# Results highlights and business update

**Iñaki Berroeta**

Chief Executive Officer and  
Managing Director

# FY22 highlights: growth momentum is improving, supporting execution of our strategy

## Growth returning

**Positive momentum in Mobile:** 300k net subscriber adds, plan simplification and pricing refresh underway  
**Improved Fixed profitability:** Fixed Wireless base more than doubled; NBN plan re-pricing executed  
**Enterprise, Government & Wholesale growth:** strong customer win momentum driven by Fast Fibre

## Delivering efficiencies

**Delivery of merger synergies:** \$140m of cost synergies achieved from VHA-TPG merger  
**Operational efficiency:** gross margin growth above service revenue growth despite inflationary environment  
**Ongoing simplification:** rationalisation and modernisation of contact centre and legacy IT platforms

## Solid results

**Service revenue of \$4,439m:** primarily reflects consistent recovery in mobile service revenue  
**Statutory EBITDA of \$2,135m:** translates to \$1,793m ex. towers sale accounting gain and restructuring costs  
**Fully-franked final dividend of 9.0 cps:** total FY22 dividend of 18.0 cps, up 9% on FY21

## Strategic focus

**Mobile network:** national 5G rollout >2,000 sites complete; regional network sharing agreement remains a priority  
**Balance sheet:** sale of tower assets supporting debt reduction; Vision Network strategic review underway  
**2023 outlook:** guidance for EBITDA of \$1,850-1,950m excluding material one-offs and transformation costs

# Mobile subscribers: strong rebound in momentum delivered net adds of 300,000 during 2022

Mobile subscribers – Postpaid ('000s)

- Postpaid up 80k year on year
- Prepaid up 92k year on year
- Customer growth driven by improved execution, return of international travel

Mobile subscribers – Prepaid ('000s)<sup>2</sup>

- Up 104k year on year
- Strong subs growth as international border restrictions ease

- Up 26k year on year
- Opportunity to increase cross-sell of services to drive value for customers

1. Vodafone mobile subscribers include data SIM only customers.

2. All periods restated to reflect removal of 70,000 inactive customers on long-dated plans from Lebara base at June 2022 to align with classification in other TPG Telecom brands.

# ARPU up, largely driven by international roaming recovery in Postpaid; momentum to be supported by plan refresh in FY23

- Postpaid ARPU up 3.1% vs. 2H21, including impact of reduction in intercarrier MMS access fee
- Excluding intercarrier MMS access fee (which is largely offset in costs<sup>1</sup>), Postpaid ARPU up 5.5% vs. 2H21
- International roaming contribution to Postpaid ARPU recovered to \$2.2 per month from \$0.4 in 2H21

1. Domestic intercarrier cost within Cost of provision of telecommunication services has decreased \$0.4 per user for in-line with lower incoming revenue.  
 2. In all periods, Prepaid ARPU restated to reflect removal of approximately 70,000 inactive customers on long-dated plans from Lebara base at June 2022 to align with classification in other TPG Telecom brands

# Consumer Postpaid plan refresh: creating a simpler experience with a continued focus on a value-first approach

## Refreshed Vodafone Consumer Postpaid plans

Small	Medium	Large
<b>\$45</b> per month <b>40 GB</b> Included data	<b>\$55</b> per month <b>150 GB</b> Included data	<b>\$65</b> per month <b>300GB</b> Included data

<b>\$40</b> per month <b>40 GB</b> Max Speed	<b>\$45</b> per month <b>80 GB</b> Max Speed	<b>\$50</b> per month <b>200 GB</b> Max Speed	<b>\$55</b> per month <b>300 GB</b> Max Speed	<b>\$60</b> per month <b>Unlimited</b> Max Speed

