Agenda Decision published in April 2021 related to accounting for SaaS arrangements

2) Excludes pass-through revenue on which no margin is earned

3) Excluding significant items

4) \$249.3m non-cash pre-tax impairment in relation to Orbost Gas Processing plant

5) Free Cash Flow is Operating Cash Flow less stay-in-business (SIB) capex. SIB capex includes operational assets lifecycle replacement costs and technology lifecycle costs

Underlying EBITDA by segment

\$ million	1H22	1H21 ⁽¹⁾	Change	Key drivers
East Coast	341.9	326.8	4.6%	Increased contribution from Orbost and higher gas volumes in Victoria
West Coast	137.1	135.8	1.0%	Contributions from newly commissioned laterals
Wallumbilla Gladstone Pipeline	278.8	270.0	3.3%	US CPI tariff impact and favourable foreign exchange hedge rates
Power Generation	99.8	86.2	15.8%	Higher generation at Diamantina Power Station and improved returns from Badgingarra renewables site
Energy Infrastructure total	857.6	818.8	4.7%	
Asset Management	41.7	31.0	34.5%	Customer contribution projects from NSW, VIC, NT and WA
Energy Investments	16.2	16.2	(0.0%)	
Corporate costs	(55.6)	(43.1)	29.0%	Investment in capability and strategic growth
Total underlying EBITDA	859.8	822.8	4.5%	

