Disclaimer & Competent Persons Statement

GENERAL

The purpose of this presentation is to provide general information about Capricorn Metals Limited (“Capricorn” or the “Company”). This presentation is current as at 8 November 2022 (unless otherwise stated herein). The information in this presentation may change over time and Capricorn has no obligation to update or correct the historical content.

Distribution of this presentation may be restricted or prohibited by law. In particular, this presentation must not be further distributed in the United States.

This presentation does not involve or imply a recommendation or a statement of opinion in respect of whether to buy, sell or hold securities in the Company. Any investor should make their own independent assessment and determination as to the Company’s prospects prior to making any investment decision, and should not rely on the information in this presentation for that purpose.

Further, this presentation is not, and does not constitute, an offer to buy or sell any securities in the Company. It is not intended to be, and is not, a prospectus, product disclosure statement, offering memorandum or private placement memorandum for the purpose of Chapter 6D of the Corporations Act 2001.

The information in this presentation is, or is based upon, information that has been released to the Australian Securities Exchange (**ASX**). Its content should therefore be read in conjunction with Capricorn’s other periodic and continuous disclosure announcements lodged with ASX, which are available at www.asx.com.au.

Except for statutory liability which cannot be excluded, the Company, its officers, employees and advisers expressly disclaim any responsibility for the accuracy or completeness of the material contained in this presentation and exclude all liability whatsoever (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in this presentation or any error or omission there from. The Company accepts no responsibility to update any person regarding any inaccuracy, omission or change in information in this presentation or any other information made available to a person nor any obligation to furnish the person with any further information.

FORWARD LOOKING STATEMENTS

This announcement may contain certain “forward-looking statements” and comments about future events. Forward-looking statements may include words such as “anticipate”, “believe”, “expect”, “project”, “forecast”, “estimate”, “outlook”, “upside”, “likely”, “intend”, “should”, “could”, “may”, “target”, “plan”, and other similar expressions. Indications of, and guidance on, production, future earnings and financial position and performance are also forward-looking statements. These statements are provided as a general guide only and should not be relied upon as an indication, prediction or guarantee of future performance. Actual results may differ materially from those expressed or implied in such statements and these differences may be material. They involve known and unknown risks and other factors, many of which are beyond the control of, or unknown to, Capricorn and may involve significant elements of subjective judgement and assumptions as to future events which may or may not be correct.

Recipients are cautioned not to place undue reliance on forward looking statements and except as required by law or regulation, Capricorn assumes no liability to update these forward looking statements. Such statements speak only as of the date hereof, and Capricorn has no obligation to update or revise any such statements to reflect any change in events, conditions or circumstances on which any such statement is based.

COMPETENT PERSON’S STATEMENT

The information in this presentation that relates to Exploration Results is extracted from the ASX announcements released 24 October 2022 entitled “Further Strong Results Returned From Mt Gibson and Karlawinda Drilling” for which Competent Person’s consents were obtained. The Competent Person’s consents remain in place for subsequent releases by the Company of the same information in the same form and context, until the consent is withdrawn or replaced by a subsequent report and accompanying consent. The information in this presentation that relates to Mineral Resources or Ore Reserves is extracted from the Mineral Resource and Ore Reserve Statements released to the Australian Securities Exchange on 27 October 2022 and 7 November 2022 and for which Competent Person’s consents were obtained. The Competent Person’s consents remain in place for subsequent releases by the Company of the same information in the same form and context, until the consent is withdrawn or replaced by a subsequent report and accompanying consent.

LISTING RULE 5.23 DISCLOSURE

The detailed information relating to the Ore Reserves and Mineral Resources reported in this presentation were announced in the Company’s ASX announcements dated 27 October 2022 and 7 November 2022. The Company confirms that it is not aware of any new information or data that materially affects the information included in the ASX announcements dated 27 October 2022 and 7 November 2022 and all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Persons’ findings are presented have not materially changed from previous market announcements.

Broker Coverage

DNA of quiet delivery & exceptional returns

History of CMM management group 1995 – 2018

- Two ASX listed gold mining companies
- 4 projects built & operated in Australia and Ivory Coast
- 7 processing plants, >15 open pits developed & operated
- >\$3bn equity value & \$400m dividends

Deep & sustained value delivered. How?

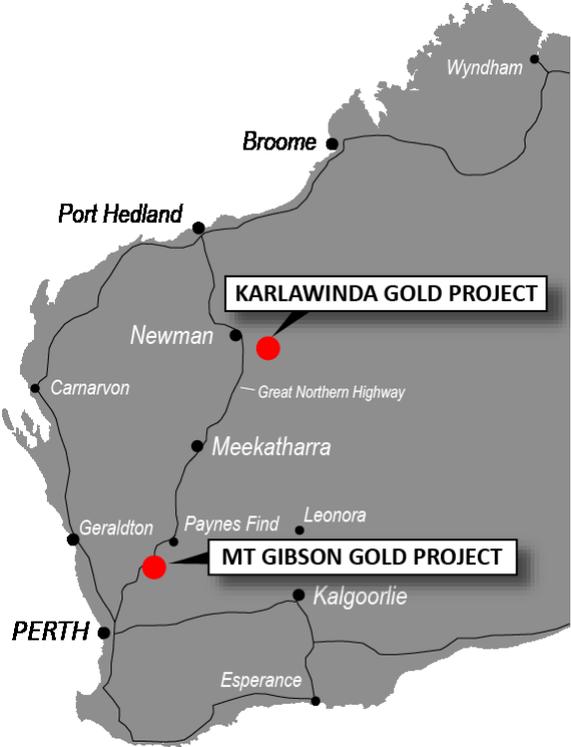

- Stick to what we know - gold, open pit, CIL, Australia
- Robust & achievable resource/reserve estimates crucial
- In house development and operating capacity
- Focus on cashflow
- Significant management ownership
- Minimise equity issue – modest debt & self funding