## Old Postpaid plans

- **Simplification** of Vodafone consumer Postpaid plans completed in January
- Baseline price increase **reflects inflationary pressure and ongoing investment in the network and business**
- **Refresh of existing customer Vodafone base**
  - Existing customers have started to **receive notifications on pricing refresh**
  - Customers are able to **better match their pricing and data needs**
  - Targeting **70-80% Postpaid mobile base<sup>1</sup>**
  - Expected to be **completed in 2H23**

1. Vodafone Postpaid Mobile base of c.2.9 million excludes data SIM only customers.

# Fixed: NBN price discipline and Fixed Wireless growth supporting focus on profitability improvement

Strong AMPU growth reflects targeted NBN re-pricing and Fixed Wireless contribution

Fixed Wireless base more than doubled in 2022

1. Average margin per user across all technologies.

# Enterprise, Government and Wholesale: returned to growth and building momentum with \$150m+ of new E&G contracts

## Enterprise & Government

- Double-digit growth in on-net Fast Fibre and will accelerate as legacy transition completes
- \$150m+ of total new contract value closed in FY22 with average length of 3 yrs
- \$1 billion revenue target remains – but likely after 2025 following MOCN delay

## Wholesale

- Vision Network functionally separated and relaunched as standalone brand
- Strong growth in Fast Fibre
- Launched new MVNE platform

## Legacy impact

- Simplifying product offerings
- Legacy product run-off expectation:
  - Copper-related: next 12 mths
  - Consolidation of tech: c.2 yrs
  - Product substitution: 1-5 yrs

E&G revenue (\$m)

Wholesale revenue (\$m)

Total legacy product revenue\* (\$m)

## Partnering with Hungry Jacks

TPG Telecom's Jonathan Rutherford and Hungry Jacks CEO Chris Green at the launch of a new 5G, security, cloud and connectivity solution for more than 350 Hungry Jacks stores

## Large customer wins in 2022

1. \*Legacy product revenue across Enterprise, Government and Wholesale.

# Vision Network: high quality assets, well positioned to capture significant growth opportunity

- Strategic review announced 31 October 2022 to support growth of the business following completion of functional separation from retail operations
- Focus on unlocking value for TPG Telecom shareholders and enabling Vision to exploit its full potential as Australia's largest non-NBN residential access network
- Significant growth opportunity across existing FTTB/FTTP/FTTN/HFC footprint of 410,000 premises plus material green-field growth opportunity
- Process commenced in January seeking indications of interest from third parties potentially interested in acquiring a majority stake in Vision Network
- At this stage, no decision has been made to conclude a transaction nor to sell any interest in Vision Network

# Mobile network: delivered 1,000+ additional 5G sites in FY22 despite tight labour market, supply chain constraints

## Mobile network

5G network rollout

3G network will be decommissioned in December 2023

## Regional network sharing – MOCN agreement

Tamworth Regional Livestock Exchange using 5G enabled computing to help farmers automate the labour intensive practice of counting cattle

- In December 2022, the ACCC did not authorise the regional mobile network sharing arrangement between TPG Telecom and Telstra
- The arrangement would bring greater choice, competition and improved connectivity to regional Australia
- TPG Telecom and Telstra are appealing the ACCC decision in the Australian Competition Tribunal
- The Tribunal decision is expected in late June 2023

# Cyber resilience: significant investments to help protect customers and their personal information

- TPG Telecom takes protecting customers and critical infrastructure from cybercrime extremely seriously
- We currently block well in excess of one million scam SMS and calls every day
- Recently there was an unprecedented increase in the level of activity as well as the sophistication of cyber attacks
- TPG is committed to elevating all aspects of its defences in response to this threat
- Actions taken in 2022 included:
  - Enforcement of multi-factor authentication in critical systems
  - Doubling of capacity of cyber defence operating centre
  - Accelerated modernisation of security detection and response systems