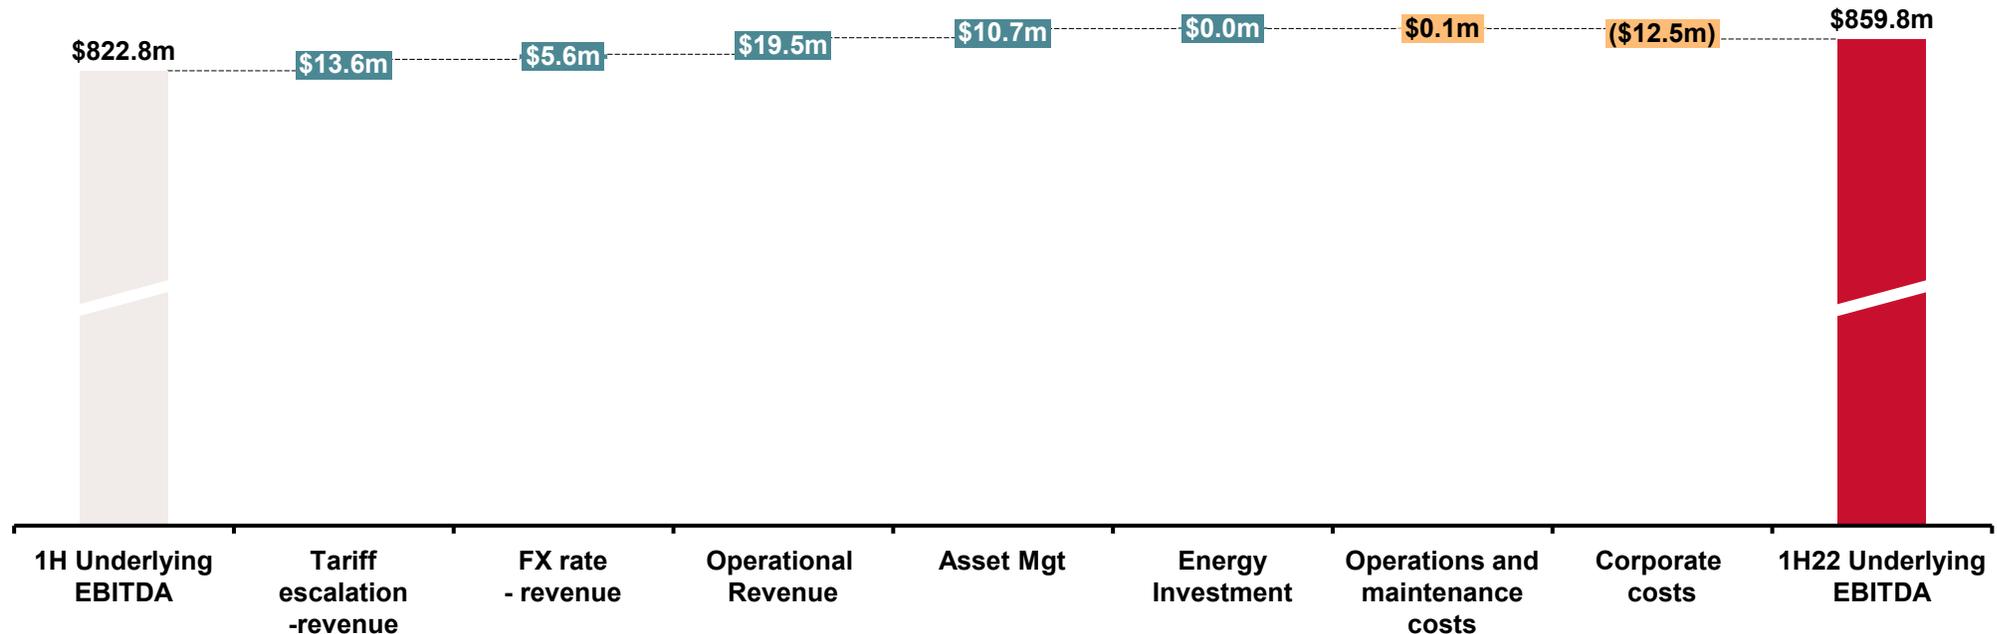

Notes: Numbers in the table may not add up due to rounding

1) 1H21 is restated as a result of change in the APA Group's accounting policy following the IFRIC Agenda Decision published in April 2021 related to accounting for SaaS arrangements

1H22 underlying EBITDA up 4.5% to \$860 million

Key Drivers

- Favourable tariff escalation given exposure to Australian and US inflation indices
- Operating revenue growth across all segments, with particularly strong growth from the Victorian Transmission System and Diamantina Power Station
- Asset Management benefited from third-party projects in NSW, Victoria, Northern Territory and Western Australia
- Ongoing discipline in management of Operations & Maintenance
- Higher bidding costs associated with corporate development activities
- Higher insurance premiums, and enhancements across technology, sustainability and leadership capability

1H22 capital expenditure

\$ Million	1H22	1H21 ⁽¹⁾

Regulated	34.7	21.3
Non-Regulated		
East Coast Gas	57.5	58.1
West Coast Gas	76.3	33.7
Power Generation	27.0	31.9
Other	23.2	9.3
Total growth capex		
Stay-In-Business (SIB) capex	69.7	83.1
IT capex	18.1	10.2
Corporate Real Estate	7.9	-
Total capital expenditure	314.4	247.5
Payment for Financial Assets	88.8	-
Total capital & investment expenditure	403.3	247.5

Notes:

1) 1H21 is restated as a result of a change in the APA Group's accounting policy following the IFRIC Agenda Decision published in April 2021 related to accounting for SaaS arrangements

2) Basslink ASX Announcement on 22 November 2021

Key drivers:

Major growth capex projects:

- East Coast Expansion – Stage 1
- Orbest Phase 2b upgrades
- Kurri Kurri Lateral
- Northern Goldfields Interconnect
- Gruyere Hybrid Energy Microgrid
- Mica Creek Solar Farm – Stage 1
- Basslink Senior Secured Debt acquired (face value \$99m)²

Major stay-in-business Capex:

- Diamantina Power Station
- Moomba Sydney gas pipeline

(1) Restated as a result of change in the APA Group's accounting policy following the IFRIC Agenda Decision published in April 2021 related to accounting for SaaS arrangements.

(2) Pass-through revenue is revenue on which no margin is earned

(3) Excludes significant items

(4) APA's liability to repay debt at relevant due dates of the drawn facilities. This amount represents current and non-current borrowings as per balance sheet and is adjusted for deferred borrowing costs, the effect of unwinding of discount, unrealised foreign exchange differences reported in equity and deducting other financial liabilities that are reported as part of borrowings in the balance sheet

(5) Free cash flow is operating cash flow less SIB capex (SIB capex includes operational assets lifecycle replacement costs and technology lifecycle costs)

(6) Operating cash flow = net cash from operations after interest and tax payments

(7) On 23 March 2018, APA Group issued 65,586,479 new ordinary securities, resulting in total securities on issue of 1,179,893,848. The weighted average numbers of securities from FY2016 to FY2018 have been adjusted to account for that rights issue

