Appen is the global leader in data for the AI Lifecycle. With over 25 years of experience in data sourcing, data annotation, and model evaluation by humans, we enable organisations to launch the world's most innovative artificial intelligence systems.

Our expertise includes a global crowd of more than 1 million skilled contractors who speak over 235 languages, in over 70,000 locations and 170 countries, and the industry's most advanced AI-assisted data annotation platform. Our products and services give leaders in technology, automotive, financial services, retail, healthcare, and governments the confidence to launch world-class AI products.

In our Investor Technology Day, we will explore

- the AI lifecycle, and the role that Appen plays
- the current market opportunity and Appen's competitive advantage
- how our products enable our growth strategy and add value for customers and shareholders
- our roadmap and vision for the future.

Presenters include Mark Brayan CEO & MD, Sujatha Sagiraju Chief Product Officer, Wilson Pang Chief Technology Officer, Mike Davie Senior Vice President & GM Quadrant, and Ryan Kolln Vice President Strategy and Corporate Development.

Authorised for release by the CEO.