# Sustainability: solid progress made, delivered a pathway towards our commitment to reach net zero by 2050

## Key progress made in FY22:

**2030 targets established:** reduce Scope 1 and 2 emissions by 95% and Scope 3 emissions by 30%<sup>1,2</sup>

**2050 targets:** reduce Scope 1, 2 and 3 emissions by 90% and achieve net zero<sup>1,2</sup>

Expecting Science Based Target Initiative (SBTI) verification of emissions targets in 2H 2023

Exploring options to use **sustainability-linked financing** in upcoming debt refinancing

**Inaugural climate risk** reporting under TCFD framework

**Signatory to 40:40 Vision:-** extension of our commitment to increasing gender diversity

1. Greenhouse Gas (GHG) emissions emissions reduction from a base year of 2021.

2. Scope 3 GHG emissions from purchased goods and services, use of sold products, fuel and energy related activities, and upstream leased assets.

In 2022 we were proud to...

... keep friends and loved ones **connected through challenging times...**

... **offer essential communication services** to help Australia stay connected productive and entertained...

... **united and strengthen the connection of our People** – evidenced by 'Our Spirit' survey, 2022 Employer of Choice award

NPAT excl. customer base amortisation and accounting gains <sup>2</sup>	\$225m	\$222m	(1.3)%	● Increased interest costs in 2H22
Capital expenditure including spectrum	\$(917)m	\$(992)m	8.2%	● Elevated due to current 5G network rollout
Operating Free Cash Flow <sup>3</sup>	\$596m	\$92m	(84.6)%	● Impacted by the unwinding of handset receivables financing (\$265m) and higher inventory held
Adjusted NPAT <sup>4</sup>	\$586m	\$648m	10.6%	
DPS	16.5 cps	18.0 cps	9.1%	● Supported by strengthened balance sheet