Application to Capricorn

- Identified Karlawinda as a robust, executable project
- Simplified plant design to maximise operating flexibility and throughput
- CMM managed construction – low cost per throughput tonne v industry
- Identified similar opportunity at Mt Gibson
- Strong cashflow provides balance sheet strength to pursue growth options

**Goal to (again) deliver superior returns
by building best in class, multi mine gold business**

First Year in Review:

- Achieved steady state 3 months after first gold bar
- Produced 118koz @ AISC A\$1,112/oz (guide 110-120koz @ A\$1100-1200/oz)
- Generated operating cashflow of A\$141m including 1 quarter ramp up
- Repaid \$40m debt and achieved net cash (peak net debt \$85m July21)

Q1FY23

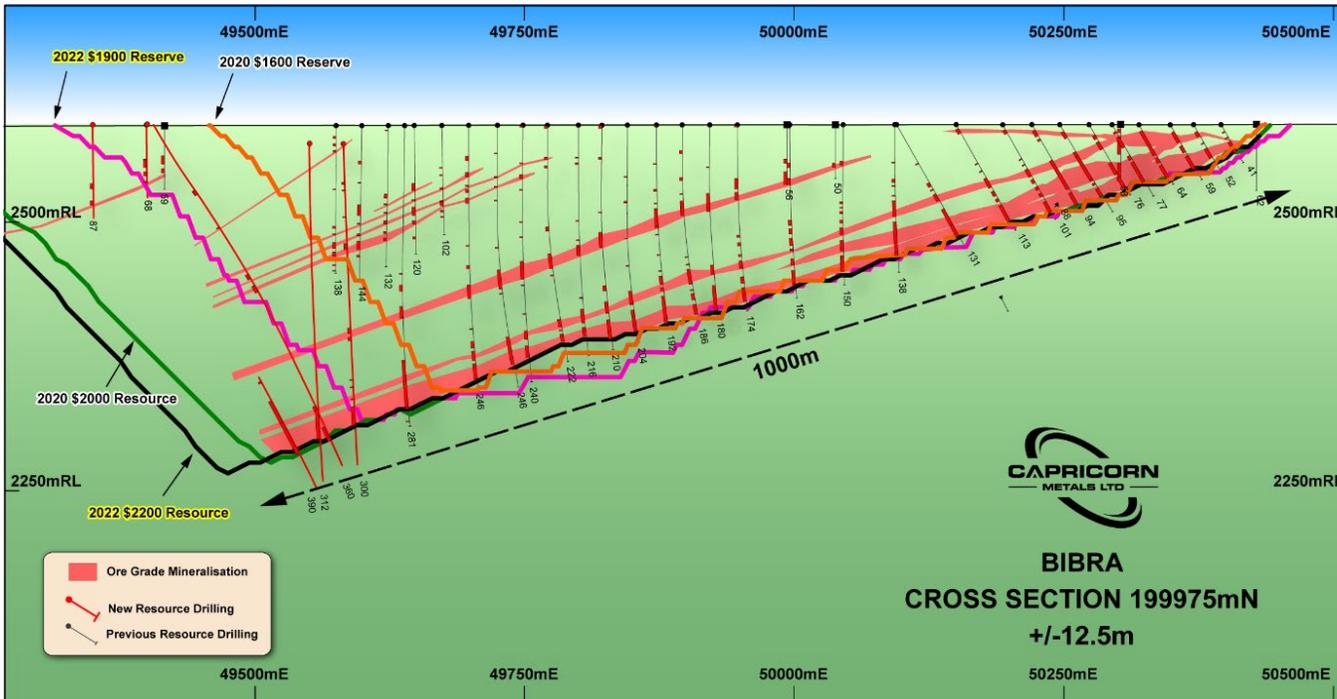

- Produced 31koz @ AISC A\$1,166/oz
- Cashflow from ops A\$38.5m, net cash (30/9) A\$19.1m (up A\$18.2m)

FY23 Guidance: 115 – 125koz @ AISC A\$1,160-\$1,260/oz

KGP generating industry leading cashflow per ounce of production

* For the 9 months ending 30 June 2022

KGP Ore Reserve – 10+ years and further growth potential

Oct22 Update

- ORE up 283koz (24%) after mining depletion
- MRE up 287koz (13%) after mining depletion