Historical underlying EBITDA by asset – Energy Infrastructure

Notes: EBITDA excludes significant items

(1) Includes other NSW pipelines

Debt maturity profile

APA maintains diversity of funding sources and spread of maturities

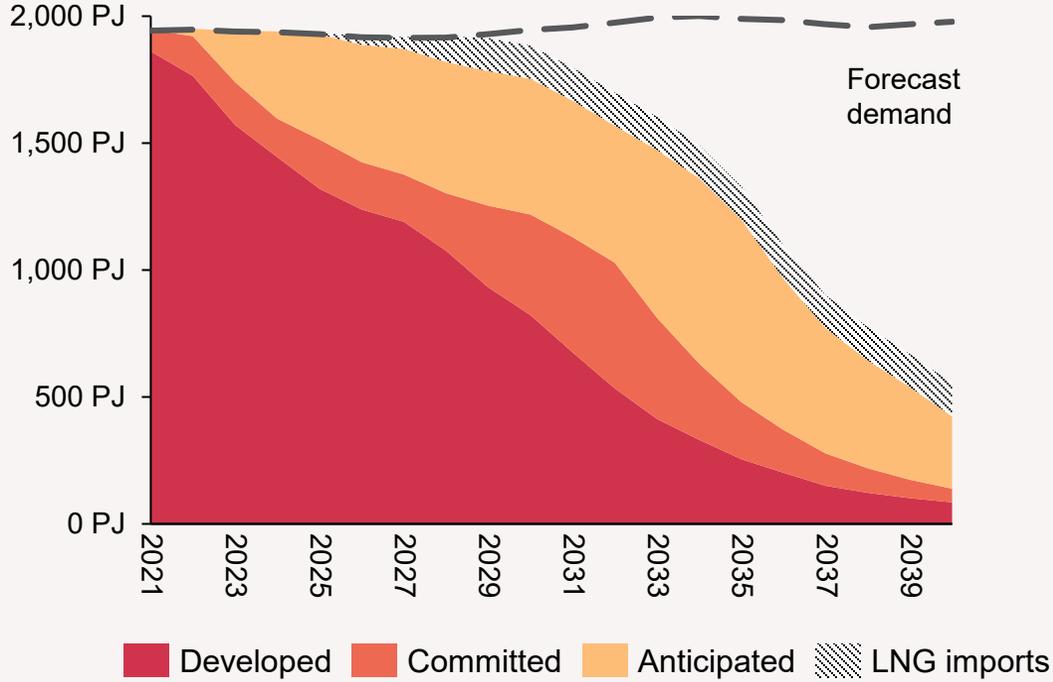

Notes:

- 1) APA debt maturity profile as at 31 December 2021
- 2) AUD denominated obligations debt capital market (DCM) notes
- 3) USD denominated obligations translated to AUD at the prevailing rate at inception (USD144A - AUD/USD=0.7879, Euro and Sterling - AUD/USD=0.7772)