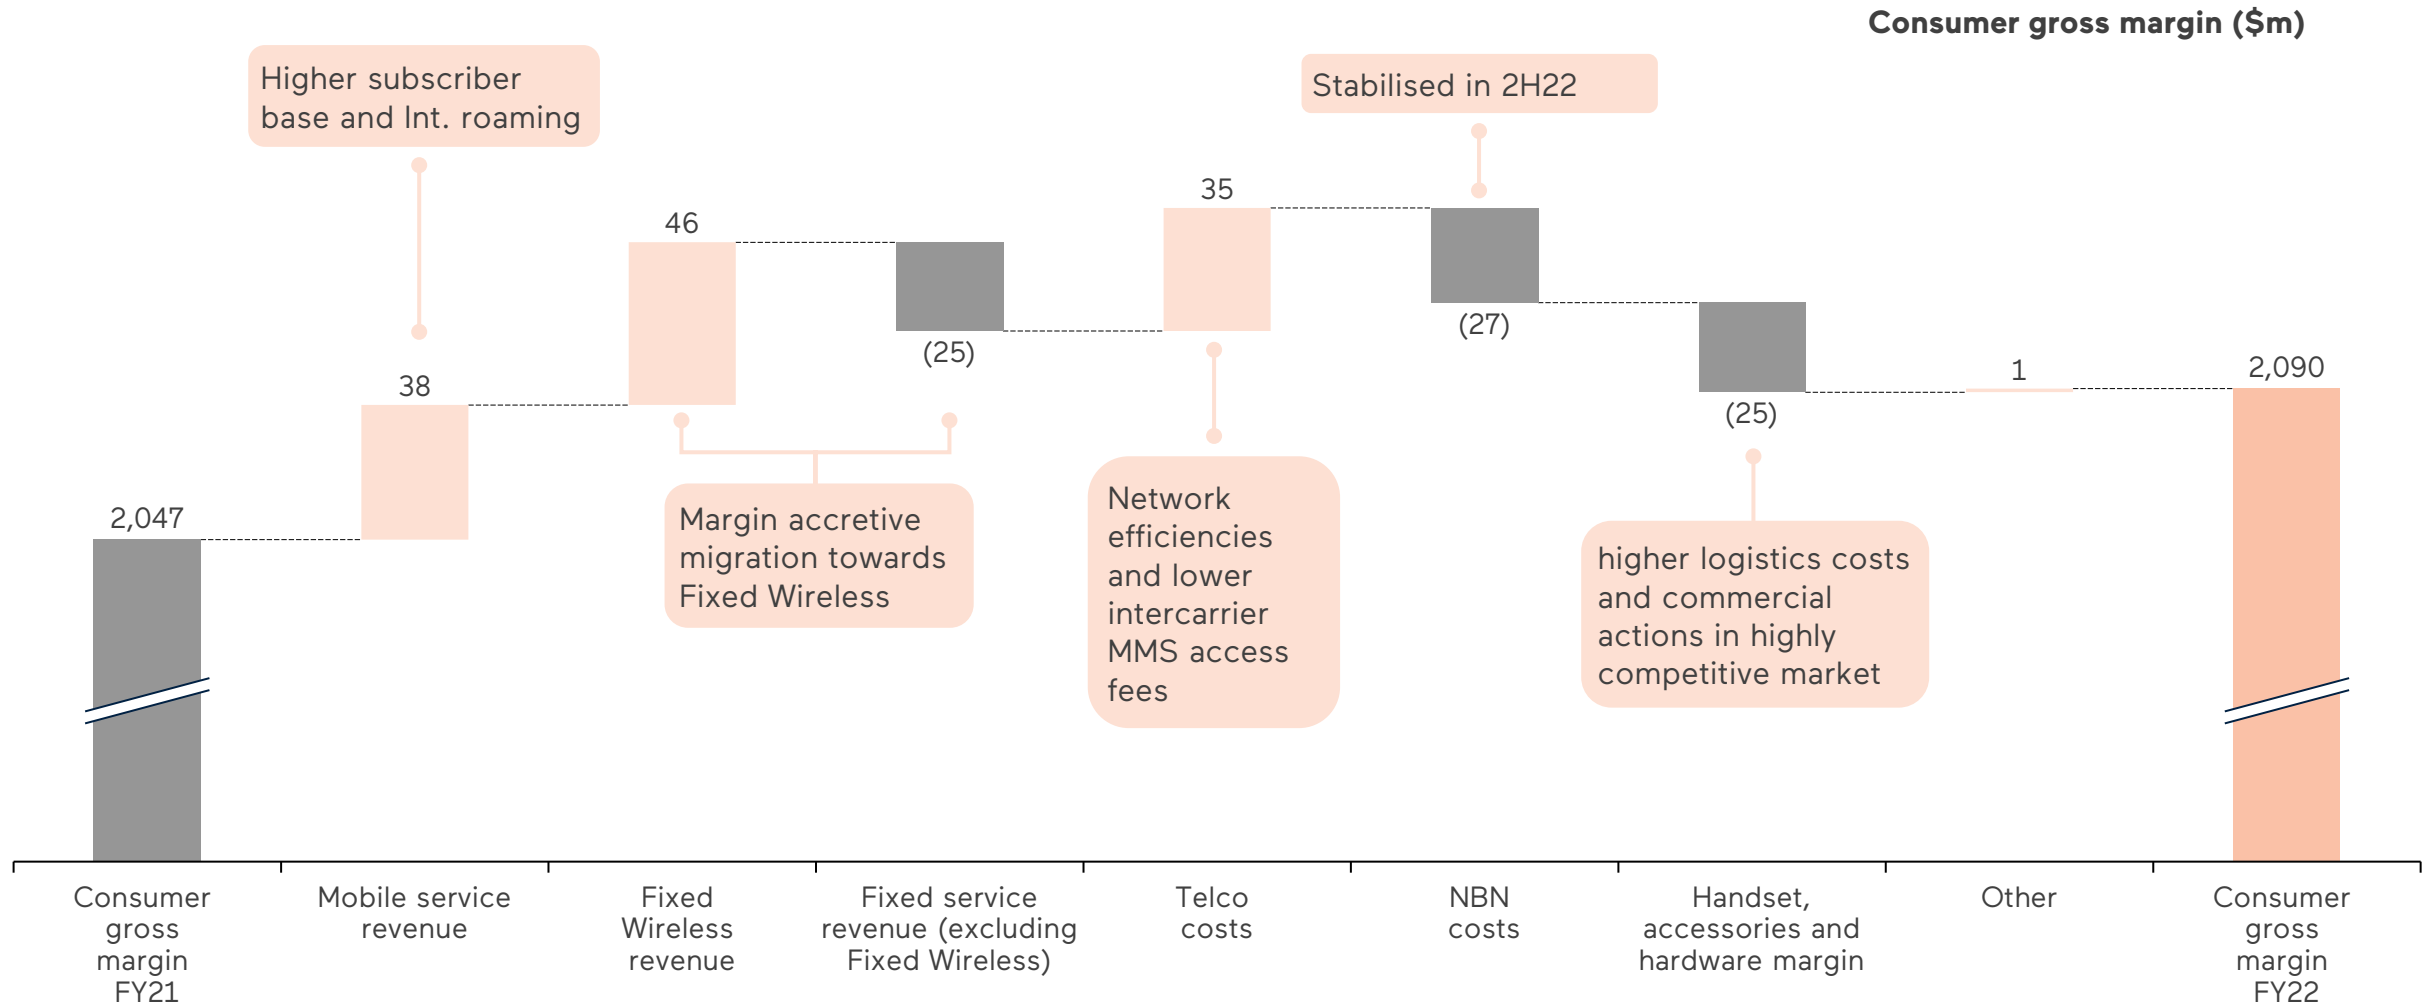

1. FY21 financials has been restated to voluntarily adopt accounting policy change in regard to the treatment of government grants. Please refer to note 2 (l) in the 2022 annual report for more information.

2. Calculated as profit before tax before one-off non-cash accounting gain adding back customer amortisation and adjusted by 30% tax rate.