Reserves 1.34 million ounces

- Mine life over 10 years
- Strip ratio 3.9

Resource 2.29 million ounces

- Down dip extensions of Reserve

Gold prices used

- Reserve - A\$1,900/oz, Resource - A\$2,200/oz

Ultimate depth of ORE/MRE pits

- Reserve - 275m, Resource - 345m

	Tonnes (M)	Grade (g/t)	Ounces
Probable Reserves (ORE)*	53.0	0.8	1,344,000

Inferred Resources	16.9	0.6	346,000
Total Resources*	99.2	0.7	2,291,000

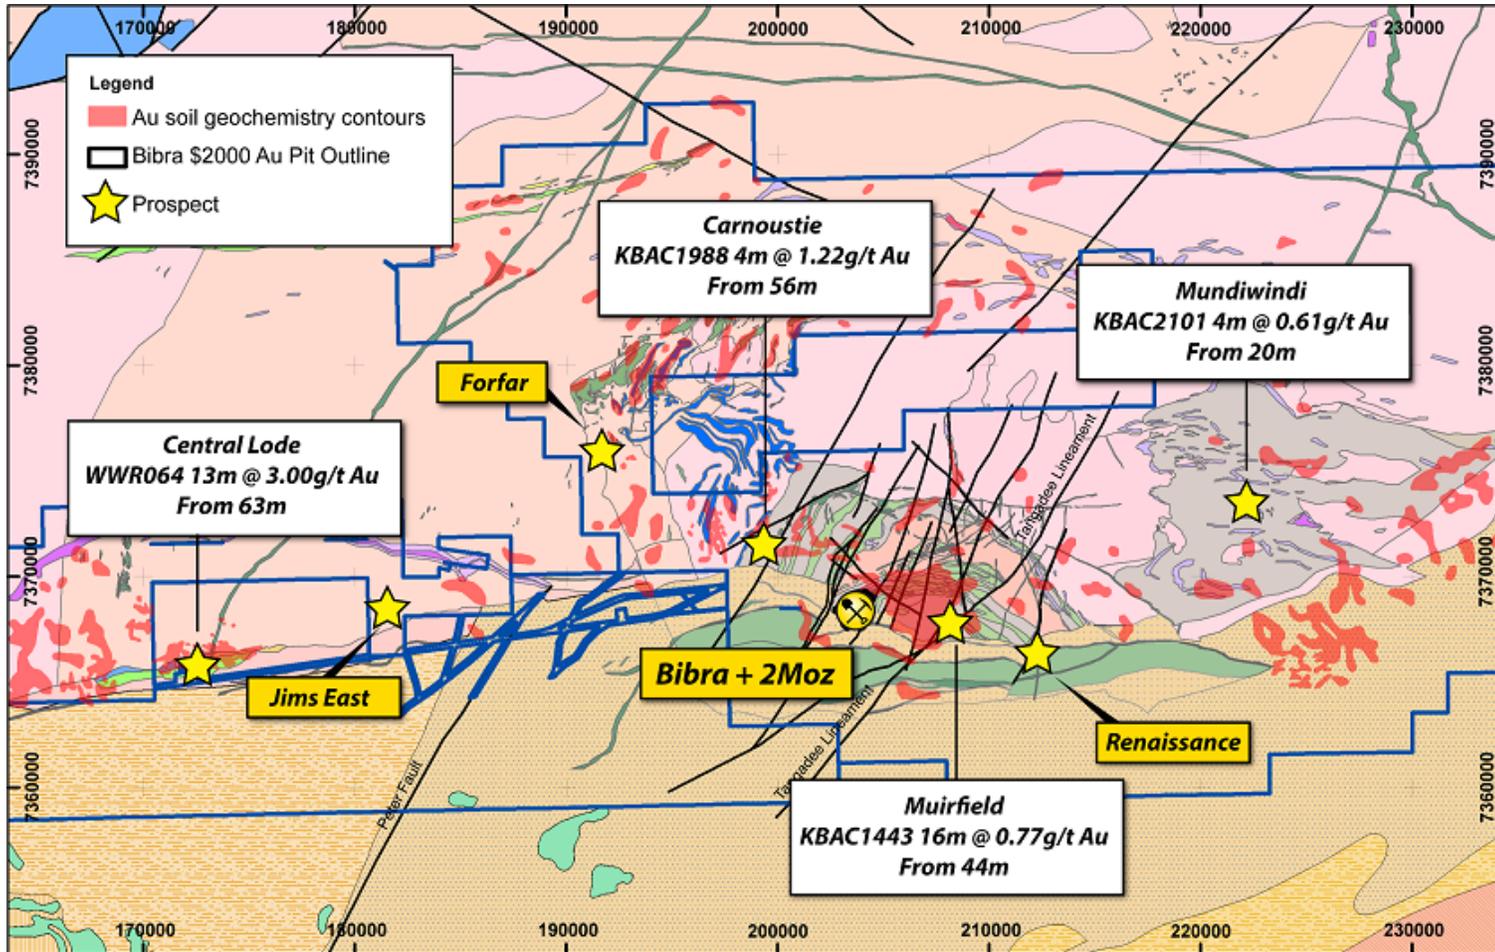

Optionality

- 947,000oz of MRE not yet in Reserve
- Primarily located down dip of current pit design
- Current pit low cost and low strip
- Option on gold price and/or cost reversion

Further scope for mine life extension

Unlocking the potential of a new gold camp at KGP

- CMM owns 2,941km² of exploration & mining tenure at KGP (>100km E-W)
- Regional geological settings prospective for gold in the Pilbara Craton
- Limited regional drilling - 97% of drilling within 4km (50km²) of Bibra deposit
- Multiple regional targets for testing (pending access)
- Testing near mine targets 30,000m AC
 - Carnoustie, Forfar & Muirfield
- Newly acquired Mumbakine Well project a high priority

Development of a mine in a prospective district will see good exploration unlock the endowment of the region.

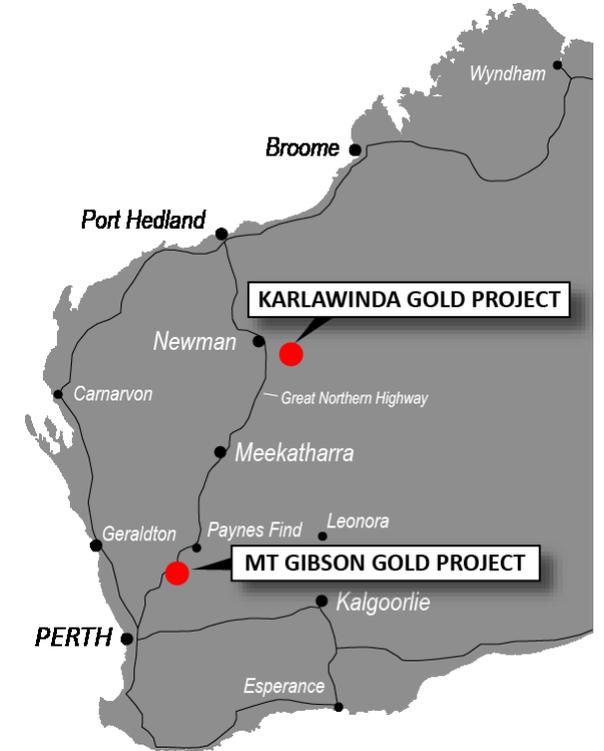

Mumbakine Well acquisition presents walk up drill targets

- Acquired 361km² EL in June 2022
- Contiguous to KGP tenure and <10km from KGP mill
- Close to main site access road
- Historical exploration focussed on soil anomalies at Jim's Vein (400m strike) & Central Zone (1km strike)
- Historical drilling returned results* including:
 - 5m @ 7.06 g/t from 65m 5m @ 3.19 g/t from 9m
 - 9m @ 2.88p g/t from 32m 2m @ 7.43 g/t from 5m
 - 6m @ 3.94 g/t from 47m 2m @ 5.67 g/t from 0m
- Jim's Vein - only 16 RAB holes to 20m depth
- Central Zone - open east-west along strike
- Regional – significant exposed prospective Archean stratigraphy with no previous exploration
- High priority, near term exploration targets

Development of a mine in a prospective district will see good exploration unlock the endowment of the region.