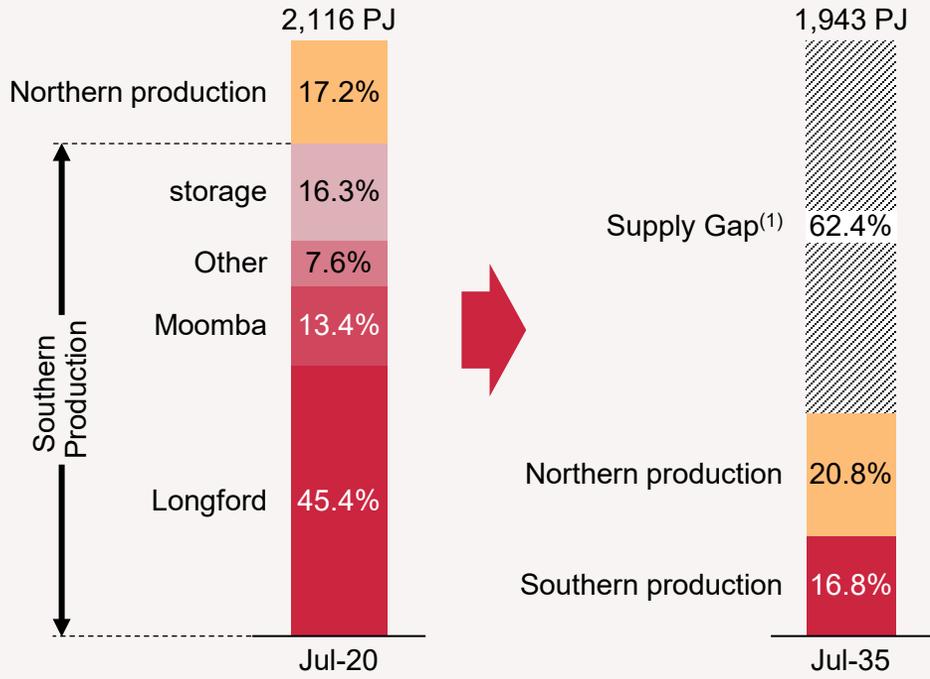

Energy market dynamics and overview

Australian gas market supply source transformation

AEMO forecast suggest shortfall in Eastern Australia gas production vs demand

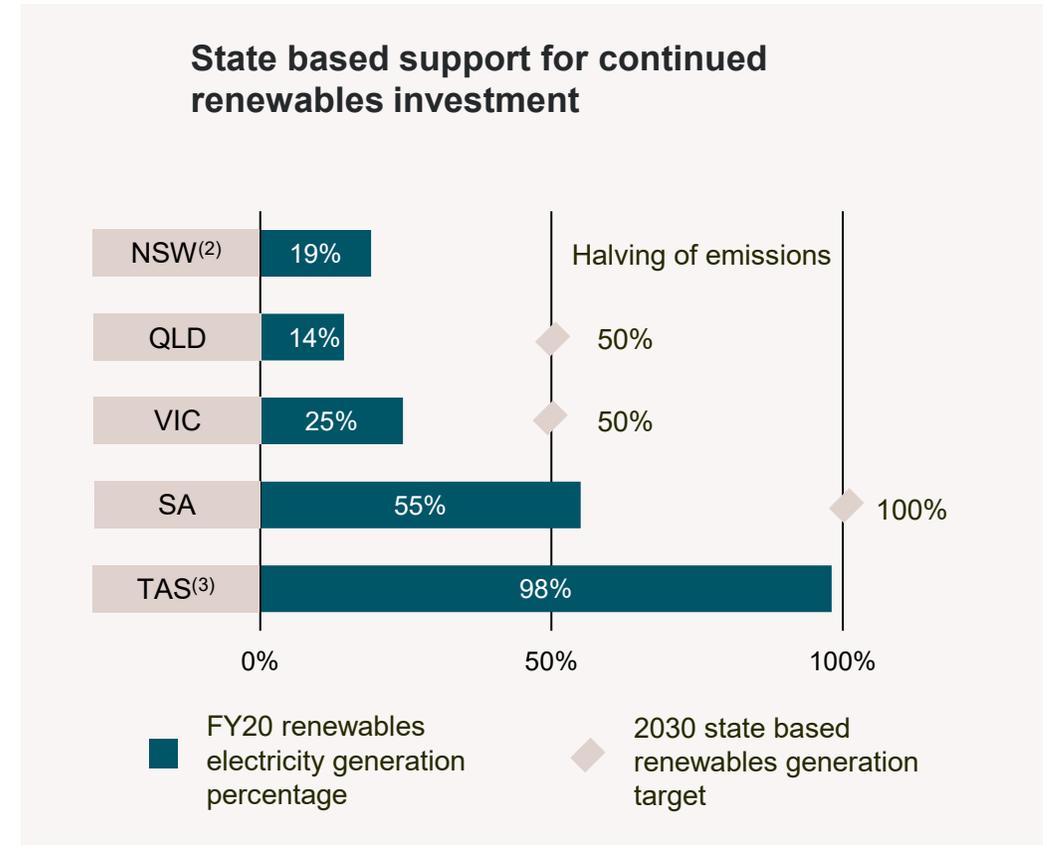

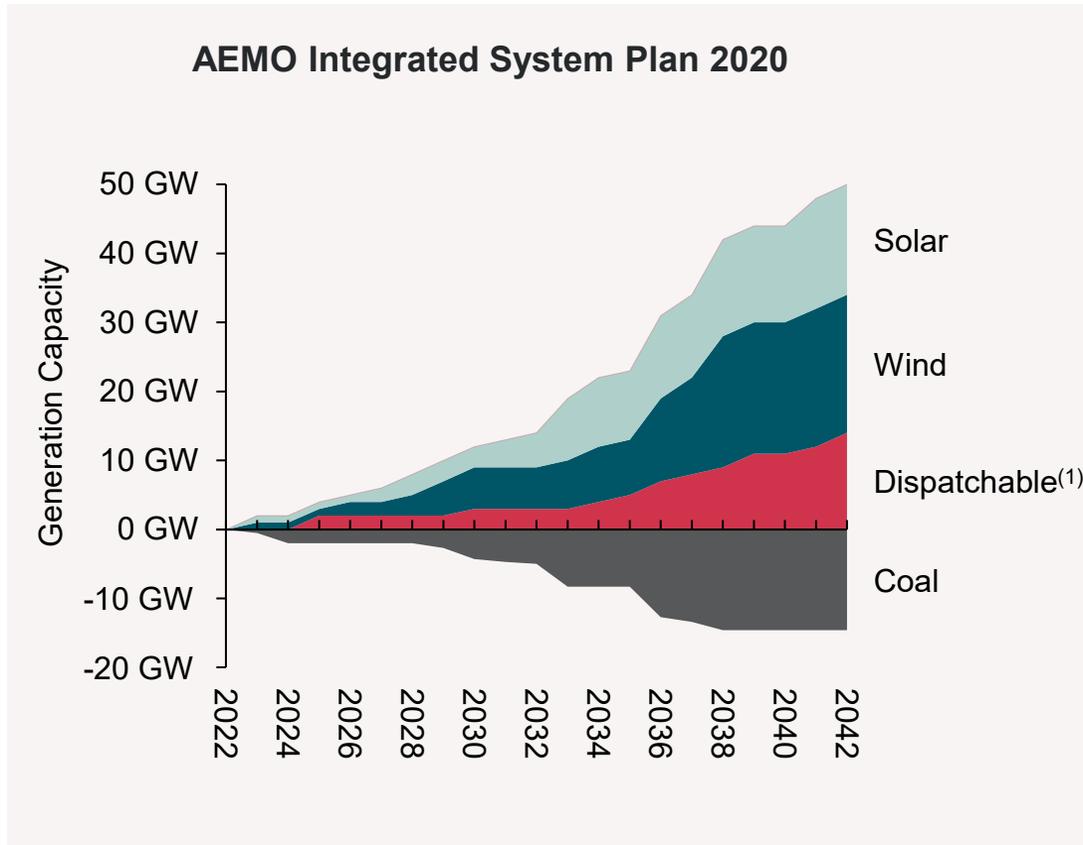

New Supply required to meet peak southern demand

Source: Gas Statement of Opportunities 2021, AEMO, gas production includes export LNG, Central scenario, existing, committed, and anticipated developments, 2021-40 (PJ), Figure 25 - Observed gas supply used to meet peak southern demand in 2020 and Figure 31 - Forecast gas supply relative to southern daily demand, Central scenario, 2035 (TJ/d)

Note: (1) includes demands that could be met with LNG receipts

Electricity market transition

Source: AEMO Integrated System Plan, 2020 central scenario; Australian Energy Statistic update 2021 Table O Electricity generation, by fuel type, by state

