Aspermont Managing Director, Alex Kent:

"The company achieved significant growth in subscriptions revenue for the 27th consecutive quarter. Initial contributions from Content Works and our new media partnership with Saudi Arabia will accelerate our growth going forward. We retain our guidance for continued revenue momentum and double-digit growth for FY 23.

The company's cash reserves remain above forecast levels, reflecting our prudent approach in still challenging markets. We remain committed to inward investment in the business, as evidenced by our controlled contractions in EBITDA and gross margins. These investment parameters and outcomes are in line with our expectations.

We strengthened and expanded our senior leadership team during the first half of the year, with the appointment of five key individuals at the board, executive, and department head levels. The calibre of these appointments is a testament to Aspermont's growing appeal as an employer of choice.

Despite the challenging market conditions experienced in H1, the business has demonstrated robust performance and remains on track to fulfill our previously communicated full-year guidance."

This announcement has been authorised by the Board of Directors.