3. Refer to slide 28 for a reconciliation between operating cash flow to Operating Free Cash Flow.

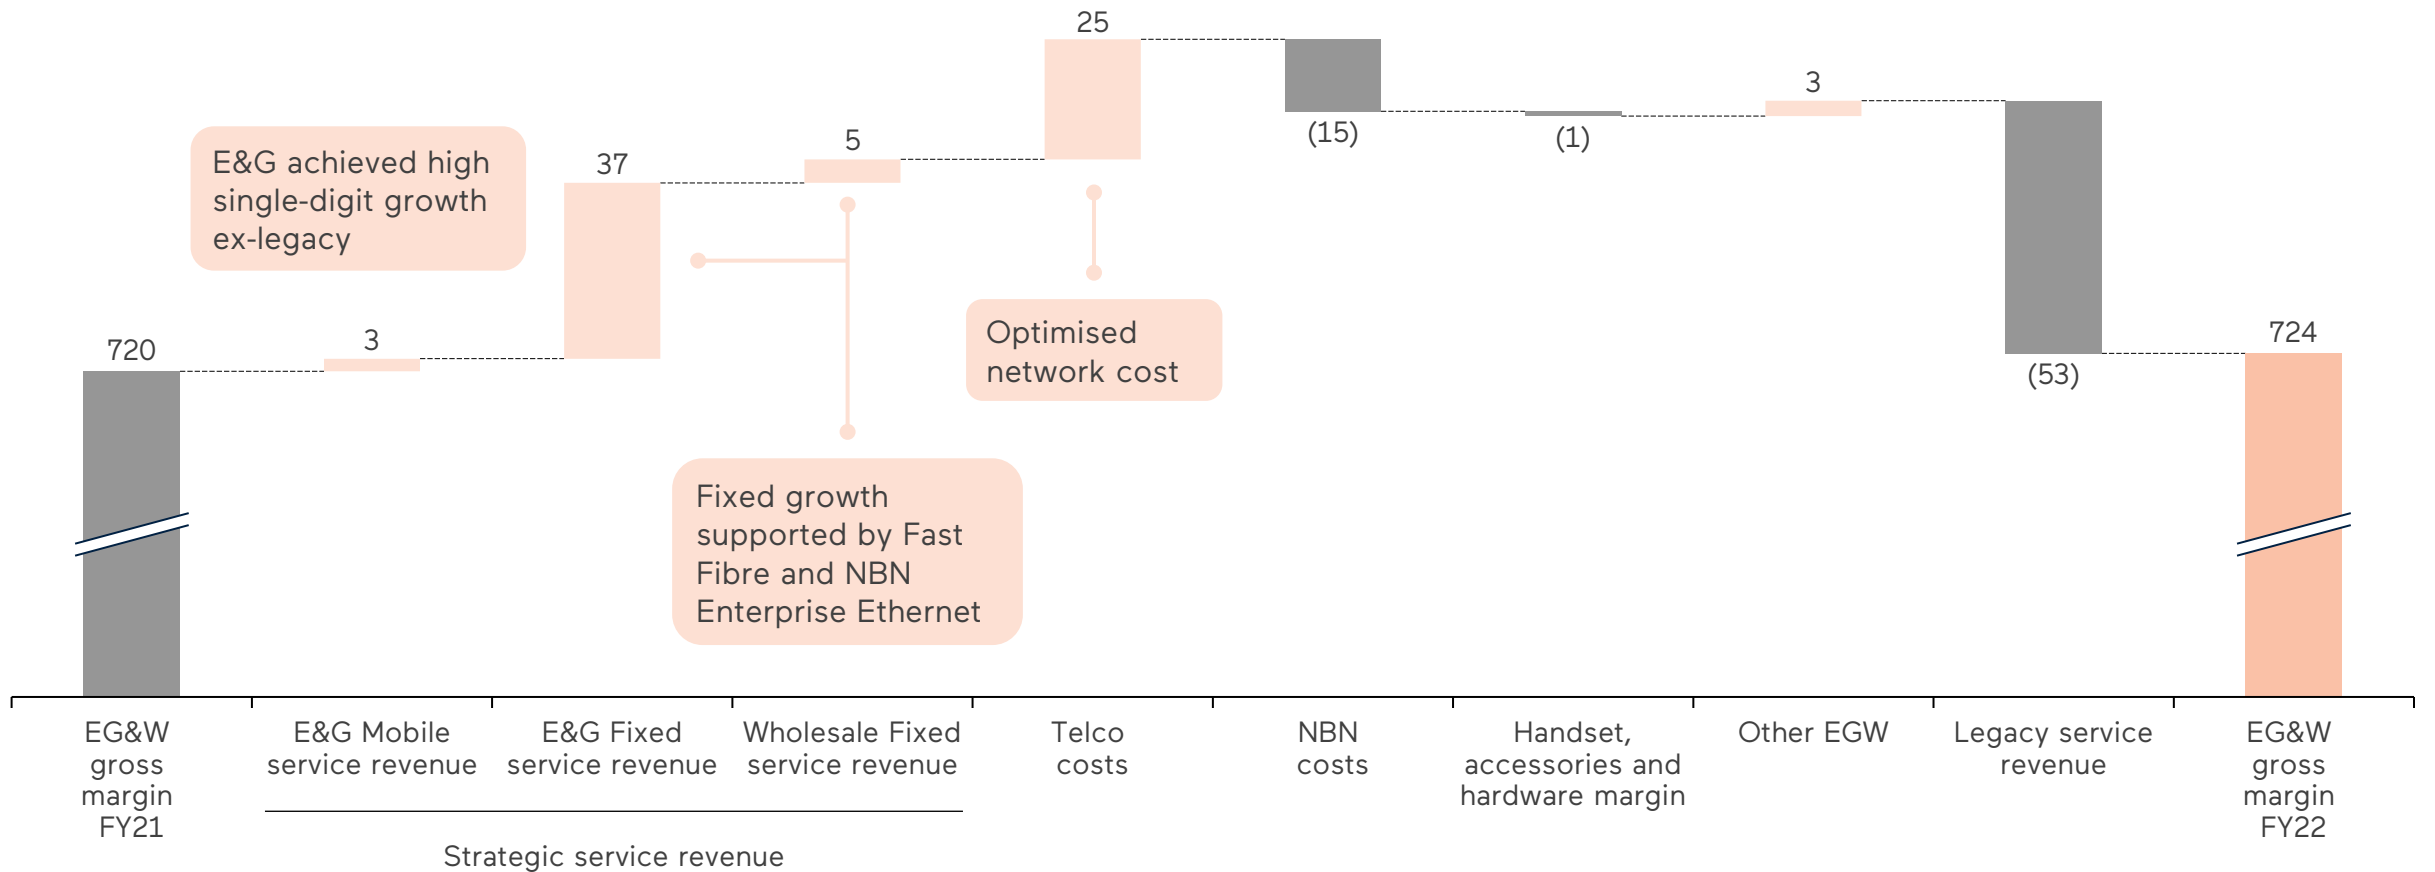

4. Adjusted NPAT adds back restructuring costs, customer base intangible amortisation, spectrum amortisation and non-cash tax expense. Accounting gain on towers sale excluded.

# Consumer gross margin: strong contribution from mobile and fixed, delivering first revenue growth since merger

# Enterprise, Government & Wholesale gross margin: strong new customer growth offsetting ongoing impact of legacy transition

Enterprise, Government & Wholesale gross margin (\$m)

# Total costs: synergies of \$140m achieved, mitigating inflationary pressures linked to tight labour market and higher energy costs

1. FY20 figures presented on a pro forma basis as if 2020 had been a full year of merged operations and restated to reflect finalisation of purchase price accounting on acquisition and tax loss treatment, plus other minor reclassifications. Refer to the financial report.  
 2. Other inflationary pressure reflects general cost increases throughout the business, noting average CPI over the period was approximately 3%.

# Balance sheet: position strengthened allowing TPG Telecom to better withstand impacts of a higher rate environment

Solid cash flow and proceeds from tower assets sale have enabled reduction in bank debt and handset receivables financing

