The discussion of operating performance in the operating and financial review section of this report is presented on a statutory basis under IFRS with certain adjustments to reflect a management reported basis of the underlying performance of the business, unless otherwise stated. Management reported results are non-IFRS financial information and are not directly comparable to the statutory results presented in other parts of this financial report. A reconciliation between the two is provided in this section and the guidance provided in Australian Securities and Investments Commission Regulatory Guide 230 'Disclosing non IFRS financial information' ('RG 230') has been followed when presenting the management reported results. #### **REVIEW AND RESULTS OF OPERATIONS**

The Group recorded an underlying net loss from continuing operations after tax of \$2.7 million for the half-year ended 31 December 2022, an increased loss of \$0.3m (14%) on the comparative period for continuing operations. Underlying earnings per share decreased 10% to (2.26) cents per share for continuing operations.

Net interest income grew by 49% reflecting the continued growth in the loan book. By contrast operating expenses grew 13% to provide a strong platform for future growth balanced with revenue growth.

Lending settlements remained strong during the half at \$487m, flat against the comparative half as the Bank continues transforming its business as an on balance sheet lender, leveraging the prime and specialist warehouses. The total loan book, excluding any offset balances, increased by 3.3% to \$2.8b (up from \$2.7b at 30 June 2022) and the higher margin on balance sheet loan book increased 19% to \$1.17b (up from \$986m at 30 June 2022).

The on balance sheet loan book comprises 97% residential mortgages with an average loan to valuation ratio of 47% (weighted average LVR 56%).

Credit quality remains sound with loans more than 90 days in arrears equating to just 0.1% of total on balance sheet loans. No credit write-offs occurred in the half, and the business now reflects a diversified national lender.

At 31 December 2022, the Group maintained a capital adequacy ratio of 25.6% (H1 FY22: 21.4%).

During the period, the Group recorded a Net Interest Margin (NIM) of 1.33%, up from 1.23% at 30 June 2022 as the group commenced its pivot to higher margin SME lending.

#### NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

#### 1. CORPORATE INFORMATION

BNK Banking Corporation Limited ("the Company") is a company incorporated and domiciled in Australia. These condensed consolidated interim financial statements ("interim financial statements") as at and for the six months ended 31 December 2022 comprise the Company and its subsidiaries (together referred to as "the Group"). The principal activities of the Company are the provision of banking products and services and mortgage management.

#### 2. BASIS OF PREPARATION

These interim financial statements are general purpose financial statements prepared in accordance with Australian Accounting Standard (AASB) 134 'Interim Financial Reporting' and the Corporations Act 2001, and with IAS 34 'Interim Financial Reporting'.

The interim financial statements do not include all the information required for a complete set of annual financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance since the last annual consolidated financial statements as at and for the year ended 30 June 2022.

These interim financial statements were authorised for issue by the Company's Board of Directors on 24th February 2023.

The Group is of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 and in accordance with the legislative instrument, amounts in the consolidated interim financial statements and Directors' Report have been rounded off to the nearest thousand dollars, unless otherwise stated.

#### 3. CRITICAL ACCOUNTING ESTIMATES AND SIGNIFICANT JUDGEMENTS

The preparation of these interim financial statements that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The significant judgements made by management in applying the Groups accounting policies and the key sources of estimation uncertainty were the same as those described in the last annual financial statements to 30 June 2022.

The Company's application and measurement of fair values is explained in note 22.

#### 4. CHANGE IN ACCOUNTING POLICY

Except as described below, the accounting policies applied in these interim financial statements are the same as those applied in the Group's consolidated financial statements as at and for the year ended 30 June 2022. The policy for recognizing and measuring income taxes in the interim period is consistent with that applied in the previous interim period and is described in note 11.

#### 5. SEGMENT INFORMATION

AASB 8 requires operating segments to be identified on the basis of internal information provided to the chief decision maker, the Board of Directors, in relation to the Group's business activities. Prior to the sale of Finsure in February 2022, the Group operated under two reporting segments, Aggregation and Bank. As a result of the sale, the Group now operates under a single segment of Bank for which information is provided regularly to the Board of Directors.

All elements within this interim financial report to December 2022 relate to the single reporting segment of Bank (continuing operations).

#### **Banking**

The Group's banking business refers to the provision of banking products and services such as loans and deposits under the BNK, Goldfields Money and Better Choice brands.

Loans are distributed through the Better Choice business, via online applications with the accredited broker network, and may be funded by deposits, securitisation vehicles or third party funders. Existing securitized funding warehouses remain in place with Goldman Sachs (\$500m) and Bendigo & Adelaide Bank (\$250m).

Introducer broker channels receive commissions for loan origination and ongoing trail. Better Choice Wholesale earns and pays commissions on the loan books from the white label funders. Deposits are originated under the Goldfields Money / BNK brand directly and through third party deposit brokers. The segment earns net interest income and service fees from providing a range of services to its retail and small business customers.

#### 6. DISCONTINUED OPERATION

On 15 December 2021, the Group executed a Share Sale Agreement (SSA) for the sale of BNK's 100% owned subsidiary, Finsure Holding Pty Ltd and related Aggregation subsidiaries to MA Financial Group Limited (MAF). The sale completed on 7 February 2022, resulting in the Group receiving cash consideration of \$152.2 million, comprising \$145 million (before costs and tax on disposal) consideration for the shares plus cash adjustments of \$7.2 million.

The Aggregation division was previously classified as held-for-sale (31 December 2021).

#### **B. FAIR VALUE MEASUREMENT**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Wherever possible, fair values are calculated by the Group using unadjusted quoted market prices in active markets for identical instruments. A quoted price in an active market provides the most reliable evidence of fair value. For all other financial instruments, the fair value is determined by using other valuation techniques.

As part of the fair value measurement, the Group classifies its assets and liabilities according to a hierarchy that reflects the observability of significant market inputs. The three levels of the hierarchy are described below:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable in an active market
- Level 3 Valuation techniques for which significant inputs to the fair value measurement are not based on observable market data

There were no reclassifications between the levels during the interim reporting period or the previous reporting period.

#### **Basis for Conclusion**

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity.* Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the Directors of BNK Banking Corporation Limited, would be in the same terms if given to the Directors as at the time of this Auditor's Review Report.

## Responsibilities of the Directors for the Interim Financial Report

The Directors of the Group are responsible for:

- the preparation of the Interim Financial Report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001
- such internal control as the Directors determine is necessary to enable the preparation of the Interim Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's Responsibilities for the Review of the Interim Financial Report

Our responsibility is to express a conclusion on the Interim Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Interim Financial Report does not comply with the Corporations Act 2001 including giving a true and fair view of the Group's financial position as at 31 December 2022 and its performance for the Interim Period ended on that date, and complying with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

A review of a Interim Period Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