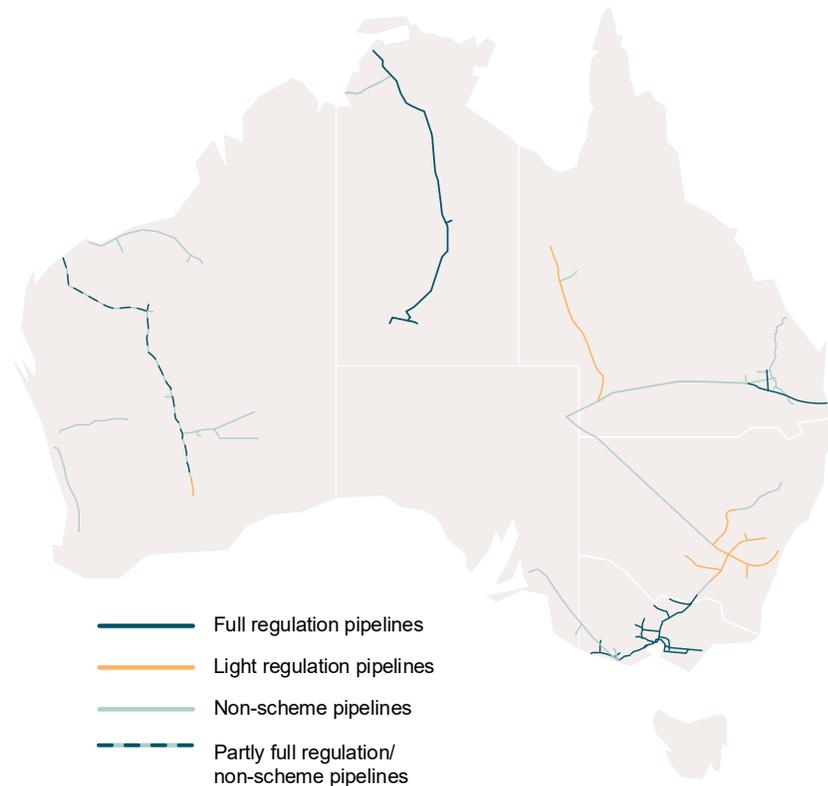

Notes: 1) Dispatchable generation includes utility-scale pumped hydro, gas-powered generation and battery storage

2) NSW has a generation target of halving emissions by 2030 <https://www.nsw.gov.au/media-releases/nsw-set-to-halve-emissions-by-2030>

3) Tasmania has a renewable generation target of 200% to 2040

Regulation of Australian gas pipelines

APA pipelines by regulation type

- In 1H22, 8.9% of Energy Infrastructure revenue was from full regulated assets
- Gas pipelines are regulated by the Australian Energy Regulator (AER) or, the Economic Regulation Authority of Western Australia (ERA)
- Australia's economic regulatory regime for gas pipelines is set out in the National Gas Law (NGL) and the National Gas Rules (NGR). Some of APA's pipelines have been covered by the National Gas Access Regime since it was introduced in the 1990's.
- There are currently two frameworks under the NGR:
 - 1) Scheme pipelines (NGR Parts 8-12) are subject to either:
 - full regulation, where the AER or ERA must approve a full access arrangement that sets out reference tariffs, terms and conditions in a negotiate-arbitrate framework. Pipeline users can opt for non-regulated services on full regulation pipelines; or
 - light regulation, where pipeline owners must publish services and prices and comply with information provision requirements to support negotiations or alternatively seek regulatory approval for a limited access arrangement. A regulatory negotiate-arbitrate mechanism is available in the case of access disputes.
 - 2) Non-Scheme pipelines (NGR Part 23) – The Part 23 regime came into effect from August 2017 and provides for tariffs and terms to be negotiated, supported by additional information disclosure and a commercial arbitration mechanism in the event of a dispute.

Regulation of Australian gas pipelines (continued)

Schedule of regulatory reset dates for APA

Current regulatory period	2022	2023	2024	2025	2026
Roma Brisbane Pipeline	■				
Victorian Transmission System	■				
Goldfields Gas Pipeline	■	■	■		
Amadeus Gas Pipeline	■	■	■	■	■

Access arrangement

- Apply for a term, generally 5 years
- Set out the terms and conditions of third party access, including
 - At least one reference service that is commonly sought by customers – for pipelines, this is generally firm forward-haulage services
 - A reference (benchmark) tariff for the reference service

Reference tariff

- Provides a default tariff for customers seeking the reference service but tariffs can also be negotiated for other services
- Determined with reference to regulated revenue, capacity and volume forecasts

Regulated revenue

- Determined using the building block approach to recover efficient costs including:
 - Forecast operating and maintenance costs
 - Regulatory asset depreciation and
 - Return on value of regulated assets (regulated asset base) based on WACC determination
 - Return is now a binding (defined methodology) rate of return as at Dec 2018 for the next 4 years
- WACC based on 60:40 debt equity split

Regulated asset base (RAB)

- Opening RABs have been settled with the regulator; there are no reassessments for approved RABs
- RABs adjusted every access arrangement period
 - Increased by capital invested into the asset and reduced by regulatory depreciation costs