**Funding cost increased in line with market rates**

# Mobile subscriber base

1. Prepaid & MVNO subscribers are calculated based on 'registered subscribers'. Registered subscribers include all subscribers who have had a chargeable event in the previous six months.
2. All periods restated to reflect removal of 70,000 inactive customers on long-dated plans from Lebara base at June 2022 to align with classification in other TPG Telecom brands.
3. Charts include all TPG and iiNet mobile subscribers regardless of whether the subscribers were on-net (i.e. on the group's network) or off-net at the time. 6k TPG/iiNet subscribers remained off-net as at 30 June 2022.
4. June 2020 and December 2020 Postpaid numbers have been re-stated down by c.4k and c.5k, respectively, as they previously included Fixed Wireless customers which have now been reclassified into Fixed broadband.

# Fixed broadband ARPU breakdown

**NBN ARPU (\$/month)**

**On-net Fixed line ARPU (\$/month)**

**Fixed Wireless ARPU (\$/month)**

1. ARPU = Average revenue per user. ARPU represents average of service revenue, net of discounts and excluding GST.
2. Multi-service credits are proportionately allocated between products.
3. ARPU calculations incorporate both VHA and TPG Corporation throughout each period.
4. Fixed ARPU restated to reflect a minor classification change of revenue categories and alignment with mobile ARPU calculation of average base.
