ASX RELEASE

13 February 2023

MONADELPHOUS CONTRACTS UPDATE

Engineering company Monadelphous Group Limited (ASX: MND) (“Monadelphous” or “the Company”) today announced it has secured new contracts in the resources and energy sectors totalling approximately \$200 million.

Monadelphous has been awarded a contract under its WAIO Asset Panel Framework Agreement with BHP for the Car Dumper 3 Replacement Project at Nelson Point in Port Hedland, Western Australia. The contract, which is valued at over \$115 million, comprises two separable portions. The first separable portion is for the early works and planning, will commence immediately and is expected to be completed by mid-2023. The second separable portion will follow thereafter and includes the structural, mechanical and piping works associated with the Car Dumper 3 replacement, with work expected to be completed in the first half of 2025.

Monadelphous has also secured a number of contracts with Rio Tinto in the Pilbara region of Western Australia, under its Sustaining Capital Projects Panel Agreement, including:

- The supply, installation and commissioning of a potable water distribution system at the Hope Downs 1 mine, with work expected to be completed in the second half of 2023;
- An upgrade to the wet plant dilution water system at the Nammuldi mine, with work also expected to be completed in the second half of 2023; and
- Upgrades to the conveyor gravity take up system at the Brockman 2 mine, with work expected to be completed in the first half of 2024.

The Company has also been appointed to a panel for the provision of construction services across Rio Tinto’s Queensland aluminium operations for a term of three-years, with extension options.

Monadelphous’ fabrication business, Inteforge (formerly SinoStruct), has secured a contract with HydrogenPro to fabricate and assemble hydrogen gas separator modules for a renewable energy project in the United States of America. Inteforge has also been awarded a contract by Worley to fabricate mechanical platework and piping for the Oyu Tolgoi Underground Project located in the South Gobi region of Mongolia. Both work scopes are expected to be completed in the second half of 2023.

Finally, Buildtek, Monadelphous’ Chile-based construction and maintenance services business, has secured a new tank construction project with Collahuasi Mining Company, with work expected to be completed in the second half of 2023.