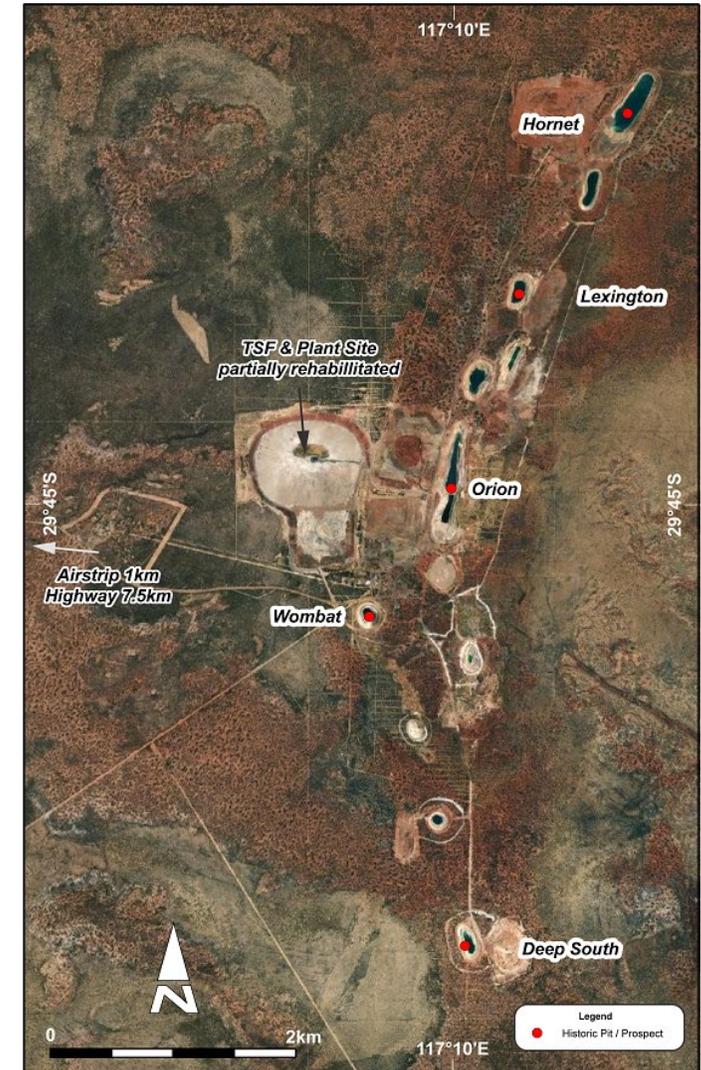

Mt Gibson Gold Project

Mt Gibson Gold Project – a hidden gem

- Prime location in Murchison, WA
 - 280km northeast of Perth.
- Historical (1986-99) gold production
 - >868koz, 14 pits avg depth 60m
- Closed when gold price cA\$450/oz
 - “off the grid” for 30 years.
- Wombat underground mine followed high grades below pit
- CMM acquired July21
 - Unique opportunity presented by ownership malaise at time
 - \$39.6m acquisition cost

2.8Moz Resource - platform for a significant mining operation

Nov22 resource update

- Includes 104,000m RC
 - drilled & assayed since Jan22
- **2,755,000 ounce resource***
- 672koz (32%) increase on Jul21 resource
- **160 metre average depth (max 280m)**
- Acquisition & drilling cost ~\$17/oz

