Purpose.

Inspiring transformative digital change for our customers and communities.

Important Notice

This investor presentation has been prepared by EML Payments Limited ABN 93 104 757 904 (EML) and is general background information about EML's activities current as at the date of this presentation. This information is given in summary form and does not purport to be complete.

Information in this presentation should not be considered as advice or a recommendation to investors or potential investors in relation to holding, purchasing or selling securities and does not take into account your particular investment objectives, financial situation or needs. Before acting on any information you should consider the appropriateness of the information having regard to these matters and seek independent financial advice. An investment in EML securities is subject to known and unknown risks, some of which are beyond the control of EML. EML does not guarantee any particular rate of return or the performance of EML.

This presentation may contain forward looking statements including statements regarding our intent, belief or current expectations with respect to EML's businesses and operations, market conditions, results of operation and financial condition, capital adequacy, specific provisions, contingent liabilities and risk management practices. Readers are cautioned not to place undue reliance on any forward looking statements. Unless otherwise specified all information is for the six months ended 31 December 2021 ("H1 FY22"), and is presented in Australian Dollars.

Unless otherwise stated, the prior comparative period refers to the six months ended 31 December 2021 ("H1 FY21").

Disclaimer

The information contained in this update is provided for general information purposes and is a summary only. The content of the update is provided as at 19 May 2022. Given the uncertain, unpredictable and volatile nature of business and economic conditions across the world as a consequence of the COVID-19 pandemic, and the significant influence of some third parties (such as regulators) on the business, reliance should not be placed on the content of this presentation or opinions contained in it. Further, subject to any legal obligation to do so, EML does not have any obligation to correct or update the content of this presentation.

The update does not and does not purport to contain all information necessary to make an investment decision, is not intended as investment or financial advice (nor tax, accounting or legal advice), and must not be relied upon as such. The update is of a general nature and does not take into consideration the investment objectives, financial situation or particular needs of any particular investor. Any investment decision should be made solely on the basis of your own inquiries, including inquiries beyond the scope and content of this update. Before making any investment in EML, you should consider whether such an investment is appropriate to your particular investment objectives, financial situation, risk appetite and needs. EML is not licensed to provide financial product advice in respect of its shares.

About Us

At EML we develop tailored payment solutions for brands to make their customers lives simpler. Through next-generation technology, our portfolio of payment solutions offers innovative options for disbursement payout's, gifts, incentives and rewards. We're proud to power many of the world's top brands and processed over \$30 billion in GDV in H1 FY2022 across 32 countries in Australia, EMEA and North America. Our payment solutions are safe and secure, easy and flexible, providing customers with their money in real-time. We know payments are complex, that's why we've made the process simple, smart and straightforward, for everyone.

Additional Nuapay Opportunities

Strong cumulative growth with 5 million¹ regular users of Open Banking in the UK as of January 2022.

Trajectory of open banking growth continues to increase. It took 10 months to grow from 1 million to 2 million customers¹. The growth from 4 million to 5 million customers took 4 months¹.

Variable Recurring Payments (VRP)

- Ecosystem and standards continue to evolve and expand to improve the user experience and enable new use cases which offer additional opportunities for Sentinal.
- An example is VRP in the UK, which are a payment instruction which can be set up to make a series of future payments.
- With VRP customers agree payment parameters with a Third Party Provider, and authenticate that mandate with their bank. Thereafter, payments can be initiated without the customer having to take any action.
- At present they are used to enable businesses to 'sweep' money between different accounts to run their finances more effectively.
- The UK Competition and Markets Authority (CMA) has required the nine largest UK banks to implement VRP to enable customers to sweep money between their accounts.
- A wide range of use cases are enabled by this extension to UK Open Banking, including Smart Overdrafts, Automated Savings, and with some further iteration also potentially Recurring Billing and Ecommerce card-on-file.
