Dear Shareholders,

On behalf of the board, we are pleased to report the financial performance of Propel Funeral Partners Limited (ASX: PFP) (**Propel or Company**) for the year ended 30 June 2022 (**FY22**).

Financial performance

FY22 was another record year for Propel. A material increase in total and comparable funeral volumes on the prior year, combined with stronger Average Revenue Per Funeral⁴ in 2H FY22 (compared to the lock down impacted 1H FY22), contributed to Propel achieving continued growth in key financial and operating metrics in FY22, despite COVID-19 impacts. The table below compares the Company's Pro forma FY22 financial results with the prior year and summarises its FY22 statutory financial results, which were impacted by one-off items relating to the Management Internalisation⁵ and government subsidies⁶:

	FY22 Pro forma ¹	FY21 Pro forma ¹	Change	FY22 Statutory
Revenue (\$m)	145.2	120.4	▲ 20.6%	145.2
Operating EBITDA (\$m)	39.0	31.1	▲ 25.2%	39.6

Operating EPS (cents) ⁷	15.0	11.4	▲ 31.1%	15.4
Cash flow conversion ⁸	100.2%	101.8%	-160bps	100.2%

The Company's FY22 financial results also include impacts from:

- part year contributions from six acquisitions completed during FY22;
- full year contributions from three acquisitions completed during the prior year;
- extended lock downs and strict funeral attendee limits in parts of Australia and New Zealand during 1H FY22; and
- new shares issued in connection with equity raised, the Management Internalisation and acquisitions.

Further details, including definitions and a reconciliation of the Company's FY22 Pro forma and statutory financial results, are provided in the Appendix 4E, 2022 Annual Report and FY22 Investor Presentation released to the ASX today.

ASX ANNOUNCEMENT

Funeral volumes

Propel performed 16,537 funerals in FY22, an increase of 18.8% on the prior year and a more than 10 fold increase since FY15.

In most markets in which the Company operates, death volumes increased materially in FY22, with Propel experiencing comparable funeral volume growth over the relevant prior corresponding period (PCP) of:

- 8.9% in FY22 (FY21: decline of 3.5%); and
- 7.8% in 1H FY22, which accelerated to 10.1% in 2H FY22.

Average Revenue Per Funeral

Average Revenue Per Funeral in FY22 was \$6,038:

- up 2.0% on the prior year; and
- up 4.9% on the pre-COVID-19 period (i.e. Q1 to Q3 FY20).

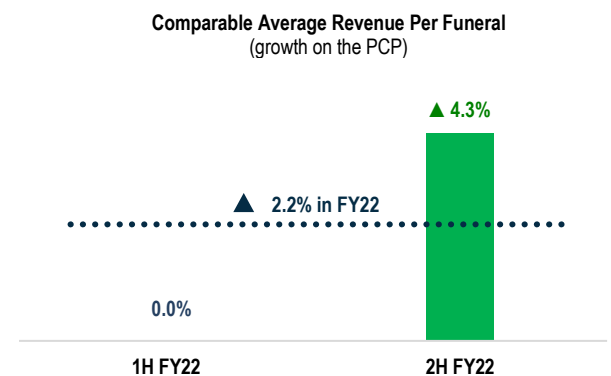

COVID-19 impacts on Average Revenue Per Funeral were primarily felt during 1H FY22 but were less severe than during the initial wave of the pandemic in Q4 FY20. Since the start of the pandemic, Average Revenue Per Funeral impacts from lock downs and strict funeral attendee limits have been temporary, with Average Revenue Per Funeral generally rebounding quickly, as restrictions have eased.

During 1H FY22 extended lock downs and strict funeral attendee limits in parts of Australia and New Zealand¹¹ contributed to:

- a higher mix of lower value funerals; and
- comparable Average Revenue Per Funeral being in line with the PCP.

During 2H FY22, there were no extended lockdowns or strict funeral attendee limits in Australia and New Zealand, which contributed to:

- a higher mix of full service funerals; and
- comparable Average Revenue Per Funeral growth of 4.3% on the PCP.

¹¹ For example, funeral attendance in greater Auckland was initially prohibited and subsequently limited to 10 attendees for ~3 months during 1H FY22, with similar restrictions applying in parts of Australia.

ASX ANNOUNCEMENT

Outlook

In terms of the outlook for FY23, the Company expects to benefit from:

- favourable demographics in Australia and New Zealand;
- a strong funding position; and
- acquisitions completed and announced to date and other potential future acquisitions in what remains a highly fragmented industry.

In that regard, Propel's positive trading momentum has continued into the start of the new financial year:

- in the first six weeks of FY23, total and comparable funeral volumes were materially higher than the PCP;
- in the month of July 2022¹⁸:
 - Average Revenue Per Funeral was ~6% higher than FY22; and
 - the Company's Operating EBITDA margin reflected strong seasonal trading conditions.

It should be noted that:

- death volumes fluctuate over short time horizons;
- higher inflation is expected to impact funeral related pricing and costs; and
- ongoing impacts from COVID-19, particularly on death volumes, remain uncertain.

Our people

Finally, we wish to make special mention of our employees across Australia and New Zealand. We thank them for their hard work, professionalism, flexibility and commitment to providing essential and caring services to the customers they serve, often under very difficult circumstances, especially since the start of the pandemic. We also wish to specifically acknowledge and thank our dedicated staff in flood affected areas in NSW and QLD, who continued to provide essential funeral and related services to their local communities despite particularly challenging weather events during 2H FY22.

We look forward to reporting the Company's further progress to shareholders, as and when appropriate.