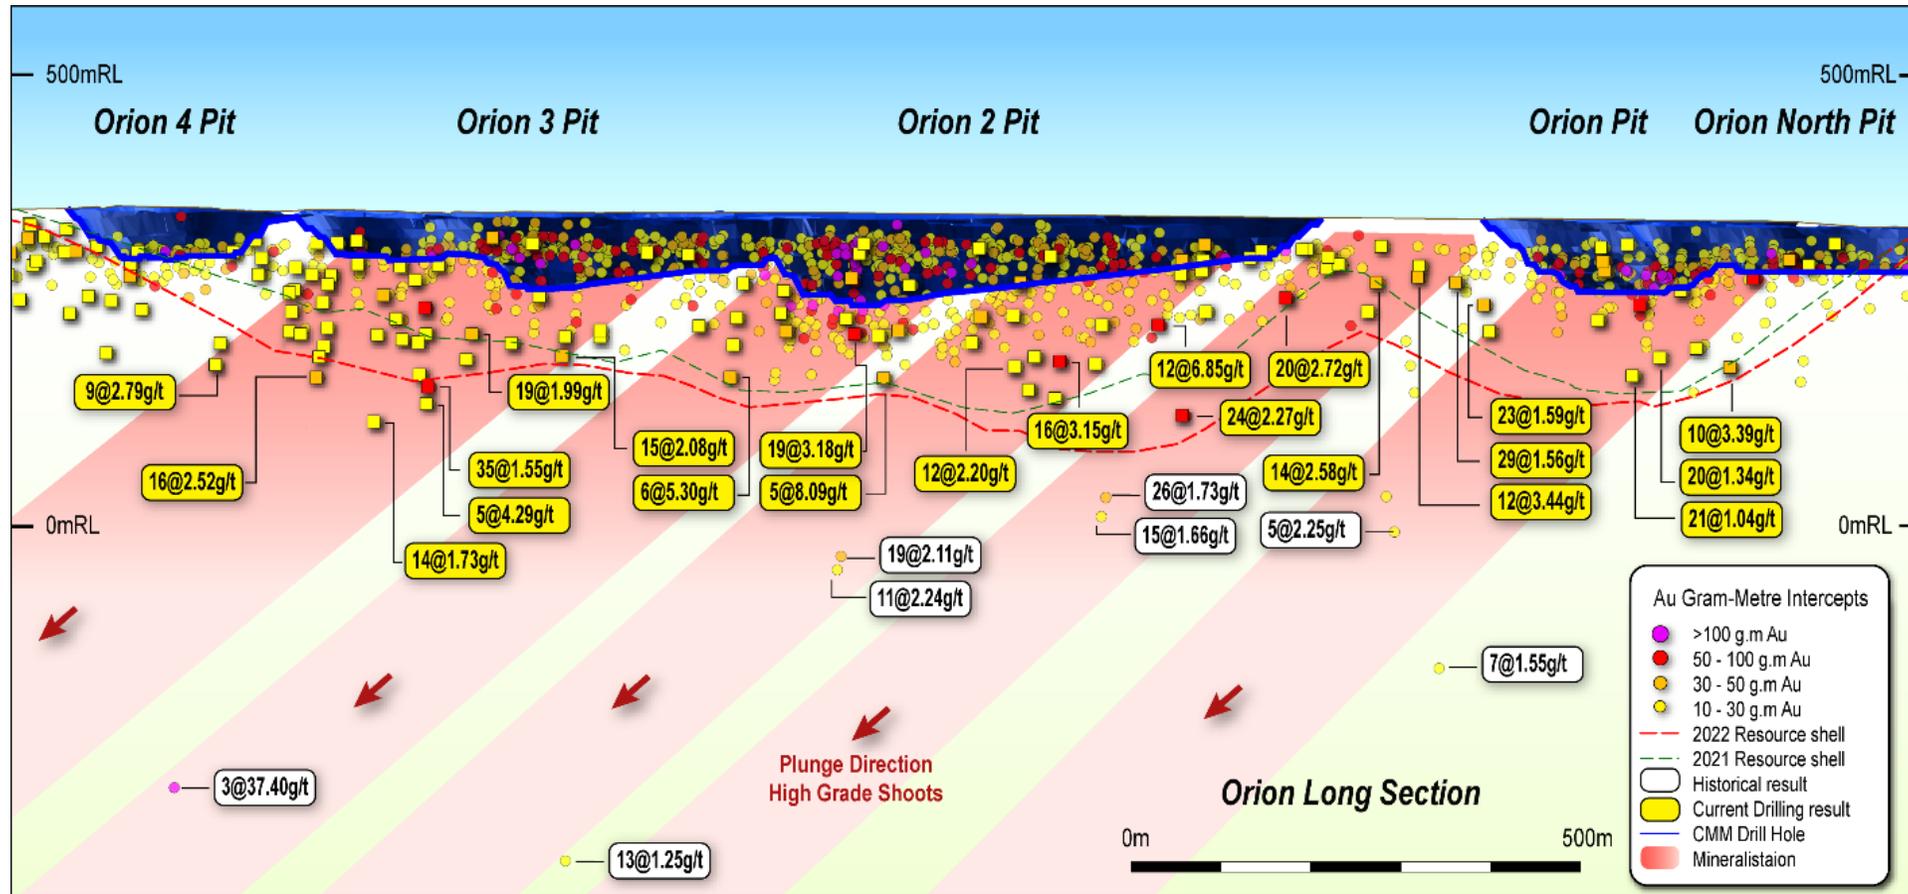

Indicated category 76% of total resource

- **2,106,000 ounces**
- 25 x 25 m average drill density
- **Strong basis for maiden reserve**
 - **targeted later this quarter**
- Depth of Ind-Inf boundary averages 150m
- Drilling cost <\$8/oz of Indicated resources

* Refer to Listing Rule 5.23 Disclosure on page 2.

* Refer to slide 22 for full details of the Mineral Resource..

