Quarterly Activity Report: April – June 2022

Highlights:

- **Cash flow break even, despite difficult retail trading conditions**
- **FY22 YTD sales of \$50.4M, +20% vs FY21 \$41.8M**
- **\$2.4M cash on hand**
- **No intention to raise capital**
- **Strategic review of all technology brands achieving inventory reduction targets**
- **Encouraging results from 9-month trial of Household products category**
- **Beta launch of dedicated HT Home website**

Pure-Play IT and Consumer Electronics online retailer Harris Technology Group Limited (ASX: HT8) is pleased to provide its activity report for the June FY22 quarter.

Operations Update

Harris Technology generated \$9.2M* sales revenue for the June quarter. This takes FY22 YTD revenue to \$50.4M which represents an increase of 20% on FY21.

Operational cash flow for the June quarter was breakeven as a result of focused efforts to reduce technology product inventory with a priority on improving net margin rather than revenue growth.

Having successfully conducted trials on household products with local importers, Harris Technology saw sales growth over the past nine months from the Household category with attractive margins. The Company is set to launch a new eCommerce site dedicated to household products (www.hthome.com.au). The new site is currently undergoing a beta launch and will operate in parallel to the Company's flagship HT website (www.ht.com.au) which will continue focusing on technology and consumer electronics products. All products listed on the HT Home website are being sold on major online marketplaces.

Technology product sales have been negatively affected due to dropping demand since the easing of lockdowns and rising cost-of-living expenses. Management has executed a review of all technology brands sold through Harris Technology channels, removing certain underperforming low margin products, resulting in lower and healthier inventory.

Although Harris Technology is being impacted by industry headwinds currently faced by the eCommerce and retail sectors, the Board is satisfied with the quality and level of the inventory where ageing inventory has continued to be cleared to improve cash flow. As of 30 June 2022, Harris Technology had a cash balance of \$2.4M and has no need to raise capital.

Harris Technology CEO, Garrison Huang commented, “Harris Technology has moved quickly to reduce inventory and aging stock in light of fast-changing economic conditions. The company is in a strong position to drive its expansion into the Household category with minimal cost implications.”

“Diversifying into Household products on all major eCommerce platforms in partnership with local Household product importers and wholesalers through the launch of a dedicated Household eCommerce site creates an opportunity to gradually improve the overall margin of the business.”

Expenditure incurred during the quarter

Expenditure Category	Amount \$
Purchase of Inventory	8,924,000
Advertising	3,000
Staff Administrative and Corporate Costs	493,000

The amount included in section 6.1 of the Appendix 4C is the payment of fees to directors.