Platform for a mine, but still focussing on resource growth

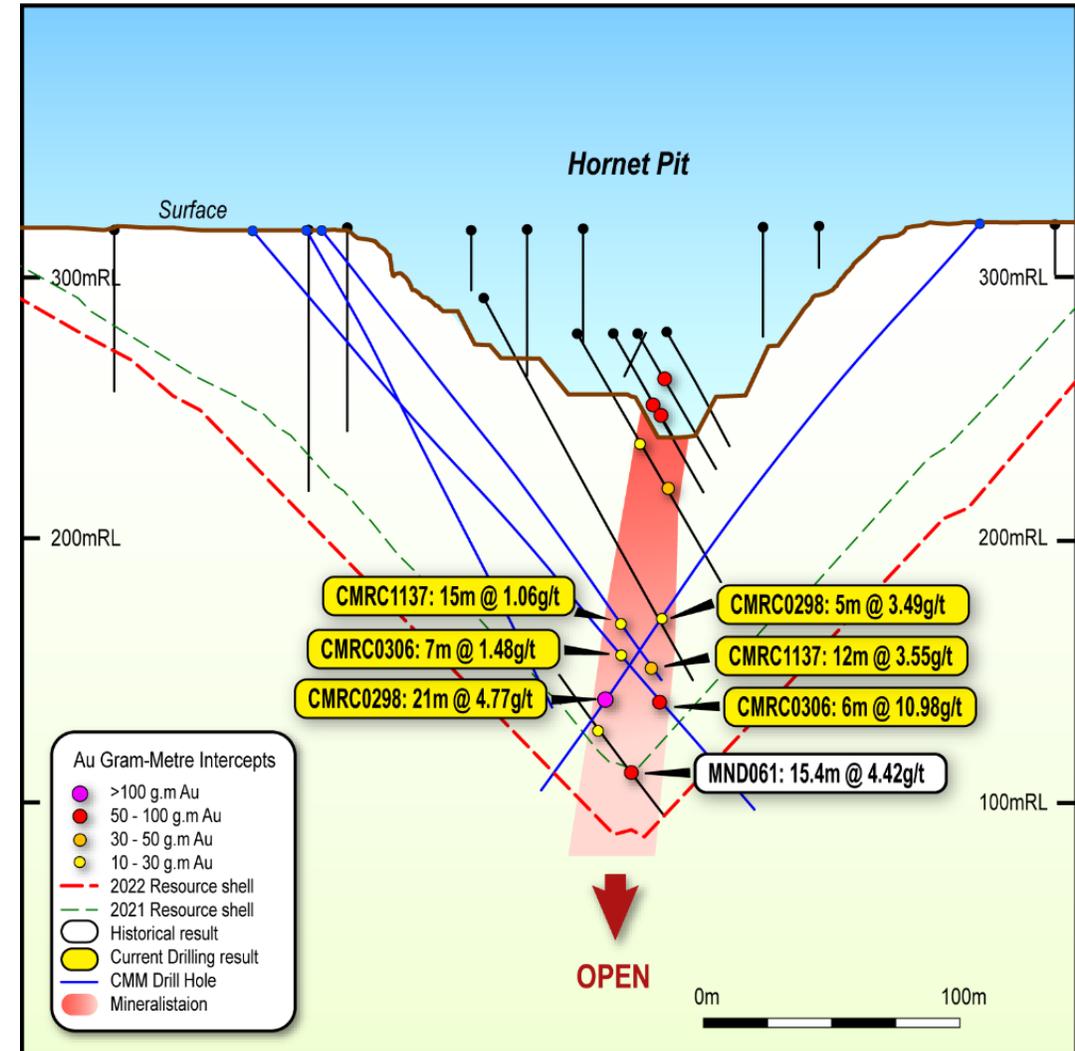

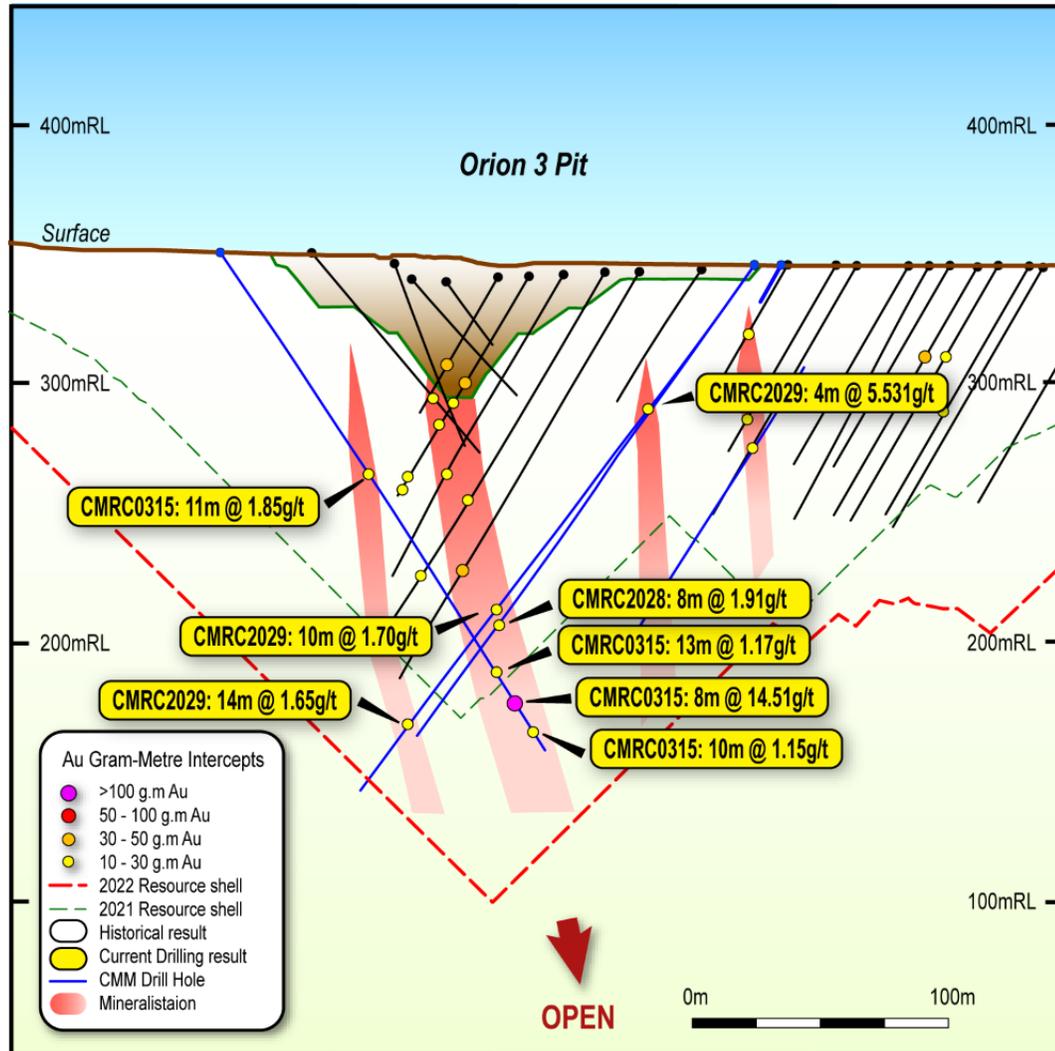

Resource shells largely limited by extremity of drill data

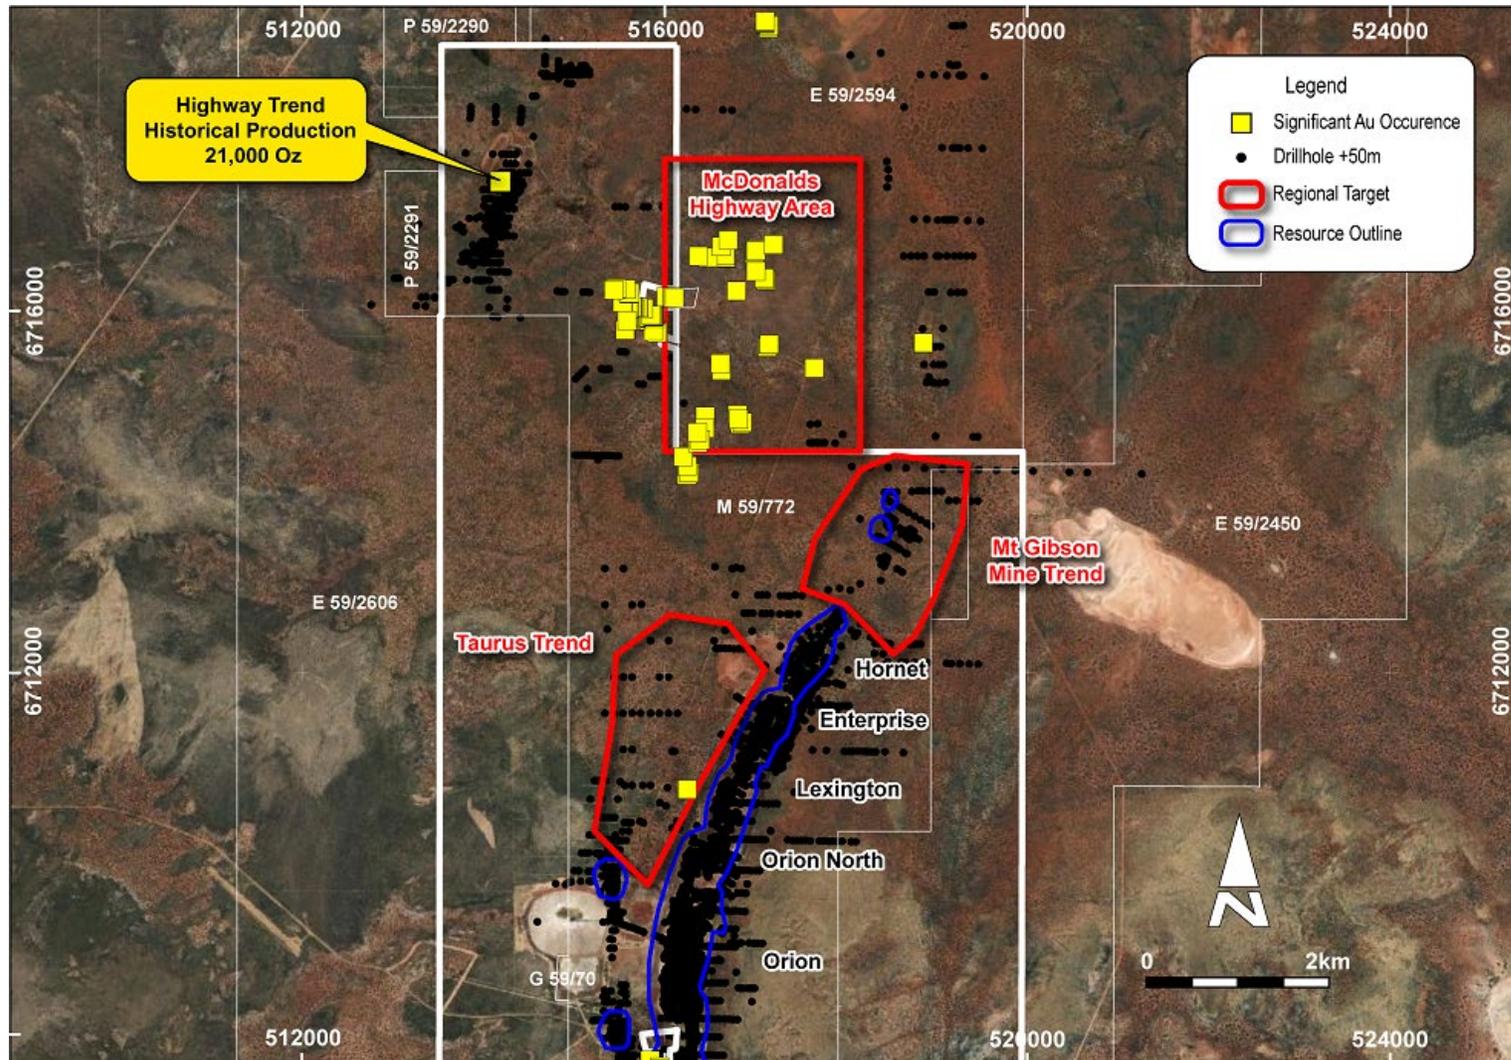

➤ Updated resource shell pushes 20m deeper to 160m average depth (Indicated cat – 150m)

Resource extension drilling will continue in parallel with development studies

Resource constrained by depth of drilling

Significant regional targets

First 3 targets for testing

1. Extensions to the Mt Gibson Mine Trend

- Drone magnetic geophysical survey completed
- Multiple high priority targets – geological & structural signatures

2. McDonalds/Highway (5km N of resources)

- High grade rock chips & old workings
- 20m transported cover – no drilling
- Geology similar to MG mine trend

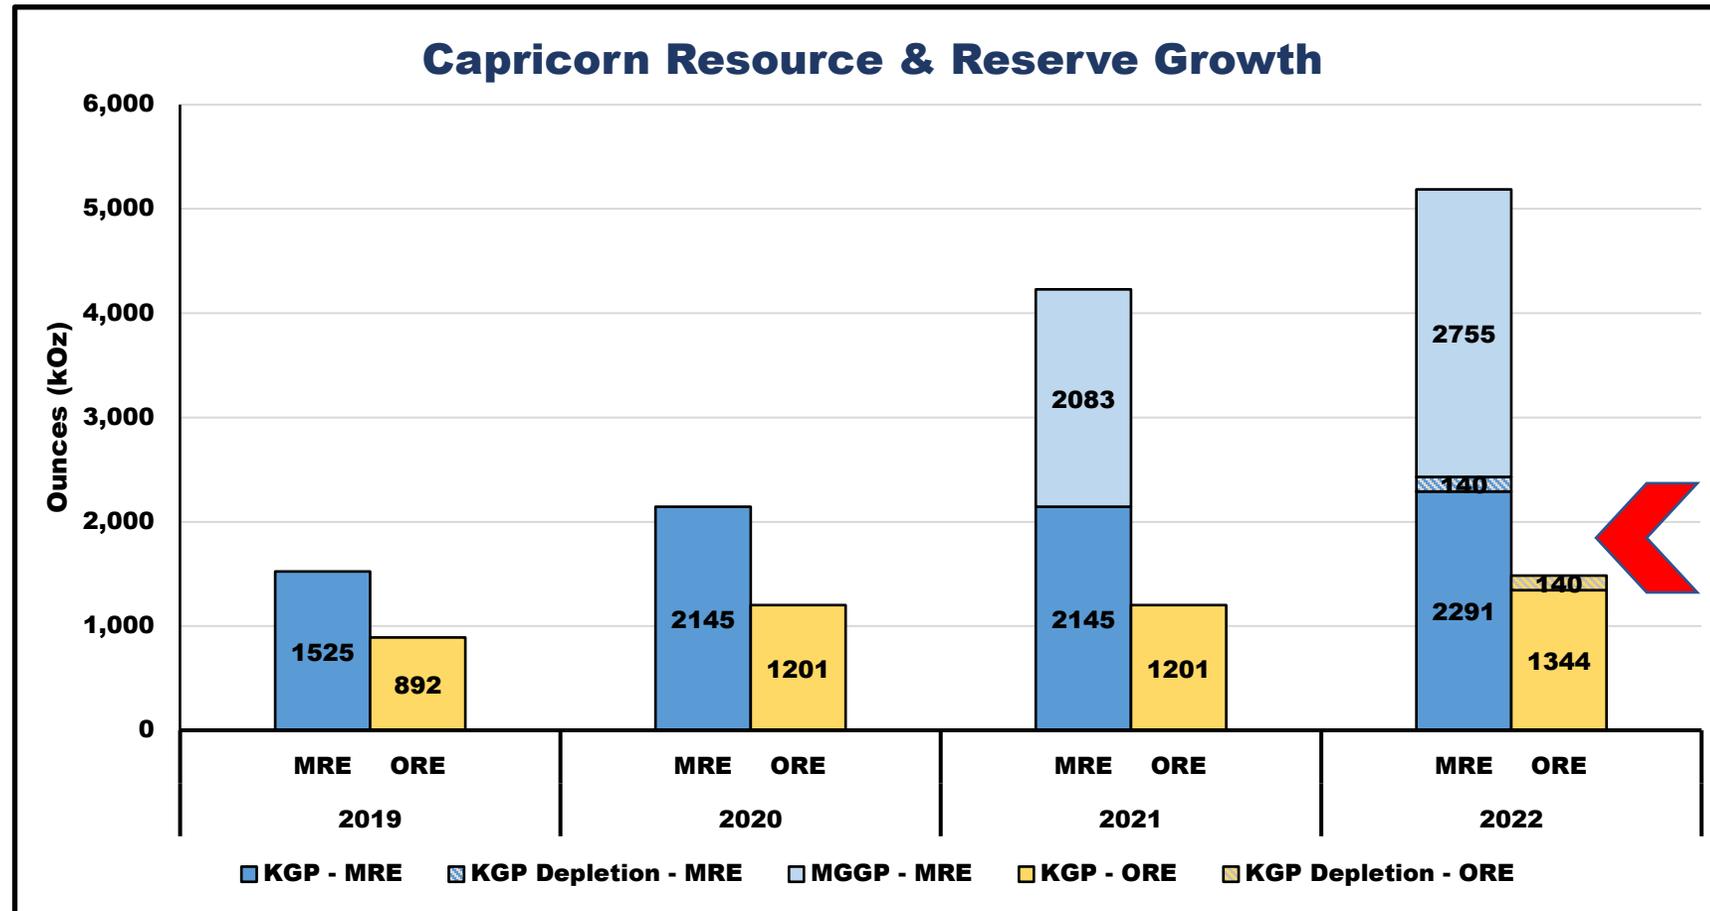

3. Taurus Trend

- Intrusion related & analogous to other MGGP deposits with resources

30,000m first pass AC programme to commence shortly.

Capricorn Metals Ltd

Growing a platform for a high quality, long life business

MGGP maiden ORE target completion Q2

CMM - a compelling combination of cashflow and growth

Capricorn Metals Ltd

Karlawinda Gold Project

- Long mine life and high margin project
- Q1FY23: production 31.0koz @ AISC \$1,166/oz
- Q1FY23: \$38.5m cashflow from operations - industry leading cashflow per oz
- FY23G: 115 – 125 koz @ AISC \$1,160 - \$1,260/oz
- Strong cash build providing balance sheet flexibility to fund growth
- Reserve update to 1.34Moz, >10 years mine life

Mt Gibson Gold Project

- Resource grows to 2.8Moz - limited largely by depth drilling
- Update increases group resources to over 5.0Moz
- 2.11Moz in Indicated category & 150m average depth
- Strong basis for maiden reserve estimate targeted later in Q2 (along with FS & development decision)

CMM - a compelling combination of cashflow and growth
